Purvis 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Purvis 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of affiliates Purvis Industries, Ltd. and Conveyor Aggregate Products Corp. (collectively, the "Company" or the "Employer") who are twenty-one (21) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Under the Plan, employees are permitted to contribute between 1% and 100% of their annual gross compensation, up to the maximum amount allowed by law of $18,000 for 2017. Participants who are projected to be age 50 or older by the end of the calendar year and who are making contributions to the Plan are eligible to make additional catch up contributions of up to $6,000 for 2017. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may match a discretionary percentage, as determined by the Company. The discretionary matching contribution made by the Company in 2018 for the 2017 Plan year was $422,201, which was partially paid through the forfeiture account.

Participant Accounts

Each participant's account is credited with 1) the participant's contributions; 2) an allocation of the Company's discretionary matching contribution, if any; and 3) Plan earnings or losses. Participants direct their account balances among the various Plan investments at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions, plus investment earnings. Vesting of Company contributions is determined by years of continuous service. A participant vests 20% per year, beginning after two years of service, with 100% vesting earned after six years of active service.

Forfeitures

Forfeitures of nonvested balances can be used to reduce Employer contributions or to pay for Plan administrative expenses. Forfeitures totaled approximately $30,300 and $31,500 as of December 31, 2017 and 2016, respectively. Approximately $37,600 of forfeitures were used to fund Employer contributions during 2017.

.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Payment of Benefits

On termination of service, retirement, disability, or death, or upon request by the participant, payment will be made to the participant or his or her beneficiary either in installments or a lump-sum amount equal to the value of the participant's vested account. The Plan administrator may make involuntary distributions to such participant if his or her account balance is less than $5,000.

Notes Receivable from Participants

Participants are permitted to borrow a portion of their vested account balance from a minimum amount of $1,000 up to a maximum of the lesser of one-half of the participant's vested account balance or $50,000. The loans are secured by the balance of the participants' account. Interest on the loans is charged at a rate equal to the Prime Rate at the time the loan is made plus 2%. Repayments are made by participants via payroll deduction on a bi-weekly basis. A participant may have only one outstanding loan at a time. Loans may be outstanding for up to a ten-year period.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Administrative Expenses

Investment advisory fees for portfolio management are paid directly from fund earnings, and they are included in the mutual fund expense ratios of the funds. All other administrative expenses are paid from participants' accounts or by the Company and are excluded from these financial statements.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2017 and December 31, 2016.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017
- Schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2017

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2017 and 2016:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at the NAV, which is provided by the trustee and is used as a practical expedient to estimate fair value. The money market funds held by the Plan are deemed to be actively traded.

NOTE D - FAIR VALUE MEASUREMENT - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2017 and 2016. There are no redemption restrictions on the mutual funds or money market funds.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Investments at fair value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$25,153,400	$ -	$ -	$25,153,400
Total investments, at fair value	$25,153,400	$ -	$ -	$25,153,400

	Investments at fair value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$21,318,636	$ -	$ -	$21,318,636
Money market fund	628,413	-	-	628,413
Total investments, at fair value	$21,947,049	$ -	$ -	$21,947,049

NOTE E - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and concentration of credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE F - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

NOTE G - TAX STATUS

On January 22, 2001, the Internal Revenue Service ("IRS") stated the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). Per the latest determination letter written by the IRS on March 31, 2014, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of December 31, 2017.

US GAAP requires evaluation of tax positions taken by the plan and recognition of a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity, the trustee of the Plan. Certain fees paid to the trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for management services totaled $34,354 for the year ended December 31, 2017.

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Purvis 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of affiliates Purvis Industries, Ltd. and Conveyor Aggregate Products Corp. (collectively, the "Company" or the "Employer") who are twenty-one (21) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Under the Plan, employees are permitted to contribute between 1% and 100% of their annual gross compensation, up to the maximum amount allowed by law of $18,000 for 2017. Participants who are projected to be age 50 or older by the end of the calendar year and who are making contributions to the Plan are eligible to make additional catch up contributions of up to $6,000 for 2017. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may match a discretionary percentage, as determined by the Company. The discretionary matching contribution made by the Company in 2018 for the 2017 Plan year was $422,201, which was partially paid through the forfeiture account.

Participant Accounts

Each participant's account is credited with 1) the participant's contributions; 2) an allocation of the Company's discretionary matching contribution, if any; and 3) Plan earnings or losses. Participants direct their account balances among the various Plan investments at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions, plus investment earnings. Vesting of Company contributions is determined by years of continuous service. A participant vests 20% per year, beginning after two years of service, with 100% vesting earned after six years of active service.

Forfeitures

Forfeitures of nonvested balances can be used to reduce Employer contributions or to pay for Plan administrative expenses. Forfeitures totaled approximately $30,300 and $31,500 as of December 31, 2017 and 2016, respectively. Approximately $37,600 of forfeitures were used to fund Employer contributions during 2017.

.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Payment of Benefits

On termination of service, retirement, disability, or death, or upon request by the participant, payment will be made to the participant or his or her beneficiary either in installments or a lump-sum amount equal to the value of the participant's vested account. The Plan administrator may make involuntary distributions to such participant if his or her account balance is less than $5,000.

Notes Receivable from Participants

Participants are permitted to borrow a portion of their vested account balance from a minimum amount of $1,000 up to a maximum of the lesser of one-half of the participant's vested account balance or $50,000. The loans are secured by the balance of the participants' account. Interest on the loans is charged at a rate equal to the Prime Rate at the time the loan is made plus 2%. Repayments are made by participants via payroll deduction on a bi-weekly basis. A participant may have only one outstanding loan at a time. Loans may be outstanding for up to a ten-year period.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Administrative Expenses

Investment advisory fees for portfolio management are paid directly from fund earnings, and they are included in the mutual fund expense ratios of the funds. All other administrative expenses are paid from participants' accounts or by the Company and are excluded from these financial statements.

NOTE C - FINANCIAL DATA CERTIFIED BY THE TRUSTEE OF THE PLAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2017 and December 31, 2016.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017
- Schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2017

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2017 and 2016:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at the NAV, which is provided by the trustee and is used as a practical expedient to estimate fair value. The money market funds held by the Plan are deemed to be actively traded.

NOTE D - FAIR VALUE MEASUREMENT - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2017 and 2016. There are no redemption restrictions on the mutual funds or money market funds.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Investments at fair value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$25,153,400	$ -	$ -	$25,153,400
Total investments, at fair value	$25,153,400	$ -	$ -	$25,153,400

	Investments at fair value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$21,318,636	$ -	$ -	$21,318,636
Money market fund	628,413	-	-	628,413
Total investments, at fair value	$21,947,049	$ -	$ -	$21,947,049

NOTE E - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and concentration of credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE F - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

NOTE G - TAX STATUS

On January 22, 2001, the Internal Revenue Service ("IRS") stated the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). Per the latest determination letter written by the IRS on March 31, 2014, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of December 31, 2017.

US GAAP requires evaluation of tax positions taken by the plan and recognition of a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Fidelity, the trustee of the Plan. Certain fees paid to the trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for management services totaled $34,354 for the year ended December 31, 2017.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
