Ali Industries, Inc. Employees Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Ali Industries, Inc. (the Company) Employees Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have attained age 18 and have three months of service. The Plan was amended and restated effective January 1, 2015, to implement an automatic deferral for participants and to incorporate provisions previously adopted by amendments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under this type of plan, participants may choose to reduce their compensation and have these amounts contributed to their account.

The Plan Administrator is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. Alerus Financial, N.A. is trustee and recordkeeper of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Contributions: Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct 100 percent of the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

The employer's contribution for each plan year is discretionary. For 2017, the discretionary matching contribution was equal to 100 percent of the first 3 percent of eligible compensation that a participant contributed to the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participant accounts: Each participant's account is credited with the participant's contributions and the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to either receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions are permitted once a participant has attained age 59½. Upon proof, to the satisfaction of the Plan Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose.

Forfeitures: At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$10,699 and \$4,999, respectively. These accounts are used to pay expenses of the Plan. Plan expenses were reduced by \$19,151 from forfeited non-vested accounts during the year ended December 31, 2017.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's participant Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend income.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation in fair value of investments.

Contributions: Participant contributions are recognized when withheld. Employer discretionary contributions are recognized on an annual basis.

Subsequent events: The Plan has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified by Alerus Financial, N.A.

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2017 and 2016, and for the year ended December 31, 2017, was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 7 and the supplemental schedule related to the Plan's assets.

Alerus also certified to the completeness and accuracy of \$1,234,450 of net appreciation in fair value of investments and \$351,884 of interest and dividends related to the aforementioned assets for the year ended December 31, 2017.

Note 4. Party-in-Interest Transactions

Alerus is the trustee, as defined by the Plan and provides record keeping and investment advisory services to the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan to Alerus for these services amounted to \$24,600 for the year ended December 31, 2017.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 6. Tax Status

The Plan operates under a prototype defined contribution plan sponsored by Alerus, which received a favorable opinion letter from the IRS on March 31, 2014, stating that the prototype Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2014.

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 7. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the closing price reporting on the active market on which the individual securities are traded.

Collective investment trust: Valued based on the NAV of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the trust will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2017			Total
	Level 1	Level 2	Level 3	
Investments measured at fair value - mutual funds	\$ 9,944,696	\$ -	\$ -	\$ 9,944,696
Investments measured at net asset value ^(a)				759,396
Total investments, at fair value				\$ 759,396

	2016			Total
	Level 1	Level 2	Level 3	
Investments measured at fair value - mutual funds	\$ 7,911,021	\$ -	\$ -	\$ 7,911,021
Investments measured at net asset value ^(a)				720,531
Total investments, at fair value				\$ 720,531

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 7. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2 or 3.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2017 and 2016.

<u>Investment</u>	<u>2017 Fair Value</u>	<u>2016 Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Collective trust fund	<u>\$ 759,396</u>	<u>\$ 720,531</u>	None	Daily	None	up to 12 Months

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
