Notes to Financial Statements

NOTE 1: PLAN DESCRIPTION

The following description of the Kastle Systems International LLC Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was established June 1, 1977, as the Kastle Systems, LLC Retirement Plan to provide retirement benefits for eligible employees of Kastle Systems LLC, the participating employer. The Plan was amended and restated as the Kastle Systems International LLC Retirement Plan on August 1, 2001. The restated Plan continues to be for the benefit of employees of Kastle Systems LLC, and includes employees of Kastle Systems International LLC, Kastle Philadelphia Joint Venture, Kastle New York LLC, Kastle Chicago LLC, Kastle Systems of Texas LLC, and Kastle Systems of Los Angeles PSP, (the “Company”).

The Plan is a defined contribution plan covering all employees who are eligible to participate, after meeting certain age and service requirements, except members of a collective bargaining unit where retirement benefits have been the subject of good faith bargaining. After meeting the eligibility requirements, employees can enter the Plan on the first day of each quarter. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was amended and restated as of January 1, 2016.

Contributions

Participants may contribute a percentage of their pretax annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified retirement plans. Effective January 1, 2016, newly hired eligible employees are auto-enrolled to make contributions of 2% of eligible compensation which auto-escalates by 1% annually up to a maximum of 6% of eligible compensation, unless they affirmatively elect not to participate in the Plan. Also, effective January 1, 2016, participants who are contributing less than 2% to the Plan, will be automatically enrolled at a 2% pre-tax deferral rate. Their contributions are invested in the America Funds Target Date Fund based on the year the participant was born until changed by the participant.

The Company may make a matching contribution and/or a profit sharing contribution to the Plan in addition to any salary reduction contributions. A profit sharing contribution of \$238,400 was made for the plan year ended December 31, 2017.

Kastle Systems International LLC Retirement Plan

Notes to Financial Statements

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, as well as allocations of the Company's profit sharing contribution, and Plan earnings. Participant accounts are charged with withdrawals, an allocation of administrative expenses and Plan's losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service, at 20% per year, beginning in the second year. A participant is 100 percent vested after six years of credited service.

Investment Options

The assets of the Plan, both employee and employer, are allocated to the various funds at the discretion of the participant. There are various investment options offered by the Plan. Participants may change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) participant's loan account. Loan term periods range up to five years and must be adequately secured. However, if the loan is for the purchase of the participant's residence, the loan repayment term may exceed five years. Each loan is secured by the balance in the participant's account and bear interest at a rate ranging from 4.25% to 5.59% per annum, which was determined by the Plan Administrator to be comparable to rates found at local lending institutions on the date the loan originated. Principal and interest are repaid in equal payments deducted from the employee's compensation payments.

Payment of Benefits

Upon separation of service due to death, disability, or termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. If the account balance is less than \$1,000, the distribution shall be paid in the form of a lump-sum payment. Benefits are recorded when paid.

Kastle Systems International LLC Retirement Plan

Notes to Financial Statements

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Forfeited Accounts

At December 31, 2017 and 2016, forfeited, non-vested accounts totaled \$4,736 and \$0, respectively. Forfeitures can first be used to pay administrative expenses. Forfeitures of matching contributions will be used to reduce future employer matching contributions. Forfeitures of profit sharing contributions will be re-allocated among participants in the plan year following the forfeiture. During 2017, forfeitures of \$5,498 were used to pay administrative expenses.

Income Tax Status

The Plan adopted a Prototype Non-Standardized Profit Sharing Plan which received an opinion letter dated September 1, 2014. The letter indicates that the Plan and related trust are designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). Any employer adopting this form of the plan will be considered to have a plan qualified under the IRC. Although the prototype plan has been amended since receiving the opinion letter; the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America ("U.S. GAAP") requires Plan management to evaluate uncertain tax positions taken by the Plan. The Plan administrators are not aware of any uncertain tax positions taken or expected to be taken.

Plan Termination

Although it has not expressed any intent to do so, the Company has the rights under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with U.S. GAAP.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Kastle Systems International LLC Retirement Plan Notes to Financial Statements

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in registered investment companies and a guaranteed investment contract which invest in various investment securities. Investment securities are exposed to various risks, including interest rate, market, and credit risks. Due to the level of the risks associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. There are no reserves against contract value for credit risk of the insurance company guaranteed interest accounts or otherwise.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes both realized and unrealized gains and losses on investments.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan pays all brokerage commissions and account maintenance fees.

NOTE 3: INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The following is a summary of unaudited information regarding the Plan as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included in the Plan's financial statements and the Schedule of Assets (Held at Year End), that was prepared by or derived from information prepared by Voya, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

Supplemental Schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board, Accounting Standards Codification 820, *Fair Value Measurements* ("ASC 820"), defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are observable as of the reporting date. These inputs include quoted prices for similar assets in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Kastle Systems International LLC Retirement Plan Notes to Financial Statements

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies: The registered investment companies are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial investments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

	2017	2016
Level 1 Investments		
Registered investment companies	\$ 17,615,350	\$ 13,711,990
Total investments, at fair value	\$ 17,615,350	\$ 13,711,990

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with Voya Retirement Insurance and Annuity Company ("VRIAC"). VRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Kastle Systems International LLC Retirement Plan Notes to Financial Statements

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value, which is contract value. Contract value, as reported to the Plan by the trustee, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Fixed Account is designed to offer plan participants a fixed rate of return with no risk of loss of principal. The insurance contract guarantees and returns are backed by the financial strength and assets held in the general account of Voya, whose investment policy has consistently restricted the purchase of its portfolio of corporate and government bonds to those that are investment grade.

There are no reserves against contract value for credit risk. The crediting interest rate is determined on a monthly basis by an actuarial formula, as designated by Voya. The crediting interest rate is subject to a guaranteed minimum floor, as defined on an annual basis by Voya.

If the contract is surrendered i.e. withdrawals are made for any purpose other than to pay benefits there may be a surrender charge and a market value adjustment.

NOTE 6: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by Voya and a guaranteed investment contract (Note 5) with Voya. Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2017, fees of \$15,314 were paid to Voya.

NOTE 7: DELINQUENT PARTICIPANT CONTRIBUTIONS

The Company determined that certain participant contributions had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. The amounts reported for the years ended December 31, 2017 were \$3,867. Although these remittances were made, they fell outside the normal processing time the Company allows. During 2018, the Company calculated lost earnings and deposited these funds into the Plan. The lost earnings are immaterial and thus not included in the accompanying financial statements.

Kastle Systems International LLC Retirement Plan Notes to Financial Statements

NOTE 8: SUBSEQUENT EVENTS

The Plan changed their trustee to Principal Life Insurance Company beginning July 1, 2018.

Management has evaluated subsequent events through October 10, 2018, which is the date the financial statements were available to be issued, and have determined, except as noted above, that there are no subsequent events that require disclosure under ASC 855, *Subsequent Events*.
