THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. Plan description:

The following description of The Arms Trucking Co. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of The Arms Trucking Co. and Arms Dock, Inc. (hereinafter collectively referred to as the Employer) who have attained age twenty-one and have completed two months of service. Participants may enter the Plan on the first day of the month coincident with or following the date all requirements have been met. The Plan is subject to the provisions of the Internal Revenue Code (IRC) and the Employee Retirement Income Security Act of 1974 (ERISA).

Participant contributions:

Employees who elect to participate may make pre-tax deferral contributions to the Plan of up to 90% of their Plan compensation, as defined in the Plan document, subject to the maximum allowable by law. Participants who have attained age 50 before the end of the plan year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined retirement savings plans, termed "rollover contributions". New employees are auto-enrolled into the plan with a deferral percentage of 3% if they do not decline participate. Their deferral percentage automatically increases each year by 1% up to a maximum deferral of 10%.

In addition, employees may also make post-tax Roth deferral contributions to the Plan of up to 90% of their Plan compensation, as defined in the plan document, subject to the maximum allowable by law.

Employer contributions:

The Employer, at the discretion of the plan administrator, may make matching contributions. For the years ended December 31, 2017 and 2016, the Employer made matching contributions equal to 50% of the participant's deferral, up to 4% of the participant's compensation.

Participant accounts:

Each participant account is credited with the participant's contributions and allocation of the Employer's matching contributions, Plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. Plan description (continued):

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon, as well as their rollover contributions from other defined contribution plans. Vesting in Employer matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in Employer matching and profit sharing contributions after six years of credited service according to the following schedule:

Years of Service	Vesting Percent
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Notes receivable from participants:

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. If the participant has any existing notes, the \$50,000 will be reduced by the excess (if any) of the participant's highest outstanding aggregate note balance during the one year period ending the day before the note is made, over the participant's outstanding note balance on the day the note is made. Repayment of the note is to be made over five years, unless the note is used to purchase a principal residence, in which note must be paid over a period not to exceed ten years. The notes are secured by the participant's account and bear interest at rates established at the inception of the note, set at the prime lending rate as posted in the Wall Street Journal (or similar publication) plus one percent. Interest rates range from 3.25% to 5.50%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

Upon attaining age 59 1/2, a participant may elect to withdraw funds from the Plan. A participant (or beneficiary) is also entitled to receive a distribution of benefits under the Plan as a result of retirement, death, disability, and termination of employment. Participants will receive a lump-sum amount equal to the value of his or her account. With respect to distributions, if the vested balance is less than \$1,000, the form of distribution is a single lump-sum payment. If the vested balance is equal to or greater than \$1,000 and less than \$5,000 and the participant does not make an election to either receive or rollover the balance, the distribution will be rolled over into an individual retirement account (IRA) designated by the Plan Administrator. In addition, upon existence of substantial hardship, withdrawals are available to Plan participants. These withdrawals are to be made in accordance with Plan documents and IRS restrictions.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

1. Plan description (continued):

Forfeited accounts:

Forfeited accounts may be used to pay expenses of the Plan and/or to reduce Employer contributions. Forfeited nonvested accounts were used to reduce Employer contributions by \$9,922 in 2017 and \$10,308 in 2016. At December 31, 2017 there were unused forfeitures of \$2,063. There were no outstanding forfeitures at December 31, 2016.

2. Significant accounting policies:

Basis of accounting:

The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends, including capital gain distributions, are recorded on the ex-dividend date.

Common/collective trusts:

Common/collective trusts are established by financial institutions of collectively investing and reinvesting the assets of eligible pension and profit sharing trusts and their eligible entities.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as part of the note balance. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make payments and the plan administrator deems the note receivable to be in default, the note receivable is reduced and a benefit payment is recorded.

Benefit payments:

Benefit payments to participants are recorded when paid.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

2. Significant accounting policies (continued):

Expenses:

Administrative expenses are paid by the Plan, with the expense allocated to each participant. Certain expenses of maintaining the Plan are paid directly by the Company, and are excluded from these financial statements. Certain administrative functions are performed by employees of the Company. No such employee, nor the Company, receives compensation from the Plan for these functions.

Additionally, investment related expenses are included in net appreciation (depreciation) in fair value of investments on the statements of changes in net assets available for benefits.

Use of estimates:

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties:

The Plan provides for various investment options through the use of mutual funds. Investment securities are exposed to various risks, such as interest rate and market fluctuations. Due to the level of risk associated with certain investment securities, as well as the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent events:

The Company has evaluated subsequent events through October 12, 2018, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

2. Significant accounting policies (continued):

Investments:

The following table presents the current value of investments at December 31, 2017 and 2016. All investments of the Plan were participant-directed at December 31, 2017 and 2016.

	2017	2016
Mutual funds (at fair value)	\$ 5,648,603	\$ 4,677,417
Common/collective trust (at fair value)	190,840	84,549
	<u>\$ 5,839,443</u>	<u>\$ 4,761,966</u>

3. Fair value measurements:

The *Fair Value Measurement* topic of FASB's ASC defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. exit price) and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosure* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurement establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and/or liabilities (Level 1 measurement) and the lowest priority to unobserved inputs (Level 3 measurements).

The three levels of fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual term), the Level 2 input must be observable for substantially the full term of the asset or liability.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

3. Fair value measurements (continued):

Level 3: Inputs to the valuation methodology are unobservable (i.e. supported by little or no market activity) and significant to the fair value measurements. Level 3 inputs include management's own assumptions that market participants would use in pricing the asset or liability (including the assumption about risk).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common/collective trust: The fair value of the common/collective trust is valued based on the unit value of the fund. Unit value is determined by the trust company sponsoring the fund by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it were determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Total
Mutual funds	\$ 5,648,603	\$ 5,648,603
	<u>\$ 5,648,603</u>	5,648,603
Investments measured at NAV as a practical expedient		
Common/collective trust (a)		190,840
		<u>\$ 5,839,443</u>

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

3. Fair value measurements (continued):

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Total
Mutual funds	\$ 4,677,417	\$ 4,677,417
	<u>\$ 4,677,417</u>	4,677,417
Investments measured at NAV as a practical expedient		
Common/collective trust (a)		<u>84,549</u>
		<u>\$ 4,761,966</u>

(a) In accordance with Subtopic 820-10, (Fair Value Measurement), certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Certified investments and notes receivable from participants (unaudited):

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments, notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2017 and 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan for the years ended December 31, 2017 and 2016.

5. Plan termination:

Although it has not expressed any interest to do so, the Company has the right, under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested (100%) in their accounts.

6. Tax status:

The Plan sponsor adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated July 16, 2014, which states that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the opinion letter. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

THE ARMS TRUCKING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

6. Tax status (continued):

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for Plan years prior to 2014.

7. Party-in-interest transactions:

Participant loans constitute party-in-interest transactions.

8. Differences between financial statements and Form 5500:

Differences exist between the accompanying financial statements and the amounts reported in the 2017 and 2016 Form 5500. For Form 5500 purposes, defaulted notes are considered to be a deemed distribution to the participants. For financial statement purposes, the notes are still considered to be assets of the Plan due to them being accrued by the participant's account and also due to the Plan allowing for participants to designate in what investment programs their account balances should be invested.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2017	2016
Net assets per the financial statements	\$ 6,219,481	\$ 5,108,500
Less: Deemed distributions of participant loans	(13,936)	(11,144)
Net assets per Form 5500	<u>\$ 6,205,545</u>	<u>\$ 5,097,356</u>

The following is a reconciliation of total deductions per the financial statements to the Forms 5500 for the year ended December 31:

	2017	2016
Deductions paid per the financial statements	\$ 219,620	\$ 232,946
Plus: Deemed distribution of participant loan	2,792	405
Deductions per Form 5500	<u>\$ 222,412</u>	<u>\$ 952,439</u>
