INDEPENDENT AUDITORS' REPORT

The Plan Administrator and Participants
Diebold, Incorporated Pension Plan for Salaried Employees
North Canton, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Diebold, Incorporated Pension Plan for Salaried Employees (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2017 and 2016 and for the year ended December 31, 2017, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement

The following rates have been utilized as the assumed incidence of retirement.

Percentage retiring during the year	
Age	Annual Rate of Retirement
55 – 60	3.0%
61	8.5%
62 – 64	12.5%
65	30.0%
66 – 69	20.0%
70 and over	100.0%

Form of payment

For valuation purposes, participants are assumed to elect the single life form.

Benefit commencement dates:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained retirement eligibility.
- Deferred vested benefit The later of age 65 or termination of employment.
- Disability benefit Upon disablement.
- Retirement benefit Upon termination of employment.

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefits, 85% of male participants are assumed to be married and 50% of female participants are assumed to be married.

Spouse age

Wife three years younger than husband.

Covered pay

Not applicable due to plan freeze.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	None

Sources of Data and Other Information

Diebold Nixdorf furnished participant data as of January 1, 2017. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the Plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated as the actual expenses paid from the trust in the preceding year, adjusted by the change in the estimated PBGC premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Retirement	Retirement rates are based on plan sponsor expectations and represent a best estimate of future experience.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
- Deferred vested benefit
Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the Plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Form of payment	The form of payment is based on the normal form of the Plan. Other forms are considered to be actuarially equivalent.

Marital assumptions:

- Percent married The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
- Spouse age The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Prescribed Methods

Funding methods The methods used for funding purposes as described, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2015 to September 2016.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

Change in methods since prior valuation None.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective December 31, 1942. The plan was amended to freeze plan accruals effective December 31, 2013 and to provide for a Voluntary Early Retirement Program (VERP) effective September 1, 2013. The plan was most recently amended and restated January 1, 2016.

Coverage and participation An employee shall become a Participant on the 1st of the month following his completion of a Year of Participation Service; however, no one hired or rehired on or after July 1, 2003 shall be eligible to participate in the Plan.

Definitions

Vesting service A Participant shall receive Service for the period of time between his Date of Hire and Date of Severance in determining eligibility for both benefits and vesting.

Benefit service A Participant shall receive Service for the period of time between his Date of Hire and Date of Severance or December 31, 2013, if earlier. Service earned after December 31, 2013 will not be reflected in determining benefit amounts.

Final average compensation/salary Plan compensation is defined as an employee's W-2 compensation, excluding any amount included therein as imputed income for the value of non-cash compensation and any type of expense reimbursement and related tax allowance from an Employer, plus deferrals under the Diebold, Incorporated 401(k) Savings Plan. Annual compensation is limited under Section 401(a)(17) of the Internal Revenue Code.

Final Average Compensation is defined as the five highest consecutive calendar years of Annual Compensation divided by 60 out of the 10 calendar years of employment that are immediately prior to retirement or termination of employment.

Compensation earned after 2013 is not reflected.

Eligibility for Benefits

Normal retirement	Age 65 or 5 years of participation, whichever is later.
Early retirement	At least age 50 with combined age and years of Credited Service equal or exceeding a total of 70, or any age with 30 years of Credited Service.
Pre-65 Retiree Medical Supplement	Retirement under the early or disability retirement provisions of the Plan on or after January 1, 1992 and before January 1, 1997.
Deferred vested termination	Any age and 5 years of Credited Service.
Disability	Incapacity by total and permanent disability after completing 15 or more years of Credited Service.
Preretirement death benefit	Death after 5 years of Credited Service.

Benefits Paid Upon the Following Events

Normal retirement	<p>Benefit: The monthly normal retirement benefit payable on a single life basis is equal to the greater of (a) or (b) plus (c) below:</p> <ul style="list-style-type: none">(a) A benefit calculated as 1/12 of the following:<ul style="list-style-type: none">(i) 0.8% of Final Average Compensation up to covered Compensation, plus(ii) 1.25% of Final Average Compensation in excess of Covered Compensation, times(iii) Credited Service (maximum 30 years).(b) \$16.00 per month per year of Credited Service (maximum 30 years), plus 1/12 of 20% of the portion of final Average Compensation which exceeds \$14,400 (reduced proportionately for Credited Service less than 30 years).(c) For a participant terminating after January 1, 1992, an amount equal to \$4.20 times Credited Service (maximum 30 years). <p>For a Participant whose Accrued Benefit as of January 1, 1994, is based on Annual Compensation which exceeds Code Section 401(a)(17) limitations, the amount above may be increased, if larger, to the following sum of (i) and (ii):</p>

- (i) the Participant's monthly Accrued Benefit as of December 31, 1993, frozen in accordance with regulations Section 1.401(a)(4)-13, and
- (ii) the Participant's monthly Accrued Benefit determined under (a) through (c) above using the Participant's Credited Service accruing after January 1, 1994, but not in excess of 30 years when combined with the Credited Service for all years.

For those active participants as of January 1, 2005, who were not highly compensation employees for the 2005 Plan Year, the minimum annual benefit is \$1,800.

For certain officers, the normal retirement benefit is equal to the amount in Exhibit C of Amendment #3 of the Plan and will be paid based on the timing, manner and form of payment noted under **Additional Benefits** in the succeeding pages.

Early retirement

The accrued normal retirement pension as computed above based on Credited Service and Final Average Compensation prior to retirement. The benefit is actuarially reduced for commencement prior to age 65. If the Participant has 30 or more years of Credited Service at retirement, there is no actuarial reduction for that portion of his monthly benefit which is comprised of \$16.00 per year of Credited Service.

Pre-65 Retiree Medical Supplement

The monthly benefit payable from the date of retirement to age 65 determined as a result of taking (a) minus (b) below:

(a) \$9.20 times Credited Service (to a maximum of 30 years).

(b) The monthly annuity equivalent of the participant's retiree-medical account balance in the Diebold, Incorporated 401(k) Savings Plan.

This benefit will be actuarially reduced for commencement prior to age 63.

Deferred vested termination

The accrued normal retirement pension payable at age 65 or, alternatively, an actuarially reduced pension payable early if the employee has a combined age and years of Credited Service of at least 70.

Disablement The accrued normal retirement benefit as computed above is payable until Normal Retirement at which time the Normal Retirement benefit is payable.

Preretirement death The surviving spouse will receive the benefit she would have received if the Participant had retired on the first day of the month of his death or earliest retirement date, if later, and had elected a 50% Joint and Survivor Option and then died.

Other Plan Provisions

Additional benefits For certain officers an additional benefit is payable at age 62 (or as early as age 60 on a reduced basis). If married, the benefit is payable on an unreduced 100% Joint and Survivor basis with five years of payments guaranteed.

Participants hired between October 1, 2002 and December 31, 2002 receive their December 31, 2004, accrued benefit at age 62 with no reduction (or actuarially reduced from age 62 for commencement before age 62). If married, the benefit is payable on a fully subsidized 100% Joint and Survivor basis with five years of payments guaranteed.

Special Termination Benefits

2001 VERP:

All participants who were on Diebold's active payroll as of February 7, 2001, had attained age 55 and whose age plus service total at least 65 as of June 30, 2001, were eligible for the VERP.

2005 VERP:

All participants who were on Diebold's active payroll as of October 6, 2005, had attained age 55 and whose age plus service total at least 65 as of December 31, 2005, were eligible for the VERP. Participants in certain job classifications were excluded from the VERP.

Under the VERP, participants were eligible for special termination benefits. These special termination benefits provided an additional three years of service (subject to a 30-year cap and three years of age for benefit calculation purposes).

2013 VERP:

All active participants in the Plan as of June 30, 2013 with attained age plus vesting service greater than or equal to 70 were eligible for the VERP. Electing participants were required to retire December 1, 2013, or later with prior approval.

Participants electing the VERP received enhanced benefits and the opportunity to receive the pension as a lump sum. Those electing the VERP had benefit calculated assuming an additional two years of age and service (up to a maximum of 32 years of credit service).

Those electing the lump sum received the greater of the present value of the enhanced benefit payable immediately and the unenhanced benefit payable at the normal retirement age. For purposes of the VERP, the lump sum present value is determined using 417(e) assumptions including a quarterly stability period and a four month lookback.

Forms of payment

The benefit is normally payable on a single life basis if not married, otherwise the benefit is payable on an actuarially reduced 50% Joint Survivor basis. An actuarially reduced 75% Joint Survivor and 100% Joint Survivor are also available if married. Actuarial equivalence is based on the UP-1984 mortality table and 6.5% interest.

DIEBOLD, INCORPORATED RETIREMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2017 and 2016

Note 1: Description of the Plan

The following brief description of the Diebold, Incorporated Retirement Plan for Salaried Employees (the “Plan”) is provided for general information purposes only. Participants and users of the financial statements should refer to the Plan document for more complete information.

(a) General

The Plan is a defined benefit pension plan sponsored by Diebold Nixdorf, Incorporated (the “Company”) that covers substantially all salaried employees hired prior to July 1, 2003. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan has been amended and restated to either provide additional benefits or options, or to comply with changes in the law. The Plan was closed to new hires effective July 1, 2003. In July 2013, the Company's board of directors approved freezing the Plan benefits effective as of December 31, 2013 for U.S.-based employees who joined the Company prior to July 1, 2003.

(b) Retirement Dates

The normal retirement date of a participant is the later of the 65th anniversary of his or her date of birth or the 5th anniversary of the date the associate commenced participation in the Plan. A participant who has attained age 50 and whose combined age and years of credited service equals or exceeds a total of 70, or a participant who has completed 30 or more years of benefit service regardless of attained age, may retire at any time thereafter under early retirement. A participant who has completed 15 or more years of credited service and becomes incapacitated by total and permanent disability may retire and receive a disability retirement benefit. If, for any reason other than death, the services of a participant are terminated after completion of at least five years of vesting service with the Company but prior to normal or early retirement, such participant shall have a deferred vested benefit to commence distribution at the normal retirement date.

(c) Credited Service

Credited service is the total number of years of service accumulated by a participant prior to his or her retirement. A participant accumulates credited service based upon the total period of continuous service covered under the Plan. For each full year of continuous service, a participant receives credit for one year of credited service. The maximum number of years of credited service cannot exceed 30 years. No additional credited service accrues after December 31, 2013.

(d) Trust Fund Management

Under the terms of the trust agreement between The Bank of New York Mellon (the “Trustee”) and the Plan, the Trustee manages the trust funds and executes transactions on behalf of the Plan. All investments, as of December 31, 2017 and 2016, and a portion of the investment income for the year ended December 31, 2017, are included in the financial statements have been reported to the Plan by the Trustee as having been determined through the use of fair values of all assets of the trust fund.

(e) Vested Benefit

Vested benefit is the retirement benefit to which a participant, whose service terminated after his or her vesting date, is entitled. After five years of vesting service, such vested benefit is 100 percent of the participant's accrued benefit derived from the Company contributions. A participant earns vesting service based upon the total period of service covered under the Plan including service after the Plan freeze date of December 31, 2013.

(f) Normal Retirement Benefit

The normal monthly retirement benefit is equal to the greater of:

- Benefit calculated as 0.8 percent of final average monthly compensation, as defined, up to covered compensation, as defined, plus 1.25 percent of final average monthly compensation in excess of covered compensation, multiplied by credited service (maximum of 30 years);
- Sixteen dollars per month per year of credited service, plus 20 percent of the portion of final average monthly compensation which exceeds \$1,200 (reduced proportionately for credited service under 30 years); or
- Accrued benefit as of July 31, 1991 under the Plan prior to the Plan amendment, which became effective January 1, 1992.

In addition, all participants retiring after January 1, 1992, receive a monthly retiree medical supplement equal to \$4.20 times years of credited service up to a maximum of 30 years.

(g) Death Benefit

A surviving spouse of a vested participant who dies prior to retirement is entitled to a spouse's benefit. The spouse's benefit is a pension payable for the life of the spouse equal to the amount that would have been payable to the surviving spouse had the participant retired immediately preceding his or her death and elected a 50 percent joint and survivor option.

Note 2: Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting and are in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company has evaluated subsequent events through the date the Plan financial statements were available to be issued, October 11, 2018. There were no significant subsequent events that have occurred which would require adjustments to or disclosure in the Plan financial statements.

(b) Recently Issued Accounting Guidance

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting: Defined Benefit Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); Employee Benefit Plan Master Trust Reporting ("ASU 2017-06")* with the objective to clarify the presentation requirements for interests in master trusts and add requirements to make information presented more useful to the reader. The amendments in this update require that interests in master trusts and any change in interest to be presented as separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. The amendment supplements the existing requirement to disclose the master trust's balances in each general type of investments by requiring the disclosure of the amount of interest in each of the general types of investments. The amendments also requires the disclosure of the master trust's other asset and liability balances, and the plan's interest in those balances. This guidance is effective for fiscal years beginning after December 15, 2018. The standard becomes effective for the Plan on January 1, 2019. The future adoption of 2017-06 will not impact the Plan's Net Assets Available for Benefits but will modify certain disclosures relating to the Plan's interest in the Diebold, Incorporated Pension Master Trust ("Master Trust").

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Due to investments in partnerships within the Master Trust not being traded on an active market, the values as of any particular date are not necessarily indicative of amounts that may ultimately be realized as a result of future sales or other dispositions of investments held. The estimated values may differ significantly from the values that would have been used had an active market for the securities existed. Actual results could differ from those estimates.

(d) Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. Significant assumptions underlying the actuarial computations include:

- Assumed retirement based on a table of retirement rates beginning at age 50 through age 70 which result in an average retirement age of 62;
- Assumed valuation interest rates for 2017 and 2016 of 6.80 percent and 7.40 percent, respectively, compounded annually;
- Assumed turnover and disability rates based on published statistical data and tables;

DIEBOLD, INCORPORATED RETIREMENT PLAN FOR SALARIED EMPLOYEES
Notes to Financial Statements
December 31, 2017 and 2016

- Assumed mortality rates based upon the RP-2014 Combined Health Mortality Table (“RP-2014”) with separate male and female rates modified to remove the post-2006 projections using the MP-2014 mortality improvements scale with the MP-2017 generational projection scale, projected to the valuation date (January 1, 2018) for December 31, 2017 results.
- Assumed mortality rates based upon the RP-2014 with separate male and female rates modified to remove the post-2006 projections using the MP-2014 mortality improvements scale with the MP-2016 generational projection scale, projected to the valuation date (January 1, 2017) for December 31, 2016 results.

The actuarial cost method used by the actuary is the unit credit cost method. This is a method under which an accrued benefit is calculated as of the beginning of the year and as of the end of the year for each benefit that may be payable in the future. The accrued benefit is based on the Plan’s accrual formula and upon service as of the beginning or end of the year. For benefits where the Plan’s accrual formula is not relevant, benefits are assumed to accrue on a straight-line basis over the period during which the employee earns credited service.

The December 31, 2017 calculation of the actuarial present value of accumulated benefits contains a \$15,883,544 change in actuarial assumption due to a 0.60 percent decrease in the interest discount rate and a change in the mortality generational projection scale from MP-2016 projected to the valuation date (January 1, 2017) to MP-2017 projected to the valuation date (January 1, 2018).

Note 3: Funding Policy

In March 2018, the Company contributed \$14,000,000 to the Plan for the year ended December 31, 2017. The Company met the minimum funding requirements of ERISA for 2017 and 2016.

Note 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of permanent termination of the Plan, the assets then remaining in the trust fund, subject to provision for expenses incident to such termination, are allocated in the following priority: first, to retirees who began receiving benefits at least three years before termination, including benefits to individuals who would have received benefits for at least three years had they retired that long ago; second, to all other individuals guaranteed under the termination insurance provisions of ERISA; third, among all other non-forfeitable benefits; and fourth, among all other benefits under the Plan. In the event the Plan assets are not sufficient to accomplish the above method of termination, the assets are distributed pro rata to participants based on the present value at termination date of their individual benefits, with all accrued funded rights non-forfeitable in any case.

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the amount of an individual’s monthly benefit that the PBGC guarantees.

Note 5: Investments

The Company has adopted a pension investment policy designed to achieve an adequate funding status based on expected benefit payouts and to establish an asset allocation that will meet or exceed the return assumption while maintaining a prudent level of risk. The Company utilizes the services of an outside consultant in performing asset / liability modeling, setting appropriate asset allocation targets along with selecting and monitoring professional investment managers.

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investment information is certified complete and accurate or derived from information certified complete and accurate by the Trustee as of December 31, 2017 and 2016, and the year ended

DIEBOLD, INCORPORATED RETIREMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2017 and 2016

December 31, 2017 with the exception of certain partnership/joint venture interests within the Master Trust. The fair value of these investments within the Master Trust was \$9,889,044 and \$12,975,224 as of December 31, 2017 and 2016, respectively, with related appreciation of \$1,024,352 for the year ended December 31, 2017.

Assets of the Plan are maintained on a commingled basis with assets of one other pension plan of the Company in a Master Trust for investment purposes, with the allocation of assets, earnings, and expenses among the funds maintained by the Trustee as of December 31, 2017 and 2016 and for the year ended December 31, 2017. The Plan's equitable share of the Master Trust's assets was approximately 96.7 percent and 96.6 percent for December 31, 2017 and 2016, respectively.

The assets of the Master Trust as reported by the Trustee at December 31 were:

Note 6: Fair Value Measurements

The fair value framework described in FASB Auditing Standards Codification (“ASC”) 820, *Fair Value Measurements*, requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment.

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data.

The following table sets forth by level, within the fair value hierarchy, the Master Trust’s investments at fair value as of December 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Fair Value</u>
Total investments held by Master Trust:			
Cash and short-term investments	\$ 3,947,610	\$ —	\$ 3,947,610

Corporate stocks, common and preferred	57,571,338	—	57,571,338
Emerging markets	—	19,477,064	19,477,064
Fixed income securities	—	57,261,636	57,261,636
Total	<u>\$ 93,414,068</u>	<u>\$ 76,738,700</u>	170,152,768
Investments measured using net asset value (“NAV”) per share as a practical expedient			<u>207,715,392</u>
Total investments			<u>\$ 377,868,160</u>

The following table sets forth by level, within the fair value hierarchy, the Master Trust’s investments at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Fair Value</u>
Total investments held by Master Trust:			
Cash and short-term investments	\$ 3,570,656	\$ —	\$ 3,570,656

For the years ended December 31, 2017 and 2016, there were no transfers between levels.

DIEBOLD, INCORPORATED RETIREMENT PLAN FOR SALARIED EMPLOYEES
Notes to Financial Statements
December 31, 2017 and 2016

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Investments that were measured at NAV per share are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the Plan's total investments at fair value. Valuation methodologies used for assets measured at fair value are as follows:

- Cash, short-term investments, mutual funds, and corporate stocks: Valued based on period end closing prices in active markets on which the individual securities are traded.
- Emerging markets: Valued by fund managers using the latest reported information for comparable securities and financial analysis. If the manager believes the fund is not capable of immediately realizing the fair value otherwise determined, the manager has the discretion to determine an appropriate value.
- Fixed income securities: Valued on the latest available ask price or latest price if listed.
- Common collective trusts and alternative investments using NAV per share practical expedient: Valued at the Plan's interest in private equity, hedge and property funds. The value is determined based on the NAV as reported by the underlying investment managers.

	Fair Value		Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
	2017	2016			
Common collective trusts					
Northern Trust Large Cap Index	\$ 65,824,896	\$ 59,396,971	N/A	Daily	1 day notice
JP Morgan Long Duration	\$ 93,935,422	\$ 88,984,315	N/A	Daily	1 day notice
Alternative investments					
Blackstone Hedge	\$ 18,850,170	\$ 17,638,134	N/A	Semi-annually	95 day notice
Portfolio Advisors Private Equity	\$ 9,889,044	\$ 12,975,224	\$ 5,529,423	Not eligible	N/A
JP Morgan Core Real Estate	\$ 19,215,860	\$ 18,103,604	N/A	Quarterly	45 day notice

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 6, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). As of December 31, 2017, the Company believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since receiving the determination letter. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for the income taxes has been included in the Plan's financial statements. The Plan's audit by the Department of Labor concluded on January 3, 2018.

Note 8: Party-In-Interest

Certain Plan investments are managed by the Trustee and, therefore, these transactions are party-in-interest transactions. Fees are paid by the Master Trust for asset custody and management to parties-in-interest. These fees are pursuant to arrangements exempted from the prohibited transaction rules.
