Note 1: Description of the Plan

The following description of the Hal Hays Construction, Inc. Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Hal Hays Construction, Inc. (HHCI) established the Plan initially effective July 1, 2003 and restated it effective July 1, 2007 and July 1, 2012. A related entity, Heritage Transportation, Inc. started contributing to the Plan in 2014. In 2015, another related entity, Hays Ranches, LLC also began contributing to the Plan. In 2016, the related entities, Golden Bear Equipment, Inc. and Cal Pacific Constructors, Inc. began contributing to the Plan. Cal Pacific Constructors, Inc., Golden Bear Equipment, Inc., Hays Ranches, LLC, Heritage Transportation, Inc., and HHCI are referred to as the Companies in the Plan's financial statements.

The Plan is a defined contribution plan covering all employees of the Companies. Employees are divided into two major categories, prevailing wage employees and 401(k) employees. The two categories are subject to different rules under the Plan. Employees are classified as prevailing wage or 401(k) based on the functions they perform for the Companies. prevailing wage employees are required to enter the Plan from inception of employment. 401(k) employees can enter the Plan when they are at least 21 years of age and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible 401(k) Plan participants can elect to defer part of their earnings on a pre-tax or after-tax basis. There are no Plan imposed limits on the amount an employee can contribute. However, the Internal Revenue Service limits the maximum amounts that can be contributed on a pre-tax or after-tax salary deferral basis. For calendar years 2017 and 2016, that limit is $18,000. All employees who are eligible to make elective deferrals under the Plan and who have attained the age of 50 before the close of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

(continued)

Note 1: Description of the Plan (continued)

Contributions (continued)

The Plan also allows for employer non-elective contributions also known as a profit-sharing contribution and employer match. To be eligible to receive employer discretionary contributions an employee must have completed 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. In addition, the Plan allows for employer matching contributions. To be eligible to receive matching contributions an employee must be making salary deferrals to the Plan. All prevailing wage employees receive employer contributions, which are determined by the job contract and level of work performed.

Participant Accounts

Separate accounts are maintained for each participant. Each participant account is credited with the participant's contribution, allocations of the Companies' contribution, plan earnings, and charged with an allocation of administrative expenses. Participants direct the investment of their contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, transfer of rollover contributions, as well as all prevailing wage employer contributions plus actual earnings thereon. Vesting in the Companies' discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in their employer contributions after six years of credited service.

Vesting schedule for employer discretionary contributions is as follows:

Years of Service	Percentage
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

(continued)

Note 1: Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a single-sum cash payment or have it rolled over into an individual retirement account (IRA) or another qualified plan that accepts transfers.

Forfeited Accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. These forfeited amounts will be used to reduce the Companies' discretionary matching contributions or to offset plan expenses. Forfeitures available for plan use are $1,655 and $1,614 as of December 31, 2017 and 2016, respectively.

Administrative Expenses

The Plan sponsor absorbs some costs associated with the Plan including audit fees. Participants pay recordkeeping and trustee fees. The Plan utilizes an Expense Budget Account to accumulate funds and pay qualified plan service providers.

Participant Loans

Participant loans are not permitted by the Plan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(continued)

Note 2: Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The units of pooled separate accounts are stated at fair value as determined by the issuer of the account based on the fair value of the underlying investments. Individual participant accounts invested in the pooled separate accounts are maintained on a unit value basis. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan Sponsor and are excluded from these financial statements. Fees related to early distributions are charged directly to the individual participant's account. Investment related expenses are applied ratably to participant's accounts. Distributions and investment fees are aggregated and included in administrative fees.

Note 3: Investments

The December 31, 2017 and 2016 statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years then ended, and the accompanying notes and supplemental schedule to the financial statements, were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $2,785,263 and $2,170,247 at December 31, 2017 and 2016, respectively.

The Plan's investments (including investments bought, sold and held during the year) appreciated in value by $369,145 and $161,746 during the years ended December 31, 2017 and 2016, respectively.

(continued)

Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(continued)

Note 4: Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Cash equivalents: Valued at fair values by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the fund at the period end. The account values of pooled separate accounts are not publically quoted but use NAV as the practical expedient, therefore are not classified in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of Net Realizable Value (NRV) or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Cash equivalents	$ 28,987	$ -	$ -	$ 28,987
Investments measured at net asset value*	-	-	-	2,756,276
Total Investments, at fair value	$ 28,987	$ -	$ -	$ 2,785,263

(continued)

Note 4: Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Cash equivalents	$ 67,455	$ -	$ -	$ 67,455
Investments measured at net asset value*	-	-	-	2,102,792
Total Investments, at fair value	$ 67,455	$ -	$ -	$ 2,170,247

** Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.*

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 5: Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions. If the Plan terminates, benefits provided under this plan are neither insured not guaranteed by the Companies, by the Pension Benefit Guaranty Corporation, a federal governmental agency, nor under any state or federal law.

(continued)

Note 6: Tax Status

The prototype plan obtained a determination letter on March 31, 2014 in which the Internal Revenue Service stated that the prototype Plan is qualified under section 401(a) of the Internal Revenue code (the Code). Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust was tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 7: Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note 8: Related Party and Party in Interest Transactions

Certain Plan investments are shares of pooled separate accounts whose underlying investments are managed by Transamerica. Transamerica is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Holdings by Transamerica at December 31, 2017 and 2016 amounted to $13,128 and $11,528 respectively. The Companies, the employers whose employees are covered by the Plan, may make non-elective discretionary contributions. These transactions qualify as party in interest transactions. There were no discretionary profit-sharing employer contributions during the years ended December 31, 2017 and 2016.

Note 9: Subsequent Events
