1. Description of the Plan

The following description of the Linebarger Goggan Blair & Sampson and its Affiliates Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Linebarger Goggan Blair & Sampson, LLP (the "Company") serves as the Plan Sponsor.

General

The Plan was originally adopted and effective January 1, 1981, as a defined contribution plan qualified under Section 401(k) of the Internal Revenue Code (the "Code"), covering substantially all full-time employees of the Company, and any eligible employee of an affiliated employer who has adopted the Plan. The Plan was formally amended and restated effective January 1, 2007. The Plan has since been amended to comply with several legislative changes effective January 1, 2010 and a new prototype plan agreement was adopted on February 3, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the Company who have completed at least 6 months of service and who are age 21 or older are eligible to participate in the Plan. Effective March 3, 2014, the Plan implemented an automatic enrollment feature whereby all eligible employees, who do not explicitly opt-out, are enrolled in the plan at a 3% contribution rate.

Contributions

Each year, eligible employees may contribute up to 50% of their annual compensation, as defined by the Plan, up to the maximum percentage allowable, not to exceed the limits as determined by the Code, through payroll deductions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions), and they may also contribute catch-up contributions for participants who have attained age 50 before the end of the plan year. Participants direct the investment of their contributions into various investment options offered by the Plan, which include a common/collective trust and registered investments. The Company may make a matching contribution up to 50% of the portion of each participant's salary deferral contribution up to an amount equal to 6% of a participant's plan year compensation. No matching contributions were made during 2017. The Company may also make a discretionary contribution at least annually. Discretionary matching contributions of $500,000 were approved by the Plan Sponsor for the years ended December 31, 2017 and 2016. Forfeitures of $17,247 were applied toward the discretionary matching contributions in 2017. The remaining contributions balance of $487,907 is reflected as employer contributions receivable on the statement of net assets available for benefits as of December 31, 2017. The remaining contributions balance of $491,941 is reflected as employer contributions receivable on the statement of net assets available for benefits as of December 31, 2016.

1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contributions, and an allocation of Plan earnings and losses thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested in the Company's matching and discretionary contribution after four years of credited service, at 25% per year.

Participant Loans Receivable

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment from (to) the participant loans receivable. Loan terms range from one to five years, or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined quarterly by the Plan administrator. In 2017 the rates ranged from 4.25% to 5.65%. Principal and interest are paid ratably through semi-monthly payroll deductions. Participant loans receivable are stated at the unpaid principal balance, plus accrued interest. No allowance is recorded as the loans are secured by the participant's account balance.

Payment of Benefits

Upon termination of service due to death, disability, retirement (at age 65), or any other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Account balances that are under $1,000 may be automatically paid out at the discretion of the Company. Balances between $1,000 and $5,000 may be transferred to an IRA, also at the discretion of the Company.

Forfeitures

As of December 31, 2017 and 2016, no forfeited non-vested account balances existed as these funds were used to reduce employer discretionary matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. See note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Plan Expenses

Expenses incidental to the administration of the Plan, such as administrative services, are paid by the Company and are excluded from these financial statements. The Plan pays certain expenses related to participant requested services, such as distribution fees.

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

Investments Values at Net Asset Value

In May 2015, FASB issued ASU No. 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or its Equivalent).* The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016. The adoption of the new standard did not have a material effect on the Plan's net assets or changes in net assets.

3. Fair Value Measurements

The accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of its investments:

Money Market Funds: Shares of money market funds are stated at cost, which approximates fair value.

Mutual funds: The fair value of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

3. Fair Value Measurements (Continued)

Self-directed brokerage accounts: Self-directed brokerage accounts are accounts that are managed by the individual participants and offer the participants the option of investing in funds within the plan investment options and outside the plan investment options. All investments are valued at fair value. All expenses and income associated with the participant's elections and activity are recorded at the individual participant level. As of December 31, 2017 and 2016, the self-directed brokerage accounts contained the following make up:

Investments at Fair Value:	2017	2016
Interest bearing cash	$ 138,934	$ 206,630
Common stock	1,230,446	573,243
Unit investment trust	153,040	15,590

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2, or 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value, or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Fair Value Measurements at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investments, at fair value	$ 73,298,198	$ -	$ -	$ 73,298,198
Self-directed brokerage accounts	-	1,522,435	-	1,522,435
Total Assets at Fair Value	$ 73,298,198	$ 1,522,435	$ -	$ 74,820,633

4. Information Certified by the Plan's Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank ("Charles Schwab") has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2017	2016
Money market funds	$ 5,386,703	$ 5,499,815

The Plan's independent auditors did not perform audit procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their deferral contributions.

6. Income Tax Status

The Company adopted a prototype plan document sponsored by Schwab Retirement Plan Services, Inc. (Schwab). Schwab received an opinion letter from Internal Revenue Service dated June 9, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Service Code. The Plan itself has not received a determination letter from Internal Revenue Service. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code, and therefore believes that the Plan is tax exempt. Therefore, no provision for income taxes has been included in the financial statements.

US GAAP requires Plan management to evaluate tax provisions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be substantiated by the taxing authorities. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2014.

7. Parties-in-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by Charles Schwab Trust Company and affiliates qualify as party-in-interest transactions.

8. Subsequent Events

The plan administrator evaluated events or transactions that occurred after December 31, 2017, and through October 11, 2018, the date the financial statements were available to be issued.
