Notes to the Financial Statements

December 31, 2017 and 2016

(1) Description of Plan

The following is a brief description of the Cargill, Incorporated and Associated Companies Pension Plan for Production Employees (the Plan). Participants should refer to the plan document for more complete information.

(a) General

The Plan is a defined-benefit pension plan designed to provide benefits to eligible employees. The Plan sponsor is Cargill, Inc. (the Company) and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers certain nonunion production employees who have attained age 21 and completed one year of service. Under the terms of the Plan, participants are entitled to monthly benefits upon reaching age 65, the normal retirement age. Any participant with five years of continuous service is entitled to a vested benefit. Participants who qualify may elect to receive a reduced early retirement benefit. Participants who qualify and are approved for disability retirement do not take a reduction for early commencement of their benefit.

The Plan is administered by the Company. The Cargill, Inc. People Team has overall responsibility for plan design and operations except to the extent it has delegated such responsibilities. Plan Investment oversight is provided by the Cargill, Inc. Pension Investment Committee, which has responsibility for establishing investment strategy and monitoring investment performance. Both committees report to the Cargill, Inc. Board of Directors.

(b) Funding Policy

The funded status of the Plan is continually monitored by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to fund pension benefits to Plan participants. Contributions to the Plan are determined by the actuary using the Unit Credit method. The Company's contributions for 2017 and 2016 equaled or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. During 2016, the Company made a contribution of \$5,500,000. No contributions were made in 2017.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(c) Pension Benefits

The retirement benefit is computed by multiplying the years of credited service by the benefit level stated in the plan document. The benefit is payable in a monthly annuity beginning at age 65 unless the employee terminates employment after age 55 with 10 years of service in which case the employee is eligible for an early retirement benefit. Any participant with five years of 1,000 hours of service per year is entitled to a vested benefit. The Plan was closed to new participants effective March 1, 2014.

Effective December 31, 2018, the Plan will cease benefit accruals for all active participants and all participants will cease earning benefits.

AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to the Financial Statements

December 31, 2017 and 2016

(d) Death and Disability Benefits

If an employee dies and has a surviving spouse or domestic partner (of at least one continuous year), the benefit is payable to the surviving spouse or domestic partner as an annuity for his or her lifetime. The surviving spouse benefit is payable at the employee's earliest retirement date, which is age 55 if the employee had 10 or more years of service). The benefit is payable to a domestic partner beginning the year following the employee's death or as a lump sum if the employee is not at least age 50 at date of death. An active employee who becomes disabled after obtaining age 45 with 10 years of service is eligible for a disability benefit. If they remain disabled until normal retirement age, they will no longer need to be disabled to continue receiving the benefit.

(2) Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual amounts could differ from those estimates.

(c) Risks and Uncertainties

The Plan has investments across a range of investment strategies. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates and the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(d) Investments and Income Recognition

The Company established, effective September 3, 1985, a master trust fund (the Master Trust) with the Plan Trustee for its pension plans.

**CARGILL, INCORPORATED
AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to the Financial Statements

December 31, 2017 and 2016

The purpose of the Master Trust is to pool investment transactions and achieve uniform rates of return on comparable funds under each plan in the Master Trust. Each plan deposits investable funds in the Master Trust and each owns an undivided interest in the net assets of the Trust. The Plan's investment in the Master Trust represents its pro rata interest in the net assets of the trust. The unaudited financial statements of the Master Trust are separately filed with the Department of Labor (note 7).

Transactions and assets of the Master Trust are accounted for separately from those of the Plan. Securities transactions are recognized on the date the order to buy or sell is executed. Net appreciation and depreciation of investments include realized and unrealized gains and losses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Cargill, Inc. Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See note 8 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Derivatives

Derivative financial instruments are used by the Master Trust's investment managers primarily to rebalance the fixed income and equity allocation of the Master Trust's portfolio. The derivatives most commonly used by the investment managers are highly liquid exchange traded equity and fixed-income futures. The fair value of the derivative instruments, none of which are accounted for as hedge instruments under Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 815, *Derivatives and Hedging*, is included in the Master Trust's statement of assets under plan interest in inventory income of the Master Trust. The use of derivative instruments is not believed to materially increase the credit or market risk of the Master Trust's investments.

(f) Payments to participants

Payment of benefits to participants is recorded upon distribution.

(g) Administrative Expenses

Some expenses are paid out of the Master Trust by the Plan Trustee. Any expenses that are directly incurred by the Plans, such as Pension Benefit Guaranty Corporation (PBGC) insurance premiums, actuarial fees, and audit fees are allocated to the plans based on actual costs. These expenses totaled \$650,332 and \$908,567 for 2017 and 2016, respectively. Expenses incurred by the Master Trust, such as trustee and investment management costs, are allocated to the individual plans based upon beginning of month balances invested in the Master Trust. These expenses totaled \$448,244 and \$662,243 in 2017 and 2016, respectively. Certain plan administration costs are absorbed by the plan administrator.

(h) Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The requirements of the standard are effective for fiscal years beginning after December 15, 2016 with early adoption permitted. ASU 2015-07 was adopted retrospectively as of January 1, 2017. The adoption of ASU 2015-07 resulted in comparative figures for certain investments to be reclassified from the levelling table to the Net Asset Value category.

In February 2017, the FASB issued Accounting Standards Update 2017-06, *Employee Benefit Plan Master Trust Reporting*. The new guidance will require employee benefit plans to report an interest in a master trust and the change in the value of that interest as separate line items on the statement of net assets available for benefits and the statement of changes in net assets available for benefits, respectively. Employee benefit plans will also have to disclose the master trust's investments and other assets and liabilities, as well as the amount of its interest in these balances. Any investments measured at fair value will be presented by general type of investment. The Plan will adopt the new guidance on January 1, 2019.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to service rendered by employees. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts have been reduced from plan assets and removed from the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits, including both vested (benefits to which participants are entitled, regardless of future service with the Company) and nonvested benefits, is determined as of the beginning of the plan year by the independent actuarial firm Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements for death, disability, termination, or retirement) between the valuation date and expected dates of payment.

**CARGILL, INCORPORATED
AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to the Financial Statements

December 31, 2017 and 2016

Significant assumptions used in the valuation of the Plan's actuarial present value of accumulated plan benefits include (a) withdrawal and disability rates based upon past experience; (b) assumed mortality rates based upon published statistical data using the MRP-2016 table projected using Scale MMP-2016 for preretirement and the MILES (Mercer Industry Longevity Experience Study) for the Consumer Goods, Food & Drink industry group projected using Scale MMP-2016 for postretirement; (c) assumed retirement age varies from 55 to 65; (d) assumed rate of return of 6.90% and 7.20% for 2017 and 2016, respectively; and (e) assumed inflation rate of 2.20% and 2.50% for 2017 and 2016, respectively.

(4) Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date. In the event the Plan terminates, the benefit of any Highly Compensated Employee (and any Highly Compensated Former Employee), as defined in the Plan, is limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code (IRC).

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with plan assets, will satisfy all benefits accumulated to the date of the plan termination.

(5) Purchases of Annuity Contracts

In May 2016, the Plan entered into a purchase agreement with Metropolitan Life Insurance Company (MetLife) to purchase annuity contracts that transferred to MetLife the pension benefit obligations in the amount of \$28,785,000. Effective August 1, 2016, MetLife assumed the obligation to make future annuity payments to certain Cargill retirees. The plan did not recognize any actuarial experience gain or loss on the annuities as actuarial assumptions were not changed when determining the amount to pay for the annuities contracts on behalf of participants.

(6) Information Certified by Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the Trust fund, and collects the related investment income.

Notes to the Financial Statements

December 31, 2017 and 2016

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets, liabilities, and income of the Plan and Master Trust as of and for the years ended December 31, 2017 and 2016 as outlined in the following table:

	<u>2017</u>	<u>2016</u>
Plan interest in Cargill Master Trust:		
Investments at fair value	\$ 91,228,739	78,283,061
Investment income	12,777,651	6,681,618
Cargill Master Trust:		
Investments at fair value	\$ 2,848,255,794	2,361,723,508
Investment income	390,873,089	191,909,784

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certification from the Plan Trustee.

(7) Interest in Master Trust

Most of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Cargill, Incorporated and Associated Companies sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Plan Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income, including realized and unrealized gains and losses, less actual distributions, and allocated administrative expenses. As of December 31, 2017 and 2016, the Plan's interest in the net assets, including realized and unrealized gains and losses, of the Master Trust was approximately 3.2% and 3.3%, respectively. Investment income related to the Master Trust is allocated to the individual plans based upon beginning of the month balances invested in the Plan.

Notes to the Financial Statements

December 31, 2017 and 2016

The Master Trust has \$1,054,124,772 of investments in alternative investment funds, which are reported at Net Asset Value (NAV). The NAV is used as a practical expedient to estimate the fair value of the investment. Such investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the Master Trust's interests in the funds.

The following table summarizes the redemption terms and objectives for Master Trust alternative investments, which were measured at fair value using the NAV as a practical expedient as of December 31, 2017.

Private equity	217,624,160	137,115,974	Return enhancement and portfolio diversification.	Redemption not permitted. For these investments, the Master Trust receives distributions through liquidation of underlying assets over their remaining life of up to 10 years.

(8) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis for fair value measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices of similar or identical assets in markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

Notes to the Financial Statements

December 31, 2017 and 2016

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present the level within the fair value hierarchy at which the Master Trust investment assets are measured on a recurring basis as of December 31, 2017 and 2016.

Notes to the Financial Statements

December 31, 2017 and 2016

- (1) Individual securities held directly whose values are based on quoted prices in active markets in which they trade (Level 1), and individual securities held through Collective Investment Trusts where the securities are valued based on quoted prices but the Trust is not actively traded (Level 2).
- (2) Individual securities whose value is based on the quoted NAV.
- (3) As a result of the application of ASU 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. It consists of investments reported at NAV, including public equities, real estate, private equity, and hedge funds. Real estate includes debt and equity investments in U.S. and non-U.S. securities. Private equity includes debt and equity investments in U.S. and non-U.S. securities across buyouts, growth capital, distressed debt, mezzanine debt, and venture capital. Real estate and private equity valuations require significant management judgment due to the absence of quoted market prices. Hedge fund investments are diversified by manager, geography, and strategy. Hedge funds are valued based on quoted market prices as determined by the fund administrator.
- (4) Short-term investment funds are valued using the NAV provided by the fund administrator to participants in the fund only. As such, they are classified as Level 2 within the fair value hierarchy.

The Plan did not significantly change valuation techniques from the prior period.

The Master Trust and the Plan did not have significant transfers between Levels 1 and 2 during the years ended December 31, 2017 and 2016. It is the Plan's policy to recognize transfers between levels of the fair value hierarchy on the date of the event or change in circumstances that caused the transfer.

(9) Tax Status

The Plan obtained its latest tax determination letter on April 6, 2017, in which the Internal Revenue Service stated that the Plan qualified under Section 401(a) of the Internal Revenue Code (IRC) and the Trust created thereunder is exempt from federal income taxes under Section 501(a). The Plan has been amended since this determination letter. However, the Company believes the Plan continues to meet the requirements of Section 401(a) of the IRC and that the related trust is exempt from income tax under Section 501(a) of the IRC. Therefore, no provisions for income taxes have been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(10) Party-in-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Plan Trustee is a party in interest as defined by ERISA as a result of its investing plan assets in certain of their funds. The Master Trust, a master trust established by the plan administrator, is a party in interest as defined by ERISA as a result of the Plan purchasing participation units of the Master Trust. The transactions described above are exempt under Section 408(b)(8) and are not prohibited by ERISA.

(11) Subsequent Events

The Plan has evaluated subsequent events from December 31, 2017 through October 8, 2018, the date at which the financial statements were available to be issued, and determined that there are no items to disclose.

RATIONALE FOR ECONOMIC ASSUMPTIONS – FUNDING

- Discount rate – Prescribed by the IRS and based on the company's current elections.
- Expected investment return – This assumption is based on the expected return developed by applying expected future returns from the Mercer Investment Consulting Capital Markets Outlook and the Mercer January 2017 PRC based on the plan's target asset mix provided by Cargill as of December 31, 2016.
- Expenses – Based on the actual administrative expenses from the prior year (excluding the PBGC premiums paid in the prior year) plus expected PBGC premiums for the current year.

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS – FUNDING

- Mortality – Prescribed by the IRS.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Withdrawal** – Withdrawal rates are based on an experience study undertaken in 2010 using data from 2000-2009 and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- **Disability incidence** – Based on plan's historical experience, an assumption of no disability incidence has historically been used for the plan. This assumption is reviewed annually and has not produced significant gains or losses.
- **Retirement age** – Retirement rates are based on an experience study undertaken in 2010 using data from 2000-2009 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Form of payment** – Based on a plan experience study completed in 2008.

ACTUARIAL METHODS FOR FUNDING**Asset Methods – Effective January 1, 2009**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods – Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum Funding Methods – Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

SUMMARY OF MAJOR PLAN PROVISIONS

Effective date and plan year	Original plan: January 1, 1964 Restated plan: Effective January 1, 2015 Plan year: January 1 to December 31
Most recent amendment	Amendment adopted December 15, 2016.
Status of the plan	The Plan is closed to new entrants (i.e., employees hired, rehired or transferred into an eligible position on or after March 1, 2014 are not eligible for the plan) and provides future benefit accruals for active participants. Effective December 31, 2018, credited service and benefits will be frozen.
Significant events that occurred during the year	Effective July 1, 2016, by the amendment adopted on December 15, 2016, the non-union hourly production employees of the Cargill Feed & Nutrition business group are no longer eligible employees. An annuity buyout agreement was completed on May 31, 2016 with MetLife.
DEFINITIONS	
• Eligibility	The Plan covers non-union production employees who have attained age 21 and completed one year of service. The Plan also covers non-union PPD employees (excluding supervisors) who attained age 21 and completed one year of service prior to July 1, 1992. Schedule SB, Part V — Summary of Plan Provisions

PRE-RETIREMENT DEATH	
• Eligibility	A Vested Participant who dies before benefit commencement and who has a surviving spouse.
• Benefit	The spouse is entitled to the benefit that would be payable if the Participant had separated from service on the date of death, survived to the earliest commencement date, commenced benefits on a 50% Joint and Survivor benefit, and then died one day after the earliest commencement date. Vested employees, upon attaining age 55, may elect 100% Joint and Survivor coverage rather than the automatic 50% coverage. This additional coverage, if elected, is paid for by the Participant by reducing the Accrued Benefit. Effective January 1, 2008, active Participants are covered under the 100% Pre-Retirement Survivor Annuity with no additional cost to the Participant.
FORM OF BENEFITS	
• Automatic form for unmarried participants	Single Life
• Automatic form for married participants	100% Joint and Survivor
• Optional forms	Single Life, 10 Year C&L and 50% and 100% Joint and Survivor; lump sum up to \$25,000.
• Optional form conversion factors	Optional annuity forms of benefit are the actuarial equivalent of the normal form; effective January 1, 2013, actuarial equivalence is based on the RP2000 mortality table (blended 50% males and 50% females, projected to 2020 using Scale AA) and an interest rate of 5% (optional form cannot be less than accrued benefit as of December 31, 2012 based on the prior factors); lump sums based on applicable 417(e) mortality and interest rates (fourth month preceding the plan year)
MISCELLANEOUS	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2017 the limit is \$215,000.

*Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through December 15, 2016, are included in this valuation.

- **Most recent plan amendments included:** Amended and restated plan document adopted December 15, 2016.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active employees over age 65 are valued including accruals after age 65.

- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
