December 31, 2017 and 2016

Plan Description

The following description of the Groner, Boyle & Quillin Deferred Compensation Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of GBQ Holdings, LLC (the Company) who are age 21 or older. Certain groups of employees are excluded per the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute through payroll reductions, up to 100% of their annual compensation on a pre-tax and/or Roth basis, as defined in the Plan agreement, with a limit of \$18,000. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make discretionary matching contributions to the Plan. No matching contributions are required. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. The allocation is based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Plan Description (continued)

Investment Options

A participant may direct contributions in any of the various investment options allowed by the Plan. Participants may change their investment options at any time.

Payment of Benefits

Upon termination of service due to separation, death, disability, retirement or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested deferral balance in his or her account in either a lump-sum amount or partial payments. If the vested balance is less than \$5,000, the balance will be paid in the form of a lump-sum payment regardless of whether the participant elects to receive it. Hardship withdrawals are allowed per the Plan agreement.

Administrative Expenses

Administrative expenses are paid by the Plan or the Company, at the discretion of the Company.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$21,812 and \$6,750, respectively. Forfeitures will be used to reduce future employer contributions or to pay administrative expenses. During 2017 and 2016 forfeitures of \$0 and \$5,963 were used to offset employer contributions and pay administrative expenses of the Plan, respectively.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on the next page for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Information Prepared and Certified by the Trustee

The following table presents investments. The investments and investment activity have been certified as complete and accurate by Ascensus, the trustee of the Plan, as of and for the years ended December 31, 2017 and 2016, and have not been audited by the independent auditors.

Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at quoted market prices.

Common/Collective Trust: Valued at the NAV of shares of the underlying investments reported by Ascensus. The NAV is used as a practical expedient to estimate fair value. For these funds there are no unfunded commitments, redemption restrictions and participants can transact daily.

Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	<u>Level 1</u>	<u>Total</u>
<i>Mutual Funds</i>	<u>\$ 18,058,487</u>	\$ 18,058,487
Investments measured at NAV as a practical expedient *Common/Collective Trust		<u>975,898</u>
Total assets at fair value		<u>\$ 19,034,385</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Total</u>
<i>Mutual Funds</i>	<u>\$ 15,365,517</u>	\$ 15,365,517
Investments measured at NAV as a practical expedient *Common/Collective Trust		<u>462,479</u>
Total assets at fair value		<u>\$ 15,827,996</u>

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their account balances.

Tax Status

The Plan has adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been restated since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Ascensus. Ascensus is the trustee as defined in the Plan agreement and, therefore, these transactions qualify as party-in-interest. Robertson Group (Robertson) is the brokerage firm for the Plan for the years ended December 31, 2017 and 2016 and, therefore, these transactions qualify as party-in-interest. Administrative fees paid to Ascensus and Robertson amounted to \$7,548 and \$17,072 during 2017 and 2016, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2018, the date the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
