P.W. STEPHENS ENVIRONMENTAL, INC. 401(K) PLAN

FINANCIAL STATEMENTS

For the Years Ended December 31, 2017 and December 31, 2016

(1) Description of the Plan

General Information

The P.W. Stephens Environmental, Inc. 401(k) Plan (the "Plan") is a defined contribution plan sponsored by P.W. Stephens Environmental, Inc. (the "Company") and was established on January 1, 1999. The Plan's Administrative Committee is responsible for the administration of the plan. The Plan provides for discretionary employer matching contributions based on the elective deferrals of the participants.

On July 3, 2008 the Company purchased certain assets of P.W. Stephens Environmental, Inc. pursuant to an Asset Purchase Agreement. Substantially all of the employees and related benefit plans, including the Plan, were included as part of the acquisition.

Eligibility and Vesting

To become a participant in the Plan, an employee must be at least age 18 and have completed 3 months of service. For 2017, participants could elect to make pretax deferrals up to 75% of their annual compensation, up to the maximum amount allowed by law. For participants over 50, they may elect to defer an additional catch up contribution up to the amount allowed by law. The Company provided for matching contributions equal to 100% of the participant contributions up to 4% of the participant's payroll compensation.

Participants are immediately vested in their voluntary contributions, the company matching contributions, and actual earnings thereon.

Investment Options and Valuations

The Plan's assets as of December 31, 2017 are held in different funds managed by Reliance Trust Company (the "Trustee"). The investments are reported using fair values for all assets and liabilities. The funds available to participants as of December 31, 2017, are listed in the Supplemental Schedule.

(1) Description of the Plan (*continued)*

Investment Options and Valuations (*continued)*

The Plan's investment income and gains or losses are allocated in the same proportion that each participant's account balance bears to the total investment fund balance.

Investments in securities traded on a national securities exchange are valued at the latest reported sales price on the last business day of the period. If no sale has taken place, the securities are valued at the last bid price. If no bid price has been reported, or if no exchange quotation is available, the securities are valued at the quotation obtained from a reputable broker.

Purchases and sales of securities are recorded on a trade date basis.

Participants have the right to elect investment options upon enrollment into the Plan. Additionally, participants may elect to change their investment options and transfer their account balances among the different investment funds.

Notes Receivable from Participants

Participants may borrow from the Plan a total not to exceed the lesser of $50,000 or 50% of the participant's vested interest in the Plan. Participant's promissory notes are for fixed terms, requiring regular periodic repayment through payroll deductions and bearing interest at rates comparable to rates currently charged by local institutional lenders. Participant's loans are subject to the approval of the Plan's Committee and are available only for the purpose set forth in the Plan document.

Payment of Benefits

Under the terms of the Plan, participants retiring at the age of 65 receive the entire balance of their account. In the event of death, the participant's account is paid to the designated beneficiary. Retired or disabled participants may elect to defer their distributions to the date no later than their attainment of age 70-1/2. A participant continuing in the service of the Company may withdraw, without a penalty, pre-tax Basic and Supplemental Contributions if he has attained age 59-1/2. Participants terminating employment prior to retirement are entitled to receive that portion of their account, which is vested.

(1) Description of the Plan (*continued)*

Payment of Benefits (*continued)*

A participant who terminates his employment from the Company may receive a distribution of his accrued benefit within a reasonable time after termination of employment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to amend, modify, suspend or terminate the Plan at any time by the adoption or execution of appropriate resolutions, subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA). In the event of Plan termination, all amounts credited to accounts of participants shall become non-forfeitable and shall be vested in full and paid or credited to each participant in accordance with the Plan agreement.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for Plan benefits and changes in those net assets. The investments and changes therein of the investment funds have been reported to the Plan as having been determined through the use of market values for all assets within the corresponding fund. Purchases and sales of securities in the investment funds are recorded on a trade-date basis. Participant loans are valued at cost, which approximates fair market value.

Administrative Expenses

All administrative expenses may be paid in whole or in part by the Company. Any expenses not paid by the Company are paid by the Plan.

(2) Summary of Significant Accounting Policies *(continued)*

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments

Effective during the plan year ending December 31, 2016, the Plan has adopted ASU 2015-12 Plan Accounting: Defined Contribution Pension Plans. The adoption of this standard does not material affect the financial statements.

(3) Investments

ADP, Inc., the Plan's record keeper, has provided all information in the financial statements regarding the investments of the Plan. This includes the cost and market values of the investments, the activity therein and the realized and unrealized appreciation or depreciation. The Trustee has certified to the plan administrator that the following information is accurate and complete:

	2017	2016
Common/collective trusts	$ 2,602,422	$ 2,101,467
Registered investment companies	3,212,613	2,412,823
Notes receivable from participants	152,035	157,216
	$ 5,967,070	$ 4,671,506

(4) Income Tax Status of the Plan

The Internal Revenue Service issued an opinion that the ADP, Inc. Prototype Non-standardized Profit Sharing Plan with CODA was acceptable as to form under Internal Revenue Code Section 401 for use by employers for the benefit of employees on March 31, 2008. The Internal Revenue Service issued an opinion that the opinion did not in and of itself adversely affect the Plan's acceptability as to the form under the Internal Revenue Code. Therefore, the Plan was qualified and was exempt from Federal income taxes as of the financial statement date.

The tax filings of the Plan are subject to examination by the IRS, generally for three years after they are filed.

(5) Fair Value Measurements

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

(5) Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016:

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/collective trusts: Valued at the net asset value per share/unit reported at the close of business every day. Shares/units in common/collective trusts can be redeemed daily on demand. The net asset value is used as a practical expedient to estimate fair value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

(5) Fair Value Measurements *(continued)*

Description	Total	Level 1	Level 2	Level 3
December 31, 2017				
Registered investment companies	$ 3,212,613	$ 3,212,613	$ -	$ -
Total assets in the fair value hierarchy	3,212,613	$ 3,212,613	$ -	$ -
Common/collective trusts [(a)]	2,602,422			
Total investments at fair value	$ 5,815,035			
December 31, 2016				
Registered investment companies	$ 2,412,823	$ 2,412,823	$ -	$ -
Total assets in the fair value hierarchy	2,412,823	$ 2,412,823	$ -	$ -
Common/collective trusts [(a)]	2,101,467			
Total investments at fair value	$ 4,514,290			

[(a)] In accordance with Subtopic 820-10, the common/collective trusts which are measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amount presented in this table is intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

In regards to classification of investment options offered by the Plan, there were no reclassifications between level 1, 2, or 3 during the year ended December 31, 2017. The nature, risks and investment objectives of the investments above, including those for which fair value is estimated using the NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2017, there were no unfunded commitments associated with any of these investments.

(6) Reconciliation of Financial Statements to Form 5500

The following schedule reconciles net assets available for benefits as presented in Form 5500 and the financial statements as of December 31, 2017 and December 31, 2016.

	2017	2016
Net assets available for benefits – financial statements	$ 5,977,087	$ 4,681,890
Less contribution receivable	(10,017)	(10,384)
Net assets available for benefits – Form 5500	$ 5,967,070	$ 4,671,506

The following schedule reconciles contributions reflected in the financial statements to Form 5500 for the year ended December 31, 2017.

	2017
Contributions – financial statements	$ 643,944
Add contributions receivable – beginning of year	10,384
Less contributions receivable – end of year	(10,017)
Contributions – Form 5500	$ 644,311

(7) Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by ADP, Inc., the custodian and record-keeper of the Plan. The Plan paid $16,347 in contract administration and transactional fees during 2017. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

(8) Subsequent Events

The Company has evaluated subsequent events through October 11, 2018, the date the Financial Statements were available to be issued. During this period, there have been no material events that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements as of and for the year ended December 31, 2017.
