3. We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud.

4. We are responsible for making the accounting estimates included in the financial statements. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events, and our assumptions about conditions we expect to exist and courses of action we expect to take.

5. In that regard, we are responsible for the estimation methods and assumptions used in measuring assets and liabilities reported or disclosed at fair value, including information obtained from brokers, pricing services or other third parties. The methods and significant assumptions used to determine fair values of the financial instruments are as follows:

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Our valuation methodologies have been consistently applied from period to period. The methods and assumptions used result in a measure of fair value appropriate for financial statement measurement and disclosure purposes.

6. All significant estimates and material concentrations known to management that are required to be disclosed in accordance with the Risks and Uncertainties Topic of the FASB Accounting Standards Codification ("ASC") have been properly recorded and/or disclosed in the financial statements. Significant estimates are estimates at the statement of net assets available for benefits date that could change materially within the next year. Concentrations refer to the nature and type of investments held by the Plan, or markets in which events could occur that would significantly disrupt normal finances within the next year.

7. Related-party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.

8. Transactions with parties in interest, as defined in ERISA Section 3(14) and regulations thereunder, including sales, purchases, loans, transfers, leasing arrangements and guarantees, and amounts receivable from or payable to related parties have been appropriately accounted for and disclosed.

9. All events subsequent to the date of the financial statements, and for which U.S. GAAP requires adjustment or disclosure, have been adjusted or disclosed.

10. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.

11. We have no intention to terminate the Plan.

12. We have properly reported and disclosed amendments to the Plan instrument, if any.

13. We have no knowledge of any uncorrected misstatements in the financial statements.
