Contributions - Employees may contribute from 1% to 75% of their compensation to the Plan as pre-tax or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Effective January 1, 2013, participants subject to tax under the Puerto Rico Internal Revenue Code (PRIRC) are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible plans.

Employees hired or rehired on or after October 1, 2003, are automatically enrolled in the Plan following 75 days of employment, unless they have already enrolled in the Plan or have declined enrollment in the Plan prior to that time. The automatic enrollment feature sets the employee's deferral rate at 6% of eligible compensation.

Each pay period, Univar makes matching contributions equal to 100% of participants' salary deferrals up to 4% of eligible compensation. Univar also makes a "true-up" matching contribution if, on the last day of the plan year, the amount of matching contributions made on behalf of a participant is less than the amount that would have been received if the matching contribution was made on an annual basis. Employees covered by collective bargaining units may have different matching formulas as negotiated and outlined in their respective collective bargaining agreements. The Plan satisfies nondiscrimination safe harbor rules for all participants whose terms of employment are not covered by a collective bargaining agreement.

Univar also makes a nonelective retirement contribution equal to 4% of eligible compensation. Employees covered by collective bargaining units may or may not be eligible to receive nonelective retirement contributions based on terms specified in their respective agreements. Effective July 23, 2016, the plan was amended to require employees to be employed by Univar on the last day of the plan year to be eligible for employer nonelective contributions.

Contributions are subject to limitations under the United States Internal Revenue Code (IRC) or PRIRC.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account as well as increases or decreases in the market value of investments, and is charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Dividend income, interest income, and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

Note 1 - Continued

Vesting - Any participant employed with Univar on or after January 1, 2003, shall be 100% vested in all employer contributions other than nonelective retirement contributions. Nonelective retirement contributions are subject to a three year cliff vesting schedule. The vesting schedule of participants in plans that were merged into the Plan may be subject to extended vesting schedules not to exceed five years.

Payment of Benefits - Upon retirement, death, disability, attainment of age 59 1/2, or termination of service, a participant or beneficiary may elect to receive benefit payments via a lump sum payment, leave the funds invested in the Plan, or roll the funds into another qualified plan. The Plan requires automatic lump sum distributions for accounts of terminated participants with a balance greater than $1,000 but less than or equal to $5,000. The automatic distribution amount will be deposited into an individual retirement account unless the participant elects a cash payment or rollover to another qualified retirement plan.

Hardship Withdrawals - Under certain conditions, participants, while still employed by Univar, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, preventing the eviction or foreclosure from the participant's principal residence, payment of burial or funeral expenses, and expenses for the repair of damage to the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Forfeitures - Participants are entitled to their vested benefits upon termination from the Plan. Unvested contributions are forfeited for all terminated employees and are used to reduce future employer contributions, reinstate previously forfeited balances when employees are rehired, provided the employee's break in service does not exceed five years, or pay plan expenses. During 2017, approximately $61,000 in forfeitures was used for the payment of plan expenses, and approximately $861,000 of forfeitures was used to reduce employer contributions. As of December 31, 2017 and 2016, forfeited nonvested account balances totaled $1,194,658 and $830,120 respectively.

Notes Receivable From Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. Unless a loan is rolled into the Plan from an acquired company's plan, all loans have maximum repayment terms of five years and loans bear interest at the prime rate plus 1% as established on the first day of the month the loan was originated. Principal and interest are paid ratably through payroll deductions.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Note 2 - Continued

Purchases and sales of securities are reported on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid.

Investment Fees and Administrative Expenses - The Plan's investments are subject to management fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and not separately disclosed in the accompanying financial statements. Certain administrative costs for investment consulting, auditing, and legal services are paid by the Plan. Administrative expenses not paid by the Plan are paid by Univar and are excluded from these financial statements. Loan set up and maintenance fees are charged directly to the accounts of participants with outstanding loans.

During 2013, a suspense account was established within the Plan to capture excess revenue sharing based on a change in the fee arrangement between Fidelity Management Trust Company (Fidelity) and Univar. Revenue sharing is used to pay Fidelity for recordkeeping and administrative services provided to the Plan based on a formula set by Univar and Fidelity.

At Univar's direction, funds in the revenue sharing account may be used to reimburse Univar for eligible administrative expenses or may be used to pay for such expenses directly. Periodically, Univar may allocate remaining excess dollars to participants. During 2017, the Plan received $385,000 in revenue sharing and $1,550 in dividends in the account and used $102,627 to pay plan expenses and allocated $604,732 of revenue sharing to participants. The balance in the revenue sharing account was $230 and $321,039 as of December 31, 2017 and 2016, respectively.

Subsequent Events - Univar has evaluated subsequent events through October 5, 2018, the date on which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Note 3 - Continued

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, valuations in which all significant inputs are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Valuations in which one or more significant inputs to the fair value measurement are unobservable.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Trust Fund - The fund is composed primarily of investment contracts and fixed income securities and is valued at the NAV provided by the fund's trustee. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Withdrawals made in order to accommodate benefit payments to participants may be made on any business day. Withdrawals made in order to accommodate a participant-initiated exchange to another investment option may be made on any business day, provided that the exchange is not directed to a competing fund. Withdrawals initiated by Univar may be paid at less than the fund's NAV and must be preceded by a twelve-month advance written notice. However, the fund's trustee may, in its discretion, complete any such withdrawal before the expiration of such twelve-month period. The fund's trustee also reserves the right to temporarily delay any withdrawal from the fund that might adversely affect the fund's portfolio.

Note 3 - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share (or its equivalent) practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments except for exchanges/transfers to competing funds.

Stable value collective trust fund	$ 36,797,416	$ 41,208,989	Daily	None

Note 4 - Information Prepared and Certified by Fidelity

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2017 and 2016, and investment income or loss and transactions for the year ended December 31, 2017, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 5 - Party-in-Interest Transactions

Certain plan investments are shares of mutual funds and units of a collective trust fund managed by Fidelity and its affiliates. Fidelity is the trustee of the Plan and, therefore, transactions with such investments and fees charged by Fidelity and its affiliates for managing the investments, qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, Univar has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become, if they are not already, 100% vested in their account balances.

Note 7 - Income Tax Status

The Plan obtained its latest determination letter on February 5, 2018, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan provides for various investment fund options, which in turn invest in a combination of investment securities such as stocks, bonds, and others. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Delinquent Participant Contributions

Univar determined that there was one paydate during 2016 in which participant deferral contributions totaling $24,169 were not deposited by Univar as plan assets within the time limitation stipulated under the Department of Labor's regulations. These delinquent deposits are considered nonexempt prohibited transactions. Univar calculated and remitted lost earnings for the late contributions during 2017.

Univar determined that there was one paydate during 2017 in which participant deferral contributions totaling $2,036 were not deposited by Univar as plan assets within the time limitation stipulated under the Department of Labor's regulations. These delinquent deposits are considered nonexempt prohibited transactions. Univar calculated and remitted lost earnings for the late contributions subsequent to year end.

Note 1 - Plan Description

The following description of Univar USA Inc. Valued Investment Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a contributory, defined-contribution 401(k) investment plan available to all eligible full-time and part-time employees of Univar USA Inc. (Univar). Union employees are eligible only if coverage under this Plan is specified in their collective bargaining agreement. Employees are eligible to participate in the Plan following one full calendar month of employment. Employees hired on or after January 1, 2018 shall immediately be eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is designed as an ERISA Section 404(c) plan. Accordingly, the participants and not the plan fiduciaries are responsible for investment decisions relating to their individual investment assets in the Plan.

Contributions - Employees may contribute from 1% to 75% of their compensation to the Plan as pre-tax or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Effective January 1, 2013, participants subject to tax under the Puerto Rico Internal Revenue Code (PRIRC) are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible plans.

Employees hired or rehired on or after October 1, 2003, are automatically enrolled in the Plan following 75 days of employment, unless they have already enrolled in the Plan or have declined enrollment in the Plan prior to that time. The automatic enrollment feature sets the employee's deferral rate at 6% of eligible compensation.

Each pay period, Univar makes matching contributions equal to 100% of participants' salary deferrals up to 4% of eligible compensation. Univar also makes a "true-up" matching contribution if, on the last day of the plan year, the amount of matching contributions made on behalf of a participant is less than the amount that would have been received if the matching contribution was made on an annual basis. Employees covered by collective bargaining units may have different matching formulas as negotiated and outlined in their respective collective bargaining agreements. The Plan satisfies nondiscrimination safe harbor rules for all participants whose terms of employment are not covered by a collective bargaining agreement.

Univar also makes a nonelective retirement contribution equal to 4% of eligible compensation. Employees covered by collective bargaining units may or may not be eligible to receive nonelective retirement contributions based on terms specified in their respective agreements. Effective July 23, 2016, the plan was amended to require employees to be employed by Univar on the last day of the plan year to be eligible for employer nonelective contributions.

Contributions are subject to limitations under the United States Internal Revenue Code (IRC) or PRIRC.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account as well as increases or decreases in the market value of investments, and is charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Dividend income, interest income, and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

Note 1 - Continued

Vesting - Any participant employed with Univar on or after January 1, 2003, shall be 100% vested in all employer contributions other than nonelective retirement contributions. Nonelective retirement contributions are subject to a three year cliff vesting schedule. The vesting schedule of participants in plans that were merged into the Plan may be subject to extended vesting schedules not to exceed five years.

Payment of Benefits - Upon retirement, death, disability, attainment of age 59 1/2, or termination of service, a participant or beneficiary may elect to receive benefit payments via a lump sum payment, leave the funds invested in the Plan, or roll the funds into another qualified plan. The Plan requires automatic lump sum distributions for accounts of terminated participants with a balance greater than $1,000 but less than or equal to $5,000. The automatic distribution amount will be deposited into an individual retirement account unless the participant elects a cash payment or rollover to another qualified retirement plan.

Hardship Withdrawals - Under certain conditions, participants, while still employed by Univar, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, preventing the eviction or foreclosure from the participant's principal residence, payment of burial or funeral expenses, and expenses for the repair of damage to the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Forfeitures - Participants are entitled to their vested benefits upon termination from the Plan. Unvested contributions are forfeited for all terminated employees and are used to reduce future employer contributions, reinstate previously forfeited balances when employees are rehired, provided the employee's break in service does not exceed five years, or pay plan expenses. During 2017, approximately $61,000 in forfeitures was used for the payment of plan expenses, and approximately $861,000 of forfeitures was used to reduce employer contributions. As of December 31, 2017 and 2016, forfeited nonvested account balances totaled $1,194,658 and $830,120 respectively.

Notes Receivable From Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. Unless a loan is rolled into the Plan from an acquired company's plan, all loans have maximum repayment terms of five years and loans bear interest at the prime rate plus 1% as established on the first day of the month the loan was originated. Principal and interest are paid ratably through payroll deductions.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Note 2 - Continued

Purchases and sales of securities are reported on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid.

Investment Fees and Administrative Expenses - The Plan's investments are subject to management fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and not separately disclosed in the accompanying financial statements. Certain administrative costs for investment consulting, auditing, and legal services are paid by the Plan. Administrative expenses not paid by the Plan are paid by Univar and are excluded from these financial statements. Loan set up and maintenance fees are charged directly to the accounts of participants with outstanding loans.

During 2013, a suspense account was established within the Plan to capture excess revenue sharing based on a change in the fee arrangement between Fidelity Management Trust Company (Fidelity) and Univar. Revenue sharing is used to pay Fidelity for recordkeeping and administrative services provided to the Plan based on a formula set by Univar and Fidelity.

At Univar's direction, funds in the revenue sharing account may be used to reimburse Univar for eligible administrative expenses or may be used to pay for such expenses directly. Periodically, Univar may allocate remaining excess dollars to participants. During 2017, the Plan received $385,000 in revenue sharing and $1,550 in dividends in the account and used $102,627 to pay plan expenses and allocated $604,732 of revenue sharing to participants. The balance in the revenue sharing account was $230 and $321,039 as of December 31, 2017 and 2016, respectively.

Subsequent Events - Univar has evaluated subsequent events through October 5, 2018, the date on which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Note 3 - Continued

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, valuations in which all significant inputs are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Valuations in which one or more significant inputs to the fair value measurement are unobservable.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Trust Fund - The fund is composed primarily of investment contracts and fixed income securities and is valued at the NAV provided by the fund's trustee. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Withdrawals made in order to accommodate benefit payments to participants may be made on any business day. Withdrawals made in order to accommodate a participant-initiated exchange to another investment option may be made on any business day, provided that the exchange is not directed to a competing fund. Withdrawals initiated by Univar may be paid at less than the fund's NAV and must be preceded by a twelve-month advance written notice. However, the fund's trustee may, in its discretion, complete any such withdrawal before the expiration of such twelve-month period. The fund's trustee also reserves the right to temporarily delay any withdrawal from the fund that might adversely affect the fund's portfolio.

Note 3 - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share (or its equivalent) practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments except for exchanges/transfers to competing funds.

Stable value collective trust fund	$ 36,797,416	$ 41,208,989	Daily	None

Note 4 - Information Prepared and Certified by Fidelity

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2017 and 2016, and investment income or loss and transactions for the year ended December 31, 2017, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 5 - Party-in-Interest Transactions

Certain plan investments are shares of mutual funds and units of a collective trust fund managed by Fidelity and its affiliates. Fidelity is the trustee of the Plan and, therefore, transactions with such investments and fees charged by Fidelity and its affiliates for managing the investments, qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, Univar has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become, if they are not already, 100% vested in their account balances.

Note 7 - Income Tax Status

The Plan obtained its latest determination letter on February 5, 2018, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan provides for various investment fund options, which in turn invest in a combination of investment securities such as stocks, bonds, and others. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Reconciliation to Form 5500

Note 10 - Delinquent Participant Contributions

Univar determined that there was one paydate during 2016 in which participant deferral contributions totaling $24,169 were not deposited by Univar as plan assets within the time limitation stipulated under the Department of Labor's regulations. These delinquent deposits are considered nonexempt prohibited transactions. Univar calculated and remitted lost earnings for the late contributions during 2017.

Univar determined that there was one paydate during 2017 in which participant deferral contributions totaling $2,036 were not deposited by Univar as plan assets within the time limitation stipulated under the Department of Labor's regulations. These delinquent deposits are considered nonexempt prohibited transactions. Univar calculated and remitted lost earnings for the late contributions subsequent to year end.

Note 1 - Plan Description

The following description of Univar USA Inc. Valued Investment Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a contributory, defined-contribution 401(k) investment plan available to all eligible full-time and part-time employees of Univar USA Inc. (Univar). Union employees are eligible only if coverage under this Plan is specified in their collective bargaining agreement. Employees are eligible to participate in the Plan following one full calendar month of employment. Employees hired on or after January 1, 2018 shall immediately be eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is designed as an ERISA Section 404(c) plan. Accordingly, the participants and not the plan fiduciaries are responsible for investment decisions relating to their individual investment assets in the Plan.

Contributions - Employees may contribute from 1% to 75% of their compensation to the Plan as pre-tax or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Effective January 1, 2013, participants subject to tax under the Puerto Rico Internal Revenue Code (PRIRC) are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible plans.

Employees hired or rehired on or after October 1, 2003, are automatically enrolled in the Plan following 75 days of employment, unless they have already enrolled in the Plan or have declined enrollment in the Plan prior to that time. The automatic enrollment feature sets the employee's deferral rate at 6% of eligible compensation.

Each pay period, Univar makes matching contributions equal to 100% of participants' salary deferrals up to 4% of eligible compensation. Univar also makes a "true-up" matching contribution if, on the last day of the plan year, the amount of matching contributions made on behalf of a participant is less than the amount that would have been received if the matching contribution was made on an annual basis. Employees covered by collective bargaining units may have different matching formulas as negotiated and outlined in their respective collective bargaining agreements. The Plan satisfies nondiscrimination safe harbor rules for all participants whose terms of employment are not covered by a collective bargaining agreement.

Univar also makes a nonelective retirement contribution equal to 4% of eligible compensation. Employees covered by collective bargaining units may or may not be eligible to receive nonelective retirement contributions based on terms specified in their respective agreements. Effective July 23, 2016, the plan was amended to require employees to be employed by Univar on the last day of the plan year to be eligible for employer nonelective contributions.

Contributions are subject to limitations under the United States Internal Revenue Code (IRC) or PRIRC.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account as well as increases or decreases in the market value of investments, and is charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Dividend income, interest income, and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

Note 1 - Continued

Vesting - Any participant employed with Univar on or after January 1, 2003, shall be 100% vested in all employer contributions other than nonelective retirement contributions. Nonelective retirement contributions are subject to a three year cliff vesting schedule. The vesting schedule of participants in plans that were merged into the Plan may be subject to extended vesting schedules not to exceed five years.

Payment of Benefits - Upon retirement, death, disability, attainment of age 59 1/2, or termination of service, a participant or beneficiary may elect to receive benefit payments via a lump sum payment, leave the funds invested in the Plan, or roll the funds into another qualified plan. The Plan requires automatic lump sum distributions for accounts of terminated participants with a balance greater than $1,000 but less than or equal to $5,000. The automatic distribution amount will be deposited into an individual retirement account unless the participant elects a cash payment or rollover to another qualified retirement plan.

Hardship Withdrawals - Under certain conditions, participants, while still employed by Univar, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, preventing the eviction or foreclosure from the participant's principal residence, payment of burial or funeral expenses, and expenses for the repair of damage to the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Forfeitures - Participants are entitled to their vested benefits upon termination from the Plan. Unvested contributions are forfeited for all terminated employees and are used to reduce future employer contributions, reinstate previously forfeited balances when employees are rehired, provided the employee's break in service does not exceed five years, or pay plan expenses. During 2017, approximately $61,000 in forfeitures was used for the payment of plan expenses, and approximately $861,000 of forfeitures was used to reduce employer contributions. As of December 31, 2017 and 2016, forfeited nonvested account balances totaled $1,194,658 and $830,120 respectively.

Notes Receivable From Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. Unless a loan is rolled into the Plan from an acquired company's plan, all loans have maximum repayment terms of five years and loans bear interest at the prime rate plus 1% as established on the first day of the month the loan was originated. Principal and interest are paid ratably through payroll deductions.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Note 2 - Continued

Purchases and sales of securities are reported on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid.

Investment Fees and Administrative Expenses - The Plan's investments are subject to management fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and not separately disclosed in the accompanying financial statements. Certain administrative costs for investment consulting, auditing, and legal services are paid by the Plan. Administrative expenses not paid by the Plan are paid by Univar and are excluded from these financial statements. Loan set up and maintenance fees are charged directly to the accounts of participants with outstanding loans.

During 2013, a suspense account was established within the Plan to capture excess revenue sharing based on a change in the fee arrangement between Fidelity Management Trust Company (Fidelity) and Univar. Revenue sharing is used to pay Fidelity for recordkeeping and administrative services provided to the Plan based on a formula set by Univar and Fidelity.

At Univar's direction, funds in the revenue sharing account may be used to reimburse Univar for eligible administrative expenses or may be used to pay for such expenses directly. Periodically, Univar may allocate remaining excess dollars to participants. During 2017, the Plan received $385,000 in revenue sharing and $1,550 in dividends in the account and used $102,627 to pay plan expenses and allocated $604,732 of revenue sharing to participants. The balance in the revenue sharing account was $230 and $321,039 as of December 31, 2017 and 2016, respectively.

Subsequent Events - Univar has evaluated subsequent events through October 5, 2018, the date on which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Note 3 - Continued

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, valuations in which all significant inputs are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Valuations in which one or more significant inputs to the fair value measurement are unobservable.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Trust Fund - The fund is composed primarily of investment contracts and fixed income securities and is valued at the NAV provided by the fund's trustee. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Withdrawals made in order to accommodate benefit payments to participants may be made on any business day. Withdrawals made in order to accommodate a participant-initiated exchange to another investment option may be made on any business day, provided that the exchange is not directed to a competing fund. Withdrawals initiated by Univar may be paid at less than the fund's NAV and must be preceded by a twelve-month advance written notice. However, the fund's trustee may, in its discretion, complete any such withdrawal before the expiration of such twelve-month period. The fund's trustee also reserves the right to temporarily delay any withdrawal from the fund that might adversely affect the fund's portfolio.

Note 3 - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share (or its equivalent) practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments except for exchanges/transfers to competing funds.

Note 4 - Information Prepared and Certified by Fidelity

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2017 and 2016, and investment income or loss and transactions for the year ended December 31, 2017, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 5 - Party-in-Interest Transactions

Certain plan investments are shares of mutual funds and units of a collective trust fund managed by Fidelity and its affiliates. Fidelity is the trustee of the Plan and, therefore, transactions with such investments and fees charged by Fidelity and its affiliates for managing the investments, qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, Univar has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become, if they are not already, 100% vested in their account balances.

Note 7 - Income Tax Status

The Plan obtained its latest determination letter on February 5, 2018, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan provides for various investment fund options, which in turn invest in a combination of investment securities such as stocks, bonds, and others. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
