1. Description of plan

The following description of M-E Engineers, Inc. (Company) 401(K) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Plan Amendment

The following description of the Plan reflects an Amendment to the Plan adopted by the directors of the Company on April 21, 2017. The significant provisions of the Amendment, effective July 1, 2017, are as follows:

The Plan's previous 1 year of service eligibility requirement for employer matching contributions has been reduced to 3 months of service.

The Plan's previous fixed employer matching contribution rate of 15% has been removed and replaced with a discretionary employer matching contribution rate set by the Company.

An annual dollar maximum for employer matching contributions allocated to a participant was set at $3,000.

General

The Plan is a defined contribution plan. All employees of the Company are covered by the Plan beginning on the date they attain age 21 and complete 3 months of service, at which time they are eligible to make elective deferral contributions and receive employer matching contributions. Employees are eligible for profit sharing contributions after 1 year of service and meeting the minimum work requirement of 1,000 hours. Plan entry dates are immediate following the date the eligibility requirements are met. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2017, participants may elect to contribute up to $18,000 of their compensation to the Plan. Participants who are the age of 50 or more may contribute an additional $6,000. The Company matched each participant's elective deferral contributions at a fixed rate of 15% from January 1, 2017 through June 30, 2017. On July 1, 2017, the Company set the discretionary employer matching contribution rate at 25%. The rate was not changed during the remainder of 2017. At December 31, 2017 and 2016, the Plan accrued an employer matching contribution receivable from the Company of $7,899 and $0, respectively.

Additional profit sharing amounts may be contributed by the Company on a discretionary basis. For the year ended December 31, 2017, the Company contribution is equal to 1.0203% of compensation plus 1.0203% of compensation which exceeds the social security tax base, up to maximum compensation of $265,000. At December 31, 2017 and 2016, the Plan accrued a receivable from the Company of $235,845 and $227,522, respectively, representing their discretionary profit sharing contribution for 2017 and 2016, net of the amounts paid by forfeitures and match corrections of $14,155 and $23,358, respectively.

1. Description of plan (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the portion of their accounts comprised of the Company's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of service as follows:

Total years of service	% Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options

All of the Plan's accounts are maintained by John Hancock Retirement Services (Hancock). The investment options consist of a variety of Hancock-managed funds and other mutual funds. Upon enrollment in the Plan, a participant may direct their contributions into any combination of the funds available through Hancock.

Loans

Participants may borrow up to 50% of their vested account balance, subject to limitations imposed by the Internal Revenue Service (IRS). The minimum loan amount is $1,000 and the maximum is $50,000.

Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or may defer distribution in accordance with the terms of the Plan agreement.

Forfeited accounts

Forfeited accounts are credited to the Company and are included as Plan assets. These funds are used to pay future Company contributions of the Plan. At December 31, 2017 and 2016, there was $14,155 and $23,358, respectively, in forfeited accounts available to reduce future contributions.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair value measurements

Accounting Standards Codification (ASC) Topic 820 defines fair value as the price that would be received to sell an asset or liability in an orderly transaction between market participants at a measurement date. It provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value; the three levels of the fair value hierarchy are described below:

> Level 1 – Valuations are based on unadjusted quoted prices in an active market for identical assets or liabilities.
>
> Level 2 – Valuations are based on quoted prices for similar assets or liabilities in active markets, or quoted prices in markets that are not active for which significant inputs are observable, either directly or indirectly.
>
> Level 3 – Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

As of December 31, 2017 and 2016, all assets measured at fair value are categorized as Level 1.

Because Hancock does not provide information to separate unrealized gains (losses), realized gains (losses), and interest and dividends, the total is presented as net appreciation (depreciation) in the fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Payment of benefits

Benefits are recorded when paid.

Plan expense

3. Investments

Mutual funds which include foreign holdings within its portfolio may enter into forward currency and futures contracts and options to reduce exposure to loss due to changes in foreign currency exchange rates and changes in the security price or interest rate.

7. Risks and uncertainties

The Plan's investments are comprised of various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. It is therefore reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Subsequent events
