ADB SAFEGATE Americas LLC 401(k) Plan

Notes to Financial Statements
For the Years Ended December 31, 2017 and 2016

Note A - Description of Plan

The following description of the ADB SAFEGATE Americas LLC 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of ADB SAFEGATE Americas LLC (the "Company"). There is no specific age or service required to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Please refer to the Company's Plan document for more information.

Contributions

Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's own contributions and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.50% to 5.25%, which is commensurate with rates available for similar loans from commercial lending institutions. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or in annual installments over a period not to exceed the participant's life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. When the participants' balance is less than \$5,000 upon termination, the benefits are paid as a lump-sum distribution as soon as administratively feasible.

Forfeitures

Forfeitures of terminated participants' non-vested account balances will be used to reduce the employer's matching contribution. During 2017 forfeited non-vested accounts were used to reduce the employer's matching contribution of \$23,228. At December 31, 2017 and 2016 forfeited non-vested accounts totaled \$0 and \$11, respectively.

Notes to Financial Statements
For the Years Ended December 31, 2017 and 2016

Note A - Description of Plan (continued)

Investment Options

Participants may direct investments of their account into a range of investment options under the terms of the Plan. Participants can change the investment of their funds on a daily basis.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of content of assets and liabilities. Accordingly, actual results may differ from those estimates.

Employer Contribution Receivable

Employer contributions receivable represent employer matching contributions related to participant deferrals withheld prior to December 31, 2017 and 2016. The balance is based on actual collections subsequent to year end.

Participant Contributions Receivable

Participant contributions receivable represent participant deferrals withheld prior to December 31, 2017 and 2016. The balance is based on actual collections subsequent to year end.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

Benefits Payable

Benefits payable represent a benefit payment made but not cashed by the participant.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan.

Note B - Summary of Significant Accounting Policies (continued)

Subsequent Events

Subsequent events were evaluated through October 10, 2018 which is the date the financial statements were available to be issued.

Note C - Unaudited Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete by the custodian.

	2017	2016
Investments, at fair value:		
Common collective trusts	\$ 596,962	\$ 400,753
Registered investment companies	19,074,603	16,037,611
Notes receivable from participants	395,336	350,299
Dividend income	1,114,100	550,342
Net appreciation in fair value of investments	2,002,267	639,235
Interest income from notes receivable from participants	15,682	13,232

Note D - Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are delivered principally from or corroborated by correlation or other means.

ADB SAFEGATE Americas LLC 401(k) Plan

Notes to Financial Statements
For the Years Ended December 31, 2017 and 2016

Note D - Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Registered investment companies (mutual funds) - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total

Note E - Plan Merger

On February 1, 2017, the Plan merged with a different plan, Safegate Airport Systems, Inc. The Safegate Airport Systems, Inc. plan was a defined contribution plan and all employees of the company were eligible for the plan. For the period ended December 31, 2017, the Plan merged assets invested with registered investment companies valued at \$224,199.

Note F - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer portions.

Note G - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
