Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Century Aluminum Sebree Hourly Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by SEI Private Trust Company (the "Custodian"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2017 and reportable transactions for the year ended December 31, 2017 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Note 1 - Plan Description

The following description of Century Aluminum Sebree Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering all hourly employees of Century Aluminum Sebree, LLC (the "Company") who are governed by a collective bargaining agreement containing provisions that allow for participation in the Plan. Full-time hourly employees are eligible to participate in the Plan upon date of hire. Part-time hourly employees who complete at least 1,000 hours of service in a consecutive 12-month period are also eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Contributions are made by the Company in order to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There were no required annual funding requirements in 2017 and 2016 based on ERISA funding standards.

Pension Benefits

Participants are entitled to a pension benefit after completing five years of eligibility service. Participants are entitled to normal monthly retirement benefits at the normal retirement age of 65. The normal retirement benefits are calculated based on a participant's years of continuous service multiplied by a monthly benefit level as provided in the Plan. The monthly benefit level was increased from \$42 to \$44 for retirement dates on and after July 17, 2014. Part-time employees shall receive a percentage of the normal monthly benefit based upon hours worked, as described in the Plan's provisions.

The Plan permits early retirement at age 60 provided the participant has completed at least 10 years of service. The early retirement benefit will equal the normal retirement benefit if (a) the retiree elects to defer benefits until normal retirement age or (b) the retiree retires on or after November 1, 2004 and has reached age 60 with 30 years of service. Otherwise, early retirement benefits will be reduced by 0.25 percent (0.50 percent for retirements prior to January 1, 2000) for each month the commencement of benefits precedes the normal retirement date.

The Plan also provides for disability retirement and preretirement spouse benefits for participants meeting certain age and length of service requirements.

Payment of Benefits

Pension benefits are paid in the form of various life annuities, as described by the Plan. For any eligible rollover distribution of \$5,000 or less, the participant may elect to receive his or her benefit payment in the form of a lump-sum payment. For participants with a lump-sum actuarial equivalent of their pension benefits of \$1,000 or less, their pension benefits will be automatically payable in the form of a lump sum.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by SEI Private Trust Company or its affiliates. SEI Private Trust Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The actuarial valuation was completed using the beginning-of-the-year method. Therefore, the accumulated plan benefits as of December 31, 2016 are presented from information provided by the actuary as of January 1, 2017. There has been no significant change in the Plan's provisions or coverage from December 31, 2016 to January 1, 2017.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2016 are summarized as follows:

Actuarial cost method	Unit credit actuarial cost method
Assumed rate of return	7.00 percent per annum
Mortality basis	RP-2014 Mortality Table (adjusted to 2006), with a blue collar adjustment, projected on a fully generational basis using the 2017 Social Security Administration (SSA) Improvement Scale
Incident of retirement	Rates increasing from 5 to 100 percent between ages 60 and 67 for active participants

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan, including custodial, retirement services, and Pension Benefit Guaranty Corporation (PBGC) fees and expenses. All other administrative costs are paid by the Company.

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 4, 2018, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

December 31, 2017 and 2016

Note 3 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at closing quoted prices reported in active markets.

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

U.S. Government Securities

The U.S. government securities are valued using closing quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2017				
	Investments (at Fair Value)	Level 1	Level 2	Level 3

Note 4 - Unaudited Information

SEI Private Trust Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and the supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Custodian.

December 31, 2017 and 2016

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from PricewaterhouseCoopers, LLP. The calculations of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the year ended December 31, 2016, the most recent actuarial valuation, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 47,796,584
Participants entitled to deferred benefits	1,534,027
Other vested participants	<u>14,350,042</u>
Total vested benefits	63,680,653
Nonvested benefits	<u>1,655,835</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 65,336,488</u></u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 65,297,049
Increase (decrease) during the year attributable to:	
Net benefits accumulated, including actuarial gains and losses	508,336
Interest due to the decrease in the discount period	4,407,244
Benefits paid	(4,753,236)
Changes in actuarial assumptions	<u>(122,905)</u>
Net increase	<u>39,439</u>
Actuarial present value of accumulated plan benefits - End of year	<u><u>\$ 65,336,488</u></u>

The change in actuarial assumptions line item above is the result of a change in the mortality tables to better reflect anticipated plan experiences. The mortality assumption was changed from the RP-2014 Mortality Table (adjusted to 2006), with blue collar adjustment, projected on a fully generational basis using Scale SSA 2016 to the RP-2014 Mortality Table (adjusted to 2006), with blue collar adjustment, projected on a fully generational basis using Scale SSA 2017.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding Purposes

1. Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of Plan Assets.

The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year plus expected expenses.

2. Asset Valuation Method

Smoothed Method:

Smoothed value method. Under this method the Plan Assets is equal to the average of the fair market value on the valuation date and the adjusted fair market value on each of the preceding two valuation dates, but not less than 90% nor more than 110% of the Fair Value of Assets. The adjusted fair market value as of any preceding valuation date is equal to the fair market value as of such date increased for contributions reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, decreased for benefits payments and expenses reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, and adjusted for expected earnings (not in excess of the third segment rate, with no phase-in, applicable to the corresponding valuation date).

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Assumptions Rationale

Valuation Interest rate	The interest rate assumption used is prescribed by IRC section 430(h), reflecting a 4 month look back period as elected by the plan sponsor.
Mortality	The mortality assumption used is prescribed by IRC section 430(h).
Disability Rates	The disability rate assumption was selected by management based on historical experience and future expectations for disablements.
Retirement Rates	The retirement rate assumption was selected by management based on historical experience and future expectations for retirements.
Withdrawal Rates	The turnover assumption was selected by management based on historical experience and future expectations for terminations.
Expected Return on Plan Assets	The Expected Return on Assets was selected by Century based on the Plan's asset mix and information from the Plan's asset advisors. We did not assess the reasonableness of this assumption as such an evaluation was not in scope.

Actuarial gains and losses resulting from plan experience differing from the assumptions above are monitored each year.
