Notes to Financial Statements
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of the DealerSocket, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan. The Plan covers all employees of DealerSocket, Inc. (the Company) who have completed at least 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on January 1, 2006 and amended November 12, 2014.

Contributions - Participants' contributions, including catch-up contributions made by those participants age 50 or over, are made to the Plan by means of a salary deferral agreement under which the participant is entitled to defer the lesser of 100 percent of their compensation or a fixed amount determined annually by the Internal Revenue Service. The Company, at its option, may make discretionary matching contributions. The Company did not make matching contributions during the years ended December 31, 2017 and 2016. In addition, the Company, at its option, may contribute a portion of its current profits. For the years ended December 31, 2017 and 2016, there were no discretionary profit sharing contributions.

Participant Accounts - All accounts in the Plan are self-directed. Participant accounts are credited with each participant's contribution, as well as any Company contributions and an allocation of the Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Vesting - Participants are fully vested and entitled to receive their full account balance upon retirement, disability or death. Normal retirement date is the date at which the participant reaches 65 years of age. Participants who terminate employment other than by retirement, disability or death will be entitled to all of their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. The employer discretionary matching contributions vest according to the following schedule:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Benefit Payments - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of their account, or equal installments over a term determined by the life expectancy of the participant, spouse, or beneficiary. However, if the participant's account is $1,000 or less, only the lump sum distribution will be made.

Notes Receivable from Participants - The Plan allows participants to borrow up to 50 percent of their vested account balances, but not less than $1,000 and no more than $50,000. Participants may only have one loan outstanding at any given time. The loan repayment period must be no more than five years with the interest rate determined based on the rate a bank or professional lender would charge. Loans used for a home purchase can be repaid over a reasonable period of time that may exceed five years.

Forfeited Accounts - Participants terminating employment with the Company will forfeit any nonvested employer contributions. Forfeitures may first be used to pay Plan administrative expenses and any remaining amount may be used to reduce future employer matching contributions. At December 31, 2017 and 2016, there were $14,716 and $13,210, respectively, in forfeited non-vested accounts. During the years ended December 31, 2017 and 2016, there were $79 and 3,910, respectively, in forfeitures used to pay for administrative expenses.

Investments - Each participant directs the allocation of his or her contribution, and employer matching contributions to one or more of 27 investment options. Purchases and sales of securities are recorded on a trade date basis. Participants may change their investment elections at any time by telephone or internet as allowed by the Plan administrator.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting the disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting. Benefits are recorded when paid.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts held in a common/collective trust (Note 3).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses - All expenses incurred by the Plan are paid from the Plan's assets to the extent the expenses have not been paid by the Company. For the years ended December 31, 2017 and 2016, administrative expenses of $96,952 and $49,616, respectively, were paid for by the Plan.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016. Plan management adopted ASU 2015-07 for the year ended December 31, 2017 which has been reflected in Note 3 - Fair Value Measurements of the financial statements. The adoption had no impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits as of December 31, 2017 and 2016.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level or risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events - The Plan evaluated subsequent events through October 10, 2018, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to Financial Statements
(Continued)
December 31, 2017 and 2016

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 (continued)	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Following is a description of the valuation methodologies used for assets measured at Net Asset Value (NAV) as the practical expedient to estimate fair value:

Common/collective trusts: Common/collective trusts (CCT) are valued at NAV which is based on the fair value of the underlying investments of the CCT, less any liabilities. CCT are composed of a stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan assets, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.

- Net appreciation in fair value of investments and interest income reflected on the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 and 2016.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of termination.

NOTE 6 - TAX STATUS

The Company is using a Volume Submitter Plan provided by Fidelity Management Trust Company, which received a favorable opinion letter on March 31, 2014. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

The Company, which qualifies as a party-in-interest, absorbs certain administrative expenses of the Plan. Such transactions qualify for a statutory exemption. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.
