Report on the financial statements

We were engaged to audit the accompanying financial statements of Retirement Plan for Employees of Ohio Gas Company (the “Plan”), which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits – modified cash basis for the years then ended and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 4, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2017 and 2016, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Supplementary information

The supplemental schedules – modified cash basis of assets (held at end of year) as of December 31, 2017 and reportable transactions for the year ended December 31, 2017 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 4, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(Modified Cash Basis)

NOTE 1 – DESCRIPTION OF PLAN

General

The Retirement Plan for Employees of Ohio Gas Company (the “Plan”) is a defined benefit pension plan established to provide pension benefits to Ohio Gas Company (the “Company”) employees identified in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Effective December 31, 2010, the Plan was frozen which suspended the accrual of future service benefits and no employees shall be eligible to enter the Plan after December 31, 2010. The following is a brief description of the Plan and its respective provisions. Participants should refer to the Plan document for more complete information.

Plan Administration

The Plan is administered by the Ohio Gas Company Benefits Committee (the “Benefits Committee”). Principal Trust Company (“Principal”) serves as the Plan’s custodian which administers the investments. The Plan’s assets are held by Principal and Principal is the administrator of the Plan’s contributions and disbursements.

Participation

Employees were generally eligible to participate in the Plan upon completion of one year of service and attainment of age 21. One year of service is defined as a twelve-month period in which an employee completes at least 1,000 hours of service.

Funding Policy

Contributions to the Plan are based upon a valuation performed by an independent actuary. The amounts are calculated to provide for whatever benefits are not covered by the Plan’s current assets and the estimated future earnings thereon. Contributions are at least equal to the minimum funding required under ERISA. Annually, an independent actuary is utilized to determine the Plan’s funding requirements. The minimum funding requirement was \$189,580 for 2017 and \$0 for 2016.

Vesting

Participants are 100% vested after completing five years of service, with no vesting before the end of the five year period.

Pension Benefits

In accordance with the Plan provisions, employees are entitled to monthly pension benefits beginning at the normal retirement age (65), which are equal to the greater of the average of the last five year’s salary multiplied by specified rates or specified rates multiplied by “salary earned,” as defined in the Plan. The normal form of benefit is a life annuity; however, married participants will receive a 50% joint and survivor annuity unless elected otherwise. Early retirement benefits are based upon service accrued and “salary earned” up to age 55 and are reduced by an early retirement factor. Subject to the provisions set forth in the Plan, spouses are entitled to a lifetime benefit of up to 100% of the accrued benefit upon the death of an active member.

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Plan Termination Priorities

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan is terminated, the assets of the Plan will be allocated as prescribed by the Plan document and by ERISA and its related regulations, generally to provide accrued benefits to the date of such termination to the extent that such benefits have been funded under the Plan, or to the extent that such benefits are insured by the Pension Benefit Guaranty Corporation (the “PBGC”).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under covered plans and the amount of the benefit protection is subject to certain limitations.

The Company consulted with their legal team, Plan Trustee and Grant Thornton at various times throughout the year related to the potential termination of the Plan. These consultations were preliminary in nature and liquidation is not imminent. A plan for termination of the Plan has not been approved by those with the authority to make such a plan effective.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting certain income and the related assets are recognized when received rather than when earned and certain expenses and the related liabilities are recognized when paid rather than when the obligation is incurred.

New Accounting Guidance

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07 – *Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. This standard simplifies employee benefit plan reporting and disclosures. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments are effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. The Plan adopted this guidance as of December 31, 2017, and has applied this guidance retrospectively, as required.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recognized when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (See Note 8) are those future periodic payments that are attributable under Plan provisions for service that participants have rendered. Such benefits include those expected to be paid to retired or terminated employees, beneficiaries of employees who have died, and present employees. The accumulated plan benefits for active employees are calculated according to a formula based upon the employees' compensation and years of service rendered to December 31, 2010, the date the Plan was frozen to future benefit accruals. Benefits to be provided via annuity contracts excluded from plan assets have also been excluded from accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan pays all costs to the custodian for investment management services. The Company pays substantially all other costs of Plan administration.

NOTE 3 – FAIR VALUE MEASUREMENTS

In accordance with the FASB guidance regarding fair value, a hierarchy is established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy defines three levels of inputs that may be used to measure fair value.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2017 and 2016

(Modified Cash Basis)

NOTE 3 – FAIR VALUE MEASUREMENTS - CONTINUED

Level 1 – Unadjusted quoted prices in active markets for identical unrestricted assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 – Unobservable inputs that reflect the entity's own assumptions about the assumption market participants would use in the pricing of the asset or liability and are consequently not based on market activity but rather through particular valuation techniques.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2017 and 2016:

Mutual funds – Valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

Pooled separate accounts – The fair value of the pooled separate accounts is measured using the NAV per unit based on the redemption value as determined by the custodians based on the fair value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement result at the reporting date.

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN’S CUSTODIAN

Information certified by Principal includes investments held and their fair values as reported in the Statements of Net Assets Available for Benefits; investment income (loss) as reported in the Statements of Changes in Net Assets Available for Benefits; and all investment related information included in the supplemental schedules. No auditing procedures were performed by the independent certified public accountants with respect to the information which was certified as complete and accurate by Principal.

NOTE 5 – RELATED PARTY TRANSACTIONS

The Plan’s investments include pooled separate accounts which were invested with or managed by the custodian or a related entity to the custodian and, therefore, qualify as party-in-interest transactions. Fees to the custodian for investment management services were paid by the Plan and amounted to \$110,902 and \$108,422 for the years ended December 31, 2017 and 2016, respectively.

NOTE 6 – TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated February 16, 2017, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Plan management must evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 8 – ACCUMULATED PLAN BENEFITS

The Company utilizes an independent actuary to determine the actuarial present value of accumulated plan benefits. The actuarial present value of accumulated benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the estimated date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2016 is as follows:

Vested benefits:	
Participants currently receiving benefits	\$ 10,600,414
Other participants	6,327,220
	<u>16,927,634</u>
Non-vested benefits	<u>113,617</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 17,041,251</u>

The following factors affected changes in the actuarial present value of accumulated plan benefits from December 31, 2015 to December 31, 2016:

Actuarial present value of accumulated plan benefits as of December 31, 2015	\$ 16,019,800
Benefits accumulated and plan experience	(185,366)
Increase for interest due to decrease in the discount period	1,007,347
Benefits paid	(1,061,016)
Change in assumptions	1,260,486
Net increase	<u>1,021,451</u>
Actuarial present value of accumulated plan benefits as of December 31, 2016	<u>\$ 17,041,251</u>

The following is a summary of significant actuarial assumptions used in the calculation of the accumulated Plan benefit information:

Rates of Mortality	2016 – RP-2014 Mortality Table, MP-2016 scale 2015 – RP-2014 Mortality Table, MP-2014 scale
Discount Rate	2016 – 5.60% 2015 – 6.50%
Retirement Age	Based upon normal retirement age.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

(Modified Cash Basis)

NOTE 8 – ACCUMULATED PLAN BENEFITS – CONTINUED

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2017. Had the valuation been performed as of December 31, 2016 there would be no material difference. The change in the discount rate and mortality projection scale resulted in an increase in accumulated plan benefits for the year ended December 31, 2016 of \$1,260,486.

NOTE 9– SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2017, financial statements for subsequent events through October 11, 2018, the date the financial statements were available to be issued. On August 13, 2018 the Company made a discretionary contribution to the Plan in the amount of \$4,500,000 that relates to the 2017 plan year.

The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements, other than the matter disclosed above.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Retirement Plan for Employees of Ohio Gas Company
EIN 34-4320120 Plan No. 001

Assumptions prescribed by law

Mortality	During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
------------------	--

Assumptions selected by actuary

Inflation	2.00% increase per year. See Long-Term Capital Market Assumptions link.
Asset return	6.05% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in <u>Plan provisions</u> . This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

Marriage	80% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.								
Withdrawal	Table T-3 as found in The Actuary's Pension Handbook. Selected rates of withdrawal are shown below: <table><tr><th>Age</th><th>Rate of withdrawal</th></tr><tr><td>25</td><td>5.27%</td></tr><tr><td>40</td><td>3.84%</td></tr><tr><td>55</td><td>0.33%</td></tr></table> This assumption has been used in the past and produced small gains or losses.	Age	Rate of withdrawal	25	5.27%	40	3.84%	55	0.33%
Age	Rate of withdrawal								
25	5.27%								
40	3.84%								
55	0.33%								
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.								
Retirement cost of living adjustment	2.00% per year Retirement Cost of Living Adjustment should be consistent with the inflation assumption, not to exceed 3.00% as defined by the plan.								
Methods prescribed by law									
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.								
HCE benefit payment restrictions	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: - any retiree benefit index or floor - amounts for HCEs who were previously restricted - an amount for the retiring HCE The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.								

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made. Include if a small plan in 2014 or later (and now large

Segment rates

Years 0-5	Years 5-20	Years 20+
2.04%	4.03%	4.82%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

EIN 34-4320120 Plan No. 001

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on RP-2006 mortality table projected to future years with historical and assumed mortality improvement (MI) rates using the Principal Mortality Improvement Scale (PFG2012-10).

RP-2006 is a baseline mortality rates table underlying the SOA RP-2014 experience study as of central year of the experience data for 2004-2008 years. The Principal Mortality Improvement scale is based on the SOA MI model RPEC_2014_v2016 and Principal-selected assumption set published November 2016. For detailed rationale please see full [Mortality documentation](#).

Interest rate used to value liabilities

5.60%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Schedule SB, Part V - Summary of Plan Provisions
Retirement Plan for Employees of Ohio Gas Company
EIN 34-4320120 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 01/26/2016 including amendments through number 38.

Plan eligibility

Age	Attained age 21 (prior to 01/01/1981, attained age 25).
Service	One year of service in which at least 1,000 hours worked (prior to 1/1/1976, two years of service).
Class	An employee of the employer who is not a leased employee.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The sum of A. plus B. A. 1.75% of compensation for each year of service after 01/01/1981. B. The retirement benefit accrued as of 01/01/1981. Minimum Amount: 0.9% of average compensation not in excess of the covered compensation plus 1.45% of average compensation in excess of covered compensation, times service (maximum 40 years). On and after 12/31/2010, all future benefit accruals are frozen.

Cost of living adjustment

Eligibility	All retired participants or beneficiaries of retired participants who are entitled to income payments under this plan. The cost of living is based on January 1, 1990 accrued benefits.
Price index	The Consumer Price Index for the fourth month prior to a given anniversary date.
Adjustment factor	The price index on the current adjustment date divided by the price index on the last preceding adjustment date. In no event will the adjustment factor be greater than 1.03
Change in monthly retirement income	The new monthly income will be the current payment multiplied by the adjustment factor.

Early retirement benefit

Age Attained age 55.
Form Same as normal retirement benefit
Amount Accrued benefit on early retirement date reduced for each year that the early retirement date precedes normal retirement date.

<u>Number of years</u>	<u>Percentage</u>	<u>Number of years</u>	<u>Percentage</u>
1	92.1%	6	63.6%
2	85.1	7	59.4
3	78.8	8	55.7
4	73.2	9	52.2
5	68.1	10	49.1

Late retirement benefit

Age No maximum age.
Form Same as normal retirement benefit.
Amount Employed Participants: Accrued benefit on late retirement date.
Other Participants: The actuarial equivalent of the accrued benefit that would have been paid on normal retirement date.

Termination benefit

Vesting percentage 100% after five years of vesting service.
Form Same as normal retirement benefit with income deferred until normal retirement date.
Amount Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit (the greater of A. or B.)

A. Active participant death benefit (a non-vested benefit)

Eligibility Qualified married participant
Form Monthly annuity payable to spouse at participant's date of death
Amount If death occurs, the amount paid to the surviving spouse is equal to the accrued benefit on date of death reduced by 0.5% for each year, if any, by which the spouse is more than five years younger than the participant but not below 40%

B. Qualified pre-retirement survivor annuity (a vested benefit)

Eligibility Qualified married participant fully or partially vested in an accrued benefit.
Form Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death

Amount If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day

Definitions

Average compensation The monthly average of total pay received for the 5 consecutive years out of the 10 latest years before retirement date which gives the highest average.

Integration level The monthly average of the social security taxable wage base in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year the employee attains social security retirement age.

Optional forms of benefit payments The optional forms of benefit payments are:

Monthly annuity payable for life and 10 years certain and life

Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100

Social Security Adjustment Option

The optional form conversion basis is 2.5% interest and the 1951 Group Annuity Mortality Table for optional forms other than certain and life and lump sums. The 1951 Group annuity mortality table is set back 6 years for the plan participant and 1 year for the joint payee. The certain and life optional form conversion basis is 2.5% interest and the 83 GAM (50/50) mortality table. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.
