**COLLINS INK 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016**

1. Plan description

The following description of the Collins Ink 401(K) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Collins Ink Corporation (the Company) who have completed three months of service. To receive an allocation of non-elective discretionary employer contributions, employees must have completed 1,000 hours of service and be employed on the last day during the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers seventeen mutual funds and a fully benefit-responsive investment contract (FBRIC) as investment options for participants. The Company makes safe harbor matching contributions to the Plan equal to 100% of the first 3% of compensation plus 50% of the next 2% of compensation, subject to IRS limitations. Contributions are allocated amongst investment options based on the participant's selected allocation percentages.

The Company may also make non-elective discretionary contributions to the Plan. The non-elective discretionary contribution is allocated in the proportion that the compensation of each participant bears to the compensation of all participants for the plan year. There were no non-elective discretionary contributions made for 2017.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and discretionary contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan, and (b) decreases in investment value. Allocations of matching contributions are based on participant contributions, allocations of non-elective discretionary contributions are based on participant's compensation, and allocations of plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and safe harbor matching contributions plus actual earnings thereon. Participants are fully vested in the Company's non-elective discretionary contributions after six years of credited service, vesting 20% per year after year two.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 5.25%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company non-elective discretionary contributions are used to offset future employer non-elective contributions to the Plan, or pay plan expenses. At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$3,321 and \$5,708, respectively. During 2017, \$4,373 of forfeited non-vested accounts were used to offset plan expenses.

Plan merger

On June 1, 2016, the Company was acquired by Kao Corporation. Effective January 1, 2018, the Plan was merged into the Kao America, Inc. 401(k) Savings Plan. All Plan investments, with the exception of the FBRIC, were transferred from the Plan to the Kao America, Inc. 401(k) Savings Plan on March 29, 2018. As of the report date, the FBRIC remains in the Plan.

Payment of benefits

On termination of service due to death, disability, retirement, or any other reason, a participant may elect to receive a lump-sum amount or installment payments equal to the value of the participant's vested balance in his or her account. Participants may also apply for hardship withdrawals, subject to approval by the plan administrator.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2017 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the FBRIC, which is reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds and a FBRIC. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses related to specific participant transactions (i.e. loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is a trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees are paid by the Plan for investment management services by reducing the return earned on each fund.

4. Tax status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,184,413	\$ -	\$ -	\$ 4,184,413
Total assets in the fair value hierarchy	4,184,413	-	-	4,184,413
Investments measured at NAV (a)	-	-	-	-
Investments at fair value	<u>\$ 4,184,413</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,184,413</u>

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,285,449	\$ -	\$ -	\$ 3,285,449
Total assets in the fair value hierarchy	3,285,449	-	-	3,285,449
Investments measured at NAV (a)	-	-	-	-
Investments at fair value	<u>\$ 3,285,449</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,285,449</u>

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

6. Fully benefit-responsive investment contract

The Plan holds a traditional investment contract, the Guaranteed Portfolio Fund. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for the FBRIC because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
- Premature termination of the contract
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that would limit the ability of the Plan to transact at contract value with the contract issuers and that limit the ability of the Plan to transact with contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer
