INDEPENDENT AUDITOR'S REPORT

Belden Brick Co. Pension Plan
Canton, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Belden Brick Co. Pension Plan, which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I, which was certified by Fidelity Management Trust Company and Great-West Life & Annuity Insurance Company (operating as Great-West Retirement Services), the trustees of the Plan, except for comparing the

information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2017 to December 31, 2017 and from September 24, 2016 to December 31, 2016. Great-West Life & Annuity Insurance Company (operating as Great-West Retirement Services) held the Plan's investment assets and executed investment transactions for the period January 1, 2016 to September 24, 2016. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions for the year ended December 31, 2017, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

BELDEN BRICK CO. PENSION PLAN

December 31, 2017 and 2016

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Belden Brick Co. Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit pension plan covering all employees of The Belden Brick Company, LLC (the “Company”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of January 1, 2017 the Plan is closed to new entrants.

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age 65 equal to the sum of amounts computed using the table below for each year of credited service (including fractional years), taking into account only the last 30 years.

Salaried employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age 65 equal to the greater of the above or 1/12 of the following:

1/2% of average annual earnings up to covered compensation plus 1% of that portion, if any, of average annual earnings in excess of covered compensation, multiplied by years of credited service (including fractional years) to a maximum of 40 years. In no event, however, shall the monthly benefit payable at the participant’s normal retirement date be less than the sum of amounts computed using the table below for each year of credited service (including fractional years) taking into account only the last 30 years.

2012 and 2013	\$20.00
2014 and later years	\$21.00

The Plan permits early retirement after age 60 with 10 or more years of vesting service; however, the accrued benefit to date of early retirement, as determined above, is reduced by 1/2% for each month by which early retirement precedes age 65. The normal form of retirement income is a life annuity with monthly payments commencing on a participant's retirement date. Married participants receive their pension benefits in the form of a qualified joint and survivor annuity. Participants may elect certain optional forms of benefit payments.

Death and Disability Benefits

If an active employee dies while otherwise eligible for early retirement, the surviving spouse shall be entitled to a death benefit as specified in the Plan provided the employee elected such pre-retirement death protection, in which event his accrued pension benefits are reduced for each month of coverage. If a participant becomes totally and permanently disabled after having completed 10 years of credited service and having attained age 35, but having not attained age 62, he shall receive monthly disability benefits determined as of the date

disability first commences equal to his or her accrued benefit converted to an actuarial equivalent life annuity. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits equal to the actuarial equivalent of a life annuity equal to his or her monthly disability benefit.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accrual Basis

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

The Plan's administrative expenses are paid by either the Plan or the Plan sponsor as provided by the Plan document. PBGC premiums and ERISA audit fees have historically been paid by the Plan sponsor. Amounts paid by the Plan sponsor for the Plan years ended December 31, 2017 amounted to \$168,151 and December 31, 2016 amounted to \$170,654.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of credited service up to a maximum of 30 years. The accumulated plan benefits for active employees are based on their years of credited service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Fidelity Workplace Services LLC and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant assumptions used in the valuations as of December 31, 2017 and 2016 were:

- Actuarial cost method 2017 and 2016
Unit Credit Actuarial Cost Method
- Retirement age 2017 and 2016
Age 65
- Assumed rate of return on investments Based on plan sponsor election of the look back month for the segment rates:
 2017
 0-5 years: 3.92% compounded annually
 5-20 years: 5.52% compounded annually
 20+ years: 6.29% compounded annually
 2016
 0-5 years: 4.16% compounded annually
 5-20 years: 5.72% compounded annually
 20+ years: 6.48% compounded annually

Recently Issued Accounting Pronouncements

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient" ("ASU No. 2015-12"). ASU No. 2015-12 removes the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under ASU No. 2015-12, direct investments in fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. The update also allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, while Part III is applied prospectively. The Company has early adopted ASU No. 2015-12 in the Financial Statements as of and for the year ended December 31, 2015 and the related Notes to Financial Statements, and where applicable has retrospectively applied the provisions to prior periods presented.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables present the Plan's assets that are measured at fair value on a recurring basis in accordance with December 31, 2017 and December 31, 2016. The following tables do not include the Plan's interest in the Master Trust because that information is presented in separate tables (see Note D).

		Fair Value Measurements Using

FASB ASC 820, Fair Value Disclosures establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE C - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock is based on quoted market prices. The fair value of investments in bank and investment house common/collective investment trusts and insurance company pooled separate accounts for which quoted market price are not available are reported at the value reported to the Plan by those entities. Generally quoted market prices are used to value the underlying investments in these accounts. These investments are diversified across various sectors.

Level 2 and Level 3 Fair Value Measurements

There are no Level 2 or Level 3 fair value measurements for the years ended December 31, 2017 and 2016.

NOTE D - PLAN INTEREST IN MASTER TRUST

A portion of the Plan's investments are in the Belden Holding DB Trust, which was established in 2015 for the investment of assets of the Plan and the Redland Brick, Inc. Pension Plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 54% and 53%, respectively. Investment income and administrative expense relating to the Master Trust are allocated to the individual plans based on the relationship of the interest of each plan to the total interests of the participating plans.

At December 31, 2017 and 2016, the net assets of the Master Trust were:

	<u>2017</u>	<u>2016</u>
Investments at fair value:		
Registered investment companies	\$ 41,196,175	\$ 30,768,622
Short-term investments	-	5,495,725

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE D - PLAN INTEREST IN MASTER TRUST (CONTINUED)

The fair value of registered investment companies is based on quoted market prices of the respective funds held by the Master Trust at year-end and are considered Level 1 investments in the fair value hierarchy. The Master Trust held no Level 2 or Level 3 investments at December 31, 2017 and 2016.

NOTE E - FUNDING POLICY

The Company's funding policy is to contribute an amount equal to the maximum employer contribution permitted under the Employee Retirement Income Security Act of 1974. However, the Company may reduce its contribution below the maximum if appropriate to its tax and cash position and the Plan's funded status. Employee contributions have been discontinued effective January 1, 1987.

For 2017, the Company was not required to make a contribution to the Plan because, in accordance with certain provisions of the Pension Protection Act of 2006, it elected to apply part of the "carryover balance" as defined in the Act towards the required contribution for the 2017 Plan year because the Funding Target Attainment Percentage for the 2016 Plan year was at least 80%. The amount applied for 2017 after the Company's contribution (\$627,265) equaled the minimum funding requirements of ERISA (as amended by the Pension Protection Act of 2006). However, in 2017, the Company did elect to make a contribution of \$1,750,000 to the Plan.

For 2016, the Company was not required to make a contribution to the Plan because, in accordance with certain provisions of the Pension Protection Act of 2006, it elected to apply part of the "carryover balance" as defined in the Act towards the required contribution for the 2016 Plan year because the Funding Target Attainment Percentage for the 2015 Plan year was at least 80%. The amount applied for 2016 after the Company's contribution (\$522,776) equaled the minimum funding requirements of ERISA (as amended by the Pension Protection Act of 2006). However, in 2016, the Company did elect to make a contribution of \$1,000,000 to the Plan.

For 2017 the minimum contribution was \$627,265 and the maximum contribution was \$16,967,386. For 2016 the minimum contribution was \$522,776 and the maximum contribution was \$17,955,884.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE F - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination,
- b. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination,
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Governmental agency) up to the applicable limitations (discussed below),
- d. All other vested benefits not insured by the PBGC,
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE G - INVESTMENTS

The Plan's investments are held primarily in the Belden Holding DB Trust (see Note D); however, the Plan's investment in MetLife, Inc. common stock is held by the Plan sponsor.

On April 7, 2000, pursuant to the demutualization of MetLife, Inc., the Plan received 30,983 shares of MetLife, Inc. common stock. As of the date of demutualization, the stock had a value of \$14.25 per share, or \$441,508. In 2004

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE G - INVESTMENTS (CONTINUED)

the Plan recorded as an asset an additional 945 shares of MetLife, Inc. common stock from the former Shepler-Moomaw division of the Company. The value of the additional shares was approximately \$38,660 when received in 2004.

The following table presents the fair values of investments:

	<u>2017</u>	<u>2016</u>
MetLife, Inc. common stock – 31,928		
shares at quoted market price	\$ 1,614,280	\$ 1,498,381

	<u>\$ 23,681,852</u>	<u>\$ 20,724,112</u>

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 10, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE I - INFORMATION CERTIFIED BY PLAN TRUSTEE

For the years ended December 31, 2017 and 2016, respectfully, Fidelity Management Trust Company certified the following information included in the financial statements and supplemental schedules:

- Summary of financial activity of the Master Trust administered by Fidelity
- Schedule of assets held by the Master Trust for investment purposes
- Schedule of assets acquired and disposed of within one year by the Master Trust
- Schedule of reportable transactions for the Master Trust

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE K - SUBSEQUENT EVENT

The Company has evaluated subsequent events through October 10, 2018, the date which the financial statements were available to be issued.

Administrative Expenses: The normal cost is increased by the total expenses paid from the trust in the prior year. For the 2017 target normal cost, this value is \$71,917 (previously \$66,706).

Mortality:

ERISA: For legacy Salaried Plan participants, the IRS 2017 Prescribed Mortality-Optional Combined Table for Small Plans, male and female (previously IRS 2016 Prescribed Mortality-Optional Combined Table for Small Plans, male and female). For legacy Hourly Plan participants, the IRS 2017 Static Mortality Table using separate tables for annuitants and non-annuitants (previously IRS 2016 Static Mortality Table using separate tables for annuitants and non-annuitants).

FASB ASC 960: RP-2014 Total Mortality Table with MP-2016 Mortality Improvement Scale applied on a generational basis (previously RP-2014 Total Mortality Table with MP-2015 Mortality Improvement Scale applied on a generational basis). The mortality table was changed to be consistent with the most recently published rates of mortality. This plan does not have a large enough population to vary from the standard tables.

Retirement Age: Normal retirement age. Based on the assumption used by the prior actuary for this plan. To our knowledge, there has been no pattern of significant consistent gains or consistent losses related to this decrement.

Termination: The Sarason T-3 table prior to age 55 with females set back 5 years for legacy Hourly Plan participants, and the Sarason T-1 tables prior to age 50 with females set back 5 years for the legacy Salaried Plan participants. This is based on the assumption used by the prior actuary.

Disability: 1985 Pension Disability Table – Class 2. This is a standard disability incidence table for plans of this size and demographic composition.

Marital Status: 80% of males and females are assumed married, with females 3 years younger than males. This is based on the assumption used by the prior actuary for this plan. There has been no pattern of significant consistent gains or consistent losses related to this decrement.

Maximum Benefit and Salary: \$215,000 and \$270,000, respectively, for 2017.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Census Data: Census data was provided by Belden as of January 1, 2017.

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7- year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT). Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Census Data: Census data was provided by Belden as of January 1, 2017.

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date.

For Plan Year Ended December 31, 2017

Actuarial Assumptions and Methods (continued)

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7- year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT). Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Weighted Average Retirement Age is 65, based on expected retirement at the plan's Normal Retirement Age. Weighted Average Retirement Age is theoretical, based on the assumption that all participants would have entered the plan more than 5 years before Normal Retirement Age. The anticipated retirement ages of actual participants, whether now over Normal Retirement Age or whose Normal Retirement Ages reflect the minimum period after plan entry, are not taken into account in establishing the Weighted Average Retirement Age.

Actuarial Assumptions and Methods (continued)

Administrative Expenses: The normal cost is increased by the total expenses paid from the trust in the prior year. For the 2017 target normal cost, this value is \$71,917 (previously \$66,706).

Mortality:

ERISA: For legacy Salaried Plan participants, the IRS 2017 Prescribed Mortality-Optional Combined Table for Small Plans, male and female (previously IRS 2016 Prescribed Mortality-Optional Combined Table for Small Plans, male and female). For legacy Hourly Plan participants, the IRS 2017 Static Mortality Table using separate tables for annuitants and non-annuitants (previously IRS 2016 Static Mortality Table using separate tables for annuitants and non-annuitants).

FASB ASC 960: RP-2014 Total Mortality Table with MP-2016 Mortality Improvement Scale applied on a generational basis (previously RP-2014 Total Mortality Table with MP-2015 Mortality Improvement Scale applied on a generational basis). The mortality table was changed to be consistent with the most recently published rates of mortality. This plan does not have a large enough population to vary from the standard tables.

Retirement Age: Normal retirement age. Based on the assumption used by the prior actuary for this plan. To our knowledge, there has been no pattern of significant consistent gains or consistent losses related to this decrement.

Termination: The Sarason T-3 table prior to age 55 with females set back 5 years for legacy Hourly Plan participants, and the Sarason T-1 tables prior to age 50 with females set back 5 years for the legacy Salaried Plan participants. This is based on the assumption used by the prior actuary.

Disability: 1985 Pension Disability Table – Class 2. This is a standard disability incidence table for plans of this size and demographic composition.

Definitions:

Years of Service: The number of 12 month periods (measured from the participant's date of hire or rehire or any anniversary of that date) in which the participant completes 1,800 hours of service as a Covered Employee, not to exceed 30 Years of Service. If a participant's total number of hours of service during a 12 month period is less than 1,800 hours, a partial Year of Service shall be computed in accordance with the following schedule:

Hours of Service	Portion of Year of Service
1,800 hours or more	1.0
1,620 but less than 1,800	0.9
1,440 but less than 1,620	0.8
1,260 but less than 1,440	0.7
1,080 but less than 1,260	0.6
900 but less than 1,080	0.5

540 but less than 720	0.3
360 but less than 540	0.2
180 but less than 360	0.1
Less than 180	0

Years of Vesting Service: Determined in the same manner as Years of Service, except that one full Year of Vesting Service is granted for a 12 month period in which the participant completes 1,000 hours of service.

Plan Provisions (continued)

Termination with deferred vested benefit: The Monthly Accrued Benefit determined as of termination date payable as of NRD, multiplied by the vesting percentage.

Disability: The Monthly Accrued Benefit on date of disability.

Pre-retirement death benefits: The amount paid to the surviving spouse or the designated beneficiary of a married Salaried Employee is equal to the Monthly Accrued Benefit that would have been paid had the employee terminated employment on the date of death and survived to his earliest retirement age, retired with a qualified joint and 100% survivor annuity, then died the next day. The form of payment is a single life annuity for the life of the spouse. Unmarried employees are not eligible for a pre-retirement death benefit.

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): Actuarially reduced 50% joint and survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect a ten-year certain and continuous annuity, life annuity, or a 50%, 75%, or 100% joint and survivor annuity.

Description of optional form conversion factors: 5.0% interest and the 1983 G.A.M. mortality table for males, set back one year (used for males and females).

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Employee Type: Salaried Employees

Covered Employees: Any person employed by The Belden Brick Company who is paid on a salaried basis.

Participation Date: The later of the date on which the employee completes six months of service and the date on which the employee attains age 21.5.

Definitions:

Years of Service: The period of the participant's service, measured as 1/12 of a year for each month that the participant completes at least one hour of service, excluding periods of service for which the employee failed to make the required contributions.

Years of Vesting Service: The number of Plan Years in which the participant completes 1,000 Hours of Service, with partial credit (proportional to 1 Year of Service for 1,000 Hours of Service) granted for the first or last Plan Year of employment if fewer than 1,000 Hours of Service are completed in such Plan Year, excluding periods of service for which the employee failed to make the required contributions.

Annual Earnings: The participant's rate of basic compensation as of the first day of a Plan Year, prior to any reduction or deductions, excluding overtime pay, bonuses, and all other forms of additional compensation.

Average Annual Earnings: The average of the participant's Annual Earnings during the period of 10 consecutive Years of Vesting Service in which his total Annual Earnings was greater than his total Annual Earnings during any other such period. If the participant has not completed a period of 10 consecutive Years of Vesting Service as of the date of determination, Average Annual Earnings shall be determined as the average of the participant's Annual Earnings during the participant's Years of Vesting Service.

Normal retirement date (NRD): The later of the participant's 65th birthday or the 5th anniversary of plan entry.

Monthly Accrued Benefit:

An amount equal to the greater of 1) or 2).
