NOTE 1 – DESCRIPTION OF PLAN

The following description of the Western Concrete Pumping, Inc. 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-excluded employees, as defined by the Plan documents, of Western Concrete Pumping, Inc. (the Company and Employer) who are age 21 or older and have completed one month of employment. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan as well as determining and reviewing the appropriateness of the Plan's investment offerings, and investments performance.

The Plan was established on January 1, 1995 and was last amended January 10, 2014. The Company has appointed Charles Schwab Bank as the Custodian of the plan assets with authority over management and investment of plan assets.

Contributions

Each year, participants may contribute up 75% of annual compensation, up to the maximum allowed by the IRS limitation, as defined in the Plan. Participants are allowed to make pre-tax and/or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary matching and profit sharing contributions as determined by the Employer annually to the Plan. For the year ended December 31, 2017, the Company made matching contributions of 20% of every dollar deferred, not to exceed 4% of the participants' total compensation. Company match limits are based on a "per payroll" period and the Plan does not offer a "true up" option. For the year ended December 31, 2017, the Company made matching contributions of $86,870. For the year ended December 31, 2017, no discretionary profit sharing contributions were contributed to the Plan.

Discretionary profit sharing contributions are allocated to eligible employees who are active employees at the end of the plan year, terminated employees with over 500 of credited service hours worked during the plan year, and terminated employees at the end of the plan year due to death, disability or retirement.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings or losses and, (c) charged with an allocation of any administrative expenses paid by the Plan. Allocations of plan earnings or losses and any administrative expenses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Each participant directs the allocation of his or her contribution, and employer contributions to one of several authorized investment funds designated by the Plan's Custodian. Purchases and sales of securities are recorded on a trade date basis.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is vested in Company contributions based on the following schedule:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Years of service is defined by the Plan as 1,000 hours of service during the plan year beginning on the employee's date of hire and ending on the employee's last day of employment with the Company and its affiliated companies, if any.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested interest in their participant account balance. The loans are secured by the balance in the participant's account and bear interest at a rate equal to 2% above the prime rate. Principal and interest is paid ratably through monthly payroll deductions not to exceed five years, unless the loan proceeds were used for the purchase of a principal residence. Loans used to purchase a principal residence may be repaid within a period of no more than 30 years.

Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or paid as a "direct rollover" to an individual retirement account or individual retirement annuity or to another employer's tax qualified plan. Account balances less than $5,000 are distributed in a lump sum. Active participants may withdraw any part of their account in a single sum in the event of undue financial hardship or attainment of age 59 1/2.

Forfeited Accounts

A participant's unvested portion of Company contributions is forfeited upon termination of employment for reasons other than death. Forfeitures are maintained in a separate account and may first be used to pay any administrative expenses, and any remaining forfeitures will be used to reduce any employer matching contribution, as defined by the Plan.

At December 31, 2017 and 2016, the forfeitures account balance was $310 and $61, respectively. Forfeitures will be used to reduce employer matching contributions and administration fees. During the year ended December 31, 2017, $5,658 of forfeitures was used to pay administrative fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting which is in accordance with accounting principles generally accepted in the United States of America (GAAP). Employee and employer contributions are recognized in the period that contributions are due.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policy utilizing information provided by the Plan Custodian. See Note 3 for discussion of fair value measurements.

Common-collective trusts (CCT) are valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The underlying investments of the CCT are mainly equity and fixed income securities and short-term investments. The investment strategies of the Plan's CCT vary generally based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and asset backed securities. The Plan had no unfunded commitments related to the CCT. The redemption of the CCT is subject to the preference of individual Plan participants and contains no restrictions on the timing of redemption. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document. Interest income from the notes is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses were recorded.

Benefits to Participants

Benefits are recorded when paid.

Administrative Expenses

Expenses of the Plan, including legal, administrative, advisory and custodial expenses, are generally paid by the Company, with the exception of certain administrative expenses which are paid for by the Plan and allocated to the participants' accounts. For the year ended December 31, 2017 the Plan's administrative expenses were $39,929.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Plan management adopted ASU 2015-07 for the year ended December 31, 2017 which removed common collective trusts from being shown in the fair value hierarchy, further simplifying the disclosures related to such investments. Management has elected to adopt this ASU and, accordingly, the presentation of the financial statements and notes herein have been changed to reflect such adoption.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.

- Part I of the ASU is not applicable to the Plan.

- Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

- Part III of the ASU is not applicable to the Plan.

The ASU is effective for fiscal years beginning after December 15, 2015. Part II is to be applied retrospectively. Management has elected to adopt Part II and, accordingly, the presentation of the financial statements and notes herein have been changed to reflect such adoption.

NOTE 3 – FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2017 and 2016.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily closing price and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Cash: Valued at market value of corresponding currency at year end.

Common/collective trusts: Common/collective trusts are valued at NAV which is based on the fair value of the underlying investments of the common/collective trust, less any liabilities. The underlying investments of the common/collective trusts are mainly equity securities and short-term investments. The investment strategies of the Plan's common/collective trusts vary generally based on the investment objectives of the asset class of which they are a part. The redemption of common/collective trusts are

subject to the preference of individual Plan participants and contain no restrictions on the timing of redemption.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 3,589,728	$ -	$ -	$ 3,589,728
Interest-bearing cash	568,802	-	-	568,802
	$ 4,158,530	$ -	$ -	4,158,530
Common/collective trusts, at NAV				1,134,152
Total investments, at fair value				$ 5,292,682

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,865,282	$ -	$ -	$ 2,865,282
Common/collective trusts, at NAV				1,465,143
Total investments, at fair value				$ 4,330,425

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2017, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. As of December 31, 2017 and 2016, there were no significant transfers between Levels 1, 2 and 3.

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the Custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.

- Net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income from notes receivable from participants reflected on the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan, or benefits accrued or paid by the Plan for participants, as party-in-interest transactions. The Company pays for certain administrative expenses of the Plan, such as accounting and auditing.

Certain plan investments consist of shares of mutual funds and common stocks, which are offered by Fidelity Investments, the parent of Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Additionally, notes receivable from participants are considered party-in-interest transactions. During the year ended December 31, 2017, there were no party-in-interest transactions that are prohibited by ERISA, Section 406 and for which no statutory administration exemption exists.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of termination.

NOTE 7 – TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2014 for the prototype plan adopted by the Plan, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. There were no uncertain tax positions taken by the Plan as of December 31, 2017 and 2016. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 at December 31, 2017 and 2016:

	2017	2016
Net assets available for benefits per the financial statements	$ 5,439,724	$ 4,486,684
Adjustment to fair value	-	4,441
Net assets available for benefits per the Form 5500	$ 5,439,724	$ 4,491,125

The following is a reconciliation of corrective distributions per the financial statements to the Form 5500 for the year ended December 31, 2017:

Net appreciation in fair value of investments per the financial statement	$ 650,147
Less: Prior year adjustment to fair value	(4,441)
Net appreciation in fair value of investments per the Form 5500	$ 645,706

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.
