Note 1: Description Of Plan

The following description of the Hill & Markes, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Hill & Markes, Inc. (the Company), who are age 21 or older and who have attained six months of credited service, except those subject to collective bargaining agreements and certain nonresidential aliens. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants have the option of making after-tax Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions. During the years ended December 31, 2017 and 2016, the Company made matching contributions equal to 25% of actual deferrals of the first 6% of eligible employees' salaries. In addition, the Company has the option of making additional discretionary contributions. Contributions are subject to certain dollar limitations.

Participants' accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's discretionary contributions, if any, plan earnings, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service; a participant is 100% vested after six years of credited service. Participant accounts become fully vested upon attainment of the normal retirement age of 65, upon death, or disability.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans must be adequately secured and made in accordance with the terms of the Plan. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or separation of service, a participant or their beneficiary will be entitled to receive a distribution of the participants total vested account balance. Benefits will be paid in accordance with terms of the Plan.

Plan termination - Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in their employer contributions.

Note 1: Description Of Plan (Continued)

Forfeited accounts - At December 31, 2017 and 2016, the Plan had forfeitures from terminated, non-vested participant accounts of $1,370 and $3,223, respectively. These amounts can be used to pay for plan expenses or reduce employer contributions. The Plan used $3,397 and $-0- of plan forfeitures in 2017 and 2016, to offset the employer contributions made to the Plan.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - The Plan's investments in mutual funds are stated at fair value. Purchases and sales of securities are recorded on a trade date basis with the gain or loss based upon the actual cost of the securities. Interest and dividend income is recorded on the accrual basis of accounting. Dividends are recorded on the ex-dividend date.

Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments held by the Plan measured at contract value and those measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy.

Note 2: Summary Of Significant Accounting Policies (Continued)

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan has adopted a prototype plan through Transamerica Life Insurance Company which has an opinion letter dated March 16, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on total net assets available for benefits or changes in net assets available for benefits.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the accompanying notes to the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by Transamerica Financial Life Insurance Company and Massachusetts Mutual Life Insurance Company, the Custodians of the Plan, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments and notes receivable from participants of $11,830,047 and $11,360,679 at December 31, 2017 and 2016, respectively, and related investment income of $1,390,847 and $642,067 for the years ended December 31, 2017 and 2016, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2017 and 2016:

Mutual funds: Valued at quoted market prices.

Pooled separate accounts with insurance company: Valued at the net asset value (NAV) of the underlying pool of securities. The pooled separate accounts may be redeemed at any time.

Stable Value Trust Fund: The Stable Value Fund is composed primarily of investment contracts contained in a collective trust and is valued at net asset value (NAV) of the units of the collective trust. The NAV is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. The objective of the Stable Value Fund is to provide preservation of capital and relatively stable returns consistent with comparatively low risk.

The preceding methods may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Note 4: Fair Value Measurements (Continued)

Fair Value Measurements At Reporting Date

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2017				
Mutual funds	$ 9,345,294	$ -	$ -	$ 9,345,294
Total Investments In The Fair Value Hierarchy	$ 9,345,294	$ -	$ -	9,345,294
Investments measured at net asset value as a practical expedient:				
Stable Value Trust Fund				2,261,370
Total Investments At Fair Value				$ 11,606,664
December 31, 2016				
Investments measured at net asset value: as a practical expedient:				
Pooled separate accounts with insurance company				$ 8,194,586
Total Investments At Fair Value				$ 8,194,586

Note 4: Fair Value Measurements (Continued)

The Plan entered into an investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintained the contributions in pooled separate accounts and a guaranteed investment contract, Guaranteed Interest Account. The accounts were credited with earnings associated with the underlying investments and charged for participant withdrawals and administrative expenses.

The Guaranteed Interest Account is included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, the contract generally provides that withdrawals associated with certain events which are not in the ordinary course of fund operations, and are determined by the issuer to have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in the contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Units of the Guaranteed Interest Account may be redeemed at any time and the contract contains no withdrawal penalty provisions.

Note 5: Excess Contributions Payable

Benefits paid to participants for 2017 and 2016 include excess deferral contributions of $-0- and $18,492, respectively. These amounts relate to excess deferral contributions paid or owed to certain active participants as required by the nondiscrimination provisions of the Plan. The 2016 amount is also included in the Plan's statements of net assets available for benefits as excess contributions payable at 2016.

Note 6: Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation to the net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:

	2017	2016
Net assets available for benefits per the financial statements	$ 11,852,948	$ 11,342,187
Receivable adjustment	3,513	-
Excess contributions payable	-	18,492
Net Assets Available For Benefits Per Schedule H Of Form 5500	$ 11,856,461	$ 11,360,679

Note 6: Reconciliation Of Financial Statements To Form 5500 (Continued)

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2017:

Net increase in net assets available for benefits per financial statements	$	510,761
Adjustment for receivable		3,513
Adjustment for excess contributions payable		(18,492)
Net Increase In Net Assets Available For Benefits Per Schedule H Of Form 5500	$	495,782

Note 7: Related Party Transactions

Certain fees for administrative services may be paid by the Company. Certain plan investments were managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company was the Custodian for the Plan and, therefore, the transactions related to investments managed by Massachusetts Mutual Life Insurance Company qualify as party in interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Note 8: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2017, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through September 12, 2018, which is the date the financial statements were available to be issued.
