1. Description of the Plan

The following description of the Total Military Management, Inc. Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Total Military Management, Inc. (the "Company") who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

Voya Retirement Insurance and Annuity Company ("Voya") is the Plan's custodian and record-keeper. The Plan Committee is responsible for the oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

The Plan allows participants to contribute up to 100 percent of their eligible compensation, as defined in the Plan, subject to limits imposed by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. Each year, the Company makes a safe harbor contribution equal to 100 percent of the participants' eligible compensation not in excess of 3 percent of eligible compensation, plus 50 percent of the participants' eligible compensation that exceeds 3 percent of compensation but does not exceed 5 percent of participants' eligible compensation. The Company may also make matching contributions equal to a discretionary percentage of the participant's elective deferral. Additional profit sharing amounts may be contributed at the option of the Company. Participants direct the investment of their elective and Company contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Company safe harbor contributions plus actual earnings thereon. Vesting in the Company's profit sharing contributions, discretionary matching contributions, and related earnings is based on years of continuous service. Participants must work at least 1,000 hours during the year to be credited with a year of service. Once the participant completes two years of service, he or she becomes 20 percent vested. Participants then earn 20 percent per year thereafter, and are 100 percent vested after six years of credited service.

Payment of Benefits

On termination of service, a participant (or beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Other than termination, participants may not withdraw their contributions until they attain age 59½, or terminate employment for any reason including death or disability.

Forfeited Accounts

At December 31, 2017 and 2016, there were no forfeited non-vested accounts. These accounts were used to reduce Employer contributions during the year ended December 31, 2017. During the year ended December 31, 2017, Company contributions were reduced by $8,789 from forfeited non-vested accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year, net of investment management fees.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Voya

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

December 31,	**2017**	2016
Pooled separate accounts	**$ 4,031,312**	$ 2,822,094
Fully benefit-responsive guaranteed investment contract	**$ 64,879**	$ 63,787

Year Ended December 31,	**2017**
Net appreciation in fair value of investments	**$ 539,373**
Interest and dividend income	**$ 828**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

***Level 1*:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: are valued at their accumulation unit value ("AUV") which approximates fair value. The AUV is determined daily based on the NAV of shares of the underlying fund, the fund's dividends and the separate account charges (i.e., the daily asset charge). The

AUV or the net asset value, as provided by Voya, is used as a practical expedient to estimate fair value.

The preceding valuation method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2017 and 2016:

	Fair Value at December 31, 2017	Fair Value at December 31, 2016	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset Allocation	$ 1,249,580	$ 845,474	$ -	Immediate	None
Balanced	98,349	81,001	-	Immediate	None
Bonds	342,773	291,364	-	Immediate	None
Global/International	801,878	518,575	-	Immediate	None
Large Cap Growth	221,484	146,759	-	Immediate	None
Large Cap Value	496,143	328,545	-	Immediate	None
Small/Mid/Specialty	821,105	610,376	-	Immediate	None
Total investments measured at the NAV as practical expedient	$ 4,031,312	$ 2,822,094	$ -		

Pooled separate accounts are valued based upon the units of such pooled separate accounts held by the Plan at year end multiplied by the respective unit value. As of December 31, 2017 and 2016, pooled separate accounts held by Voya are valued at their "accumulation unit value" (AUV). These are valued daily as the number of accumulation units held multiplied by the AUV. The AUV is determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the contract's separate account charges. The underlying investments of the pooled separate accounts consist solely of mutual funds, each of which follows a separate investment strategy as described in the following paragraphs:

Large Cap pooled separate accounts seek growth of capital and invest primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital.

Mid Cap pooled separate accounts seek capital appreciation primarily in stocks of leveraged companies.

Small Cap pooled separate accounts invest primarily in companies within the Russell 2000 Index at the time of purchase and have potential for capital appreciation.

Fixed pooled separate account invests in high quality, short term money market instruments which are issued and payable in U.S dollars.

Target portfolio pooled separate accounts seek a high total return until the fund's target retirement date under normal market conditions.

Balanced pooled separate accounts seek to provide an aggregate total return of the market index composed of small, medium, or large sized U.S. Companies.

Bond pooled separate accounts seek to provide consistent income through investments in debt securities offered by U.S. corporations and government agencies.

Specialty pooled separate accounts seek growth of capital appreciation and invest primarily in stock of companies in specific industries such as utilities, mining and technology.

International pooled separate accounts invest primarily in equities of foreign companies with developing markets.

5. Guaranteed Investment Contract with Insurance Company

The Plan has assets invested in the Voya Fixed Account (the "Fund"), a fully benefit-responsive guaranteed investment contract. Voya maintains the contributions in a general account that is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.0 percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan document (including complete or partial plan termination, or merger with another plan), or (2) changes to the Plan's prohibition on competing investment options or delegation of equity wash provisions.

In addition, if Voya determines that a Plan amendment, changes in administrative practices or establishment of a competing plan will have a material adverse effect on their financial experience under the contract, then under the contract, Voya is only obligated to make the payments that would have been made if these events had not occurred.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

6. Related Party and Party-In-Interest Transactions

Certain Plan investments are managed by Voya. These investments and transactions in these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA. In 2017, the Plan paid approximately $1,100 to Voya for administrative expenses.

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Employer contributions.

8. Tax Status

The Plan has adopted the FT Williams.com Volume Submitter Profit Sharing Plan with CODA. The Internal Revenue Service has informed CCH Incorporated d/b/a FT William.com by letter dated March 31, 2014, that the prototype plan adopted by the Plan, as then designed, is in accordance with applicable sections of the IRC. Although the Plan has been amended since adoption, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management evaluates tax positions taken by the Plan and recognizes a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

The Plan evaluated subsequent events from the date of the Statements on Net Assets Available for Benefits through September 26, 2018, the date the financial statements were available to be issued. No additional recognizable events noted.
