NOTE A - DESCRIPTION OF PLAN (Continued)

(4) Contribution Policy (Continued)

A Participant may make voluntary contributions by electing to defer a portion of their annual compensation on a pretax basis, as defined by the Plan and subject to Internal Revenue Service and other limitations. The maximum contribution for any one individual for the years ended December 31, 2017 and 2016 was \$18,000. Participants that are at least age 50 by December 31 of the calendar year, may make a special catch-up contribution in addition to the maximum deferral limit. The maximum deferral limit for participants over age 50 for the years ended December 31, 2017 and 2016 was \$24,000. Any deferrals in excess of applicable IRS limits are distributed to the participant in accordance with the terms of the Plan and are included in the line item "Corrective distributions" in the Statement of Changes in Net Assets Available for Benefits.

(5) Participant Accounts

Each participant account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings or losses and (c) forfeitures of terminated participants' non-vested accounts, used to reduce Company contributions. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and the participant's vested interest in employer contributions.

(6) Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are also invested based on the participant's elections. The Plan offers a variety of options which include guaranteed interest accounts and registered investment companies. (See Note D)

(7) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participant's matching contribution account and profit sharing account which shall become vested and nonforfeitable shall be based on his or her number of Years of Service according to the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 3	0%
3 years	100%

(8) Benefits Paid to Participants

In general, participants may elect to receive a distribution upon hardship, termination, disability, retirement or after the age of 59 ½. Hardship distributions are allowed for purchasing a primary residence or financing the higher education of the participant, the participant's spouse or dependent, as well as paying unreimbursed medical bills or alleviating certain other financial hardships. Upon termination, disability or retirement participants may elect to start receiving benefits or rollover their account balances into other qualified plans.

(13) Forfeited Accounts

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$232,926 and \$117,140, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2017, employer contributions were reduced by \$100,128 from forfeited non-vested accounts.

(14) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(2) Use of Estimates

The preparation of financial statements in conformity with accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Risks and Uncertainties

The Plan utilizes various investment instruments that include funds that are comprised of investment contracts and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

(4) Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit responsive investments contracts within the stable value fund, which is reported at contract value. Fair value is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(5) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account. As of December 31, 2017, and 2016, no allowance for credit losses has been recorded.

(6) Income Tax Status

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated July 8, 2016, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified.

(7) Recent Account Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 removes the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit a reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Cross Country Healthcare, Inc. is required to adopt the provisions of ASU 2015-07 for reporting periods beginning after December 15, 2016, but early adoption is permitted. Cross Country Healthcare, Inc. adopted ASU 2015-07 for the 2017 plan year. The adoption of ASU 2015-07 did not have a material impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): Part I – Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures and Part III - Measurement Date Practical Expedient ("ASU 2015-12"). The amendments in this update remove the requirement to record fully benefit-responsive investment contracts at fair value and designate contract value as the only required measure for these contracts. The amendments also remove the requirement to disclose (a) individual investments that represent five percent or more of net assets available for benefits and (b) the net appreciation or depreciation for investments by general type, however, the net appreciation or depreciation in investments is still required to be presented in aggregate. This amendment also provides a practical expedient to permit plans to measure investments and investment related accounts as of a month end date that is closest to the plan's fiscal year end when the fiscal year period does not coincide with month end. The Plan adopted the provisions of ASU 2015-12 for the year ended December 31, 2016. The impact of adopting this ASU is reflected in Note F.

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update No. 2017-06, Plan Accounting Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965), Employee Benefit Plan Master Trust Reporting ("ASU 2017-06"). The amendments in this update require a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statements of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Additionally, ASU 2017-06 removed the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of those general types of investments, which supplements the existing requirement to disclose the master trust's balances in each general type of investments. Lastly, ASU 2017-06 removed the redundant investment disclosures relating to the 401(h) account assets, which is not applicable to the Plan. The amendments in ASU 2017-06 are effective for fiscal years beginning after December 15, 2018 and should be applied retrospectively. Early adoption is permitted. Adoption of ASU 2017-06 will not have a material impact on the face of the Plan's financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

(8) Deemed Distributions

When a participant misses a note receivable payment, such note is considered delinquent. A late loan payment will be issued after the end of the calendar quarter in which the payment is delinquent. If the loan is not paid up-to-date by the end of the calendar quarter after the calendar quarter in which a payment is first delinquent, the loan will be in default. In that event, the entire outstanding loan balance will be reported to the IRS as taxable income to the participant on a Form 1099-R for the year in which the loan default occurs. Delinquent notes receivable from participants meeting such terms are reclassified as deemed distributions.

(9) Administrative Expenses

Certain administrative expenses were paid by the Plan, as permitted by the Plan document. All other administrative expenses were paid by the Company

(10) Payment of Benefits

Benefits are recorded when paid.

NOTE C - NOTES RECEIVABLE FROM PARTICIPANTS

The Plan permits loans to be made to participants in the event of need by the participant, within certain limitations as defined in the Plan's provisions. At December 31, 2017 and 2016, loans to participants amounted to \$957,172 and \$786,562 respectively, and bear interest at a rate of approximately 4.25% to 10.00% per annum, maturing through December 20, 2022. The loans are secured by the participant's vested account balance in the Plan. For the year ended December 31, 2017 the participant loans earned interest of \$38,816. For the year ended December 31, 2017, the Plan recorded \$49,828 of deemed distributions.

NOTE D - INVESTMENTS AND INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan has a trustee who is responsible for the overall functions of the Plan. Fifth Third Institutional Services has been appointed the Trustee of the Plan. The Trustee provides enrollment, recordkeeping, and investment allocation services for participant directed investments. Information with respect to investments held and their market values, interest income and reportable transactions included in the financial statements and supplementary schedule has been certified by the trustee as being complete and accurate. The plan administrator obtained the certification in accordance with 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974

Upon enrollment in the Plan, a participant may direct its voluntary contributions into any of several investment options including guaranteed interest accounts and registered investment companies. Participants may change their investment options at their discretion. The employer's contribution is made in accordance with the employee's investment allocation percentages. If investment options have not been selected, then the contribution will be credited to the target retirement fund.

NOTE E – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

For the year ended December 31, 2017 some of the Plan's funds were in investments managed by Fifth Third Institutional Services. Fifth Third Institutional Services was the trustee of the Plan for the year then ended; therefore, these transactions qualify as exempt party-in-interest transactions.

Notes receivable to participants also qualify as exempt party-in-interest transactions.

NOTE F - FAIR VALUE MEASUREMENTS

FASB ASC No. 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

CROSS COUNTRY HEALTHCARE, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2017 and 2016

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table set financial assets measures at fair value in the Statement of Net Assets Available for Plan Benefits and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2017 and 2016:

Assets Measured at Fair Value at December 31, 2017

NOTE G – GUARANTEED INVESTMENT FUND – FULLY BENEFIT-RESPONSIVE

The Putnam Investments Stable Value Fund is the Plan's guaranteed investment fund option. The fund may invest in short-term money market instruments and in fully benefit-responsive synthetic GICs with various insurance companies, banks and financial institutions. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal amount of the GIC and an amount of interest that is guaranteed to the Plan.

CROSS COUNTRY HEALTHCARE, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2017 and 2016

NOTE G – GUARANTEED INVESTMENT FUND – FULLY BENEFIT-RESPONSIVE (Continued)

GICs are carried at contract value, which represents invested principal plus contractual interest earned thereon, less participant withdrawals and administrative expenses. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were able to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive contracts through a common collective trust. The investment contracts are non-transferable but provide for benefit-responsive withdrawals or transfers by plan participants at contract value.

The fund is designed to preserve principal investment while earning a level of interest income that is consistent with the principal preservation. The fund invests in investment contracts issued by insurance companies and other financial institutions (“wraps”), fixed income securities, and money market funds. Wraps are designed to permit the use of book value accounting to maintain a constant \$1 net asset value. In order to maintain the wrap issuers' promise to pay the participant-initiated withdrawals and exchanges at book value, the wraps impose ongoing contractual commitment on the fund as well as the plans invested in the fund. The Plan is required to provide a redemption notice to liquidate its entire share in the fund; however, the fund may defer honoring the withdrawal request for up to 12 months.

There are no reserves against the contract value for the credit risk of the GIC issuer or otherwise. The interest rate for a GIC is based on a formula agreed upon by the Plan and the issuer of the GIC. In no event shall the interest rate be less than zero percent. The key factors that influence future crediting rates include the following: (i) the level of market interest rates, (ii) the amount and timing of participant contributions, transfers and withdrawals, (iii) the investment returns generated, and (iv) the duration of the underlying investments.

The occurrence of certain events can limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan Agreement (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) failure of the Plan's trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Notwithstanding the partial plan termination status discussed in Note A above, the Company does not believe it is probable that any event will occur that would limit the Plan's ability to transact at contract value with participants.

NOTE H – DATE OF MANAGEMENT REVIEW

Plan management has evaluated material events and transactions that have occurred after the balance sheet date and concluded that no subsequent events have occurred through, September 27, 2018, the date the financial statements were issued, that require adjustment to or disclosure in these financial statements.
