PROFIT SHARING 401(k) PLAN**

NOTES TO FINANCIAL STATEMENTS IN LIQUIDATION

YEARS ENDED DECEMBER 31, 2017 AND 2016

A. DESCRIPTION OF THE PLAN:

The following description of the Downtown Ford Lincoln Profit Sharing 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - Downtown Ford Lincoln, Inc. (the “Company” and “Plan Sponsor”) established the Downtown Ford Lincoln, Inc. Profit Sharing 401(k) Plan effective January 1, 1989. The Plan was a defined contribution plan that covered substantially all eligible employees of the Company, as defined in the Plan document, who had completed three months of service and had attained the age of eighteen. The Plan was subsequently amended and restated by the adoption of a volume submitter plan effective January 1, 2016. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Termination - On October 31, 2017, the Plan Sponsor approved the termination of Plan with an effective date of December 1, 2017 and to distribute Plan assets as soon as administratively practical. The Plan did not accrue any additional benefits as of the effective date and all participants became 100% vested in their accounts. As of December 31, 2017, there was \$11,880 of assets yet to be distributed. All remaining assets were distributed during the first quarter of 2018.

Prior to Plan termination, participants were notified of their options to choose between a direct rollover distribution or a lump-sum distribution. For those that did not respond, a participant having less than a \$1,000 balance had to take a lump-sum distribution. A participant having more than \$1,000 received a direct rollover distribution into an individual retirement account with Retirement Clearing House.

Contributions - Prior to Plan termination, Plan participants were able to contribute up to 100% of their pre-tax annual compensation subject to limits prescribed by the Internal Revenue Code (“IRC”). Participants who had attained 50 before the end of the Plan year were eligible to make catch-up contributions. All participants could rollover into the Plan amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company was able to make non-elective contributions that were equal to a percentage of each participant’s compensation. These contributions were totally discretionary, including the discretion to forego the contribution for one or more Plan years. Employees had to be employed on the last day of the Plan year or have completed 501 hours of service during the Plan year. The Company made \$17,352 of non-elective contributions for the year ended December 31, 2017. These contributions were nonparticipant-directed and were invested directly in Huntington National Bank’s managed portfolio (See Note E).

Participant Accounts - Each participant’s account was credited with the participant’s contribution, rollover contributions, and allocations of (a) the Company’s non-elective contributions (if any), (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations were based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s vested account.

Investment Options - Prior to Plan termination, a participant could direct elective wage deferrals and rollover contributions to their accounts into various investment options offered by the Plan and could be changed daily. Non-elective contributions were invested in the Plan’s managed portfolio. The Plan’s investment strategies included investments with varying degrees of risk that are subject to the volatility of financial markets.

As a result of the partial termination resulting from the major reduction in the workforce during 2017 followed by the formal Plan termination effective December 1, 2017, all participants including the affected employees became 100% vested in their accounts as required by law.

Benefit Payments - Upon termination of service, a participant having a balance of more than \$5,000 may have elected to receive either a lump-sum distribution, a direct rollover distribution, or defer the payments. A participant having less than a \$1,000 balance had to take a lump-sum distribution. Non-terminated employees may have made withdrawals from their elective deferral account balance as a hardship withdrawal prior to reaching normal retirement age. Hardship withdrawals were subject to additional rules and conditions as outlined in the Plan agreement. Non-terminated employees who have reached age 59 ½ may have made withdrawals of up to 100% of their vested account balance as an in-service distribution.

Forfeitures - Forfeitures which occur pursuant to the Plan could be used to reduce non-elective employer contributions. During the year ended December 31, 2017, \$83,924 of forfeitures were used to reduce non-elective employer contributions. As of December 31, 2017 and 2016, the Plan had a forfeiture balance of \$0 and \$7,599, respectively.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The accompanying financial statements have been prepared on the liquidation basis and accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Benefit Payments - Benefits were recorded when paid.

Valuation of Investments and Income Recognition - The Plan's investments in liquidation were stated at fair value as fair value and liquidation value were the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determined the Plan's valuation policies utilizing information provided by investment advisors. See Note D for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses - The Company elected to pay certain fees and expenses related to the operation of the Plan. Certain investment management fees, brokerage commissions, and other fees were paid directly by the Plan.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Subsequent Events - Plan management has evaluated subsequent events through October 10, 2018, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

C. INFORMATION PROVIDED BY THE TRUSTEE:

Information including investments held as shown on the statements of net assets available for benefits in liquidation as of December 31, 2017 and ongoing as of December 31, 2016, and interest and dividend income and net appreciation in fair value as shown on the statement of changes in net assets available for benefits in liquidation for the year ended December 31, 2017, was prepared by or derived from information provided by Huntington National Bank, the trustee and furnished to the plan administrator. The plan administrator obtained certification of this information from the trustee that the information provided to the plan administrator was complete and accurate.

D. FAIR VALUE MEASUREMENTS:

The authoritative accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets or for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies - Valued at the closing price reported on the active market on which the individual securities are traded.

D. FAIR VALUE MEASUREMENTS (CONTINUED):

Stable value collective trust - A stable value fund that is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value ("NAV") of units of the financial institution's collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Bank managed portfolio - Valued at the NAV of units held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes from prior years in techniques and inputs used to determine fair value. There were no transfers between Levels 1, 2 and 3 during 2017 or 2016.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 (in liquidation) and 2016 (ongoing):

D. FAIR VALUE MEASUREMENTS (CONTINUED):

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2017 and 2016, respectively:

December 31, 2017	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>

* Investment strategy for these investments, valued using NAV per share, is not being presented since it is a fund that files a form 5500 as a direct filing entity ("DFE").

** Investment strategy for the bank managed portfolio is to balance long-term growth in equity securities with income streams from fixed income securities.

F. INCOME TAX STATUS:

The prototype plan obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan was amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The authoritative accounting guidance required the plan administrator to evaluate uncertain tax positions taken by the Plan. The plan administrator has concluded that as of December 31, 2017, there were no uncertain income tax positions taken or expected to be taken by the Plan. The Plan has not recognized any interest or penalties related to uncertain tax positions. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records were absorbed by the Company. Other than as described above or pursuant to a trust agreement, the Plan had no agreements or transactions with any parties-in-interest.

Huntington National Bank is the trustee of the Plan and holds the Plan's investments. Huntington National Bank is a party-in-interest of the Plan as defined by ERISA Section 3(14), and accordingly investment transactions in the funds are party-in-interest transactions.

H. RISKS AND UNCERTAINTIES:

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
