**Statement by Enrolled Actuary**  
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

| Part I | Service Provider Information (see instructions) |
|--------|-------------------------------------------------|

You must complete this Part, in accordance with the instructions, to report the information required for **each person** who received, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of monetary value) in connection with services rendered to the plan or the person's position with the plan during the plan year. If a person received **only** eligible indirect compensation for which the plan received the required disclosures, you are required to answer line 1 but are not required to include that person when completing the remainder of this Part.

1 Information on Persons Receiving Only Eligible Indirect Compensation

a Check "Yes" or "No" to indicate whether you are excluding a person from the remainder of this Part because they received only eligible indirect compensation for which the plan received the required disclosures (see instructions for definitions and conditions).. . . . . ☐ Yes ☒ No

b If you answered line 1a "Yes," enter the name and EIN or address of each person providing the required disclosures for the service providers who received only eligible indirect compensation. Complete as many entries as needed (see instructions).

**Part I Service Provider Information (continued)**

**3.** If you reported on line 2 receipt of indirect compensation, other than eligible indirect compensation, by a service provider, and the service provider is a fiduciary or provides contract administrator, consulting, custodial, investment advisory, investment management, broker, or recordkeeping services, answer the following questions for (a) each source from whom the service provider received \$1,000 or more in indirect compensation and (b) each source for whom the service provider gave you a formula used to determine the indirect compensation instead of an amount or estimated amount of the indirect compensation. Complete as many entries as needed to report the required information for each source.

## INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the  
Essity North America Cash Balance Plan

### Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Essity North America Cash Balance Plan (formerly, the SCA Tissue Cash Balance Plan) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

### Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

### Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

### Other Matter

The supplemental Schedule H, Line4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2017 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule referred to above.

**Essity North America Cash Balance Plan**  
**Notes to Financial Statements**  
**As of and for the Years Ended December 31, 2017 and 2016**

**1. Description of Plan**

The following description of the Essity North America Cash Balance Plan (formerly known as the SCA Tissue Cash Balance Plan) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

**General**

The Plan is a noncontributory cash balance defined benefit pension plan established September 1, 2001. The Plan was amended and restated effective January 1, 2015. The Plan covers salaried employees of Essity North America, LLC (formerly SCA Tissue North America, LLC) (the “Company”); non-union hourly employees of the Company’s Bellemont, Arizona, Flagstaff, Arizona, and Greenwich, New York facilities; and after January 1, 2002, SCA Tissue employees that were formerly SCA Hygiene salaried employees. As of December 31, 2003, the Plan was frozen to new entrants and future benefit accruals (i.e., pay credits) were eliminated for all participants. Active participants at December 31, 2003 continue to earn vesting service under the Plan and all participants continue to accrue cash balance interest credits. The Plan sponsor is Essity North America, Inc. (formerly known as SCA Americas, Inc). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

**Funding Policy**

The Company’s funding policy is to make contributions in such amounts as may be required to meet the minimum funding requirements of ERISA. Employer contributions are made based on actuarially determined amounts using the projected unit credit cost method. Minimum contribution requirements have been met for 2017 and 2016.

**Vesting**

Participants become 100% vested upon completion of three years of credited service, as defined. If a participant terminates before completing three years of service, the right to receive accumulated benefits is forfeited, unless the participant has reached age 65 or termination of employment is attributable to death or disability.

**Retirement Benefits**

Upon separation from service, vested participants are entitled to pension benefits based on pay credits and interest credits accumulated in their cash balance accounts. Pay credits are based on a percentage of compensation determined by age levels, as defined. Interest credits are based on 30-year treasury rates, as defined. The Plan will pay a death benefit to the beneficiary of a participant who dies prior to the commencement of benefits, as defined by the Plan. As of December 31, 2003, the Plan was frozen and no future pay credits are provided.

Benefit payments will be paid based upon a single life annuity if the participant is not married. A married retiree will automatically receive pension benefits in the form of a joint and survivor annuity. Elections may be made to receive the benefit in another form, including lump-sum, as defined. If the present value of a participant’s accrued benefit does not exceed \$1,000, it will automatically be paid as a lump sum as soon as administratively feasible after separation from service.

**Plan Termination**

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions and terminate the Plan at any time under the provisions of ERISA. In the event the Plan terminates, participants become 100% vested in benefits earned as of the termination date regardless of length of service, to the extent such benefits are then funded, and the assets of the Plan shall be distributed in the manner and order set forth in the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors’ pensions. Whether all participants receive their benefits should the

Plan terminate at some future point would depend on the sufficiency of the Plan's net assets at that time to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

## **2. Summary of Significant Accounting Policies**

### **Basis of Accounting**

The financial statements have been prepared on the accrual basis of accounting.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

### **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

### **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

### **Administrative Expenses**

In 2017 and 2016, certain investment and administrative expenses were paid out of the Plan, and include recordkeeping, trustee, and actuarial professional fees. Certain other administrative expenses of the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Certain investment related expenses are included in net appreciation in fair value of investments presented in the statements of changes in net assets available for benefits.

### **Subsequent Events**

The Plan has evaluated subsequent events through October 10, 2018, the date the financial statements were available to be issued.

## **3. Financial Information Certified by Trustee (Unaudited)**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule were certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies (mutual funds) and cash as shown in the statements of net assets available for benefits at December 31, 2017 and 2016.
- Dividend income and net appreciation in the fair value of investments as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016.
- The information for all registered investment companies (mutual funds) listed in the schedule of assets (held at end of year) at December 31, 2017, as shown in the supplemental schedule.

**4. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and 2016.

|                                                        |                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Registered investment companies (mutual funds):</i> | Valued at the net asset value ("NAV") of shares held by the Plan at year end based upon quoted market prices on nationally recognized exchanges. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. |
|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

**5. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances (e.g. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. As of December 31, 2003, the Plan was frozen and no future pay credits are provided. The present value of a participant's accrued benefit as of the valuation date assumes the participant will earn no more credited service and will receive no future salary.

The actuarial present value of accumulated plan benefits as of January 1, 2017 is as follows:

|                                                            |                     |

| Total actuarial present value of accumulated plan benefits | <u>\$ 4,633,177</u> |

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2017 are as follows:

|                                                                           |                     |

| Actuarial present value of accumulated plan benefits, end of period       | <u>\$ 4,633,177</u> |

The significant methods and assumptions used to determine the actuarial present value of accumulated plan benefits as of January 1, 2017 are as follows:

|                              |                                                                                                                                        |

**Notes to Financial Statements**  
**As of and for the Years Ended December 31, 2017 and 2016**

---

The assumption changes from January 1, 2016 to January 1, 2017 include updating the mortality assumption projection from Scale BB-2D from 2006 as of January 1, 2016 to Scale MP-2016 as of January 1, 2017.

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**6. Tax Status**

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 9, 2016, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

**7. Risk and Uncertainties**

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the value of accumulated plan benefits.

**8. Related-Party and Party in Interest Transactions**

Transactions involving shares of registered investment companies managed by affiliates of Vanguard Fiduciary Trust Company, the trustee, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations.

**9. Plan Amendments**

Effective January 1, 2018, the Plan was amended to change the Plan sponsor to Essity North America Inc. and to change the Plan name to the Essity North America Cash Balance Plan.

### Benefit commencement date:

- Preretirement death benefit      Upon death
- Deferred vested benefit      The later of age 65 or current age if older than 65
- Disability benefit      Upon disablement
- Retirement benefit      Upon termination of employment

### Form of payment

80% of participants are assumed to elect a lump sum and 20% are assumed to elect a life annuity.

Calculation of lump sum: 80% of participants are assumed to elect a lump sum form of payment under the plan when eligible. Lump sums were assumed equal to the cash balance account balance.

Calculation of annuity: Annuities were valued as the actuarial equivalent of the cash balance account balance. Actuarial equivalent annuities were determined using a 5.0% interest rate and the IRS mandated mortality table applicable for lump sums during the valuation plan year.

### Percent married

80% of males; 80% of females. These assumptions are used to value pre-retirement surviving spouse benefits.

### Spouse age

Wife four years younger than husband.

### At-risk assumptions

N/A

### Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

### Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to be the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

## Calculation of Cash Balance Accounts

Future cash balance account balances are projected at the assumed interest crediting rate until decrement for valuation purposes. The future interest crediting rate assumption is 5.0% per year.

## Methods

### Valuation date

First day of plan year

### Funding target

Present value of accrued benefits as required by regulations under IRC §430.

### Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

### Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

### Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with SCA Americas, Inc. regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

## Sources of Data and Other Information

The plan sponsor furnished participant data and claims data as of January 1, 2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale - Significant Economic Assumptions

|                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Discount rate</b>                                  | The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.                                                                                                                                                                                                                                                                                            |
| <b>Cash balance interest crediting rate</b>           | The plan credits interest to cash balance accounts using the 30-year Treasury rate. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable, allowing for some adverse deviation, based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate. |
| <b>Annuity conversion rate for hybrid plans</b>       | The assumed annuity conversion rate is a long term estimate of the plan's conversion basis of IRC 417(e)(3) interest rates; we believe that the selected assumption does not significantly conflict with what would be reasonable, allowing for some adverse deviation.                                                                                                                                                                                         |

## Retirement

Retirement rates are based on plan sponsor expectations for the future reflecting plan changes and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

## Benefit commencement date for deferred benefits:

- Deferred vested benefit

Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

## Source of Prescribed Methods

### Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Changes in Assumptions and Methods

### Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2015 to September 2016.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed administrative expenses added to the target normal cost was changed from \$100,000 to \$90,000.

There have been no other changes in assumptions since the prior valuation.

### Change in methods since prior valuation

There have been no changes in methods since the prior valuation.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Schedule SB, Part V Summary of Plan Provisions

### Plan Provisions

The plan was originally effective September 1, 2001. The most recent significant plan amendment was effective January 1, 2005.

#### Coverage and Participation

As of December 31, 2003, the plan was frozen to new entrants and future benefit accruals were eliminated. Active participants at December 31, 2003 continue to earn vesting service and all participants continue to receive cash balance interest credits.

Prior to December 31, 2003, a participant was eligible to become a member in the plan based on the following:

An eligible employee who was employed by GPT on August 31, 2001 and became an SCA Tissue employee on September 1, 2001, began participating immediately, regardless of their period of service with the Company; or

An SCA Tissue employee who has completed 12 months of service with SCA Tissue as a regular salaried employee paid from the Company's U.S. payroll or a nonunion hourly employee at the Company's Bellemont, Arizona, Flagstaff, Arizona, or Greenwich, New York facilities.

Effective January 1, 2003, employees who worked for the Heritage Sales Group and the Atlanta Production Facility and are entitled to salaried benefits with SCA Tissue, joined the Plan. These groups were formerly part of SCA Hygiene and became SCA Tissue employees on January 1, 2002.

Effective January 1, 2003, employees who worked for Encore Paper joined the Plan. These participants will receive past service credit for vesting purposes only.

### Definitions

#### Vesting service

One year for each 1,000-hour calendar year of employment by the plan sponsor.

#### Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65 with three years of vesting service.

### Monthly pension benefit

The monthly benefit equal to a participant's cash balance "account" converted to an equivalent life annuity at age 65, or paid as a lump sum.

Prior to December 31, 2003, the participant's cash balance "account" grew each year through Pay Credits and Interest Credits. At the end of the year, a participant's cash balance "account" was increased with Pay Credits based on their age at the end of their pensionable year and the pay received from that year. The following table illustrates the Pay Credit schedule (prior to December 31, 2003):

| Participant's Age<br><u>December</u> | <u>Annual Pay Credit</u> |                      |
|--------------------------------------|--------------------------|----------------------|
|                                      | <u>All Pay</u>           | <u>Pay &gt; SSWB</u> |
| < 30                                 | 4.0%                     | 4.0%                 |
| 30 – 39                              | 4.5%                     | 4.5%                 |
| 40 – 49                              | 5.0%                     | 5.0%                 |
| 50 – 59                              | 5.5%                     | 5.5%                 |
| 60 +                                 | 6.0%                     | 6.0%                 |

As of December 31, 2003, the plan was frozen and no future pay credits are provided.

Also, at the end of each year the participant's January 1 "account" balance is credited with interest, based on the 30-year Treasury Constant Maturity rate published by the Federal Reserve as of August of the previous year.

### Eligibility for Benefits

#### Normal retirement

Retirement on NRD

#### Late retirement

Cash balance "account" increased with Interest Credits through the participant's date of retirement.

#### Vested Benefits Upon Termination of Service

Termination for reasons other than death or disability after completing three years of vesting service.

#### Disability

Participants are fully vested, regardless of their period of service upon disability.

A participant is defined to be "disabled" if they are eligible to receive disability benefits from the Social Security Administration.

#### Preretirement death benefit

Death while eligible for normal, postponed, or deferred vested retirement benefits, with a surviving spouse.

### **Optional Forms of Retirement Income in Lieu of Normal Form**

Optional forms of payment include 100% joint and survivor annuity, 75% joint and survivor, 50% joint and survivor annuity, lump-sum payment, and a life annuity. In all cases, optional forms of payments are provided as an actuarial equivalent to a life annuity.

Actuarial equivalent basis is the interest rates (August look back) and mortality table mandated by IRC 417(e) applicable as of the annuity commencement date.

### **Pension Increases**

N/A - Plan was frozen December 31, 2003.

### **Participant contributions**

None

### **Limits on benefits and pay**

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect. Increases in the dollar limits are assumed for determining pension cost.

### **Future Plan Changes**

No future plan changes were recognized. Willis Towers Watson is not aware of any future plan changes that are required to be reflected.

### **Changes in Benefits Valued Since Prior Year**

There have been no changes in benefits valued since the prior valuation.

### **Substantive Commitment**

No substantive commitments other than the above plan provisions have been included in this valuation.
