PKC Group 401(k) Savings & Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the PKC Group 401(k) Savings & Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan covering substantially all employees of AEES, Inc. (the "Company", "Employer", or "Plan Sponsor") and Michigan Power Systems, dba PKC Group, Inc. Employees become eligible to participate and make deferral contributions sixty days after the date of hire, unless they decline to participate. Only regular employees are eligible for Employer matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Amendments

Effective January 1, 2015, the Plan document was amended to increase the contribution limit for after-tax contributions that participants may defer from 16% to 75% of their compensation up to the Internal Revenue Service ("IRS") required maximum amount.

Effective August 18, 2015, the Plan's Adoption Agreement was amended and restated to update the definition of compensation and what items are excluded for the definition of eligible compensation. The amendment and restatement also increased the contribution limit for pre-tax contributions that participants may defer from 16% to 75% of their compensation up to the Internal Revenue Service ("IRS") required maximum amount.

Effective April 17, 2017, the Plan's Adoption Agreement was amended and restated to update the Related Employers to include Fortitude Industries, dba ATM.

Contributions

Each year, participants may defer a percentage of their compensation, as defined by the Plan document, on a pre-tax or after-tax basis up to 75% of the participant's compensation up to certain limits established under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). After completion of the service requirements, all newly eligible employees are automatically enrolled in the Plan at an automatic deferral percentage of 3% of the participant's pre-tax compensation unless the participant makes a contrary election. The automatic deferral percentage will increase by 1% per year up to 6% of the participant's eligible compensations.

The Company's matching contributions are allocated in the same manner as the participant's elective contributions. The Company will match 100% of the first 3% of the participants eligible compensation and 50% of the next 2% of the participants eligible compensation. Additional discretionary contributions may be made at the discretion of the Company's Board of Directors. No such discretionary amounts were contributed during the 2017 or 2016 Plan years.

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching and discretionary contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants have the ability to alter their investment options daily.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Effective January 1, 2012, all existing and new participants are immediately vested in the Company's matching and discretionary contributions, including their balance as of this date.

Forfeited Accounts

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are first used to pay administrative expenses and then to reduce employer contributions. There were no forfeitures remaining in the Plan as of December 31, 2017 and 2016. During 2017 and 2016, respectively, \$-0- and \$825, of forfeitures were used to pay administrative expenses. During 2017 and 2016, respectively, \$-0- and \$76,606 were used to reduce employer contributions.

Payment of Benefits

On termination of service due to death, disability, severance, retirement, or any other reasons, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum payment or may elect installment payments on a quarterly basis. Participants whose account balance is less than \$1,000 and who have not begun receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates ranged from 4.25% to 9.50% at both December 31, 2017 and 2016. Loan terms range from one to five years. Loan terms extend to ten years only in the event the loan proceeds are used to purchase or construct the participant's principal residence. Principal and interest is paid ratably through payroll deductions. If a participant terminates employment with the Company, the entire outstanding principal and accrued interest are immediately due.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and in accordance with principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassification

Certain items contained within the prior year's financial statements have been reclassified to conform to the current reporting period.

Recently Issued Accounting Guidance

In January 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01"). ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. It also requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. This guidance is effective for interim and fiscal years beginning after December 15, 2017. This guidance has no material impact on the Plan Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits as of and for the year ended December 31, 2017.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, Fidelity Trust Management Company (the "Trustee") and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held at year-end.

Payment of Benefits

Benefits are recorded when paid.

Administrative Fees

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2018, the date the financial statements were available to be issued. Management is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

<i>Year ended December 31,</i>	2017	2016
Mutual funds	\$ 36,607,474	\$ 30,588,132
Money Market fund	923,436	1,386,118
Notes Receivable from participants	349,497	413,509

<i>Year ended December 31,</i>	2017	2016

Interest and dividends	1,592,111	922,929
Interest Income on Notes Receivable from participants	18,470	17,784

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair values provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The following presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds and Money Market Fund - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

The tables below set forth the Plan's investments by level within the fair value hierarchy. There have been no significant transfers into or out of Levels 1, 2, or 3.

Total Investments	\$ 31,974,250	\$ -	\$ -	\$ 31,974,250

5. Party in Interest Transactions

Certain Plan investments are shares of mutual funds and money market managed by the Trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investments management services are included in net appreciation (depreciation) in fair value of mutual funds transactions and qualify as party-in-interest transactions. Notes receivables from participants and fees paid by the Plan and the Company also qualify as part-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. All participants are 100% vested in their contributions and Employer matching contributions effective January 1, 2012.

7. Tax Status

The Company has adopted a standardized prototype profit sharing 401(k) salary-deferral Plan. The prototype document received a favorable opinion letter from the IRS on March 31, 2014 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC") for the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes the Plan is currently designed, and is being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

PKC Group 401(k) Savings & Profit Sharing Plan

Notes to Financial Statements

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to Form 5500

The following is a reconciliation of Net Assets Available for Benefits, per the financial statements to the Form 5500 as of December 31, 2017 and 2016:
