OHIO MEDICAL, LLC 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2017 through September 28, 2018, which is the date the financial statements were available to be issued.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Key parties of the plan - Ohio Medical, LLC ("OMC") is the plan sponsor/employer and plan administrator. Bank of America, N.A. is the trustee that has custody of plan assets. Merrill Lynch, Pierce, Fenner & Smith, Inc. Retirement Services ("Merrill Lynch"), an affiliate of Bank of America, N.A., is the plan's third party administrator that maintains participant records, tax counsel that performs various compliance tests and investment advisor.

Investments - The plan administrator determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options. The net appreciation (depreciation) in fair value of investments bought, sold and held during the years is reflected in the statements of changes in net assets available for benefits. Participants should refer to the prospectuses and annual reports of the investments for more information.

Fair value measurements - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds - Valued at the daily quoted market prices as reported by the fund. The mutual funds held by the plan are registered with the U.S. Securities and Exchange Commission, are required to publish their daily net asset value and are deemed to be actively traded.

Common/collective trust - An investment that invests in the Invesco Stable Value Retirement Trust ("the trust") which is a direct filing entity. The trust invests primarily in bank, insurance company and other financial institution investment contracts. The trust also holds synthetic guaranteed investment contracts, which are portfolios of debt securities owned by the trust with wrap contracts associated with the portfolios. The trust is valued at the net asset value based on the underlying unit value as reported by the trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as set forth below.

Investments at fair value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Mutual funds	$8,024,108	$ -	$ -	$8,024,108

Investments measured at net asset value (a)				677,986

The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments (participant transactions (purchases and sales) may occur daily); the redemption notice period is applicable only to the plan.

2. DESCRIPTION OF PLAN

The following description of the plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General - The plan was established as a defined contribution plan on February 22, 1963. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Eligibility - Employees who have attained the age of eighteen, other than employees classified as temporary employees, are eligible to participate in the plan. Employees can enter the plan immediately upon attaining the age eighteen or immediately following the commencement of employment.

Contributions - Contributions to the plan can be made in the following ways:

a. Participants may contribute a percentage of their annual compensation subject to certain limitations (employee elective deferral contributions). The plan also permits Roth elective deferrals.

b. Employee rollover contributions are accepted by the plan from other qualified plans.

c. An employer matching contribution may be made equal to a discretionary percentage, determined by the employer, of the employee's elective deferral contribution. The discretionary percentage was 50% of the first 4% plus 25% of the next 1% of compensation that a participant contributes to the plan (maximum match of 2.25%) for 2017 and 2016.

d. Employer profit sharing contributions may be made at the employer's discretion. No profit sharing contributions were made for 2017 and 2016.

Participant accounts - Contributions are remitted to the custodian of plan assets who invests them in accordance with the investment options selected by the participants. The values of the investments are adjusted daily to reflect the earnings plus the fair value appreciation (depreciation). Participants are allowed to transfer funds between the various investment options and change their deferral percentage at any time.

Vesting - Participants are always 100% vested in their elective deferral, rollover and discretionary employer matching contributions and related earnings. Participants begin vesting in discretionary employer profit sharing contributions and related earnings upon two years of service at which time they are 20% vested. The participant then vests at the rate of 20% for each year thereafter. Upon death, disability or qualified retirement, participants become 100% vested.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability or attainment of normal retirement age. Participants may elect their distribution to be in the form of a single lump sum or installment payments. In-service withdrawals can commence upon attaining the age of 59½. Hardship withdrawals are permitted under certain circumstances.

Administrative expenses - Certain administrative expenses of the plan are paid by the employer.

Notes receivable from participants - Participants can take out loans against their accounts with the approval of the plan administrator. The minimum loan amount is $1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or $50,000. The repayment term generally cannot exceed 5 years, the exception being when the loan is for the purchase of a primary residence. As of December 31, 2017, loans outstanding had various repayment schedules through December 2026 with interest rates ranging from 4.25% to 5.25%. The notes receivable from participants are valued at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value.

3. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of funds managed by Bank of America, N.A. Bank of America, N.A. is the trustee that has custody of plan assets and, therefore, these transactions qualify as party-in-interest transactions. Direct fees paid by the plan for Bank of America, N.A. investment management services were $3,000 in 2017 and $2,000 in 2016. In addition, other indirect fees paid by the plan to Bank of America, N.A. are included as a reduction of the return earned on the funds. In 2016, the plan entered into an amended servicing agreement with Merrill Lynch in which Merrill Lynch provides certain administrative services to the plan. In connection with entering into this agreement the plan receives periodic rebates from Merrill Lynch. The rebates received are held in an unallocated suspense account and are generally used to pay plan administrative expenses. Rebates received, recorded as a component of other income in the accompanying 2017 statement of changes in net assets available for benefits, totaled $3,800 and are scheduled to be used in 2018 to reduce plan administrative expenses. Rebates received, recorded as a component of other income in the accompanying 2016 statement of changes in net assets available for benefits, totaled $5,000 and were used in 2016 to reduce plan administrative expenses. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the employer has the right to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer profit sharing contributions and related earnings.

5. INCOME TAX STATUS

The plan adopted the Merrill Lynch, Pierce, Fenner & Smith, Inc. prototype non-standardized profit sharing plan. This prototype plan received a favorable opinion letter on March 31, 2014, in which the Internal Revenue Service stated the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator has not obtained a separate Internal Revenue Service opinion or determination letter for the plan. However, the plan administrator and tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

6. INFORMATION CERTIFIED BY TRUSTEE

The trustee of the plan, Bank of America, N.A., holds the plan's investment assets and executes investment transactions. The trustee has certified the following information to be complete and accurate.

a. Investments held by the plan and the fair values of such as of December 31, 2017 and 2016;

b. Interest income, dividends and the net appreciation (depreciation) of investments during 2017 and 2016; and

c. Contributions to, withdrawals from, purchases, sales and interfund transfers between accounts during 2017 and 2016.

As allowed by Department of Labor regulations, the investments and investment activity have been excluded from the scope of the independent auditors' auditing procedures. All noninvestment activity for the plan, including contributions, benefit payments and participant account activity, has been subject to the independent auditors' auditing procedures. See independent auditors' report.

OHIO MEDICAL, LLC 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2017 through September 28, 2018, which is the date the financial statements were available to be issued.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Key parties of the plan - Ohio Medical, LLC ("OMC") is the plan sponsor/employer and plan administrator. Bank of America, N.A. is the trustee that has custody of plan assets. Merrill Lynch, Pierce, Fenner & Smith, Inc. Retirement Services ("Merrill Lynch"), an affiliate of Bank of America, N.A., is the plan's third party administrator that maintains participant records, tax counsel that performs various compliance tests and investment advisor.

Investments - The plan administrator determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options. The net appreciation (depreciation) in fair value of investments bought, sold and held during the years is reflected in the statements of changes in net assets available for benefits. Participants should refer to the prospectuses and annual reports of the investments for more information.

Fair value measurements - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds - Valued at the daily quoted market prices as reported by the fund. The mutual funds held by the plan are registered with the U.S. Securities and Exchange Commission, are required to publish their daily net asset value and are deemed to be actively traded.

Common/collective trust - An investment that invests in the Invesco Stable Value Retirement Trust ("the trust") which is a direct filing entity. The trust invests primarily in bank, insurance company and other financial institution investment contracts. The trust also holds synthetic guaranteed investment contracts, which are portfolios of debt securities owned by the trust with wrap contracts associated with the portfolios. The trust is valued at the net asset value based on the underlying unit value as reported by the trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as set forth below.

Investments at fair value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Mutual funds	$8,024,108	$ -	$ -	$8,024,108
Total investments in the fair value hierarchy	$8,024,108	$ -	$ -	8,024,108
Investments measured at net asset value (a)				707,544
Total investments at fair value				$8,731,652

Investments at fair value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Mutual funds	$7,024,548	$ -	$ -	$7,024,548
Total investments in the fair value hierarchy	$7,024,548	$ -	$ -	7,024,548
Investments measured at net asset value (a)				677,986
Total investments at fair value				$7,702,534

(a) In accordance with GAAP, certain investments that are measured at net asset value have not been classified in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments (participant transactions (purchases and sales) may occur daily); the redemption notice period is applicable only to the plan.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the employer has the right to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer profit sharing contributions and related earnings.
