Independent Auditor's Report

To the Participants and the Plan Committee of the BWXT Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the BWXT Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2017 and 2016 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets Held at Year End as of December 31, 2017 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content In Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BWXT RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017

NOTE 1 - DESCRIPTION OF PLAN

The following description of the BWXT Retirement Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for more detailed information or to the official plan documents for complete information.

General

The Plan is sponsored by BWXT Investment Company ("BWXTICO", the "Company" or "Plan Sponsor"), a wholly owned subsidiary of BWX Technologies, Inc. ("BWXT").

The Plan is a non-contributory defined benefit pension plan administered by a Retirement Committee (the "Committee") appointed by the Board of Directors of the Company. In June 2010, the Company established the BWXT Master Trust (the "Master Trust") in which the Plan participates with certain other retirement plans of affiliates of BWXT. The Northern Trust Company ("Trustee") serves as trustee for the assets of the Plan held in the Master Trust.

All contributions made to the Plan are invested in the Master Trust. The Plan's interest in the net assets of the Master Trust is based on the Plan's beginning share plus employer contributions and allocated investment income, less allocated expenses and benefits paid directly to participants. Investment income of the Master Trust is allocated by the Trustee among the participating retirement plans each month based on the relative fair values of each plan's investment in the Master Trust. The Investment Committee, a committee appointed by the Board of Directors of the Company, has full discretionary authority for the management and control of the assets of the Master Trust. The Investment Committee may delegate authority to investment managers to manage, including the power to acquire and dispose of certain assets of the Master Trust.

During 1987, the Plan purchased a non-participating single premium annuity contract from Metropolitan Life Insurance Company ("Metropolitan") covering substantially all pre-January 1, 1987 retirees, including retirees of certain predecessor plans (the "1987 Annuity Contract"). Under the contract, Metropolitan is obligated to pay the pension benefits to said retirees or their beneficiaries. The contract with Metropolitan is excluded from Plan assets, and benefits to be provided by the contract are excluded from the actuarial data provided in these financial statements.

In December 2011, the Master Trust purchased a non-participating single premium annuity contract from Metropolitan covering those retirees covered by the 1987 Annuity Contract who received an ad hoc pension increase in 1998. Under the contract, Metropolitan is obligated to pay the ad hoc pension increase granted in 1998 to said retirees or their beneficiaries. The contract with Metropolitan is excluded from Plan assets, and benefits to be provided by the contract are excluded from the actuarial data and benefits paid amounts provided in these financial statements.

In October 2017, the Plan purchased a group annuity contract from Minnesota Life Insurance Company ("Minnesota") for a settlement charge of \$3,842,068 that transferred pension benefit obligations totaling \$113,801,048 for approximately 2,300 retirees. Under the contract, Minnesota is obligated to pay the pension benefits to these retirees or their beneficiaries. The contract with Minnesota is excluded from Plan assets as of December 31, 2017. Beginning January 1, 2018, benefits to be provided by the contract will no longer be included in the actuarial data and benefits paid amounts provided in the financial statements. Other receivables shown on the Statement of Net Assets at December 31, 2017 reflect an amount due from Minnesota related to this contract.

In July 2018, the Plan purchased a group annuity contract to transfer certain domestic pension benefit obligations of approximately \$220 million to an insurance company for approximately 1,150 retirees. The premium payment and the effects of the transaction are not reflected in the accompanying financial statements.

On June 30, 2015, BWXT completed the spin-off of its Power Generation business into an independent, publicly traded company named Babcock and Wilcox Enterprises ("BWE"). Prior to the spin-off, Babcock and Wilcox Power Generation Group, Inc., a subsidiary of BWE and plan sponsor of the Retirement Plan for Employees of Babcock & Wilcox Commercial Operations ("Commercial Operations Plan"), established a new master trust ("B&W Pension Trust"), and the assets of the Master Trust attributable to the Commercial Operations Plan were transferred to the B&W Pension Trust as a result of the spin-off. The value of the assets transferred was approximately \$931,034,550.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

The Plan covers substantially all hourly-paid employees of BWXT and certain of its subsidiaries and affiliates and salaried employees of BWXT and certain of its subsidiaries who were employed prior to April 1, 2001, except non-resident alien employees who do not earn income in the U.S., employees under certain collective bargaining agreements and leased employees. Eligible employees became participants when they attained age 21 and completed one year of service.

Pension Benefits and Vesting

An employee who has participated in the Plan for five years (including participation in a predecessor plan) is entitled to receive pension benefits at his normal retirement age, but based on age and years of service, a participant may elect early retirement. Benefits are also payable upon the death or disability of a participant. Participants become fully vested in the Plan benefits after five years of service. Benefits under the Plan are based on years of service and a flat benefit rate for substantially all hourly employees and on years of service and the highest consecutive five-year average of compensation during the last ten years of service for all other employees. Supplemental payments are also made to certain participants affected by changes in other postretirement benefit plans.

Effective April 1, 2006, the Plan was closed to new salaried participants and was amended for salaried employees hired on or since April 1, 2001. For these employees, benefits accrued as of March 31, 2006 became fully vested and future benefit accruals ceased, other than certain cost of living increases. Any pension benefits earned to that date will remain payable pursuant to the Plan upon retirement, death or disability.

Effective April 1, 2007, the Plan was amended for salaried employees with five to ten years of service as of January 1, 2007. These employees were offered a one-time option of continuing to earn benefits under the Plan or receiving an ongoing service-based cash contribution to a Company-sponsored defined contribution plan (the "Thrift Plan").

Benefit payments have historically been made in the form of equal recurring monthly payments. The Plan was amended in 2012 to provide a one-time opportunity for certain terminated vested participants who had not begun to receive benefits to elect to receive a single lump sum payment in the amount actuarially equivalent to the expected monthly annuity the participant would have otherwise received in full satisfaction of their benefits under the Plan. These elections were made and payments finalized in 2012.

Effective December 31, 2015 ("Freeze Date"), benefit accruals for those salaried employees still accruing benefits under the Plan ceased, and their accrued benefits were frozen as of that date. Service beyond the Freeze Date continues to count toward eligibility for early retirement, disability retirement and early commencement of deferred vested benefits. Furthermore, effective January 1, 2016, the employer of each affected participant will make cash contributions to the Thrift Plan for those employees impacted by the Plan freeze. The amount of these contributions will be determined based on years of service in accordance with a schedule set forth in the Thrift Plan. Those participants already receiving service-based contributions in the Thrift Plan and for whom benefit accruals have already been frozen will no longer receive annual cost of living adjustments to their accrued benefit after December 31, 2015. See Note 5 for further information regarding accumulated plan benefits.

On May 28, 2015, the Board of Directors of BWXTICO amended the Plan to close it to hourly employees of BWXT Nuclear Operation Group Inc.'s Euclid facility hired on or after June 1, 2015. This subset of employees will instead receive service based company cash contributions to a defined contribution plan which will have no impact on the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the U.S. ("GAAP"). Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Among the most significant estimates in the

financial statements are the fair values of certain investments without actively quoted market prices and the assumptions underlying the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates, and those differences could be material.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value determinations are made by reference to available quoted market prices on national exchanges when available, by reference to quoted prices for similar securities when available, or by using a range of techniques appropriate to the nature of the investment. See Note 7 for further discussion of valuation methodologies used with respect to the investments of the Master Trust.

Realized gains and losses on the sale of investments and unrealized gains and losses in the fair value of investments held by the Master Trust are presented as net appreciation in the fair value of investments in the Master Trust. Purchases and sales of investments are recorded on a trade date basis; interest income is recorded on the accrual basis; and dividends are recorded as income on the ex-dividend date.

Contributions Receivable

Contributions receivable at December 31, 2017 and 2016 comprise contributions funded during 2018 and 2017, respectively, which have been designated as being attributable to the 2017 and 2016 plan years, respectively.

Transfers with Affiliated and Unaffiliated Plans

Transfers to or from an affiliated plan may be recognized from time to time to move actuarially determined asset values associated with the liabilities of participants who may transfer between affiliated retirement plans as a result of a transfer between various affiliated business units.

Administrative Expenses

Administrative expenses are paid from the Master Trust, inclusive of Trustee fees. The Plan's portion of these expenses was approximately \$9,661,142 and \$8,869,520 for the years ended December 31, 2017 and 2016, respectively. A significant portion of these expenses represent insurance premiums paid to the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. governmental agency), which were \$5,328,685 and \$5,160,539 for the years ended December 31, 2017 and 2016, respectively.

Evaluation of Subsequent Events

The plan administrator has evaluated subsequent events through October 11, 2018, which is the date the financial statements were available to be issued, for their impact on amounts recorded and related disclosures, and has incorporated the related effects as appropriate.

Recent Accounting Standards

In February 2017, the FASB issued an update to the Topics *Plan Accounting - Defined Benefit Pension Plans, Defined Contribution Pension Plans and Health and Welfare Benefit Plans: Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force)*. This update requires additional disclosures of master trust participation by plan. The Plan's portion of the Master Trust balances by type will be presented alongside the currently required Master Trust balances by type, which will eliminate the need to disclose the Plan's overall percentage interest in the Master Trust. This update is applicable to the Plan, and it will be effective for all Plan years beginning after December 15, 2018, with early adoption permitted. It is not expected to have a material impact to the Plan's financial statements.

NOTE 3 - FUNDING POLICY

The Plan is funded based on actuarial recommendations and to at least meet the minimum funding requirements of ERISA. During the years ended December 31, 2017 and 2016, the Plan met these minimum funding requirements.

NOTE 4 - PLAN TERMINATION

In the event of Plan termination, benefits accrued under the Plan would become nonforfeitable to the extent then funded, and the net assets of the Plan would be allocated as prescribed by ERISA and its related regulations. The Committee would determine the date and method of distribution of the net assets and would distribute such assets in accordance with the provisions of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain dollar amount and type limitations. The maximum annual benefit for a 65 year old retiree guaranteed by PBGC for plans terminating in 2017 and 2016 was \$64,432 and \$60,136, respectively. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while others benefits may not be provided for at all.

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate it subject to the provisions set forth in ERISA.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits, as calculated by the Plan's actuary, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

For January 1, 2017 financial reporting purposes, life expectancy of participants was determined using the Healthy RP2014 mortality projected with the actuary's modified 2016 improvement scale (pre-commencement of benefits) and the Healthy RP2014 mortality with 6.1% load projected with the actuary's modified 2016 improvement scale (post-commencement of benefits). For January 1, 2016 financial reporting purposes, life expectancy of participants was determined using the Healthy RP2014 mortality projected with the actuary's modified 2015 improvement scale (pre-commencement of benefits) and the Healthy RP2014 mortality with 6.1% load projected with the actuary's modified 2015 improvement scale (post-commencement of benefits). The expected rate of return on plan assets used in the valuations was 7.2% at January 1, 2017 and 2016. The discount rate used in the valuations was 4.21% and 4.31% at January 1, 2017 and 2016, respectively. The actuarial cost method is the Unit Credit Method. The Plan's actuary has used the Standard Premium Funding Target for 2017 and 2016 for funding purposes. In developing the Plan's funding requirements, the Plan's actuary has used the Segment Rates with adjustments under MAP-21, HATFA and BBA 2015, mortality rates mandated by Internal Revenue Service (the "IRS") regulations and expected administrative expenses of \$5,600,000 and \$5,700,000 for 2017 and 2016, respectively, loaded into the target normal cost. For funding purposes, life expectancy of participants and disabled participants was determined using the tables mandated by the Pension Protection Act, projected 7 years for annuitants and 15 years for non-annuitants. Decrement in participant levels have generally been based on historical experience. The assumed cost of living and salary increases ceased with the Freeze Date at January 1, 2016.

The actuarial present values of accumulated plan benefits as of January 1, 2017 and 2016 were as follows:

	January 1,	
	<u>2017</u>	<u>2016</u>
Vested and nonvested benefits:		
Participants currently receiving payments	\$ 840,740,761	\$ 814,550,851
Other participants	398,808,733	421,526,952
Total vested benefits	1,239,549,494	1,236,077,803
Nonvested benefits	13,703,567	13,482,029
Total benefits	<u>\$ 1,253,253,061</u>	<u>\$ 1,249,559,832</u>

The changes in the actuarial present value of accumulated plan benefits that occurred during the years ended January 1, 2017 and 2016 were as follows:

	January 1,	
	<u>2017</u>	<u>2016</u>
Increase (decrease) during the year attributable to:		
Benefits accumulated	\$ 15,455,299	\$ 16,701,032
Plan amendments	1,694,092	1,661,863
Change in assumptions	4,154,921	(46,208,151)
Increase due to passage of time	52,363,974	50,440,230
Benefits paid	(69,975,057)	(67,420,717)
Net increase (decrease)	3,693,229	(44,825,743)
Actuarial present value of accumulated plan benefits, beginning of period	1,249,559,832	1,294,385,575
Actuarial present value of accumulated plan benefits, end of period	<u>\$ 1,253,253,061</u>	<u>\$ 1,249,559,832</u>

The changes in the discount rates and mortality assumptions led to an increase in the present value of the accumulated plan benefits as of January 1, 2017 and a decrease as of January 1, 2016.

Benefit restrictions can be placed on the Plan based generally upon the ratio of adjusted actuarial value of plan assets to an actuarially determined funding target. No restrictions were applicable for 2017 or 2016.

The October 2017 group annuity contract purchase to transfer the obligations related to approximately 2,300 participants has not been reflected in the amounts presented in the two tables in this Note as of January 1, 2017. That transaction will result in a reduction in the actuarial present value of accumulated plan benefits of \$113,801,048 as of and for the year ended January 1, 2018.

NOTE 6 - FINANCIAL INFORMATION OF THE MASTER TRUST (CERTIFIED BY THE TRUSTEE) (Unaudited)

Pursuant to the provisions of 29CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan's independent auditors did not perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related financial statements. All financial data included in the financial statements and their accompanying notes relating to investments, income from investments, and net appreciation in fair value of investments was obtained from the information certified by the Trustee. The Trustee has certified the Plan's interest in net assets of the Master Trust of \$956,278,207 and \$962,192,215 at December 31, 2017 and 2016, respectively, and the Plan's interest in investment income of the Master Trust, before related expenses, of \$155,913,944 and \$79,777,426 for the years ended December 31, 2017 and 2016, respectively. At December 31, 2017 and 2016, the Plan had a proportionate undivided interest in the net assets held by the Master Trust of 87.5% and 88.7%, respectively.

The following is a summary of the Master Trust's financial information and data certified by the Trustee as complete and accurate in accordance with 29CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

A substantial portion of the Master Trust's investments consist of interest-bearing securities. The Master Trust also holds several fixed income futures contracts to provide interest rate risk reduction for its U.S. Government securities portfolio. At December 31, 2017, these contracts had maturity dates of March 2018 and affected approximately one fiftieth of its portfolio. At December 31, 2016, these contracts had maturity dates of March 2017 and affected approximately one tenth of its portfolio. The Master Trust maintained no other significant positions in futures or forward contracts at December 31, 2017 and 2016.

Substantially all of cash and cash equivalent balances held by the Master Trust are in excess of federally insured limits.

NOTE 7 - FAIR VALUE OF INVESTMENTS

FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also expands the disclosure requirements around fair value and establishes a hierarchy for valuation inputs that emphasizes the use of observable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the

lowest priority to unobservable inputs (level 3 measurements). Categorization of instruments within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 Inputs are based on unadjusted quoted prices for identical instruments traded in active markets.
- Level 2 Inputs are based on unadjusted quoted prices for similar instruments in active markets or identical instruments in inactive markets and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the asset or liability.
- Level 3 Inputs are generally unobservable and typically reflect estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are usually determined using model-based techniques that include option pricing models, discounted cash flow models and similar valuation techniques.

Following is a description of the primary valuation methodologies used to measure the fair value of each class of Plan assets:

<i>Common stocks:</i>	Valued at the quoted market price of shares held as evidenced on listed trading exchanges.
<i>Preferred stocks:</i>	Valued at the quoted market price of shares held as evidenced on listed trading exchanges when available, or by comparison of the security to the quoted market price of similar securities and of similar credit ratings.
<i>Convertible securities:</i>	Valued based on comparison of the security to similar securities and of similar credit ratings.
<i>Fixed income securities:</i>	Valued based on comparisons with the quoted market price of similar securities with similar credit ratings (market approach) or by performing discounted cash flow analysis considering market conditions, credit terms and comparative credit ratings of the issuers (income approach). Observable inputs include quoted market prices for similar securities, interest rates on securities and credit ratings of various issuers.
<i>U.S. Government securities:</i>	Valued using quoted market prices of the securities held as evidenced on listed trading exchanges.
<i>Cash and cash equivalents:</i>	Valued at the notional monetary amount, adjusted for currency exchange rates when applicable.
<i>Commingled trust funds:</i>	Valued by the trust manager at net asset value ("NAV") established by the trustee based on the value of the underlying securities held in trust, which include securities having quoted market prices, securities similar to securities having quoted market prices (market approach) and securities for which discounted cash flow analysis and other subjective factors are necessary for valuation (income approach).
<i>Partnerships with security holdings:</i>	Valued by the manager of the partnership or investment entity at NAV based upon the value of the underlying securities held, including those having a quoted market price and those valued in comparison to similar securities having a quoted market price (market approach). Other investments valued using a number of subjective factors regarding market and economic conditions, business performance expectations and formal appraisals (income approach).
<i>Real estate:</i>	Valued at NAV established by the fund manager using the value of the underlying interest in the properties held by the investment manager using independent appraisals or internally by portfolio managers using subjective techniques by comparison with similar investments, discounted cash flows and expected market conditions (income approach). Valued at cost if believed to be the only indicator of value.

The significant unobservable inputs for partnerships with security holdings and real estate investments are future income generated by these investments and related interest rates. The values are positively impacted by increases in operating cash flows of the underlying investments and negatively impacted by increases in actual or expected interest rates. These values may also be influenced by growth rates and general market, economic and competitive conditions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value at December 31, 2017:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Mutual funds	\$ 64,807,915	\$ 64,807,915	\$ —	\$ —

Net assets in the Master Trust	<u>\$ 1,093,386,256</u>			

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value at December 31, 2016:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common stocks	\$ 70,811,425	\$ 70,811,425	\$ —	\$ —
Fixed income securities	385,103,760	—	385,103,760	—

Real estate (a)	1,661,861			
Net assets in the Master Trust	<u>\$ 1,084,707,049</u>			

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the net assets held by the Master Trust.

Level 2 investments were valued at December 31, 2017 and 2016 using the market approach, with the exception of certain U.S. Government agency and fixed income securities, which were valued using the income approach. There were no transfers of securities between levels in 2017 or 2016.

Partnerships with Security Holdings and Real Estate Investments

The Master Trust invests in a variety of partnerships which in turn hold investments in the securities of private companies or real estate entities. These investments are long-term in nature and are less liquid than investments that are publicly traded or provided through other investment arrangements. These investments constituted 7.4% and 7.7% of total investments held by the Master Trust at December 31, 2017 and 2016, respectively.

These investments are valued by the investment manager or general partner (the "Fund Manager") using the practical expedient of a reported NAV for the funds, based upon estimates developed by the Fund Manager for each of the underlying investments held by the fund. Generally, these investment funds have a stated life, with the Fund Manager having the option to extend that life for one or more years to enhance the possible return of the fund. Distributions from these funds are based upon interim cash flows and eventual liquidation of the underlying investments over the limited life of the fund. Early liquidation by the Trust of its participation in these investments is through negotiated, secondary market sales and is subject to the consent of the respective Fund Manager, which may not be provided. Readily accessible active secondary markets do not necessarily exist for these funds, and their investees and unfavorable market, economic or financing conditions may limit or preclude opportunities for the Master Trust to liquidate its investments. Early liquidations may not be possible when requested and may not occur at values equivalent

to the previously estimated NAV for the fund. NAVs are also subject to significant changes over the length of the fund's life dependent upon economic and market conditions. In addition, participation in these investment vehicles often include a commitment to make additional future cash contributions to the fund upon a capital call by the Fund Manager (characterized as Future Commitments in the following table).

The following table is additional information for the Plan's investments for which fair value is estimated using the practical expedient of reporting NAV:

Fund Name	Fund Description	Fair Value 12/31/17	Fair Value 12/31/16	Future Commitments At 12/31/17	Contract Term Date*
Private Pathway Equity Fund 2008 LP	(a)	\$ 39,339,900	\$ 38,857,777	\$ 6,827,108	12/26/23
Pathway Private Equity Fund XII	(b)	22,412,640	26,878,929	3,376,632	03/11/20

Total		\$ 80,576,308	\$ 83,634,011	\$ 10,203,740	

* The Huff Alternative Fund II and the substantial majority of the Others in the table above have moved into liquidation mode. The Contract Term Dates above do not reflect extension periods that may be activated by the investment manager at their election.

Fund investment strategies - the fund seeks to primarily invest in:

- (a) a diversified portfolio of private equity partnerships
- (b) a diversified portfolio of private equity partnerships
- (c) a range of private debt and equity to public securities, from late stage venture capital and early stage growth companies to bank loan participations, and in distressed securities
- (d) a range of investment opportunities from buyout transactions and domestic real estate to European operating companies and real estate

NOTE 8 - TAX STATUS

By letter dated November 14, 2017, the IRS informed the Plan that it made a favorable determination with respect to the tax-qualified status of the Plan and its related trust. The Plan has been amended since receiving the determination letter, however, the Committee and the Plan's tax counsel believe the Plan is designed and currently being operated in compliance with the applicable provisions of the Internal Revenue Code and regulations and rulings issued thereunder.

GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress, and tax periods prior to 2014 are believed to be no longer subject to potential audit.

NOTE 9 - RELATED PARTY TRANSACTIONS

The Plan Sponsor, the Trustee and the affiliates of both are parties-in-interest to the Plan. The Plan Sponsor provides administrative services to and on behalf of the Plan with no compensation or reimbursement from the Plan. Fees paid by the Master Trust to the Trustee for custodial, recordkeeping and investment advisory services provided to all plans in the Master Trust were approximately \$302,243 and \$315,708 for the years ended December 31, 2017 and 2016, respectively.

The Master Trust holds a common / collective trust fund investment (the Northern Trust Collective S&P 500 NL Index) which is managed by an affiliate of the Trustee of the Master Trust. This is a non-prohibited party-in-interest transaction. The value of this investment held by the Master Trust was \$206,766,314 and \$216,392,244 at December 31, 2017 and 2016, respectively, and the income of the Master Trust for the years ended December 31, 2017 and 2016 included \$41,874,069 and \$24,257,968, respectively, related to this investment.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the net increase in net assets available for benefits per the financial statements to the net income in the Form 5500 for the year ended December 31, 2017 is as follows:

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA.

Funding interest rates

For 2017 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.52%	4.16%
Second Segment Rate	3.80%	5.72%
Third Segment Rate	4.79%	6.48%
Effective Rate	4.02%	5.83%

For 2016 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.34%	4.43%
Second Segment Rate	4.03%	5.91%
Third Segment Rate	5.06%	6.65%
Effective Rate	4.24%	6.03%

* Used for maximum tax-deduction reporting purposes

** Used for minimum funding and benefit restriction purposes.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA.

Salary increase assumption

Not applicable since pay-related benefit accruals were frozen.

Expenses

Expected plan administrative expenses of \$5,600,000 were added to the 2017 Target Normal Cost. This assumption was based on a consideration of actual expenses paid from the trust in the prior year that are expected to recur this year, and includes a reflection of changes to the PBGC premium.

Marital percentage

For 2017 Plan Year

80% of male and 65% of female participants are assumed to be married at death. Male participants are assumed to be two years older than their spouses. Female participants are assumed to be one year younger than their spouses.

For 2016 Plan Year

For salaried participants, 85% of male participants and 75% of female participants are assumed to be married at death. For hourly participants, 65% of male participants and 55% of female participants are assumed to be married at death.

Mortality table

The mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Decrements

Representative values of the assumed annual rates of withdrawal, vesting, early retirement, disability and death are shown below. The retirement and withdrawal assumptions were updated based on an experience study completed in 2016. Terminated vested participants are assumed to retire at age 65, unless adjusted for hardship service

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2017 Expected Return	7.20%	6.48%	6.48%
2016 Expected Return	7.20%	6.65%	6.65%
2015 Expected Return	7.20%	6.81%	6.81%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2016 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA.
- The mortality table used for funding reflects an additional year of mortality improvement as required by PPA.
- Expected plan expenses added to the Target Normal Cost changed from \$5,700,000 in 2016 to \$5,600,000 in 2017.
- The withdrawal rates, rates of retirement, assumed percent married, assumed spousal age differences and the rates of optional form election were updated based on an experience study completed in 2016.
- The prescribed changes in the interest rate and mortality basis increased the Funding Target by approximately \$36.6 million. The non-prescribed assumption changes increased the Funding Target by approximately \$3.1 million.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

BWXT Retirement Plan

EIN/PN: 72-1172705 / 001

Schedule SB, Part V - Summary of Plan Provisions

Summary of Main Plan Provisions for McDermott – Pre April 1, 1998 Hires

Eligibility

Completion of one year of service.

Normal retirement

Eligibility

Later of age 65 and completion of 5 years of service.

Benefit

Benefits under this formula are frozen as of December 31, 2015.

Greatest of the following:

1. PIA Offset Formula

1-2/3% of final average monthly compensation times credited service up to 40 years, minus 1.00% of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect at retirement times credited service up to 40 years, minus the monthly profit sharing and stock bonus retirement plan offset.

2. Minimum Formula

The greater of \$125.00 or \$12.00 times credited service.

3. Frozen Grandfathered Formula

For participants in the plan on December 31, 1975, a percentage of final average monthly compensation based on credited service as of February 28, 1994 minus the same percentage of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect on July 1, 1968 minus the monthly profit sharing and stock bonus retirement offset plus the benefit determined under the above PIA offset formula for service after February 28, 1994.

Early retirement

Eligibility

Later of age 50 and completion of 10 years of service.

Benefit

Accrued pension reduced by 0.6% for each month that early retirement date precedes age 60, but not less than \$12 per month for each year of credited service. If participant completed at least 6 months service in a hardship area, one month is subtracted from age 60 for each month of hardship service (maximum 10 years) to determine reductions.

Deferred vested retirement

Eligibility

Completion of 5 years of service.

EIN/PN: 72-1172705 / 001

Schedule SB, Part V - Summary of Plan Provisions (continued)

Summary of Main Plan Provisions for McDermott – Pre April 1, 1998 Hires (continued)

Benefit

Accrued pension deferred to Normal Termination Benefit Commencement Date (normal retirement date, or if participant completed 6 months service in hardship area, date determined by subtracting number of months hardship service (maximum 120) from normal retirement date). The accrued pension is 1-2/3% of final average monthly compensation at Date of Termination, times credited service at Date of Termination up to 40 years, minus 1.00% of the participant's age 65 (age 62 for pilots) monthly Primary Insurance Amount under the Social Security Law in effect at retirement, times credited service at normal retirement up to 40 years, multiplied by a fraction whose numerator is the credited service at termination and whose denominator is the credited service at normal retirement, minus the monthly profit sharing and stock bonus retirement plan offset, subject to the minimum benefits described under Normal Retirement determined based on service at date of termination. Benefits under this formula were frozen as of December 31, 2015.

Disability retirement

Eligibility

Completion of 15 years of service and total and permanent disability prior to normal retirement date.

Benefit

Accrued pension (including minimum).

Death benefit

Eligibility

Death in active service after completion of 5 years of service.

Death prior to Normal Retirement Date while receiving a disability pension.

Death after terminating employment with eligibility for a vested, early or normal retirement pension and prior to commencing receipt of benefits.

Benefit

The amount that would have been payable to the spouse had the member terminated from service on the date of death (if termination had not already occurred), survived to age 65, begun to receive benefits under a 50% joint and survivor annuity, and then died. The benefit to the spouse shall begin on what would have been the member's normal retirement date. However, the spouse may elect to begin receiving reduced benefits as early as the date which would have been the member's early retirement date.

Normal form of benefit

Single

Life annuity.

Married

50% joint and survivor annuity (actuarial equivalent of life annuity).
