KTH Parts Industries, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the KTH Parts Industries, Inc. (the Employer and Plan sponsor) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time associates (other than Japanese national associates) of the Employer who have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Participants may contribute from 1% to 20% of their annual salary. The Employer makes a matching contribution equal to 100% of the first 3% and 50% of the next 2% of annual compensation contributed by the Plan Participants. Effective July 1, 2016, new participants who are enrolled on or after July 1, 2016 are eligible for an additional employer match contribution equal to 50% of the first 3% of annual compensation contributed by the Plan Participants. Contributions are subject to certain limitations.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the Plan Sponsor.

Participant accounts: Each participant's account is credited with the participant's contribution; the Employer's matching contribution, and an allocation of Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and Employer matching contributions, plus earnings thereon.

Payment of benefits: On termination of service due to retirement, disability, or death, a participant will become fully vested. Distributions are made in a lump sum, in installments not to exceed 10 years, or through the purchase of a joint and survivor annuity for the participant.

A participant's beneficiary will receive the participant's account balance in the event of a participant's death. Participants may withdraw their vested interest in the Plan under certain hardship conditions as defined in the Plan. Such financial hardship withdrawals are subject to approval of the Administrative Committee. Terminated participants will be paid their vested interest in the Plan.

Notes receivable from participants: Loans to participants are treated as a separate fund. Interest charged to participants is reviewed by the Administrative Committee and is based upon prevailing interest rates for similar loans in the surrounding community. Loans may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance, and the repayment period shall not exceed five years (unless proceeds are used to acquire a principal residence). Each loan is collateralized by the remaining balance in the participant's account. Interest rates on participant loans ranged from 4.25% to 10.50% as of December 31, 2017 and 2016.

Forfeited accounts: Forfeited, non-vested accounts from unallocated earnings totaled \$2,092 and \$591 at December 31, 2017 and 2016, respectively. These amounts are periodically used to reduce future Employer matching contributions. Forfeitures of \$4 were used to reduce employer matching contributions during 2017.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Contributions: Participant contributions are recognized when withheld. Employer matching contributions are recognized concurrently with participant contributions.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A significant portion of the Plan's administrative expenses are paid by the Employer.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's participant directed investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend income.

Subsequent events: The Plan administrator has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2017 and 2016 and for the year ended December 31, 2017 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these plan assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 6 and the supplemental schedule related to the Plan's assets.

Bank of America, N.A. also certified to the completeness and accuracy of \$3,716,944 of net appreciation in fair value of investments and \$3,221,713 of dividends related to investments and \$105,731 of interest income from notes receivable from participants for the year ended December 31, 2017.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

Note 5. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by the Plan's Trustee. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2014.

Note 6. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds: Valued at the net asset value (NAV), based on the quoted prices in active markets.

Common/collective trust funds: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2017 and 2016, segregated by the level of the valuation inputs with the fair value hierarchy utilized to measure fair value.

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value	\$ 46,195,089	\$ -	\$ -	\$ 46,195,089
Investments measured at NAV ^(a)				10,514,980
Total investments, at fair value				\$ 56,710,069

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 108,988	\$ -	\$ -	\$ 108,988
Mutual funds	36,679,350	-	-	36,679,350
Investments measured at fair value	\$ 39,788,338	\$ -	\$ -	39,788,338
Investments measured at NAV ^(a)				11,251,082
Total investments, at fair value				\$ 51,039,420

- ^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Notes to Financial Statements

Note 6. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2, or 3.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2017 and 2016.

Investment	2017 Fair Value	2016 Fair Value	2017 Unfunded Commitment	2016 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust funds	\$ 10,514,980	\$ 11,251,082	None	None	Immediate	None

Note 7. Related-Party Transactions

Certain plan investments are common/collective trust funds and mutual funds managed by Bank of America, N.A.. Bank of America, N.A. is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. In addition, notes receivable from participants represent loans taken from participant accounts and qualify as party-in-interest transaction. Fees paid by the Plan for trustee services amounted to \$26,500 for the year ended December 31, 2017.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
