GEM 401(K) PLAN

Notes to Financial Statements and Schedules
December 31, 2017 and 2016

1. Description of Plan

The following description of the GEM 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established by the Blue Hill Plaza Inn Inc. the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees of the Company who have completed one year of service, as defined, are eligible to participate, provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Administration. The Plan is administered by a Committee, which is appointed by the board of directors of the Company. The Plan's trustee, Reliance Trust Company (the "Trustee"), is responsible for the custody and management of the Plan's assets.

Contributions. Each year, eligible participants can contribute up to 15 percent of pretax annual compensation, plus an additional catch-up contribution for those over the age of 49, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company can make a contribution on a discretionary basis, dependent on the Company's operating results. The Company will not make a contribution for the year ended December 31, 2017. The participant contributions may be allocated to over 19 investment options (see Note 4) as the participant directs. The Company contributions, if any, are invested in a portfolio of investments as directed by the Company. Contributions are subject to certain limitations.

Vesting. Participants are immediately vested in their contributions plus the actual earnings thereon. Vesting in employer contributions and the earnings thereon is based on years of continuous service. A participant vests 100% after three years of service effective December 31, 2001 on matching contributions and five years on non-elective contributions. Forfeitures are used to reduce employer contributions.

1. Description of Plan (continued)

Payment of Benefits. On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance or installments based upon the IRC. In addition, hardship distributions are permitted if certain criteria are met.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans. A participant may borrow from their fund account a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at market rates. Principal and interest are generally paid through payroll deductions. A loan application fee is charged to the participant.

Forfeited Accounts. Forfeited non-vested accounts are used to reduce future employer contributions. In 2017 and 2016 no Employer Contributions were made.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through October 9, 2018, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

2. **Summary of Significant Accounting Policies (continued)**

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Loans to participants are measured at their unpaid principal balances.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of participant loans is equal to the amortized cost of the loan.

2. **Summary of Significant Accounting Policies (continued)**

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

There were no contributions in excess of amounts allowed by the IRS for the years end December 31, 2017 and December 31, 2016.

Operating Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Company.

3. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1), and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 were not available. There were no plan assets requiring the use of Level 3 inputs for the period presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit worthiness of the issuer.

3. **Fair Value Measurements (continued)**

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

		Fair Value Measurements Using: Quoted Prices In Active Markets Identical Assets	Significant Unobservable Inputs
December 31, 2017	**Fair Value**	**(Level 1)**	**(Level 3)**

Aggressive Growth	231,142	231,142	-0-
Total mutual funds	$1,623,710	$1,623,710	$ -0-

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

3. Fair Value Measurements (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2017 and 2016 are reported in net appreciation in fair value of investments.

4. Investments

During 2017, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $151,881 as follows:

Mutual funds	$151,881
Common stock	-0-
Corporate bonds	-0-
U.S. Government securities	-0-
	$ 151,881

4. **Investments (continued)**

5. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

6. Related Party Transactions

There were no related party transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

8. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
