Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the Framebridge, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan was created and became effective on January 1, 2017. The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of ERISA. The Company's management is responsible for oversight of the Plan. The Company's management determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

In February 2017, participant balances totaling \$333,928 within the TriNet 401(k) Plan (the TriNet Plan) were transferred into the Framebridge, Inc. 401(k) Plan.

Contributions

Each year, participants may contribute up to the maximum allowed by the Internal Revenue Code (the IRC) of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company, at its discretion, may contribute to the Plan. For the year ended December 31, 2017, the Company did not make any matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. During the year ended December 31, 2017, the Company made no profit sharing contributions to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, and the Company's matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, plus actual earnings thereon. Vesting in the Company's contributions is based on years of continuous service. Participants vest ratably over six years of credited service, beginning with the second year of Plan participation, or in the event of death or total and permanent disability.

Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to (i) the lesser of \$50,000 reduced by the highest outstanding balance of any prior loans from the plan during the prior one-year period, or (ii) 50 percent of their vested account balance. In general, loan repayment terms range from one to five years, or longer for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator.

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account.

The Plan also provides for involuntary distribution of account balances for terminated participants with account balances of less than \$1,000. Participant accounts of terminated participants with balances above \$1,000 are distributed in either a lump sum amount or paid in a direct rollover to another qualified plan, or a combination of the above.

Forfeited Accounts

At December 31, 2017, there are no forfeited accounts. Forfeited accounts are utilized first to reduce Plan expenses and second to reduce employer contributions. Remaining forfeitures are allocated to participants in proportion to each participant's compensation for the year. No forfeitures were used to reduce Plan expenses or to reduce employer contributions during the year ended December 31, 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value, including the collective trust, which holds indirect investments in fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance. See Note 5 for additional information related to fair value measurements.

Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

The Plan's shares of mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at each year end. The investment in the collective trust is valued at NAV per unit, as determined by the trustee at year-end. The NAV is used as the practical expedient to estimate fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Concentrations of Significant Investments

As of December 31, 2017, the Plan's significant investments are as follows:

		Percent of investments, at fair value
T. Rowe Price Retirement 2050	\$ 220,057	22.6%
T. Rowe Price Retirement 2040	138,879	14.2%
T. Rowe Price Retirement 2045	128,019	13.1%
T. Rowe Price Stable Value	123,376	12.7%
Fidelity Mid Cap Index Fund Premium Class	97,687	10.0%

Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

4. Information Certified by Reliance Trust Company (Reliance Trust)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31, 2017

Investments, at fair value:	
Mutual funds	\$ 851,010
Collective trust fund	123,376

Year Ended December 31, 2017

Investment income:	
Net appreciation in fair value of investments	\$ 54,884
Interest and dividends	29,465

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

Assets at Fair Value as of December 31, 2017						
	Total	Fair Value Hierarchy Level				
		Level 1	Level 2	Level 3		
Investments by fair value level:						
Mutual funds	\$ 851,010	\$ 851,010	\$ -	\$ -		
Total assets at fair value level	851,010	\$ 851,010	\$ -	\$ -		
Total investments measured at net asset value (NAV)*						
Collective trust fund	123,376					
Total investments	\$ 974,386					

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2017:

Description	2017 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust fund	\$ 123,376	\$ -	Immediate	Daily

6. Investment in Collective Trust

The Plan holds an investment in a collective trust, specifically the T. Rowe Price Stable Value Fund (the "stable value fund"). The stable value fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds and may include derivative instruments such as futures contracts and swap agreements to provide daily liquidity. The investment contract issuers seek to preserve the principal investment and earnings, but cannot guarantee that they will be able to do so. The stable value fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There are no reserves against contract values for credit risk of the contract issuers or otherwise.

Framebridge, Inc. 401(k) Plan

Notes to the Financial Statements

7. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by T. Rowe Price. T. Rowe Price is the recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment. The Plan Sponsor pays any other fees related to the Plan's operations.

8. Income Tax Status

The IRS has determined and informed the Company by a letter dated June 1, 2015 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 2, 2018, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
