LDI TRUCKING, INC. RETIREMENT PLAN
Notes to Financial Statements

1. Description of the Plan

The following description of the LDI Trucking, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The sponsor of the Plan is LDI Trucking, Inc., (the "Company") and the Plan was established on January 1, 2017.

General

Effective January 1, 2017, the Company established the Plan for eligible employees of the Company. Employees of the Company are eligible to participate in the Plan upon attainment of age 21. There is no length of service requirements.

The Plan is a defined contribution plan covering all full-time employees of the Company with the exception of any employee (1) who is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, or (2) who is a non-resident alien who does not receive any earned income. The Plan is subject to the provisions of the Employee retirement Income security Act of 1974 ("ERISA").

The Plan has entered into a service agreement with John Hancock Life Insurance (U.S.A.) ("John Hancock"). John Hancock maintains the Plan's assets in these fund accounts, which are credited with actual earnings on the underlying investments and charged for Plan withdrawals.

Contributions

Participants may make voluntary contributions in the form of salary deferrals. The maximum salary deferral for any plan year is the amount set by Secretary of US Treasury. The Company matches 100% of the participants' deferrals up to the first 3% of the employees' compensation.

Investment Elections

The investments of the Plan are self-directed by the participants. Investment elections may be changed at any time.

Participant Accounts

Each Participant's account is credited with the participant's and Company contributions and an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Employer's matching contribution vests at 20% per year. Vesting service includes all years of service completed after 1/1/2017.

LDI TRUCKING, INC. RETIREMENT PLAN
Notes to Financial Statements

1. Description of the Plan, continued

Forfeited Accounts

In the event that a participant terminates employment prior to 100% vesting, the portion of Company's contributions which is not vested is forfeited at that time. The forfeited amounts may first be applied to the payment of the Plan's administrative expenses and any remaining amounts will be applied to reduce Company's contribution. There was no forfeiture in 2017 and the forfeited non-vested accounts balance was $0 at December 31, 2017.

Payment of Benefits

Participants can receive a total distribution from their accounts upon termination of employment for reasons other than death, disability or normal retirement.

2. Summary of Significant Accounting Policies

Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits are recorded when paid.

Significant Risk and Uncertainty

The fair value of the Plan's assets is subject to change as a result of changes in market rates and prices. A significant change in market rates and prices can significantly reduce the net assets available for Plan benefits and concurrently participant balances. Plans that invest in foreign securities are subject to foreign exchange and political risks among other risks.

Contributions

Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. Company contributions are recorded based upon the Company non-elective contribution as defined in the Plan agreement.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator and trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2017 and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2017. Actual results may differ from those estimates.

2. Summary of Significant Accounting Policies, continued

Valuation of Investments and Income Recognition

The Plan's investment in the money market accounts is valued at fair value. The Plan's investments in the registered investment company accounts are valued at fair value as reported to the Plan by John Hancock Life Insurance (U.S.A.). Participant notes receivable are valued at cost, which approximates fair value. The Plan presents, in the statement of change in net assets available for benefits with fund information, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation (depreciation) of those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator and trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2017 and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2017. Actual results may differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through October 11, 2018, which is the date the financial statements were available to be issued.

3. Investments

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Investments are held in custodial capacity by John Hancock Life Insurance (U.S.A.), the trustee of the plan. Individual Plan participants direct the transactions that take place in their accounts. Participants may direct contributions to the purchase of shares of registered investment companies. Allocations of gains (losses) are at the individual contract level.

During the year ended December 31, 2017, the Plan's investments in Pooled Separate Accounts (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $ 2,525.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Pooled Separate Accounts: Assets owned by the Accounts are primarily limited fund offerings issued by the underlying fund. These are classified within Level 1, as fair values of the underlying funds are based upon reported net asset values ("NAV"), which represent the values at which each sub-account can redeem its investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

4. Fair Value Measurements, continued

Assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$94,198	$ -	$ -	$94,198

5. Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at Prime + 1%. Principal and interest is paid ratably through payroll deductions. No more than one loan from the Plan to a participant is permitted at any time. There was no loan being granted during the year of 2017.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Certified Information (Unaudited)

The following unaudited information was certified to be accurate and complete by the trustee within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

Net Appreciation (depreciation) in fair value of investments during the year ended December 31, 2017	$ 2,525
Investments as of December 31, 2017	94,198

The schedule of assets held for investment purpose was also derived from information certified by the trustee.

8. Income Tax Status

The Company has adopted a prototype plan which has received a favorable determination letter from the Internal Revenue Service dated March 31, 2014 that the Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Company is of the opinion that the Plan is currently being operated in compliance with the applicable

8. Income Tax Status, continued

requirements of the IRC and that the trust, which forms a part of the Plan, is tax exempt. Accordingly, no provision for state or federal income taxes has been provided.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

9. Related Party Transactions

Certain Plan investments may be in units of participation in a pooled separate account, registered investment company, and a fixed income offered by the Plan trustee, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transaction under ERISA.

10. Operating Expenses

The costs associated with the formation and administration of the Plan are borne by the Company. For the year ended December 31, 2017, no administrative expense was paid by the plan.

11. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
