FRCH Design Worldwide Profit Sharing 401(k) Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the FRCH Design Worldwide (the Company) Profit Sharing 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan merger: On January 9, 2018, FRCH Design Worldwide was acquired by Nelson Worldwide, Inc. At the date of acquisition, Nelson became the successor in interest to FRCH and therefore, by the terms of the Plan, became the new plan sponsor. Nelson amended the Nelson Worldwide, Inc. 401(k) Plan document effective May 1, 2018 to merge all assets of the FRCH Design Worldwide Profit Sharing 401(k) Plan and Trust into the Nelson Plan. All participant accounts balances, totaling \$23,066,998, were transferred on May 1, 2018. The merger does not impact participant benefits as the benefit provisions were incorporated in the Nelson Worldwide plan.

General: The Plan is a defined contribution plan covering all full-time employees of the Company and an affiliated employer, Galway Management Company, excluding student co-op or intern employees who do not meet certain eligibility requirements, who have attained age 21 on the first entry date following eligibility (the first day of each month). The Plan was restated effective June 1, 2011 to adopt a prototype plan sponsored by Fidelity Management Trust Company (Fidelity). The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Plan's 401(k) committee and Plan Administrator are responsible for the oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. Fidelity is the current trustee and recordkeeper of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Contributions: Each year, participants may contribute up to the maximum allowable, as defined in the Plan and permitted by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants may designate part or all of these deferred contributions as after-tax "designated Roth contributions". The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6 percent pre-tax salary deferral into a designated balanced fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company's matching contribution is determined annually based on resolution of the board of directors. Participants are eligible to receive the matching contribution after completing six months of service, as defined. During 2018 and 2017, the Company elected to make matching contributions equal to 33 percent of the first 6 percent of eligible compensation, as defined by the Plan document.

Additional match amounts may be contributed at the option of the board of directors. Participants must complete six months of service to be eligible for the additional match contribution. The employer additional match contribution was zero and \$100,000 for the period ended May 1, 2018 and the year ended December 31, 2017, respectively.

Contributions are subject to certain Internal Revenue Service limitations.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with defined administrative expenses. Allocations are based on participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the current prime rate, as defined. Interest rates on participant loans ranged from 4.25% to 5.25% as of December 31, 2017 and 4.25% to 4.50% as of December 31, 2016. Principal and interest are paid ratably through payroll deductions. There were no loans outstanding as of May 1, 2018.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts: Forfeited non-vested accounts totaled zero, \$31,648 and \$13,950 at May 1, 2018, December 31, 2017 and 2016, respectively. These amounts will be used to pay Plan expenses, then may be used to reduce future employer contributions. Forfeited amounts of \$15,000 and \$11,537 were used to pay Plan expenses for 2018 and 2017, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of May 1, 2018, December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Contributions: Participant contributions are recognized when withheld. Employer discretionary matching contributions are recognized as of each payroll date. Additional discretionary contributions as determined by the Company are recognized on an annual basis.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule, is a summary of the Plan's asset information as of May 1, 2018, December 31, 2017 and 2016, and for the period ended May 1, 2018 and the year ended December 31, 2017, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 6 and the supplemental schedule related to the Plan's assets.

Fidelity also certified to the completeness and accuracy of \$112,338 and \$2,471,074 of net appreciation in fair value of investments, \$61,100 and \$1,182,936 of dividends related to investments, and \$1,032 and \$4,449 of interest income from notes receivable from participants for the period ended May 1, 2018 and the year ended December 31, 2017, respectively.

Note 4. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by an affiliate of Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. Other fees paid by the Plan for plan administrative functions amounted to \$19,645 and \$20,303 for the period ended May 1, 2018 and the year ended December 31, 2017, respectively.

FRCH Design Worldwide Profit Sharing 401(k) Plan and Trust

Notes to Financial Statements

Note 5. Tax Status

The Plan operates under a prototype defined contribution plan sponsored by Fidelity. The Internal Revenue Service (IRS) has determined and informed Fidelity by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 1, 2018, December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

FRCH Design Worldwide Profit Sharing 401(k) Plan and Trust

Notes to Financial Statements

Note 6. Fair Value Measurements

Collective trust fund: Valued at the NAV of units of the collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2017 and 2016, segregated by level of valuation inputs within the fair value hierarchy utilized to measure fair value. There were no assets available for benefits measured at fair value at May 1, 2018.

Money market funds	-	232,746	-	232,746

Investments measured at net asset value ^(a)				850,014
Total investments, at fair value				\$ 18,892,563

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the period ended May 1, 2018 and the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 6. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2017 and 2016. There were no assets whose fair value was measured at NAV per unit as of May 1, 2018.

Investment	2017 Fair Value	2016 Fair Value	2017 Unfunded Commitment	2016 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund	<u>\$ 1,085,488</u>	<u>\$ 850,014</u>	None	None	Daily	Up to 12 Months

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
