AMERICAN MORTGAGE SERVICE COMPANY SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1. Plan description

The following description of the American Mortgage Service Company Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of American Mortgage Service Company (the Company) who have attained age twenty-one and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Unless specifically instructed by the employee, the employee is automatically enrolled in the Plan deferring 5% of their pre-tax compensation. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one mutual funds and two common collective trusts as investment options for participants. The Company, at its discretion, may make matching contributions to the Plan each year. For the plan year ended December 31, 2017, the Company elected to match 30% of the first 100% of compensation that a participant contributes to the Plan, subject to IRS limitations. The Company contribution is allocated amongst investment options based on the participant's selected allocation percentages.

The Company may also elect to make a discretionary non-elective contribution. There were no discretionary non-elective contributions for 2017.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and discretionary non-elective contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan, and (b) decreases in investment value. Allocations of matching contributions are based on participants' contributions, allocations of discretionary non-elective contributions are based on participants' compensation, and allocations of plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions, plus earnings thereon, is based on a grading vesting schedule. A participant is 100% vested after five years of credited service, vesting 20% each year starting in year one.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 6.25%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company matching and discretionary non-elective contributions may be used to pay plan expenses or to offset future employer contributions to the Plan. At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$10,045 and \$19,443, respectively. During 2017, forfeited non-vested accounts of \$25,452 were used to offset Company matching contributions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account or partial withdrawals following termination of employment. Participants may also elect to receive an in-service withdrawal upon attaining age 59½ or apply for a hardship withdrawal, subject to approval by the plan administrator.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2017 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds and common collective trusts. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported net assets available for benefits.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, a portion of the administrative expenses of the Plan are paid by the Company. Expenses relating to specific participant transactions (i.e. loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee and record keeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

4. Tax status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

In June 2018, the Company became aware of discrepancies between the Plan language and the administrative processes used to calculate participant and Company contributions. The Company filed a Voluntary Compliance Program (VCP) submission requesting IRS approval for a retroactive amendment to (a) define the contribution period for matching contributions as a payroll period, (b) include fringe benefits in the definition of compensation, and (c) remove the requirement for participants to be employed on the last day of the Plan year to receive employer matching contributions. While the ultimate outcome of the submission is not yet determinable, based upon consultation with ERISA specialists and the Plan's trustee, it is currently anticipated that there will be no material effect to the Plan's financial statements arising from this matter.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Common collective trusts:* Valued at the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of underlying investments held by the fund, less its liabilities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 10,427,332	\$ -	\$ -	\$ 10,427,332
Total assets in the fair value hierarchy	10,427,332	-	-	\$ 10,427,332
Investments measured at NAV (a)	-	-	-	336,262
Total investments at fair value	\$ 10,427,332	\$ -	\$ -	\$ 10,763,594

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 8,070,707	\$ -	\$ -	\$ 8,070,707
Total assets in the fair value hierarchy	8,070,707	-	-	8,070,707
Investments measured at NAV (a)	-	-	-	289,756
Total investments at fair value	\$ 8,070,707	\$ -	\$ -	\$ 8,360,463

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. One of these investments is the Mellon Stable Value Fund, which is comprised of a diversified portfolio of fixed-income instruments which primarily include guaranteed investment contracts (GICs) including synthetic, traditional, and insurance company separate account GICs. The value of this investment was \$95,702 and \$3,100 as of December 31, 2017 and 2016, respectively. Participant redemptions can be made from the Mellon Stable Value Fund on a daily basis, with settlement one business day after the trade is submitted. Plan sponsor initiated withdrawals from the Mellon Stable Value Fund may be subject to a redemption notice period of twelve months. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

6. Reportable transactions

No reportable transactions were noted in 2017 and 2016.

10. Subsequent events

The plan administrator has evaluated subsequent events through October 12, 2018, the date the financial statements were available to be issued.

Effective June 4, 2018, the Plan was amended to allow Roth deferrals into the Plan, allow rollover contributions of Roth deferrals into the Plan, and to allow in-plan Roth rollover and deferral conversions.

The plan administrator is not aware of any other subsequent events that would require recognition or disclosure in the Plan's financial statements.
