PARTNERS IN EXCELLENCE, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017

1. Description of Plan

The following description of Partners in Excellence, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Partners in Excellence, Inc. (the Company). Employees are eligible for participation upon attaining one year of service as of the available Plan entry dates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year participants may contribute up to 100% of pretax annual compensation up to the maximum amount allowed under the Internal Revenue Code. The Plan does not require a minimum deferral contribution of compensation. Participants direct the investments of their contributions into various investment options offered by the Plan. The Company may match these contributions based on a percentage of the contributing participant's elective deferral determined from year to year. Participants who have attained age 50 before the end of the Plan year and are contributing the maximum allowed by the IRC are eligible to make catch-up contributions. The Company may also contribute on behalf of eligible employees a discretionary profit-sharing contribution determined from year to year. For the year ended December 31, 2017, employer contributions totaled $186,211. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant accounts - Each participant's account is credited with the participant's contribution and allocation of (a) the Company's matching contributions, if any, (b) the Company's discretionary contributions, if any, and, (c) Plan earnings and forfeitures of terminated participants' non-vested accounts. Contribution allocations are based on participants' contributions, earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant begins to vest after 2 years of credited service, and is fully vested after 6 years of service. The below schedule illustrates the vesting policy for the Plan:

Years of service	Vested %
< 2	0%
2-3	20%
3-4	40%
4-5	60%
5-6	80%
6+	100%

1. Description of Plan (continued)

Payment of benefits - Benefits may be withdrawn if any of the following occur: normal retirement age, which is defined as age 62; hardships; disability; termination of employment; termination of the Plan; death. Vested balances of less than $5,000 may be paid out as soon as administratively possible after the participant is eligible to receive them. Vested balances over $5,000 may be paid out as requested by the participant.

Forfeited accounts - There were forfeitures of non-vested accounts totaling $5,892 for the year ended December 31, 2017. There were forfeited accounts plus interest not yet allocated to the remaining participants totaling $9,025 as of December 31, 2017.

2. Summary of Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment valuation and income recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for valuation methodologies.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Payments of benefits - Benefits are recorded when paid.

Plan expenses - Expenses incurred by the Plan for audit fees, plan administrative fees, and substantially all other operating expenses are paid by the Plan when not reimbursed by the Company. Investment advisory and management fees reduce the participants' account balances.

2. Summary of Accounting Policies (continued)

Subsequent events - Plan management has evaluated subsequent events through October 12, 2018, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncement - In June 2017, the FASB issued ASU 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (a consensus of the Emerging Issues Task Force)*. This standard revises the reporting requirements for an employee benefit plan that holds an interest in a master trust. The standard requires presentation of the interest and any change in the value of that interest in a separate line item in the statement. The guidance is effective for fiscal years beginning after December 15, 2018, and it will be applied retrospectively. Early adoption is permitted. Management has assessed the impact of ASU 2017-06 and determined that it is not material to the Plan.

3. Certified Investments (Unaudited)

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.) (John Hancock USA), the custodian of the plan.

4. Fair Value Measurement

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Pooled Separate Accounts: Valued at the net asset value (NAV) as a practical expedient of shares held by the Plan at year end.

Guaranteed Investment Account: The net asset value is based on the market value of the underlying investments. This fund contains synthetic investments contracts comprised of both underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. The guaranteed investment account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

4. Fair Value Measurement (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 3,014,780	$ -	$ 3,014,780
Guaranteed Investment Account – at net asset value				9,025
Total investments				$ 3,023,805

5. Guaranteed Annuity Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with an insurance company. The issuer maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the Plan's ability to transact at contract value with the insurance provider. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Plan Amendments and Tax Status

Effective October 31, 2011, the Plan adopted a Volume Submitter Defined Contribution Plan (Volume Submitter Plan) which received a favorable opinion letter from the Internal Revenue Service, dated March 31, 2014, stating that the Volume Submitter Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the Company believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

8. Non-Participant-Directed Investments

There are no investments not directed by participants.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Party-in-Interest Transactions

Transactions resulting in Plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. John Hancock USA is a party-in-interest, as defined by ERISA, as a result of the investment of Plan assets. However, such transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA. The Plan paid administrative fees totaling $9,840 to the custodian and third-party administrator during 2017.
