A Description of Plan.

The following description of the Structures, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1 General. The Plan is a defined contribution plan covering all employees of Structures, Inc. (the "Company"), who have completed three months of service and other eligibility requirements, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan also covers employees rendering services for the Company on contracts subject to the Davis-Bacon Act, Service Contract Act, or other Federal, State, or Municipal prevailing wage laws.

The Company is the plan administrator and is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. Newport Trust Company serves as trustee. Mid Atlantic Trust Company (MATC) serves as custodian, and Beneco Systems, LLC, (Beneco) serves as recordkeeper. NFP Retirement, Inc. is the investment advisor.

2 Contributions. Each year, participants may contribute up to 90% of compensation, as defined in the Plan, and subject to the amount allowed by law of annual compensation on a pre-tax or after-tax basis. Deferral contributions and after-tax Roth contributions shall not exceed certain limits set forth by the Internal Revenue Service (IRS) ($18,000 in 2017). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (up to $6,000 in 2017). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

The Company makes matching contributions to eligible employees equal to 25% of the participant's elective contributions up to $10,000. In addition, the Company makes contributions to the Plan for employees, subject to prevailing wage laws, which are determined by the Company based on rates that satisfy the wage determination issued by the governmental agency responsible for the contract. Contributions are subject to certain IRS limitations.

3 Participant Accounts. Each participant's account is credited with the participant's contribution, Company contributions, and allocations of Plan earnings and administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4 Vesting. Participants are immediately vested in their deferral and rollover contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions, plus actual earnings thereon, is based on years of continuous service. A year of service shall be credited in when an employee completed 1,000 or more hours of service during the Plan year. Participants are fully vested in the Company's discretionary contributions after six years of service or upon the participant's death, disability, or reaching normal retirement age (65). Participants are immediately vested in any contributions subject to prevailing wage laws and the related earnings allocated to their accounts.

5 Investment Options. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various funds held in collective common trusts and a money market mutual fund, as investment options for participants. Participants may change their investment options at any time.

6 Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000, up to 50 percent of their vested account balance. Loan terms range from one to five years, or fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2% per year. A loan will carry the same rate of interest throughout its term. At December 31, 2017, interest rates range from 4.25% to 6.25%. Principal and interest is paid monthly through payroll deductions.

7 Payment of Benefits. Upon termination of service due to death, disability, retirement, or for any other reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Hardship withdrawals are available if the participant meets certain criteria. The Plan also allows for in-service distributions upon attaining age 59½.

8 Forfeited Accounts. Forfeitures from participants may be used to reduce any future employer contribution. At December 31, 2017 and 2016, the balance of the forfeited accounts totaled $3,085 and $-0-, respectively. During the year ended December 31, 2017, there were no forfeitures used; however, in 2018, the Company used forfeitures of $3,085 to reduce employer contributions.

B Summary of Significant Accounting Policies.

1 Basis of Accounting. The accompanying financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

2 Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 Investment Valuation and Income Recognition. Investments held by a defined contribution plan are required to be reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

4 Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent loans have been reclassified as benefits paid to participants based upon the date the loan balance was determined to be a deemed distribution.

5 Payment of Benefits. Benefits are recorded when paid.

6 Administrative Expenses. Certain expenses of maintaining the Plan are paid based on the participant's account. Fees related to the administration of benefit payments and notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation in fair value of investments.

7 Subsequent Events. The Plan has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure.

C Information Prepared and Certified by the Custodian (Unaudited).

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MATC, as the custodian for the Plan, has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, non interest-bearing cash, and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.
- Investment income and interest on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.
- The schedule of assets held at end of year included as supplemental information as of December 31, 2017.

Accordingly, at the request of the plan administrator, this information has not been audited by the Plan's independent auditors, except for comparing such information to the related information included in the financial statements and supplemental schedule.

D Fair Value Measurements.

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Money Market Mutual Fund: Valued at the daily closing price as reported by the fund. The money market mutual fund held by the Plan is an open-ended mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

Common Collective Trusts: The Flexpath Index Funds are common collective trust funds which consist of investments in mutual funds, collective trusts, and pooled separate accounts. These investments are valued at their NAV per share as of the close of business on the valuation date as a practical expedient for the estimated fair value. The NAV is quoted on a private market that is not active; however, the unit price is based on the value of the underlying investment assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. As of December 31, 2017 and 2016, there were no unfunded commitments and the funds generally permit redemptions daily, with a one-day notification period. If the fund experiences periods of insufficient liquidity, then the funds may defer honoring any payment request until liquidity is sufficient. The Plan is permitted to redeem investment units at NAV on the measurement date. The Flexpath Index Funds seek total return consisting of long-term growth of capital and current income, consistent with the investment strategy of an investor who expects to retire in a specific year.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017 (Audited)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Fund	$ 3,110	$ -	$ -	$ 3,110
Total Assets in the Fair Value Hierarchy	$ 3,110	$ -	$ -	3,110
Assets Measured at Net Asset Value:				
Common Collective Trusts (a)				393,618
Total Investment Assets at Fair Value				$ 396,728

Assets at Fair Value as of December 31, 2016 (Compiled)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Fund	$ 29	$ -	$ -	$ 29
Total Assets in the Fair Value Hierarchy	$ 29	$ -	$ -	29
Assets Measured at Net Asset Value:				
Common Collective Trusts (a)				442,029
Total Investment Assets at Fair Value				$ 442,058

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

There were no transfers in and/or out of Levels 1, 2, or 3 for financial instruments measured at fair value on a recurring basis for the year ended December 31, 2017. The Plan recognizes transfers at the end of the reporting period.

E Related Party Transactions and Party-in-Interest Transactions.

Transactions with Newport Trust Company, MATC and Beneco, qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. For the year ended December 31, 2017, the Plan made direct payments totaling $27,055 to Beneco which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Notes receivable from participants also quality as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

F Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

G Tax Status.

The Plan utilizes a volume submitter plan sponsored by Beneco who obtained a favorable advisory letter from the IRS dated March 31, 2014, stating that the volume submitter plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). The Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, management believes that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress.

H Reconciliation of Financial Statements to Form 5500.

The following is a reconciliation of the Statements of Net Assets Available for Benefits per the financial statements at December 31, 2017 and 2016, to Form 5500:

	(Audited) 2017	(Compiled) 2016
Net Assets Available for Benefits per the Financial Statements	$ 426,794	$ 474,513
Deemed Distributed Loans	30,280	30,280
Net Assets Available for Benefits per Form 5500 (Unaudited)	$ 457,074	$ 504,793

I Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

J Prohibited Transactions/Delinquent Participant Contributions.

During 2017, the Company erroneously failed to timely remit certain employee contributions and loan repayments to the Plan in the amount of $8,214. The Company contributed $10 in lost earnings to the accounts of the affected participants on October 1, 2018.
