Report on the Financial Statements

We were engaged to audit the accompanying financial statements of *DIFCO Laboratories, Inc. Local 246 UAW AFL-CIO Retirement Plan* (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2016, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 2, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following brief description of the *DIFCO Laboratories, Inc. Local 246 UAW AFL-CIO Retirement Plan* (the “Plan”) is provided for general information purposes only. Additional information about the Plan agreement, vesting and benefit provisions, and the Pension Benefit Guaranty Corporation’s (“PBGC”) benefit guarantee can be found in the *Summary Plan Description* document. Copies of this document are available from the Plan Administrator.

Description of the Plan

General

The Plan is a defined benefit, non-contributory plan, which provides pension, death and disability benefits to all members of Local 246 of the International Union, United Automobile, Aerospace, Aircraft and Agricultural Implement Workers of America (“UAW, AFL-CIO”) employed by DIFCO Laboratories, Inc. (the “Company”) upon commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Joint Board of Administration, which consists of members of the Company and of the UAW, AFL-CIO (the “Board”). The Board has overall responsibility for the operation and administration of the Plan. A separate Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Board.

Funding Policy

The Plan’s funding policy is for the Company to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Plan has met the minimum funding requirements prescribed by ERISA. The minimum funding requirement, which is determined by an independent actuary, is equal to the sum of the annual current service contribution attributable to a year’s cost for continuous service and the prior service obligation. The Company’s present intention is to make contributions sufficient to annually fund the Plan’s current service cost and initial past service cost plus interest over a period of no more than 30 years.

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to \$40.00 for each year of service as of December 31, 2017. In addition, each member who retires at their normal retirement age will also receive the lesser of \$43.80 or Medicare Part B (or successor) provision per month added to their retirement benefits. Also, a participant who is permanently laid off by the Company subsequent to April 28, 2005 and qualifies for retirement, as defined, at the time of the layoff will receive an additional special benefit of \$35.00 per month in addition to the monthly benefit for each year of service in effect in the year in which they retire. The Plan permits early retirement at age 55 with benefits reduced by 5/9% for each calendar month benefits begin prior to normal retirement date. An unreduced benefit is available for participants retiring on or after age 60 with 25 years of service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering five years of service and prior to becoming eligible for a retirement benefit, they lose all rights under the Plan.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

Death and Disability Benefits

If an active employee dies at pre-retirement age with at least three years of service, and has elected the Qualified Joint and Survivor Option, a benefit is payable to the spouse equal to 50% of the vested portion of the employee's accrued normal retirement benefit reduced by 5/9% for each calendar month from the date of election of such option to the date of death. Active employees who become totally and permanently disabled receive a benefit equal to their accrued benefit with payment commencing as of the date of disability. A participant retiring on Total and Permanent Disability, on or after April 25, 1994, shall receive a monthly payment of \$100 until the Participant reaches age 65 or until the participant receives a total of \$5,000, whichever occurs first.

Vesting

A participant becomes fully vested after five years of service.

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries, accounting, actuarial, auditing, and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for record keeping services are paid by the Plan.

Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for a discussion of fair value measurements.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for certain investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as an addition to net depreciation or a reduction of net appreciation in fair value of such investments.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' length of credited service multiplied by the benefit multiplier in effect on their retirement date. The accumulated plan benefits for active employees are based on their length of service on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent such benefits are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Willis Towers Watson, the Plan's independent actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2016:

Investment return	7.25%
Life expectancy of participants	RP-2014 sex distinct annuitant and employee mortality tables with generation projection, using a modified Scale MP-2014 with increase rates converging to 0.50% in 2022
Retirement age assumptions	Normal retirement assumed to occur at age 65

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The following represent actuarial assumptions that changed since the last valuation:

- The discount rate was changed from 7.50% to 7.25%.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2016 to January 2017.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The assumed plan-related expenses added to the target normal costs were changed from \$45,000 for 2015 to \$49,000 for 2016.

Contributions

Employer contributions are recorded in the period in which they become the obligations of the Company.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Recently Implemented Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). This ASU removes the requirement to make certain disclosures as well as categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") as a practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016. Plan management has elected to adopt the ASU for the year ended December 31, 2017. Other than the change to disclosures, the adoption of this standard did not have a material impact on the financial statements.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2017, the most recent statement of net assets available for benefits presented herein, through October 9, 2018, the date these financial statements were available to be issued. No significant such events or transactions were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Northern Trust Company, the Plan trustee, has certified the completeness and accuracy of all investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, (2) the related investment activity reflected in the statements of changes in net assets available for benefits during 2017 and 2016, and (3) information summarized in Note 4.

At December 31, 2017 and 2016, the Plan's interest in the Becton Dickinson and Company Master Retirement Trust represented all of the Plan's net assets totaling \$7,614,875 and \$7,351,800, respectively (see Note 4).

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Cash and cash equivalents: Valued at cost which approximates fair value due to the short-term nature of such investments and are classified as Level 1.

Government and Agency - U.S.: Instruments classified as Level 1 are valued at the closing price reported on the major market on which the investments are traded. Instruments classified as Level 2 are valued based upon estimated prices, derived from market observable sources, from independent vendors' pricing models.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

Government and Agency – Foreign: Instruments classified as Level 1 are valued at the closing price reported on the major market on which the investments are traded. Instruments classified as Level 2 are valued based upon either estimated prices, derived from market observable sources, from independent vendors' pricing models or on the corroborated net asset value provided by the fund administrator, which is based on the value of the underlying assets owned by the fund, less its liabilities and then divided by the number of fund units outstanding. Instruments measured using the net asset value ("NAV") practical expedient are valued based on the net asset value provided by the fund administrator, which is based on the value of the underlying assets owned by the fund, less its liabilities and then divided by the number of fund units outstanding. The assets in this category which are categorized as using NAV are invested in debt securities including investments in emerging markets. Such net asset value represents the price at which the instruments could be redeemed at period end. There are no redemption restrictions and no future funding commitments.

Corporate debt securities: Investments classified at Level 1 are based on the closing price reported on the major market on which the investments are traded. Level 2 investments are valued based upon either estimated prices, derived from market observable sources, from independent vendors' pricing models or on the corroborated net asset value provided by the fund administrator, which is based on the value of the underlying assets owned by the fund, less its liabilities and then divided by the number of fund units outstanding.

Mortgage and asset-backed securities: Investments classified as Level 2 based upon estimated prices from independent vendors' pricing models and these prices are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers and other market-related data.

Equity securities: Instruments classified as Level 1 are valued at the closing price reported on the major market on which the investments are traded. Instruments measured using the net asset value practical expedient are valued based on the NAV provided by the fund administrator, which is based on the value of the underlying assets owned by the fund, less its liabilities and then divided by the number of fund units outstanding. Instruments measured using the net asset value practical expedient consist of units in commingled institutional trusts that invest in either non-U.S. equities or U.S. small capitalization equities and represent the price at which the instruments can be redeemed at period end. The Plan has no future funding commitments associated with these investments and has the right to redeem them upon one day's notice, at any time and without restriction, at their determined net asset value.

Other securities: The values of such instruments classified within Level 1 are based on the closing price reported on the major market on which the investments are traded. Instruments measured using the net asset value practical expedient are valued based on the NAV provided by the fund administrator, which is based on the value of the underlying assets owned by the fund, less its liabilities and then divided by the number of fund units outstanding. Such net asset value represents the price at which these instruments could be redeemed at period end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair value and carrying value of financial instruments approximate each other.

4. INTEREST IN BECTON DICKINSON AND COMPANY MASTER RETIREMENT TRUST

All of the Plan's investments are held in the Becton Dickinson and Company Master Retirement Trust ("Master Trust") managed by Northern Trust Company ("Trustee"). The Master Trust was established for the investment of assets of the Plan and several other Becton Dickinson Company (parent company of DIFCO Laboratories, Inc.) sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Northern Trust Company. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 0.56% and 0.62%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The Trustee is the custodian of all investments and is authorized to execute transactions. Financial information relating to the assets held by the Trustee is included in the accompanying financial statements based on information provided by the Trustee. The Plan's share of net assets in the Master Trust was determined by the Trustee as of December 31, 2017 and 2016, on the basis of the cumulative contributions and cumulative proportional share of investment gain for the Plan, less the Plan's cumulative benefit payments and share of administrative expenses. That information, which has not been audited by independent auditors, is summarized below.

The following table represents the net assets of the Master Trust at December 31:

(1) Certain investments are measured at NAV per share (or its equivalent) on a non-active market and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

A portion of the Trust's assets consists of investments in cash and cash equivalents, primarily to accommodate liquidity requirements relating to trade settlement and benefit payment activity.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

The U.S. portion of fixed income assets is invested in mortgage-backed, corporate, government and agency and asset-backed instruments. Mortgage-backed securities consist of residential mortgage pass-through certificates. Corporate debt securities are diversified across industry and sector and, while consisting primarily of investment grade instruments, include an allocation to high-yield debt as well. U.S. government investments consist of obligations of the U.S. Treasury other U.S. government agencies, state governments and local municipalities. The non-U.S. portion of fixed income investments consists primarily of government and corporate bonds in developed markets and emerging markets.

Equity securities included within the Trust's assets consist of fund investments in publicly-traded U.S. and non-U.S. equity securities. In order to achieve appropriate diversification; these portfolios are allocated among multiple asset managers and invested across market sectors, investment styles, capitalization weights and geographic regions.

Other securities include fund investments comprised of underlying assets of real estate, infrastructure, commodities, and hedge funds. The hedge funds are comprised of equity securities and contain short and long-term strategies. They have various redemption restrictions. The real estate, infrastructure, and commodities assets in this category are invested in various funds and also have various redemption restrictions. There are no future funding commitments for assets in this category.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Northern Trust Company. Northern Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for administrative services to Northern Trust Company amounted to \$74,556 and \$86,344 in 2017 and 2016, respectively.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter, dated March 21, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has not been amended since receiving the determination letter. The Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

DIFCO LABORATORIES, INC. LOCAL 246 UAW AFL-CIO RETIREMENT PLAN

Notes to Financial Statements

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to certain provisions set forth in ERISA. In the event the Plan terminates, all accrued normal retirement benefits to the date of termination would become fully vested, and the net assets of the Plan would be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC," a U.S. government agency) up to the applicable limitations (discussed subsequently).
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Certain benefits under the plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rate
55	5.0%
56	3.0%
57	3.0%
58	3.0%
59	3.0%
60	3.0%
61	3.0%
62	25.0%
63	10.0%
64	10.0%
65	75.0%
66	75.0%
67	75.0%
68	75.0%
69	75.0%
70	100.0%

Benefit commencement date:

- Preretirement death benefit
The first day of the month following the later of the participant's date of death or the date the participant would have attained age 55.
- Deferred vested benefit
Age 60 if the participant is younger than 60, and age 65 if the participant is older than 60.
- Disability benefit
Upon disablement
- Retirement benefit
Upon termination of employment

Form of payment

Single participants are assumed to elect a single life annuity. 75% of married participants are assumed to elect a single life annuity, and 25% to elect a 50% joint and survivor annuity.

SCHEDULE SB ATTACHMENTS

Percent married	85%. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Female spouses are assumed to be three years younger than male spouses.
Administrative expenses	The assumed plan-related expenses added to the target normal cost were changed from \$45,000 for 2016 to \$49,000 for 2017. As in past years, the plan-related expenses were calculated by adjusting the actual prior year expenses with inflation and for changes in PBGC premiums.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2016 plan year, discounted using the effective interest rate for 2016 plan year.
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued except the Special Normal Retirement Benefit. Such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs.</p> <p>The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the form of payment election assumptions described above.</p>

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
----------------------	--

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	A plan specific study has not been performed due to the small size of the plan population and the correspondingly low credibility of past behavior to predict future behavior. The rates were selected to reflect anticipated experience for a union workforce.
Disability	A plan specific study has not been performed due to the small size of the plan population and the correspondingly low credibility of past behavior to predict future behavior. A disability incidence table based on large group study was selected with a modification to reflect the age of the standard table and changes in disability management practices.
Retirement	A plan specific study has not been performed due to the small size of the plan population and the correspondingly low credibility of past behavior to predict future behavior. The rates were chosen to be reasonable for a union workforce with subsidized early retirement benefits.
Benefit commencement date for deferred vested benefits	Assumption reflects a modest deferral assumption given that the current deferred vested population does not generally opt to commence at the earliest retirement date but reflects an expectation that some participants will commence before Normal Retirement Date given the existence of subsidized early commencement.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on January 1, 2016.

Covered employees	All employees covered by the collective bargaining agreement between BD and the UAW; AFL-CIO Local 246 participate as of their employment commencement date.
Participation date	Full-time and part-time employees begin participation on the date they commence employment.

Definitions

Vesting service	Prior to January 1, 1976 an employee receives one year of service for each year or portion of a year employed. On or after January 1, 1976 an employee receives one year of service for each year in which the employee is credited with at least 1000 hours. Vesting service shall not be less than credited service.
Credited service	Service from date of hire to date of termination, based on the number of hours worked during each plan year. A full year is credited for 1,700 hours worked, with proportionate credit to nearest 1/10th of a year if the employee works less than 1,700 hours.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of pension service
Monthly pension benefit	Years of credited service multiplied by the following: Retirements Prior to May 1, 2008: Amount in effect as of retirement date: Effective May 1, 2008: \$36 Effective May 1, 2013: \$37 Effective May 1, 2014: \$38 Effective May 1, 2015: \$39 Effective May 1, 2017: \$40

SCHEDULE SB ATTACHMENTS

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Attainment of age 55 and completion of 5 years of service
Postponed retirement	A participant may continue in the active service of the Company after normal retirement date.
Vested termination	Completion of 5 years of vesting service.
Disability	Total and permanent disability, eligibility for disability benefits under the Federal Social Security Act and 10 years of service.
Preretirement death benefit	5 years of service and married for at least one year.
Special Normal Retirement Benefit	Employees who are permanently laid off and retire from active employment during the April 28, 2010 through April 27, 2015 collective bargaining agreement shall be eligible.
Medicare B Supplement	Any retiree who retired under the normal, early or disability retirement provisions of the plan or otherwise terminates with 25 years of service on or after April 28, 2010.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD
Early retirement	Accrued benefit deferred to age 65 or payable immediately but reduced 5/9% for each complete calendar month that benefits begin prior to normal retirement date. An unreduced benefit is payable immediately for participants retiring on or after age 60 with 25 years of service.
Postponed retirement	If retirement occurs after the normal retirement date, the later retirement income will be equal to the accrued benefit calculated using credited service and benefit rate in effect as of the late retirement date.
Vested termination	Accrued benefit deferred to normal retirement date or a reduced benefit (5/9% for each completed calendar month prior to normal date) payable on or after age 60.
Disablement	Accrued benefit is payable as of the date of disability.

SCHEDULE SB ATTACHMENTS

Preretirement death

The surviving spouse will receive a 50% survivor benefit computed as if the employee had terminated employment on the date of death, survived until the benefit commencement date and elected the 50% Joint & Survivor annuity. The benefit is reduced for early commencement and the election of the 50% Joint & Survivor Annuity. The benefit commencement date is the first day of the month following the later of the date of death, the date the employee would have attained age 55 or a later date as the spouse may elect.

Special Normal Retirement Benefit

Upon attaining age 60, eligible retirees will receive a supplemental benefit of \$35.00 per month in addition to their regular benefits.

Special Age 65 Benefit

Upon attaining age 65 the eligible retirees will receive the lesser of \$43.80 per month or the Medicare Part B premium.

Other Plan Provisions

Forms of payment

Automatic form for unmarried participants – single life annuity.

Automatic form for married participants – 50% joint and survivor annuity, actuarially equivalent to the single life amount.

Optional form – joint and survivor option with 75% payable to spouse at death of retiree, lump sum payments for values under \$1,000.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions. These results do not anticipate any increases in the limits beyond those in effect as of the valuation date.

Future Plan Changes

Willis Towers Watson is not aware of any future plan changes that are required to be reflected other than scheduled pension increases contained in the Collective Bargaining Agreement.

Changes in Benefits Valued Since Prior Year

None.
