INDEPENDENT AUDITORS' REPORT

To the Willis Towers Watson U.S. Benefit Plans Administration Committee and Plan Participants:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Willis North America Inc. Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Wells Fargo Bank, N.A., the trustee, as of and for the years ended December 31, 2017 and 2016, and Russell Trust Company, a custodian of the Plan, for the period January 1, 2017 to June 30, 2017 and as of and for the year ended December 31, 2016, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee and custodian for 2017 and 2016, that the information provided to the plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the Table of Contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WILLIS NORTH AMERICA INC. PENSION PLAN
Notes to the Financial Statements
As of and for the Years Ended December 31, 2017 and 2016

1. DESCRIPTION OF THE PLAN

The following description of the Willis North America Inc. Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s information.

General — The Plan is a defined benefit pension plan sponsored by Willis North America Inc. (the “Company”), a subsidiary of Willis Towers Watson plc, and covers employees of the Company, including employees of adopting subsidiaries, some of which had predecessor defined benefit retirement plans (the “Predecessor Plans”) which have elected to transfer the net assets of their Predecessor Plans to the Plan. The Benefit Plans Administration Committee of the Company controls and manages the operation and administration of the Plan. Wells Fargo Bank, N.A. (the “Trustee”) serves as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective December 1, 2017, approximately 1,000 retired Plan participants, and assets and accumulated plan benefit obligation totaling \$23,940,821 and \$17,775,194, respectively, were transferred from the Plan to the Willis Towers Watson Pension Plan for U.S. Employees (“the WTW Plan”).

Effective May 15, 2009, the Plan was amended to freeze participants’ plan benefits. As a result, the total benefits for each employee will only reflect benefit service and compensation each employee earned through May 15, 2009. The employees’ service subsequent to this date will continue to count for the purpose of determining the employees’ vested status, eligibility for early retirement, and eligibility for certain death benefits under the Plan.

Contributions and Vesting — Generally, all employees of the Company and its subsidiaries who were at least 21 years old and who were hired by December 31, 2006, and have completed one year of service, were eligible to participate in the Plan. Temporary employees who were at least 21 years old and who had completed 1,000 hours of service prior to January 1, 2007, were also eligible to participate in the Plan.

Effective January 1, 2007, no new employees were permitted to participate in the Plan. All Plan participants are now vested. Contributions are based on the actuarially determined amounts required to provide for participants’ benefits under the Plan, after considering earnings of the Plan’s assets. There were no employer contributions made for 2017 and 2016 as the Company met the minimum funding requirements of ERISA for each of the respective years.

Normal retirement age under the Plan is 65, with early retirement permitted if the participant is 55 and has 10 years of vesting service. If participants were hired before January 1, 2005, retirement benefits are calculated as a percentage of compensation for the average of the five consecutive calendar years during the last 15 years of employment which produce the highest average. If participants were hired on or after January 1, 2005, retirement benefits are calculated at 1.75% of eligible compensation for all periods in which benefit service is earned. Participants in the Plan may elect to receive the value of their Plan benefits in the form of one of several annuity methods.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from these estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk, and overall market volatility. Due to the level of risk

WILLIS NORTH AMERICA INC. PENSION PLAN
Notes to the Financial Statements
As of and for the Years Ended December 31, 2017 and 2016

associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements. The Plan invests in certain commingled trust funds and an individual money-market fund whose respective fair values at December 31, 2017 are in excess of 10% of the Plan's net assets available for benefits at December 31, 2017.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. The Plan follows the guidance of Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), which establishes a framework for measuring fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 5 for a discussion of fair value measurements.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes net gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Contributions Receivable — Contributions receivable are amounts due from the Company as of the date of the financial statements, including legal and contractual obligations or obligations resulting from a formal commitment.

Administrative Expenses — Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. The Plan sponsor provides accounting and other administrative services to the Plan.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the employees' compensation and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following presents the significant actuarial assumptions used in the valuation of the Plan's accumulated plan benefits as of December 31, 2016 and 2015. The actuarial present value of accumulated plan benefits at December 31, 2017 and 2016 are presented using a beginning of year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of January 1, which is a proxy for December 31 for each respective year presented. The effect of Plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1 recognized in the actuarial present value of accumulated plan benefits included below. The transfer related to the WTW Plan (see Note 1) became effective on December 1, 2017 and resulted in a decrease to the accumulated plan benefit obligation of \$17,775,194.

	December 31, 2016	December 31, 2015
Mortality	RP-2014 Mortality Table ⁽¹⁾	RP-2014 Mortality Table ⁽¹⁾
Interest discount assumptions	7.25%	7.25%
Average retirement age	63	63

⁽¹⁾ The special disability mortality tables specified in Internal Revenue Service ("IRS") Revenue Ruling 96-7 were used for disabled participants.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2016 is summarized as follows:

Actuarial present value of accumulated plan benefits -

Vested benefits:

Participants currently receiving payments	\$ 391,387,809
Other participants	293,053,957
Total vested accumulated benefits	<u>684,441,766</u>

Nonvested benefits ⁽¹⁾	<u>3,510,405</u>
-----------------------------------	------------------

Total actuarial present value of accumulated plan benefits	<u>\$ 687,952,171</u>
--	-----------------------

⁽¹⁾Nonvested benefits includes the following: (a) early retirement benefits and supplements in excess of standard termination benefits for participants who have not yet satisfied the eligibility requirements for such benefits, and (b) death benefits in excess of the Plan's qualified pre-retirement survivor annuity.

WILLIS NORTH AMERICA INC. PENSION PLAN
Notes to the Financial Statements
As of and for the Years Ended December 31, 2017 and 2016

A summary of the change in the accumulated plan benefits for the year ended December 31, 2016, is as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2015	\$ 680,390,495
Changes during the year due to:	
Benefits accumulated	—
Actuarial gains	73,087
Increase for interest due to the decrease in the discount period	47,864,678
Benefits paid	(40,376,089)
Assumption changes	—
Net increase	<u>7,561,676</u>
Actuarial present value of accumulated plan benefits as of December 31, 2016	<u>\$ 687,952,171</u>

Effective May 15, 2009, an amendment was passed which froze the Plan. At the time of the amendment, the projected benefit obligation became equal to the accumulated benefit obligation, and will remain so in future years. Another by-product of the freeze on net benefit cost is that gains and losses are now amortized over the expected future lifetime of Plan participants, rather than over expected future service of active participants.

4. INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

The following is a summary of the unaudited information regarding the Plan as of December 31, 2017 and 2016, and for the years then ended, included in the Plan's statements of net assets available for benefits, statements of changes in net assets available for benefits and supplemental schedules, that were prepared by or derived from information prepared by the Trustee (and, with respect to the information for the period January 1, 2017 to June 30, 2017 and as of and for the year ended December 31, 2016, Russell Trust Company) and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

5. FAIR VALUE MEASUREMENTS

The Plan follows the guidance of ASC 820, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- c) Inputs other than quoted prices that are observable for the asset or liability; and

WILLIS NORTH AMERICA INC. PENSION PLAN
Notes to the Financial Statements
As of and for the Years Ended December 31, 2017 and 2016

- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Short-term Securities — These consist of foreign cash balances which are valued at the amount held and translated on the reporting date based on prevailing exchange rates.

Government Securities — Valued at the closing price reported in the active market in which the security is traded.

Corporate Debt — The corporate debt investments classified as level 1 have been valued at the closing price reported in the active market in which the debt instruments are traded. The corporate debt investments classified as level 2 have been valued using pricing models using observable inputs for similar securities.

Money Market Funds — Valued at the closing price reported on the active market on which the individual securities are traded.

Common Stock — Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trusts — Valued at the net asset value of units of a bank collective trust. The net asset value as provided by the Trustee (or, with respect to such investments for the period January 1, 2017 to June 30, 2017 and as of and for the year ended December 31, 2016, Russell Trust Company) is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported asset net value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual Funds — Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Total assets measured at fair value	<u>\$ 296,856,385</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 757,883,987</u>

⁽¹⁾Certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

6. NET ASSET VALUE PER SHARE

The Plan's common collective trusts have a reported net asset value of \$500,137,182 and are composed of five funds at December 31, 2017. The fair values of the investments have been estimated using the net asset value of the investment. The funds have a redemption notice period ranging from one to 30 days. There are no redemption restrictions on these funds and no unfunded commitments.

The Plan's common collective trusts had a reported net asset value of \$461,027,602 and were composed of 14 funds at December 31, 2016. The fair values of the investments were estimated using the net asset value of the investment. There were no redemption restrictions or a redemption notice period on these funds and there were no unfunded commitments.

7. INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated December 4, 2017, that the Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Transactions with parties-in-interest include various funds managed by the Trustee (and, with respect to transactions for the period January 1, 2017 to June 30, 2017 and as of and for the year ended December 31, 2016, Russell Trust Company). Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee and for investment management services were \$1,844,542 and \$2,079,730 for the years ended December 31, 2017 and 2016, respectively. These amounts are included as part of administrative expenses on the statements of changes in net assets available for benefits.

 Plan Sponsor: Willis North America Inc.
 Valuation Date: January 1, 2017

Schedule SB, Part V – Statement of Assumptions and Methods

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year, as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation and the dates that are 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.25% (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Part V – Statement of Assumptions and Methods

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative “and investment” expenses	Administrative expenses are estimated by using average historical actual expenses paid from the trust the preceding year plus the expected change in the PBGC premium from the prior year.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement and Termination	<p>Retirement and termination rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement and termination rates differ by age because of observed differences in retirement and termination rates by age.</p>
Form of payment and timing	The timing and form of payment assumptions have been based upon observed experience from the plan.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Change in Assumptions and Methods

Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements, as required by IRC §430.</p> <p>The administrative expense assumption was updated to better reflect anticipated future experience.</p>
Change in methods since prior valuation	None

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Plan Provisions

Effective May 15, 2009, benefit accruals were frozen under the legacy Willis benefit formulas.

Covered Employees All non-union employees who were covered employees as of December 31, 2006.

Non-US employees as of December 31, 2006 who subsequently transfer to become US employee shall become a participant as of the date of transfer up to May 15, 2009 when the plan was frozen.

Employees of the Carter Insurance Group ("Carter") who became employees as a result of the acquisition of Carter assets as of December 31, 2006 became a participant as of that date.

Definitions

Vesting Service Number of years and completed months.

Benefit Service All periods of service from the later of the employment commencement date and January 1, 1976. For an employee as of January 1, 1976, Benefit Service also includes the last period of continuous service as of December 31, 1975 that would have been Benefit Service under this plan. Any credited severance periods after February 1, 2006 shall not be included. No Benefit Service shall be provided after May 15, 2009.

Annual Compensation Base pay plus commissions and production incentive pay.

Average Compensation Annual Compensation for the five consecutive years out of the last fifteen which produces the highest average. Effective January 1, 2009, no further increases in compensation are recognized. For participants hired or re-hired in 2005 and 2006, Annual Compensation is not averaged.

Breakpoint \$34,000; the Breakpoint in any year will not exceed a participant's annual Social Security Compensation for that year.

Normal Retirement Date (NRD) Attainment of age 65.

Accrued Benefit Using the Average Compensation and Breakpoint as of the date of termination (or as of May 15, 2009 if earlier), the product of (1) and (2) below:

(1) 1.2% of Average Compensation plus 0.65% of Average Compensation in excess of the Breakpoint multiplied by the lesser of 30 years of Benefit Service and service at the later of Normal Retirement Date and the date of determination; plus 0.3% of Average Compensation multiplied by service at the later of Normal Retirement Date and date of determination in excess of 30 years

(2) The ratio of Benefit Service as of the date of determination over Benefit Service at Normal Retirement Date (maximum 1)

In no event shall the resulting benefit be less than \$690 times years of benefit service as of the date of determination.

Form of payment For employees hired or re-hired in 2005 or 2006 1.75% of annual compensation for all periods during which service is earned.

Life annuity with 5 years certain

Schedule SB, Part V – Summary of Plan Provisions

Eligibility for Benefits

Normal retirement	Retirement on Normal Retirement Date.
Early retirement	Attainment of age 55 with 10 years of vesting service.
Vested termination	Termination for reasons other than death or retirement after completing 5 years of vesting service. At age 60, an actively employed participant is 100% vested regardless of service.
Disability	Disability occurring while actively employed with ten years of vesting service. No participant will become eligible for disability benefits after May 15, 2009.
Preretirement death benefit	(1) Death while actively employed, age 60 or completed 5 years of vesting service. (2) Terminated with a vested deferred benefit, but before commencement.

Benefits Paid Upon the Following Events

Normal retirement	Accrued Benefit determined as of NRD.
Early retirement	Participants who retire after age 60 with at least 25 years of benefit service are eligible to begin receiving unreduced benefits commencing immediately. For other participants, the Accrued Benefit as of Early Retirement Date, reduced by 5% for each year by which the Early Retirement Date precedes the Normal Retirement Date
Vested termination	Accrued Benefit as of the date of termination multiplied by the applicable vesting percentage. If commencing prior to Normal Retirement Date, the Accrued Benefit shall be reduced by 5% for each year by which the commencement date (no earlier than age 55) precedes the Normal Retirement Date.
Disablement	Accrued Benefit with Benefit Service calculated as of the later of Normal Retirement Date of the date long-term disability benefits cease (assuming continued employment) and Average Compensation calculated as of date of termination. Benefit payable commencing at later of normal retirement date or date long-term disability benefits cease. Ten years of Vesting Service is required to be eligible for this benefit. No Vesting Service will be earned or imputed after May 15, 2009 towards disability benefits.

Schedule SB, Part V – Summary of Plan Provisions

Preretirement death For active participants with ten or more years of Vesting Service or age 65 or over and terminated vested participants who separated from service after attaining age 55 with ten or more years of Vesting Service: 50% of the Accrued Benefit as of the date of death of the participant, commencing immediately and continuing for the remaining lifetime of the spouse.

Effective January 1, 1999, for active participants at least age 55 with at least ten years of vesting service or terminated vested participants who separated from service after attaining age 55 with ten or more years of Vesting Service, an optional benefit is available: the Accrued Benefit, actuarially adjusted for the 100% joint and survivor payment form and early commencement, if applicable, payable upon the participant's death. A participant who elects this optional death benefit will have his or her Accrued Benefit reduced to reflect the period the coverage is effective.

For all other vested participants not yet receiving benefits: 50% of the Accrued Benefit, actuarially adjusted for the 50% joint and survivor payment form and early commencement, if applicable, payable commencing on the earliest date the participant could have retired, to the surviving spouse and continuing for the remaining lifetime of the surviving spouse.

Other Plan Provisions

Pension Increases None

Plan participants' contributions None

Maximum on benefits and pay All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining minimum and maximum contributions.

For participants who were active and whose Annual Compensation exceeded the applicable maximum pay as of or prior to that date, their Accrued Benefit shall be equal to the greater of the basic Accrued Benefit described above or (1) or (2) below:

- (1) The Accrued Benefit determined above plus the product of (a) and (b) below:
 - (a) 1.5% of Average Compensation multiplied by the number of years at Normal Retirement Date during which Annual Compensation exceeds the applicable pay limit (counting only years after 199e up to a maximum of 15 years).
 - (b) The ratio, not exceeding 1, of years after 1993 as of the date of termination in which Annual Compensation exceeded the applicable pay limit over years as of Normal Retirement Date in which Annual Compensation would exceed the applicable pay limit, assuming a continuation of the current Annual Compensation level.
