Normal benefits

Upon normal retirement, a participant receives a monthly pension benefit based on compensation and years of service.

Vesting

Prior to the Plan freezing, employees with five or more years of service were entitled to annual pension benefits beginning at normal retirement age (65) as further outlined in the Plan document. Participants had a 7-year graded vesting schedule. The Plan also permits early retirement at age 55 after fifteen years of vested service. Participants receive their pension benefits in the form of a monthly annuity payable for life.

Death benefits

If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Funding policy

The Club’s funding policy is to make annual contributions, which are actuarially determined. The Plan’s funding policy is for the Plan Sponsor to contribute an amount which will equal or exceed the annual ERISA minimum funding requirement. The actuarial cost method used is the unit credit method, as prescribed under the Internal Revenue Code. All contributions to support the Plan are paid by the Club.

Basis of accounting

The records of the Plan are maintained on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America for defined benefit pension plans with the exception of benefits paid which are recorded on the cash basis.

Fair value measurement

For assets measured at fair value on a recurring basis, Accounting Standards Codified Topic Fair Value Measurements requires quantitative disclosures about the fair value measurement separately for each major class of assets. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and the lowest priority to unobservable inputs. The three levels of the hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets.

Level 2 – Quoted prices for identical assets in markets that are not active, quoted prices for similar assets in active markets, inputs other than quoted market prices, and inputs derived principally from observable market data.

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered Investment Companies (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table presents the Club's financial assets that are measured at fair value on a recurring basis at December 31, 2017 and December 31, 2016:

Note 2 – Summary of significant accounting policies (continued)

Investment valuation and income recognition

The Plan's investments are recorded at fair value in the accompanying financial statements.

Purchases and sales of investments are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The aggregate of (a) the net unrealized appreciation (depreciation) in the fair value of investments for the year, and (b) the net gains or losses on disposition of investments during the year is reflected as net appreciation (depreciation) in the fair value of investments for the year.

Management's fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Risks and uncertainties

The Plan invests in various investments. These investments are exposed to various risks such as interest rate, market, credit and liquidity risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions relating to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Payment of benefits

Benefit payments to participants or their beneficiaries are recorded upon distribution.

Administrative expenses

Administrative fees related to the administration of the Plan are paid by the Club on behalf of the Plan and excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Administrative expenses (continued)

Certain administrative functions are performed by officers or employees of the Club. No such officer or employee receives compensation from the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of Plan assets and actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure through September 17, 2018, which is the date the financial statements were available to be issued.

Note 3 – Investments

The following is a summary of investments at December 31, 2017 and December 31, 2016:

Note 4 – Actuarial preset value of accumulated plan benefits (continued)

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 4,065,303</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience (gains)/losses	76,540
Decrease in the discount period	267,019
Actual benefits paid	(218,930)
Change in assumptions	<u>8,651</u>
Net increase	<u>133,280</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 4,198,583</u>

Accumulated Plan benefits are those future periodic payments expected, including lump-sum distributions, to be paid to retired or terminated employees or their beneficiaries, the beneficiaries of deceased employees and present employees or their beneficiaries.

Benefits under the Plan are accumulated based on employees' years of service. The accumulated Plan benefits for active employees are based on their benefit level, which is dependent upon years of service. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts are excluded from Plan assets and from accumulated Plan benefits.

Under the Plan's provisions, accumulated plan benefits are those future periodic payments that are included to the extent they are deemed attributable to the employee service rendered prior to the valuation date.

Actuarial calculations have been applied by an actuary to determine the actuarial present value of accumulated Plan benefits. These calculations adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment.

Note 4 – Actuarial present value of accumulated plan benefits (continued)

The actuarial valuation date is January 1, 2017 for determining the actuarial present value of accumulated plan benefits. The significant actuarial assumptions used in this valuation are as follows:

Interest:

The effective interest rate is 6.75% per annum, compounded annually.

Salary increases:

As a result of the freezing of the Plan benefits, the salary scale assumption was eliminated.

Mortality:

Based on the IRS 2017 Optional Combined Funding Target Mortality Table.

Retirement:

All employees are assumed to retire at the later of age 65 and five years after entry date.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

Note 5 – Priorities upon termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to return for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Benefits for all participants or beneficiaries who have been or could have been receiving benefits during the three-year period just before termination of the Plan. The benefits will depend upon the Plan provisions during the five year period to the termination of the Plan.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), (a U.S. governmental agency) up to the applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

**THE YALE CLUB
OF
NEW YORK CITY PENSION PLAN**

**Notes to Financial Statements (continued)
December 31, 2017**

Note 5 – Priorities upon termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 6 – Information certified by Plan Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Newport Trust Company has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and December 31, 2016, and the Supplemental Schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year); the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017.

Note 7 – Related party transactions

Certain Plan investments are managed by Newport Trust Company. Newport Trust Company is the Trustee as defined by the Plan, and, therefore, those transactions qualify as party-in-interest. Other fees related to investment related services and administrative services of the Plan were paid by the Plan or by the Club. These transactions qualify as party-in-interest transactions.

Note 8 – Tax status

The Plan, as amended, is designed to qualify under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan applied for and received a favorable determination from the Internal Revenue Service on July 19, 2012. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
