Independent Auditor's Report

To the Participants and Plan Trustees
Woolpert Pension Plan

The Objective and Scope of the Audit

We were engaged to audit the financial statements of the Woolpert Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2017, the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2016, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the trustee as and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Independent Auditor's Report (Continued)

Other Matter

The supplemental schedules, Schedule H, Part IV, Line 4(i), Schedule of Assets (Held at End of Year) and Schedule H, Part IV, Line 4(j) Schedule of Reportable Transactions as of or for the year ended December 31, 2017, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

The financial statements of the Plan as of December 31, 2016 were audited by other auditors whose report dated October 16, 2017 did not express an opinion on the 2016 financial statements for the same reason described above in the Basis for Disclaimer of Opinion paragraph. Their report also indicated the form and content of the information in the 2016 financial statements, other than that derived from the information certified or provided by the trustee, was presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Woolpert Pension Plan

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Woolpert Pension Plan (the Plan) is provided for general information purposes only. For more complete information on benefit, vesting and other plan provisions, participants should refer to the current Summary Plan Description or the Plan agreement.

General: The Plan is a defined benefit pension plan designed to provide for retirement, disability, and death benefits for eligible salary and hourly employees of Woolpert, Inc. (the Company or Plan Sponsor). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 15, 2003, the Plan was amended and provisions were made for the last participation date for new participants to be January 1, 2003. Active employees were given various options based on age and years of service as to their new classification as a Plan participant. The Plan was also amended September 30, 2003, with an effective date of January 1, 2003, to change benefit provisions for participants employed beyond normal retirement date.

Effective March 31, 2010 the Plan was amended to freeze the accrued benefits and to stop accrual of additional service hours for all Plan participants.

Pension benefits: Full-time employees employed before January 1, 2000, with five or more years of service are entitled to a pension benefit beginning at normal retirement age (65) equal to 1.1% of average compensation for each year of service (not to exceed thirty years). Full-time employees employed after January 1, 2000, with five or more years of service are entitled to a pension benefit beginning at normal retirement age (65) equal to 1.0% of average compensation for each year of service (not to exceed thirty years). The Plan permits early retirement at age 55 after five years of service. Pension benefits for early retirement are reduced 2.5% per year for ten years for employees employed before January 1, 2000, or 5.0% per year for ten years for employees employed after January 1, 2000, by which early retirement precedes normal retirement. Benefits for employees retiring beyond normal retirement date are based on average compensation and credited service at the late retirement date. Employees may elect to receive the value of their accumulated plan benefits upon retirement, payable as a monthly annuity, under various options and periods.

Death benefits: If an active employee dies and is vested, the employee's surviving spouse is entitled to a death benefit as though the employee terminated on the day preceding death, survived until early retirement age and elected 50% joint and survivor annuity.

Disability benefits: Active employees who become totally disabled after completing five years of service qualify for the Plan's disability benefits. However, the Plan will not pay disability benefits while the employee is receiving benefits from the long-term disability plan provided by Woolpert, Inc. The Plan, however, allows the period of the employee's disability to be credited to the employee's years of service under the Plan.

Termination benefits: Employees terminated after five years of service are entitled to an accrued retirement benefit payable at their normal retirement date.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year in addition to capital gain distributions.

Benefit payments: Benefit payments to participants are recorded when paid.

Administrative expenses: The expenses related to administering the Plan and the related Plan assets are primarily paid by the Plan but may also be paid by the Plan Sponsor.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service (through March 31, 2010 when benefit accruals were frozen). Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2016 and 2015 were (a) life expectancy of participants based on the RP 2014 total dataset mortality tables with Scale MP- 2016, fully generational scale (MP-2015 as of December 31, 2015); (b) normal retirement age based on a probability schedule ranging from 5% at age 60 to 100% at age 70 and over; and (c) expected rate of return of 7.5%.

The change in actuarial assumptions was attributable to the change in mortality improvement scale, the change in retirement rates, and the changes to the interest and mortality basis for converting benefits to the five-year certain option.

The actuarial valuation was done using the beginning-of-year method. Therefore, the accumulated plan benefits as of December 31, 2016 are presented from information provided by the actuary as of January 1, 2017. There has been no significant change in the plan's provisions or coverage from December 31, 2016 to January 1, 2017.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: The Plan administrator has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued. The Plan Sponsor has decided to terminate the Plan effective April 30, 2018, but has not completed the administrative procedures to finalize the Plan termination, which include notifying and obtaining approval from the PBGC and distributing the assets. Currently, the Plan is expected to have the termination complete and assets distributed in 2019.

Note 3. Information Prepared and Certified by the Trustee

The investment information included throughout the Plan's financial statements and supplemental schedules as of December 31, 2017 and 2016 and for the year ended December 31, 2017 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedules related to the Plan's investments.

State Street Bank and Trust Company certified to the completeness and accuracy of \$2,690,437 and \$1,586,705 of net appreciation in fair value of investments for the years ended December 31, 2017 and 2016, respectively, and \$ 146,241 and \$282,002 of interest and dividends for the years then ended.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets or liabilities through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust fund: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined probable that the fund will see the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,692,492	\$ -	\$ -	\$ 4,692,492
Investment measured at NAV ^(a)				22,910,610
Total investments, at fair value				\$ 27,603,102

	2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 18,982,827	\$ -	\$ -	\$ 18,982,827
Investment measured at NAV ^(a)				6,846,894
Total investments, at fair value				\$ 25,829,721

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2017 and 2016.

Investment	2017 Fair Value	2016 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Redemption Notice Period
Common/collective trust funds	<u>\$ 22,910,610</u>	<u>\$ 6,846,894</u>	None	Daily	None	None

Note 5. Funding Policy

The Company's funding policy is to make annual contributions to the Plan so that all employees' benefits will be fully provided for by the time they retire. The Plan met the minimum funding requirements of ERISA for 2017 and 2016. The Company authorized a contribution to the plan of \$6,700,000 for 2017 (\$1,500,000 for 2016).

Note 6. Plan Termination

As further discussed in Note 2, the Plan Sponsor intends to terminate the Plan. In the event the Plan is terminated, the net assets of the Plan would be allocated and distributed to Plan participants based on guidelines prescribed by ERISA and its related regulations as specified in the Plan agreement. Certain benefits under the Plan are guaranteed by the Pension Benefit Guaranty Corporation (PBGC) if the Plan is terminated. The priority of benefit payments will be determined by the Plan document and ERISA.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefits.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets available for benefits to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 7. Income Tax Status

The Plan obtained its latest determination letter, dated April 9, 2018, in which the Internal Revenue Service (IRS) stated that the Plan, as designed for amendments in 2016, 2014, and 2012, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan had additional amendments that are not covered by the most recent determination letter obtained; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2014.

Note 8. Party-in-Interest Transactions

Plan investments are managed by Transamerica Retirement Solutions, LLC. Transamerica Retirement Solutions, LLC is the record keeper of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan to Transamerica Retirement Solutions, LLC for recordkeeping services amounted to \$89,703 and \$97,951 for the years ended December 31, 2017 and 2016.

Note 9. Risks and Uncertainties

The Plan may invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year). However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

D ACTUARIAL ASSUMPTIONS (cont'd)

Retirement Rates

All active participants are assumed to retire based on the following table:

<u>Age</u>	<u>Rate</u>
60	5%
61	5%
62	10%
63	5%
64	5%
65-69	20%

62	10%
63	5%
64	5%
65	100%

All former partners are assumed to retire at age 65.

Form of Payment

50% of participants are assumed to elect the life annuity option and 50% of participants are assumed to elect the 5 year certain option. The actuarially equivalent basis for the conversion to the 5 year certain option is the IRS funding segment rates for the Funding Target Liability, and 7.50% for the ASC 960-20 Present Value of Accumulated Plan Benefits, and the RP-2014 / MP-2016 mortality basis, 50% male, 50% female.

Marital Assumption

It is assumed that 80% of all active participants are married. Husbands are assumed to be three years older than their wives.
