NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Texas Pipe & Supply Co., Ltd. 401(k) Plan (the Plan) was adopted effective January 1, 1971 to establish a savings and investment plan for the exclusive benefit of the employees of Texas Pipe & Supply Co., Ltd., Dodson Global Inc., SIMI, and Energy Metals, Inc. (the Company) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2016, the Plan recordkeeper was changed to Fidelity Workplace Services from Great West and the trustee was changed to Fidelity Trust Management Company (FTMC) from Great-West Trust Company, LLC (GWTC). In this transfer to FTMC, the plan adoption agreement was amended and restated with substantially the same provisions. Any significant changes have been documented at the related paragraphs under Note B.

Plan Acquisition - The Company acquired Dodson Global, Inc. (Dodson) on July 31, 2014.

Effective January 1, 2016, Dodson terminated the Dodson Global Employees' Retirement Plan. Upon termination of the plan, all of the participants were immediately fully vested in the benefits provided pursuant to the Dodson Global Employees' Retirement Plan and the trustee of the Dodson Global Employees' Retirement Plan was directed to distribute the assets of the Dodson Global Employees' Retirement Plan to the eligible participants.

Pursuant to the terms of the Texas Pipe & Supply Co., Ltd. 401(k) Plan, participants in the Dodson Global Employees' Retirement Plan who continued employment of the Company following the acquisition of Dodson were provided the opportunity to transfer the distributions from Dodson Global Employees' Retirement Plan. Plan assets of $6,376,202 from Dodson's plan were transferred into the Texas Pipe & Supply Co., Ltd. 401(k) Plan during 2016.

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP), which is acceptable under the Department of Labor Rules and Regulations. Interest and dividend income are recognized when earned. Purchases and sales of securities are recorded on a trade date basis.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of Investments - Investments in registered investment companies and the common/collective trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating such investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statements of changes in net assets available for plan benefits.

The Key Guaranteed Portfolio Fund (the Guaranteed Interest Contract) is presented at contract value on the statements of net assets available for plan benefits. Fully benefit-responsive investments are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Benefit-Responsive Fund - The Guaranteed Interest Contract invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment, for the portion of net assets attributable to fully benefit-responsive investment contracts, from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

All of the asset-backed contracts held by the Guaranteed Interest Contract are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the Guaranteed Interest Contract in the event of a termination or non-participant directed withdrawal, transfer or loan. The risk of this event happening is not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider of the Key Guaranteed Portfolio Fund is unable to meet the terms of the contract.

Participant Loans Receivable - Loans to participants are reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Subsequent Events - The Plan has evaluated subsequent events through October 8, 2018, the date the financial statements were available to be issued. No subsequent events occurred which would require disclosure or adjustment to the financial statements at December 31, 2017.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A resident non-union employee is eligible to become a participant in the Plan after being credited with 2 months of service and having attained the age of 21. Entry dates into the Plan are the first day of each month. An employee must complete 1,000 hours of service to be eligible to receive employer matching and safe harbor contributions.

Contributions - Participants may elect to make contributions to the Plan in an annual amount ranging from 1% to 50% of their compensation and may change their deferral rate at the first day of each month. Contributions are made through authorized payroll deductions. These contributions by individual employees were limited to $18,000 in 2017. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($6,000 for 2017). This limitation is periodically adjusted to reflect cost-of-living increases. The Plan also permits after tax (Roth) contributions.

The Company will contribute a safe harbor 401(k) matching contribution up to 4% of each eligible employee's compensation. Eligible employees were required to make a salary deferral contribution to receive the safe harbor contribution. For each Plan year, the Company may also make an additional discretionary matching contribution, in an amount determined solely by the Directors of the Company not to exceed 4% of each participant's eligible compensation. Such additional discretionary matching contributions, if any, are allocated pro rata based on compensation to all participants. There were no discretionary contributions during 2017 and 2016.

Vesting - All participants are 100% vested in their contributions and company safe harbor contributions and related earnings. A participant is vested in any additional discretionary matching contributions and related earnings at 20% upon one year of service, 40% upon two years of service, 60% upon three years of service, 80% upon four years of service and 100% upon five years of service.

Forfeitures of account balances not fully vested will be applied to reduce matching contributions and administrative expenses. Forfeited balances applied to reduce employer matching contributions amounted to $2,379 and $8,535 for the years ended December 31, 2017 and 2016, respectively. The unused forfeiture balance at December 31, 2017 and 2016 amounted to $-0-.

Form of Benefits - Benefits are recorded when paid. Benefits may be payable as a lump sum distribution. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

The Plan Administrator established an individual IRA solution to which each participant's account balance in the Plan subject to the automatic rollover provisions of the Internal Revenue Code section 401(a)(31)(B) (account balances less than $5,000 but greater than $1,000) can be distributed as a direct rollover from the Plan to the IRA provider.

NOTE B PLAN DESCRIPTION (CONTINUED)

Participant Loans - Participants requesting a plan loan must have a minimum vested account balance of $2,000. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may have a maximum of two loans outstanding at any given time. Loan transactions are treated as a transfer between investment funds and participant loans receivable. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on loans outstanding at December 31, 2017 and 2016 range from 4.25% to 6.25%. Principal and interest is typically paid ratably through payroll deductions.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Each participant account is credited with the participant's contributions, the Company's contributions and a pro rata share of the earnings and expenses of each fund in which the participant has invested.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan administrative expenses were paid by the Company for 2017 and 2016.

NOTE C INCOME TAX STATUS

The Company adopted a Volume Submitter Profit Sharing/401(k) Plan (Volume Submitter Plan) with a deferral arrangement. The Volume Submitter Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Volume Submitter Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). The Volume Submitter Plan has been amended since the opinion letter was obtained. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2017, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2014 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

NOTE D PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE F FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 - Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 - Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, or similar techniques for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used during 2017 and 2016.

Registered investment companies are valued at the net investment value of shares held by the Plan at year end.

The Common/Collective Trust is valued at net asset value which is calculated at fair value of the underlying investments less operating expenses of the trust on a per share basis.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total

Total Investments at Fair Value	$ 21,708,538	$ 1,372,296	$ -	$ 23,080,834

There were no significant transfers in and/or out of the fair value categories during 2017 and 2016.

NOTE G PARTY-IN-INTEREST

The Plan invests in various funds offered by FTMC for the years ended December 31, 2017 and 2016, respectively. These investments are considered party-in-interest transactions because FTMC acted as the trustee of the Plan at December 31, 2017 and 2016, respectively. The Plan Administrator has approved of these investment options.
