REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the plan administrator of the
Wyle Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Wyle Retirement Plan, which comprise the Statements of Net Assets Available for Plan Benefits as of December 31, 2017 and 2016, the related Statements of Changes in Net Assets Available for Plan Benefits for the Years Ended December 31, 2017 and 2016, the Statement of Accumulated Plan Benefits as of December 31, 2016, the related Statement of Changes in Accumulated Plan Benefits for the Year Ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Life Insurance Company, the Insurer of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Insurer holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Insurer as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the plan administrator by the Insurer is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017, and Schedule H, line 4j – Schedule of Reportable Transactions for the Year Ended December 31, 2017, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Insurer, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the Wyle Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, as restated and effective January 1, 2016, is a noncontributory defined benefit plan covering all eligible employees of Wyle Inc. (the Company). Effective January 1, 1998, the Plan was frozen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Vesting

Vesting in the Company's contribution is based on years of continuous service. Participants become fully vested after five years of credited service.

c. Plan Benefits

The Plan provides for normal retirement benefits upon reaching age 65 and five years of vesting service equal to 50 percent of a participant's final average compensation less 50 percent of the primary Social Security benefit multiplied by a fraction, as defined by the plan document. The Plan has provisions for early and late retirement, termination, and death benefits. Participants may elect to receive their pension benefits from various forms of joint and survivor annuities.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value. Purchases and sales of securities are recorded on a trade-date basis. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

e. Administrative Expenses

Administrative expenses are paid for by the Plan.

f. Subsequent Events

The Plan has evaluated the subsequent events through June 26, 2018, the date the financial statements were available to be issued.

g. New Accounting Pronouncements

The Plan has adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments That Calculate Net Asset Value Per Share (or Its Equivalent) (a consensus of the Emerging Issues Task Force)*.

ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share (or its equivalent) as a practical expedient. The amendments to the ASC contained in ASU 2015-07 are effective for all plan years beginning after December 15, 2016.

The Plan has applied ASU 2015-07 in the current period's financial statements. As required under ASU 2015-07, the changes have been applied retrospectively to all periods presented. Application of ASU 2015-07 does not change total net assets available for plan benefits.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

4. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary using the projected-unit-credit-cost-method. Under this actuarial method, the cost attributed to past service is determined on the valuation date as the present value of the benefits actually earned as of that date. It is the intention of the Company's funding policy, based on the actuarial assumptions referred to in Note 10, that all eligible participants' benefits will be fully provided for by the time they retire. During 2017 and 2016, the Plan exceeded the minimum funding requirements of ERISA. Plan participants may not make contributions to the Plan.

5. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at the NAV of units held by the Plan at year-end, which is considered by plan management to be the best approximation of fair value. The unit values are calculated based on the collective values of the underlying investments. Funds held in pooled separate accounts may be redeemed daily without restriction.

5. Fair Value Measurement (Continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All of the Plan's investments that are carried at fair value were measured at NAV per share (or its equivalent) and, therefore, have not been classified in the fair value hierarchy.

6. Summary of Unaudited Information

The Insurer of the Plan certified certain information, which was not audited in accordance with the plan administrator's instructions and as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information certified by the Insurer consists of the following:

- Fair value of investments as reflected in the Statements of Net Assets Available for Plan Benefits as of December 31, 2017 and 2016.
- Investment income as reflected in the Statements of Changes in Net Assets Available for Plan Benefits for the Years Ended December 31, 2017 and 2016.
- Investment information reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2017.
- Investment information reflected in the Schedule H, line 4j - Schedule of Reportable Transactions for the Year Ended December 31, 2017.

The Plan's independent public accountants did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

7. Tax Exempt Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 13, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administration believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years ended December 31, 2013, or prior.

8. Related Party Transactions

Principal Life Insurance Company is the Insurer of the Plan and holds and manages investments. Transactions with Principal Life Insurance Company are party-in-interest transactions, as defined by ERISA.

9. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed to the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2017 and 2016, the ceiling is $5,369 and $5,011 per month, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

10. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on years of service and the participants' average compensation for the five years ending December 31, 1999.

The actuarial present value of accumulated plan benefits has been determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected payment dates. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. The actuarial valuation is as of January 1, 2017, which is the beginning of the plan year and is presented in the Statement of Accumulated Plan Benefits as of December 31, 2016.

The significant actuarial assumptions used in determining accumulated plan benefits as of December 31, 2016, are as follows:

Investment return	5.5%
Mortality	RP-2014 tables

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality for funding

The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

Termination

The rates at which participants are assumed to leave the Company by service per 100 employees are shown below:

Representative Termination Rates

Years of Service	Percentage leaving during the year
0-4 years	21.0
5-9 years	10.0
10-19 years	5.0
20+ years	2.5

Disability

The rates at which participants become disabled by age and gender based upon Wyatt's Disability Study – Class 2 are shown below:

	Percentage becoming disabled during the year	
Age	**Males**	**Females**
20	.06%	.06%
30	.15%	.15%
40	.33%	.33%
50	.84%	.84%
60	2.11%	2.11%

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), it is assumed that participants will retire upon becoming eligible for normal retirement.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit — The later of age 65, or the age at the valuation date.
- Disability benefit — Upon disablement.
- Retirement benefit — The later of age 65 or the age at valuation date.

Form of payment — For those commencing payments, the following payment forms are assumed, based on selection behavior observed from other retirees:

50%	Single Life Annuity
15%	50% J&S
35%	100% J&S

Percent married — 75% of active and terminated participants are assumed to be married to an eligible spouse.

Spouse age — Wives are assumed to be 3 years younger than husbands.

At-risk assumptions — For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life-only form of payment.

Timing of benefit payments — Annuity payments are payable monthly at the beginning of the month.

Maximum benefits and plan compensation limitations — Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC § 415. Plan compensation is limited to the maximum presently allowed under IRC § 401 (a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Wyle Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on prior tables in use by Wyle. Given the small active population, this table will not materially affect plan costs. Assumed termination rates differ by service because of expected differences in termination rates by service.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	Retirees are assumed to retire at age 65 given the extremely small active population and lack of retiree healthcare.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Age 65 was selected due to the small population.
■ Deferred vested benefit	Age 65 was selected due to the small population.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience.

SCHEDULE SB ATTACHMENTS

Marital assumptions

■ Percent married	The assumed percentage married is based on historically used rates. Given the small active population, this assumption will not materially affect cost.
■ Spouse age	The assumed age difference for spouses is based on historically used rates. Given the small active population, this assumption will not materially affect cost.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The rates at which participants are assumed to leave the Company by service per 100 employees are shown below:

Representative Termination Rates

Years of Service	Percentage leaving during the year
0-4 years	21.0
5-9 years	10.0
10-19 years	5.0
20+ years	2.5

Disability

The rates at which participants become disabled by age and gender based upon Wyatt's Disability Study – Class 2 are shown below:

	Percentage becoming disabled during the year	
Age	Males	Females
20	.06%	.06%
30	.15%	.15%
40	.33%	.33%
50	.84%	.84%
60	2.11%	2.11%

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), it is assumed that participants will retire upon becoming eligible for normal retirement.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit — The later of age 65, or the age at the valuation date.
- Disability benefit — Upon disablement.
- Retirement benefit — The later of age 65 or the age at valuation date.

Form of payment — For those commencing payments, the following payment forms are assumed, based on selection behavior observed from other retirees:

50%	Single Life Annuity
15%	50% J&S
35%	100% J&S

Percent married — 75% of active and terminated participants are assumed to be married to an eligible spouse.

Spouse age — Wives are assumed to be 3 years younger than husbands.

At-risk assumptions — For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life-only form of payment.

Timing of benefit payments — Annuity payments are payable monthly at the beginning of the month.

Maximum benefits and plan compensation limitations — Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC § 415. Plan compensation is limited to the maximum presently allowed under IRC § 401 (a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Wyle Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2017. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on prior tables in use by Wyle. Given the small active population, this table will not materially affect plan costs.

Assumed termination rates differ by service because of expected differences in termination rates by service.

Disability

Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

Retirement

Retirees are assumed to retire at age 65 given the extremely small active population and lack of retiree healthcare.

Benefit commencement date for deferred benefits:

- Preretirement death benefit — Age 65 was selected due to the small population.
- Deferred vested benefit — Age 65 was selected due to the small population.

Form of payment

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience.

SCHEDULE SB ATTACHMENTS

Marital assumptions

■ Percent married	The assumed percentage married is based on historically used rates. Given the small active population, this assumption will not materially affect cost.
■ Spouse age	The assumed age difference for spouses is based on historically used rates. Given the small active population, this assumption will not materially affect cost.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1995. The plan was amended and restated effective January 1, 2007. The latest amendment reflected herein is the seventh amendment.

Coverage and participation	Nonunion Employees. Participation is frozen as of December 31, 1997.
Plan year	The twelve-month period ending December 31.

Definitions

Vesting service	Years of service (plan year in which participant completes at least 1,000 hours) from date of hire. Participants are 100% vested after obtaining 5 years or more of service.
Credited service	The sum of (i) and (ii): i) The total of an Employee's service before January 1, 1995, determined according to the provision of the Retirement Plan maintained by Wyle Electronics as in effect on December 31, 1994. ii) The total of an Employee's Periods for Service on and after January 1, 1995 and before December 31, 1997, expressed as whole years and fractional parts of a year (to two decimal places) on the basis that 365 days equal one year.
Final average compensation	The monthly average of total pay received for the five years out of the ten latest years prior to retirement date which gives the highest average. The average compensation is frozen as of December 31, 1999.
Normal retirement date (NRD)	Attained age 65.

SCHEDULE SB ATTACHMENTS

Accrued benefit	The difference between i and ii: i) The greater of (1) or (2): (1) The difference between a) and b), multiplied by c), a) 50% of Average Compensation b) 50% of the Social Security Benefit c) Accrued Benefit Adjustment (credited service up to 30 years divided by 30 years) (2) Minimum benefit of $50 ii) Accrued benefit under the Wyle Electronics Retirement Plan. Benefits are frozen as of December 31, 1999.
Normal Form of Benefit	Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Eligibility for Benefits

Normal retirement	Retirement or NRD
Early retirement	Retirement before NRD and on or after both attaining age 55 and 10 years of vesting service.
Late retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Death benefits for participants in active service	Qualified married participant fully or partially vested in an accrued benefit.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit determined as of NRD.
Early retirement	Accrued Benefit on Early Retirement Date reduced by 5% for each year that the Early Retirement Date precedes NRD.
Late retirement	Accrued Benefit on Late Retirement Date.

SCHEDULE SB ATTACHMENTS

Vested termination	Accrued Benefit on date of termination multiplied by the Vesting Percentage.
Death benefits for participants in active service	Monthly annuity payable to spouse, deferred to participant's Earliest Retirement Date if later than the date of death. If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Other Plan Provisions

Forms of payment	Death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 66% and 2/3%, 75%, or 100% joint and survivor annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the 1983 Group Annuity Mortality Table for males and 7.00% interest.
Plan participants' contributions	No participant contributions are allowed.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.
