Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

WHITE CASTLE PENSION PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016

Plan Description

The following brief description of the White Castle Pension Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information. Copies of this document are available from the plan administrator.

General

The Plan is a non-contributory defined benefit plan covering substantially all the employees of White Castle System, Inc. and Subsidiaries (the Corporation and Plan Sponsor) who meet certain eligibility requirements set forth in the plan agreement. The Plan provides for certain retirement, death and disability benefits to participants based on the participants' earnings and years of service. All contributions by the Corporation and Plan earnings are for the exclusive benefit of participants in the Plan and their beneficiaries, and no part of the Plan can be recovered by the Corporation until all promised benefits have first been paid.

Contributions

The contributions of the Corporation are made in cash, based upon actuarial projections, in amounts sufficient to fund the Plan's prior service costs within legal requirements. At December 31, 2017 and 2016 the minimum funding requirements, as set forth by the Employment Retirement Income Security Act of 1974, as amended (ERISA), have been met.

Pension Benefits

Participants are eligible for normal monthly retirement benefit payments upon reaching age 65 and are 100% vested in the normal monthly retirement benefit payments after five years of service. Effective January 1, 2016, the Plan implemented a soft freeze, such that employees hired on January 1, 2016 or after are not eligible to participate in the Plan.

The Plan provides retirees with monthly benefit payments based on average monthly compensation, as defined in the plan document, and years of credited service. In addition, deferred and immediate early retirement, disability, deferred withdrawal benefits and optional forms of benefit payments are available under certain circumstances. During 2016, the Plan was amended to permanently freeze the Plan, such that eligible participants would no longer accrue benefits under the Plan after December 31, 2016.

As defined in the plan document, a death benefit shall be paid to the beneficiary or surviving spouse of a participant who dies while employed.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect certain reported assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include discounted notes purchased from United States government agencies with a remaining term of less than three months at the date of purchase. The Plan maintains its cash and cash equivalents at financial institutions, and at times, balances may exceed federally insured limits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For additional disclosure regarding fair value of investments, see the *Fair Value Measurements* footnote herein.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All costs and expenses incurred with regard to the purchase, sale or transfer of investments and other assets in connection with the operation of the Plan and certain professional fees are borne by the Plan. Expenses such as those related to the creation and the continuing existence of the Plan, amending and revising the Plan and liability insurance premiums are borne by the Corporation.

Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actual present value of the estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and for active employees are based on employees' compensation during the five consecutive years having the highest total compensation during their last ten years of credited service.

The Plan's consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated Plan Benefits

Actuarial present value of accumulated plan benefits as of January 1, 2017 is as follows:

Vested benefits:	
Participants currently receiving benefits	\$ 46,093,963
Other participants	137,150,879
	<hr/>
	183,244,842
Non-vested benefits	20,541,980
	<hr/>
Total actuarial present value of accumulated plan benefits	<hr/> \$ 203,786,822 <hr/>

WHITE CASTLE PENSION PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016

Accumulated Plan Benefits (continued)

The changes in accumulated plan benefits for the year ended January 1, 2017 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 184,658,543
Increase (decrease) during the year attributed to:	
Benefits accumulated	19,104,236
Benefits paid	(13,975,455)
Assumption changes	1,109,500
Interest	12,889,998
Net increase	19,128,279
Actuarial present value of accumulated plan benefits at end of year	\$ 203,786,822

Significant assumptions underlying the actuarial valuation are as follows:

Assumed discount rate	4.50%
Investment return	7.25%
Normal retirement date	Varying rates by age, service and employment status
Mortality table	RP-2014 Blue Collar Annuitant/Non-Annuitant Tables

The assumed discount rate was changed from 4.75% at January 1, 2016 to 4.50% at January 1, 2017. The effect of the change has been included in the accumulated plan benefits shown above. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 Level 3 are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- Mutual Funds:* Valued at quoted market prices for the number of shares held by the Plan at year-end.
- Cash Value of Life Insurance:* Valued at the amount that could be realized under the insurance contract if the policy was surrendered.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual funds and the cash surrender value of life insurance were considered to be Level 1 and Level 2 investments, respectively, as of December 31, 2017 and 2016.

WHITE CASTLE PENSION PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right to terminate the Plan subject to the provisions of ERISA. All accrued benefits to the extent funded as of the date of termination shall become fully vested. The Plan's net assets available for benefits would be set aside to provide benefits in the following priority: participants and their beneficiaries already receiving retirement benefits, participants who are eligible to receive retirement or early retirement benefits, participants eligible for termination benefits, and lastly, to all remaining participants. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated February 23, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

Certain administrative expenses paid by the Plan to Aon Consulting, Inc. for actuarial services, to UBS Financial Services, Inc. for investment advisory services, to Buchanan Ingersoll & Rooney, PC for legal services, and to GBQ Partners LLC for audit services, qualify as party-in-interest transactions. Fees paid by the Plan for these administrative expenses were \$419,136 and \$300,951 in 2017 and 2016, respectively.

WHITE CASTLE PENSION PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2017 statement of net assets available for benefits.

Plan contributions are made and the actuarial present values of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.

Beginning in 2013, a year of service is granted for each year in which a participant works at least 1,000 hours. Part-time service prior to November 1, 1976 and service prior to age 18 is excluded. Partial service is granted for completed months. Service will not be interrupted by:

- (1) The employee had a vested interest in his Accrued Benefit at the time of his break in service, or

Normal Retirement Date

Normal Retirement Date is the first day of the month coincident with or next following attainment of age 65 and the fifth anniversary of participation in the Plan.

Normal Retirement Benefit

The amount of monthly benefit to be paid in monthly installments for life, based on service to Normal Retirement Date, is:

- (1) 30.5% of Average Monthly Compensation multiplied by the service fraction with the numerator equal to the months of credited service if he had continued to work until his Normal Retirement Date and 300 months in the denominator (up to a maximum fractional value of 1),
- (2) The Integration Percentage of the amount of Average Monthly Compensation in excess of one-twelfth Covered Compensation multiplied by the service fraction with the numerator equal to the months of credited service if he had continued to work until his Normal Retirement Date and 420 months in the denominator (up to a maximum fractional value of 1),
- (3) The sum of part one and two rounded up to the next higher multiple of \$10.

Effective December 31, 2016, the normal retirement benefit for each participant is frozen.

Average Monthly Compensation

The highest monthly average of five consecutive calendar years of compensation out of the last ten years of employment. Compensation shall consist of total salary, wages, commissions, bonuses and all other cash remuneration actually paid during the plan year the service was preformed, and any sums deducted from salary or wages on a pre-tax basis to cover a share of the cost of health and medical coverage under the White Castle Health Benefit Plan.

EIN: 31-4340520 PN: 002

Integration Percentage

The percentage which corresponds to the participant's social security retirement age, based on participant's year of birth in the table below:

Year of Birth	Percentage
Prior to 1938	26.25%
1938 – 1954	24.50%
After 1954	22.75%

Accrued Benefit

The Accrued Benefit at any time prior to a participant's Normal Retirement Date shall be the normal retirement benefit, multiplied by a fraction with the numerator being years of participation service at termination and the denominator being years of participation service if he had continued to work until his Normal Retirement Date.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his Normal Retirement Date equal to the Accrued Benefit at his early retirement date. Payments may begin immediately, with the benefit being reduced one-fifteenth for each of the first five years and one-thirtieth for each of the next five years by which the payment date precedes the Normal Retirement Date.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit he would have received on his Normal Retirement Date, actuarially increased to reflect delayed payment. However, the benefit will not be less than the benefit accrued at Delayed Retirement reflecting service and Average Monthly Compensation to such date.

40-Year Retirement

Upon the completion of 40 years of continuous service and the attainment of age 55, the participant may elect to retire and receive the entire portion of his Normal Retirement Benefit without the reductions described in Accrued Benefit or Early Retirement Benefit.

Death Benefit

In the event of a vested married participant's death after the completion of five years of service, but prior to meeting the requirements for early retirement, it will be assumed the participant had terminated employment the day prior to death, survived to his early retirement date, elected a joint and one-half survivor benefit, and died the following day.

In the event of a vested married participant's death after meeting the requirements for early retirement, his surviving spouse will receive one-half of the joint and one-half survivor benefit calculated on the day of his death.

Schedule SB Attachment (Form 5500)—2017 Plan Year
White Castle Pension Plan and Trust
EIN: 31-4340520 PN: 002

Severance Benefit

Upon the termination of employment after 5 or more years of service, a participant shall be vested in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percentage
Less than 5 years	0%
5 or more	100%

In the event that the participant had met the service requirement for early retirement at the date of termination, he may elect to receive his vested interest as early as age 55.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) A benefit to be paid during the participant's lifetime with one-half, three-fourths, or the same reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120, 180, or 240 months certain and thereafter for life.
- (3) A lump sum settlement.

Lump sums are based on the blended Applicable Mortality Table and the Applicable Interest Rates as of the January, April, July or October previous to the quarter of the payment date. All other Optional Forms of Settlement are actuarially equivalent to the normal form of payment based on the 1983 Group Annuity Mortality Tables blended for 50% males and 50% females and an eight percent interest rate.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The plan is closed to new entrants effective December 31, 2016. Credited service, participation service, and salary are frozen as of December 31, 2016. Additionally, the normal retirement benefit is frozen as of December 31, 2016.

Accrued Benefit

The Accrued Benefit at any time prior to a participant's Normal Retirement Date shall be the normal retirement benefit, multiplied by a fraction with the numerator being years of participation service at termination and the denominator being years of participation service if he had continued to work until his Normal Retirement Date.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his Normal Retirement Date equal to the Accrued Benefit at his early retirement date. Payments may begin immediately, with the benefit being reduced one-fifteenth for each of the first five years and one-thirtieth for each of the next five years by which the payment date precedes the Normal Retirement Date.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit he would have received on his Normal Retirement Date, actuarially increased to reflect delayed payment. However, the benefit will not be less than the benefit accrued at Delayed Retirement reflecting service and Average Monthly Compensation to such date.

40-Year Retirement

Upon the completion of 40 years of continuous service and the attainment of age 55, the participant may elect to retire and receive the entire portion of his Normal Retirement Benefit without the reductions described in Accrued Benefit or Early Retirement Benefit.

Death Benefit

In the event of a vested married participant's death after the completion of five years of service, but prior to meeting the requirements for early retirement, it will be assumed the participant had terminated employment the day prior to death, survived to his early retirement date, elected a joint and one-half survivor benefit, and died the following day.

In the event of a vested married participant's death after meeting the requirements for early retirement, his surviving spouse will receive one-half of the joint and one-half survivor benefit calculated on the day of his death.

Severance Benefit

Upon the termination of employment after 5 or more years of service, a participant shall be vested in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percentage
Less than 5 years	0%
5 or more	100%

In the event that the participant had met the service requirement for early retirement at the date of termination, he may elect to receive his vested interest as early as age 55.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) A benefit to be paid during the participant's lifetime with one-half, three-fourths, or the same reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120, 180, or 240 months certain and thereafter for life.
- (3) A lump sum settlement.

Lump sums are based on the blended Applicable Mortality Table and the Applicable Interest Rates as of the January, April, July or October previous to the quarter of the payment date. All other Optional Forms of Settlement are actuarially equivalent to the normal form of payment based on the 1983 Group Annuity Mortality Tables blended for 50% males and 50% females and an eight percent interest rate.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.
