NOTE A - DESCRIPTION OF THE PLAN

The following description of the Del West USA 401(k) Retirement Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of Del West USA and related entities (collectively, the "Company") who have completed one month of service and attainment of age 21. Employees covered under a collective bargaining agreement and non-resident aliens are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 17, 2017, the Company terminated their contract with John Hancock Life Insurance Company (USA) and transferred substantially all of its assets to Massachusetts Mutual Life Insurance Company.

In December 2013, the Company terminated their contract with Great-West Life & Annuity Insurance Company as recordkeeper and custodian of the Plan. As a result, effective March 18, 2014, the Plan transferred substantially all of its assets to John Hancock Life Insurance Company USA. The Plan maintained its investment in the Guaranteed Portfolio Fund with Great-West Life & Annuity Insurance Company to avoid termination contract fees.

2. Contributions

Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan provides for transfers from other qualified plans.

The Company may make matching contributions as a dollar amount or a percentage of the participant's deferrals that is uniformly determined by the Company. The Company may also make a discretionary non-elective contribution in an amount determined by the Company, based on employee classification. Each participant is a separate class. For the years ended December 31, 2017 and 2016, the Company did not make matching or non-elective contributions to the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

3. Investment Options

Upon enrollment in the Plan, a participant may direct employee and Company contributions as desired, in any of a variety of investment options made available by the custodians of the Plan. Participants may change their investment options daily.

4. Participant Accounts

Each participant's account is credited with the participant's contributions, matching contributions, if any, and allocations of the Company's discretionary non-elective contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participant accounts is based upon years of continuous service. Participants vest 20% per year after two years of service, and are fully vested after the completion of six years.

6. Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at 1% over the prime rate. Principal and interest are paid ratably through payroll deductions and must be repaid within five years of the date of issuance in accordance with terms established by the plan administrator. Loans for the purchase of a principal residence may be paid back over a reasonable period of time that may not exceed ten years. The maximum number of loans a participant may have outstanding is one.

7. Payment of Benefits

Upon termination of service, a participant will be entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon reaching normal retirement age, a participant will receive 100% of the participant's account balance. Subject to certain ERISA provisions, a participant may take a hardship withdrawal from his or her account.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may be used to reduce future Company contributions or pay Plan expenses. At December 31, 2017 and 2016, outstanding forfeitures were not material.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and the assets of the Plan would be distributed to the participants based on each individual participant's interest.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

2. Plan Administration

The Company is the plan sponsor and the plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note D for discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan invests in pooled separate accounts and a fixed annuity with underlying mutual funds holding stocks in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Administrative expenses incurred by the Plan's custodians and other service providers in performance of their duties are paid from the assets of the Plan. Investment related expenses are included in net appreciation of fair value investments. Substantially all other out-of-pocket administrative expenses of the Plan are paid by the plan sponsor. Expenses paid by the plan sponsor are excluded from these financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE C - INFORMATION CERTIFIED BY CUSTODIANS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (USA), Massachusetts Mutual Life Insurance Company, and Great-West Life & Annuity Insurance Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule:

- Investments and notes receivable from participants reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016
- Net investment income and interest income on notes receivable from participants reflected in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017
- Investments and notes receivable from participants reflected in the Schedule of Assets (Held at End of Year)

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts (except for the John Hancock Stable Value Fund): The net asset value (NAV) of these accounts is based on the market value of their underlying investments. The NAV is not a publicly quoted price in an active market.

John Hancock Stable Value Fund pooled separate account: Included in pooled separate accounts is the John Hancock Stable Value Fund Collective Investment Trust (the "Trust"). The Trust invests primarily in fully benefit-responsive investment contracts and is valued at the net asset value of participation units in the Trust. The net asset value is based on the market value of the underlying investments. The John Hancock Stable Value Fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

Fixed annuity contract: The Guaranteed Portfolio Fund is a fixed annuity contract with Great-West Life & Annuity Insurance Company (Great-West). Fair value is determined using a discounted cash flow valuation methodology where the interest rate is reset at least as frequently as annually. All inputs are generally considered obtainable/observable through review of existing contracts and readily available financial information. The fixed annuity contract provides a guarantee of principal and a guaranteed quarterly interest rate and is backed by the general account assets of Great-West. Fair value prior to contract termination, equals the contract value. The interest rate to be credited to the entire value of the fixed annuity contract will be determined by Great-West prior to the last day of each calendar quarter and will be effective for the following calendar quarter. The effective annual interest rate will not be less than zero. Participants may transfer funds from the fixed annuity contract at any time. The Plan may terminate the fixed annuity contract upon providing a 30 day notice to the issuer.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy:				
Fixed annuity contract	$ -	$ 54,838	$ -	$ 54,838
Investments measured at net asset value [(a)]				1,510,565
Investments at fair value				$ 1,565,403

Assets at Fair Value as of December 31, 2016

	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy:				
Fixed annuity contract	$ -	$ 54,241	$ -	$ 54,241
Investments measured at net asset value [(a)]				1,209,201
Investments at fair value				$ 1,263,442

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively. Participant-directed transfers to other investment options are generally limited to two per calendar month.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,510,564	n/a	Daily[(b)]	None[(b)]

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,209,201	n/a	Daily[(c)]	None[(c)]

(b) Participants are generally limited to one financial transaction per day.

(c) Although participant transactions may generally occur daily, participant withdrawals from the John Hancock Stable Value Fund pooled separate account may be subject to a delay of up to 7 or 30 additional calendar days if it is determined, that such delay is necessary to maintain adequate liquidity for, or to avoid an adverse impact on, the underlying trust or investment vehicle. In addition, the fund's declaration of trust provides that withdrawals for purposes other than normal benefit payments or plan permitted investment option transfers are subject to either a market value adjustment, or without a market value adjustment effected no later than 12 months. These events may include, but are not limited to, the following: mergers, layoffs, plan termination, implementation of early retirement incentive programs, additional investment options are established that constitute a competing fund, or other events within the control of the plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the contract.

NOTE E – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds an investment that meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus credited interest, less participant withdrawals, and administrative expenses. The following represents the traditional investment contract held by the Plan:

	2017	2016
Fixed Account	$ 63,632	$ -

NOTE E – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (Continued)

The traditional investment contract is a fixed annuity contract. The fixed annuity contract is guaranteed by Massachusetts Mutual Life Insurance Company. Under the contract, the minimum guaranteed interest rate is re-determined annually. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1 percent. During the year ended December 31, 2017, the minimum guaranteed interest rate was 1 percent. The contract does not allow transfers and surrenders of the fixed account value prior to contract discontinuance if the amount exceeds 1/6th of the fixed account value in any 12 month period, unless consent is obtained from the contract holder. The restriction does not apply to participant benefit payments.

Certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: 1) the Plan is disqualified; 2) a breach of material obligation under the contract; 3) the assets held become less than the amount required under the contract; or 4) a material amendment to the agreement without consent to the issuer. Generally, in the event of a full contract discontinuance, Massachusetts Mutual Life Insurance Company will pay out the assets within 90 days from the date they receive written notice of discontinuance. The Plan sponsor does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value is probable.

NOTE F - TAX STATUS

The Company adopted a volume submitter profit sharing plan (volume submitter plan) with CODA, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the volume submitter plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator and Plan's advisors believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Administration errors, if any, that are insignificant or operational in nature, are handled by the plan administrator in accordance with applicable IRS correction policies. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2014.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Massachusetts Mutual Life Insurance Company, Great-West Life & Annuity Insurance Company and John Hancock Life Insurance Company (USA), the Plan's custodians. These transactions qualify as party-in-interest transactions. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

NOTE H - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through October 10, 2018, the date the financial statements were available to be issued.

Effective January 1, 2018, the Plan removed Gamma Technology, LLC as a participating employer due to a change in control of the entity.
