NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1. Description of the Plan

General

The following description of the ZEFR, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan provisions. The Plan is a discretionary defined contribution plan which is administered by a committee appointed by senior management of ZEFR, Inc. (the "Company"). The Plan covers the employees of the Company who have completed at least three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). At December 31, 2017 there were 271 active participants in the Plan.

Administration of Plan assets

The Company is the Plan administrator. Certain officers or employees of the Company who are involved with plan administration are not compensated by the Plan for such services.

Participant contributions

Participants may make elective salary deferrals, Pre-tax and/or Roth, of up to 90% of their eligible earnings, not to exceed the maximum allowed under appropriate provisions of the Internal Revenue Code ("IRC"). If employees do not specifically decline to enroll, then the Plan will automatically defer 5% of eligible earnings as Pre-tax contributions.

Rollover contributions

Company employees may rollover their benefits from other qualified retirement plans into the Plan. During the year ended December 31, 2017 and 2016, the Plan received $200,761 and $17,591 in rollover contributions, respectively.

Company contributions

The Plan does not provide for the Company to make discretionary matching salary deferral or profit sharing contributions, although senior management is considering these additional benefits.

Participant accounts

Each participant's account is credited with their salary deferral and rollover contributions and Plan earnings (losses) and expenses. Allocations are based on participant's compensation as defined in the Plan document. The benefit to which a participant is entitled is dependent on the balance of the participant's vested account.

Vesting

Participants are 100% vested in their salary deferral and rollover contributions and the related allocation of Plan income, gains and losses and expenses.

1. Description of the Plan (continued)

Payment of benefits

Upon death, disability, retirement (age 59-1/2) or termination the participant's salary deferral accounts are paid to the participant or beneficiaries as soon as administratively feasible in the form of a single cash payment.

Participants with deferred vested benefits

The American Institute of Certified Public Accountants (AICPA) has issued guidelines regarding amounts due to former employees and inactive participants, but not paid by year-end. The AICPA requires these amounts to be classified as assets and not as liabilities of the Plan. At December 31, 2017 and 2016 the amount of deferred vested benefits for terminated employees totaled $1,042,336 and $402,220, respectively, and are included in investments on the statements of net assets available for benefits.

Investment options

All investments are held in trust and were invested in common collective trusts or in registered investment companies at December 31, 2017 and 2016. Each participant chooses how their contributions and respective account balances are to be allocated amongst the various investments through a participant-directed investment program. Reliance Trust Company, trustee of the Plan (the "Trustee") (deemed to be a parties-in-interest), held the Plan's investment assets and executed investment transactions under nondiscretionary trust agreements. Investment income, gains and losses are allocated to each participant's account each business day.

Notes receivable from participants

Participants may borrow up to 50% of their salary deferral account with a minimum loan of $500 and maximum of $50,000. The loans are secured by the balance in the participants' accounts and bear interest at the prime rate in effect at the time of the loan plus 2%. Loan terms are to be no longer than 5 years except for the purchase of the participant's principal residence which may be up to 30 years. Principal and interest is paid ratably through payroll deductions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the participants' matching and profit sharing accounts will become 100% vested and the net assets of the Plan will be distributed as prescribed by ERISA.

2. Significant Accounting Policies

Basis of accounting

The Plan financial statements are prepared under the accrual method of accounting.

Use of estimates

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and disclosures at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional details.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was necessary as of December 31, 2017 and 2016.

Participant excess deferrals

Amounts payable to participants for contributions in excess of amounts allowed under the IRC are recorded as a liability with an offset to corrective distributions. There were no excess deferrals in 2017 or 2016.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan, at the participant's direction, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Accordingly, such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits as of December 31, 2017 and 2016.

2. Significant Accounting Policies (continued)

Plan expenses

Plan administrative expenses, including accounting, trustee, administration, auditing and legal fees, are paid by the Company and are not charged to the Plan. Investment related expenses are partially included in net appreciation (depreciation) in fair value of investments and administrative fees.

Subsequent events

The Plan has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.

3. Fair value measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies and no Level 3 inputs were used as of December 31, 2017 and 2016.

Level 1 fair value measurements

The fair values of the registered investments companies are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 fair value measurements

The fair value of the common collective trusts are valued at the net asset value as provided by the Trustee. The net asset value per unit is based on the fair value of the underlying investments held by the trust less its liabilities.

3. Fair value measurements (continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	Fair value	(Level 1)	(Level 2)
Common collective trusts	$ 302,855	$ -	$ 302,855
Registered investment companies	3,762,328	3,762,328	-
	$ 4,065,183	$ 3,762,328	$ 302,855

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Fair value	(Level 1)	(Level 2)
Common collective trusts	$ 160,463	$ -	$ 160,463
Registered investment companies	2,139,362	2,139,362	-
	$ 2,299,825	$ 2,139,362	$ 160,463

4. Certification

The following is a summary of the unaudited information included in the Plan's financial statements and supplemental schedule that was provided by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following information is complete and accurate:

(a) The fair value and cost of investments as of December 31, 2017 and 2016.

(b) Net appreciation (depreciation) in fair value of investments, interest, dividends and capital gain distributions for the year ended December 31, 2017.

(c) Supplemental schedule of assets (held at end of year) as of December 31, 2017.

5. Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan may be amended since receiving the determination letter, the Plan administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan administrators to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan years that remain open for examination include 2015 through 2017.

6. Reconciliation to Form 5500

The financial statements for the year ended December 31, 2017 and 2016, agree to IRS Form 5500, Annual Return of Employee Benefit Plan, except for the following accrual versus cash method differences:

	2017	2016
Net assets available for benefits per the financial statements	$ 4,075,098	$ 2,301,658
Accrued participant excess deferrals	-	-
Net assets per Form 5500	$ 4,075,098	$ 2,301,658

Corrective distributions	-	(27,842)
