Independent Auditor's Report

To the Plan Administrator
Pension Agreement between GKN Rockford, Inc.
and the UAW and its Local Union No. 803

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2016 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodians hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Custodians as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1 - Plan Description

The following description of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering all full-time employees of GKN Rockford, Inc. (the "Company" and the "Plan Sponsor") who are represented by the collective bargaining agreement between the Company and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, UAW, and Local No. 803. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was frozen on November 5, 1990 to new participants. Effective December 31, 2014, all accrued benefits were frozen.

Pension Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants. Normal retirement benefits commence at age 65. Participants who have completed 10 years of service may elect to retire early following the attainment age of 60. Participants who have completed 30 years of service may elect to retire early following the attainment of age 55. In such event, the participant's monthly benefit shall be reduced by a certain percetage for each month that the participant's early retirement date precedes his or her normal retirement date. A participant is entitled to receive a disability retirement benefit if he or she becomes permanently disabled after completing 10 years of service. A participant's spouse will receive a monthly benefit provided that the participant was vested and married (for at least one year) at the time of the participant's death.

The normal retirement benefit is based on the participant's years of credited service. The number of years of credited service is multiplied by the benefit unit in effect on the participant's last day of employment.

Distributions are payable upon retirement, death, disability, or termination of employment in the form of various installment annuities. In lieu of receiving a monthly benefit as provided above, a participant may alternatively elect a reduced monthly benefit payment during the lifetime of the retired participant and continuing during the lifetime of the participant's designated beneficiary or spouse.

Eligibility and Vesting

Employees become participants in the Plan following completion of the eligibility requirements as described in the Plan and are fully vested for normal retirement upon reaching age 65 or after completing 10 years of service.

Plan Operations

The Plan is administered by the Company through its designated representatives. Investment management fees, trustee fees, and certain administrative expenses, such as actuarial fees, audit fees, legal fees, and Pension Benefit Guaranty Corporation (PBGC) premiums, are charged to the GKN North America Pension Plan Master Trust (the "Master Trust") (see Note 4) and allocated to participating plans by The Northern Trust Company (Northern Trust) and Prudential Retirement Insurance and Annuity Company (Prudential), the custodians of the Plan, based on each individual plan's units of participation in the Master Trust or on a specific identification basis.

Party-in-interest Transactions

Certain investments held in the Master Trust are managed by Northern Trust, Prudential, or their affiliates. Northern Trust and Prudential are custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses (see Note 4). The Master Trust's investments are stated at fair value and consist of common collective trusts, pooled separate accounts, interest in limited liability corporations and partnerships, mutual funds, various types of debt securities, and interest-bearing cash.

The common collective trust funds and pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The investments in the limited liability corporations and partnership interests are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. Net asset value is based on audited financial statements of these investments, with adjustments for market activity and other applicable valuation adjustments.

The government securities and other debt securities are valued using quoted market prices and other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Mutual fund investments are valued based on quoted market prices.

The interest-bearing cash is valued at fair value based on its outstanding balance. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan Sponsor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960). Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting.* ASU No. 2016-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Ttrust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of the ASU to have a significant impact on the Plan's financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, including Master Trust investment information presented in Note 4 are based solely on information certified by the Custodians.

Note 4 - Interest in Master Trust

The Plan's investments are in the GKN North America Pension Plan Master Trust, which was established for the investment of assets of the Plan and other retirement plans sponsored by related parties. Each participating retirement plan has an undivided interest in the Master Trust. The assets and liabilities of the Master Trust are held by Northern Trust and Prudential.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 10 and 11 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the fair value of assets invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 is as follows:

	2017	2016
Mutual funds	$ 31,125,335	$ 31,359,450
Common collective trust funds	148,624,171	154,840,594
Pooled separate accounts	6,357,481	4,353,357
Interests in limited liability corporation and partnerships	38,347,407	17,855,170
Interest-bearing cash	1,874,731	904,382
Government securities	27,518,223	26,022,639
Corporate debt securities	31,281,864	29,274,397
Total Master Trust investments	285,129,212	264,609,989
Net liability from pending sales and purchases	(211,447)	(229,613)
Total Master Trust net assets	$ 284,917,765	$ 264,380,376

Note 4 - Interest in Master Trust (Continued)

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Interest and dividend income	$ 5,417,453	$ 5,958,276
Net realized and unrealized appreciation on investments	35,487,880	14,961,009
Investment expenses	(544,705)	(1,208,048)
Total investment income	$ 40,360,628	$ 19,711,237

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Master Trust's assets and liabilities measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets and liabilities that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

(1) This class represents investment in a limited liability corporation that invests primarily in common stock of emerging market issuers. There are no restrictions or notice periods on the investment. The fund can be redeemed daily and has a notice period of 30 days.

Note 5 - Fair Value Measurements (Continued)

(2) This class represents investment in a limited liability corporation that invests in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and asset-backed securities. The fund has a quarterly redemption period and a notice period of 60 days.

(3) This class represents investment in a private equity fund related primarily to venture capital. This fund has a monthly redemption period and a notice period of 30 days.

There were no unfunded commitments or redemption restrictions on investments other than those described above.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017 or 2016.

Note 6 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits, which is actuarially determined by Willis Towers Watson, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2016 were (a) an assumed rate of interest per annum of 6.50 percent, compounded annually, net of investment expenses; (b) the RP-2014 employee and annuitant mortality table projected from 2006 with the MP-2017 improvement scale; (c) retirement age assumptions (the assumed average retirement age was 65); and (d) actuarial costs were determined using the unit cost credit method.

The changes in actuarial assumptions in 2016 related to a change in the mortality improvement scale used from the MP-2016 improvement scale to the MP-2017 improvement scale. Additionally, the discount rate changed from 7 percent for the year ended December 31, 2015 to 6.50 percent for the year ended December 31, 2016. The change in actuarial assumptions resulted in an increase of approximately $787,000 to the accumulated benefit obligation.

Note 7 - Funding Policy

The Plan is funded by the Plan Sponsor. The Plan Sponsor intends to contribute such amounts to the Plan as are necessary to provide assets sufficient to fund pension plan costs accrued, including amortization of past service costs, as determined on an actuarial basis. The Plan has met the ERISA minimum funding requirements for the plan years ended December 31, 2017 and 2016.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least

2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))

3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan

4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Monthly Benefit After Normal Retirement: Normal retirement benefit accrued to the date of disability.

Waiting Period: Expiration of the period in which an employee is receiving weekly accident and sickness benefits under the group insurance plan.

SCHEDULE SB ATTACHMENTS

Vested Benefits Upon Termination of Service

Vesting: Five years of vesting service.

Termination Benefit: Accrued normal retirement benefit at age 65 reduced for early commencement for former employees who are at least age 60 or at least age 55 but less than age 60 with age plus service greater than or equal to 85. The reduction is 5/9 of 1% for each complete calendar month that the benefit commencement date precedes age 65.

Pre-Retirement Death Benefits

Eligibility: Participants who are vested and die prior to the commencement of their benefits are entitled to a surviving spouse benefit.

Benefit: Spouse receives 60% of accrued normal retirement benefit reduced for Joint and Survivor option and early commencement, payable immediately or deferred to the earliest date the participant would have been eligible for retirement.

Optional Forms of Retirement Income in Lieu of Normal Form

A married participant may elect to receive a pension under the Single Life Annuity or 75% Joint & Survivor form of payment.

Future Plan Changes

Willis Towers Watson is not aware of any future plan changes that are required to be reflected.

Changes in Plan Provisions or Benefits Valued since Last Actuarial Valuation

There were no changes in plan provisions or benefits valued since the last actuarial valuation.

Retirement

For purposes of determining the Funding Target and Target Normal cost (both disregarding at-risk assumptions), participants are assumed to retire at age sixty-five (65).

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

■ Preretirement death benefit	The later of the death of the active participant or the date the participant would have been retirement eligible.
■ Deferred vested benefit	The later of age 65 or termination of employment.
■ Disability benefit	Not applicable.
■ Retirement benefit	Upon termination of employment.

Form of payment	For participants that are not already in payment status, it is assumed that 80% will elect the 60% joint and contingent form of payment and 20% will elect the single life annuity form.
Percent married	80% of males; 60% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife four years younger than husband.
Covered pay	Not applicable.
Loads	None.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.50% in 2015, and 7.00% in 2016 (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of the market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except the Special Early Retirement Benefit. Based on discussions with GKN, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. Willis Towers Watson has reviewed the plan provisions with GKN and, based on that review, is not aware of any other significant benefits required to be valued that were not.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses for the pension plan are estimated by determining the expected actual expenses for the coming year, reflecting the actual expenses paid from the trust the preceding year and expected costs by 3rd party administrators based on the actual contract and participant data as of January 1, 2017.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
Disability	None
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over recent periods with annual review.
Percent married	The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Data and Other Information

The plan sponsor, via its 3rd party administrator, furnished participant data as of 1/1/2017. Information on assets, contributions and plan provisions were supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. The following assumption was made for missing or apparently inconsistent data elements:

- If a terminated vested participant was known to be deceased, however, if it is unknown whether a beneficiary exists who is entitled to a future benefit, the deceased terminated vested participant is included in the valuation, however, only 60% of the benefit is being valued. A 60% Joint and Survivor benefit form is the normal form of payment for a married participant, which is the basis for choosing 60% of the benefit to be valued.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

and the UAW and its Local Union No. 803

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2016 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodians hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Custodians as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1 - Plan Description

The following description of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering all full-time employees of GKN Rockford, Inc. (the "Company" and the "Plan Sponsor") who are represented by the collective bargaining agreement between the Company and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, UAW, and Local No. 803. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was frozen on November 5, 1990 to new participants. Effective December 31, 2014, all accrued benefits were frozen.

Pension Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants. Normal retirement benefits commence at age 65. Participants who have completed 10 years of service may elect to retire early following the attainment age of 60. Participants who have completed 30 years of service may elect to retire early following the attainment of age 55. In such event, the participant's monthly benefit shall be reduced by a certain percetage for each month that the participant's early retirement date precedes his or her normal retirement date. A participant is entitled to receive a disability retirement benefit if he or she becomes permanently disabled after completing 10 years of service. A participant's spouse will receive a monthly benefit provided that the participant was vested and married (for at least one year) at the time of the participant's death.

The normal retirement benefit is based on the participant's years of credited service. The number of years of credited service is multiplied by the benefit unit in effect on the participant's last day of employment.

Distributions are payable upon retirement, death, disability, or termination of employment in the form of various installment annuities. In lieu of receiving a monthly benefit as provided above, a participant may alternatively elect a reduced monthly benefit payment during the lifetime of the retired participant and continuing during the lifetime of the participant's designated beneficiary or spouse.

Eligibility and Vesting

Employees become participants in the Plan following completion of the eligibility requirements as described in the Plan and are fully vested for normal retirement upon reaching age 65 or after completing 10 years of service.

Plan Operations

The Plan is administered by the Company through its designated representatives. Investment management fees, trustee fees, and certain administrative expenses, such as actuarial fees, audit fees, legal fees, and Pension Benefit Guaranty Corporation (PBGC) premiums, are charged to the GKN North America Pension Plan Master Trust (the "Master Trust") (see Note 4) and allocated to participating plans by The Northern Trust Company (Northern Trust) and Prudential Retirement Insurance and Annuity Company (Prudential), the custodians of the Plan, based on each individual plan's units of participation in the Master Trust or on a specific identification basis.

Party-in-interest Transactions

Certain investments held in the Master Trust are managed by Northern Trust, Prudential, or their affiliates. Northern Trust and Prudential are custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses (see Note 4). The Master Trust's investments are stated at fair value and consist of common collective trusts, pooled separate accounts, interest in limited liability corporations and partnerships, mutual funds, various types of debt securities, and interest-bearing cash.

The common collective trust funds and pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The investments in the limited liability corporations and partnership interests are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. Net asset value is based on audited financial statements of these investments, with adjustments for market activity and other applicable valuation adjustments.

The government securities and other debt securities are valued using quoted market prices and other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Mutual fund investments are valued based on quoted market prices.

The interest-bearing cash is valued at fair value based on its outstanding balance. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan Sponsor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960). Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting.* ASU No. 2016-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Ttrust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of the ASU to have a significant impact on the Plan's financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, including Master Trust investment information presented in Note 4 are based solely on information certified by the Custodians.

Note 4 - Interest in Master Trust

The Plan's investments are in the GKN North America Pension Plan Master Trust, which was established for the investment of assets of the Plan and other retirement plans sponsored by related parties. Each participating retirement plan has an undivided interest in the Master Trust. The assets and liabilities of the Master Trust are held by Northern Trust and Prudential.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 10 and 11 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the fair value of assets invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 is as follows:

	2017	2016
Mutual funds	$ 31,125,335	$ 31,359,450
Common collective trust funds	148,624,171	154,840,594
Pooled separate accounts	6,357,481	4,353,357
Interests in limited liability corporation and partnerships	38,347,407	17,855,170
Interest-bearing cash	1,874,731	904,382
Government securities	27,518,223	26,022,639

Net liability from pending sales and purchases	(211,447)	(229,613)
Total Master Trust net assets	$ 284,917,765	$ 264,380,376

Note 4 - Interest in Master Trust (Continued)

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Interest and dividend income	$ 5,417,453	$ 5,958,276
Net realized and unrealized appreciation on investments	35,487,880	14,961,009
Investment expenses	(544,705)	(1,208,048)
Total investment income	$ 40,360,628	$ 19,711,237

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Master Trust's assets and liabilities measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets and liabilities that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

(1) This class represents investment in a limited liability corporation that invests primarily in common stock of emerging market issuers. There are no restrictions or notice periods on the investment. The fund can be redeemed daily and has a notice period of 30 days.

Note 5 - Fair Value Measurements (Continued)

(2) This class represents investment in a limited liability corporation that invests in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and asset-backed securities. The fund has a quarterly redemption period and a notice period of 60 days.

(3) This class represents investment in a private equity fund related primarily to venture capital. This fund has a monthly redemption period and a notice period of 30 days.

There were no unfunded commitments or redemption restrictions on investments other than those described above.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017 or 2016.

Note 6 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits, which is actuarially determined by Willis Towers Watson, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2016 were (a) an assumed rate of interest per annum of 6.50 percent, compounded annually, net of investment expenses; (b) the RP-2014 employee and annuitant mortality table projected from 2006 with the MP-2017 improvement scale; (c) retirement age assumptions (the assumed average retirement age was 65); and (d) actuarial costs were determined using the unit cost credit method.

The changes in actuarial assumptions in 2016 related to a change in the mortality improvement scale used from the MP-2016 improvement scale to the MP-2017 improvement scale. Additionally, the discount rate changed from 7 percent for the year ended December 31, 2015 to 6.50 percent for the year ended December 31, 2016. The change in actuarial assumptions resulted in an increase of approximately $787,000 to the accumulated benefit obligation.

Note 7 - Funding Policy

The Plan is funded by the Plan Sponsor. The Plan Sponsor intends to contribute such amounts to the Plan as are necessary to provide assets sufficient to fund pension plan costs accrued, including amortization of past service costs, as determined on an actuarial basis. The Plan has met the ERISA minimum funding requirements for the plan years ended December 31, 2017 and 2016.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least

2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))

3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan

4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2016 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodians hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Custodians as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1 - Plan Description

The following description of the Pension Agreement between GKN Rockford, Inc. and the UAW and its Local Union No. 803 (the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering all full-time employees of GKN Rockford, Inc. (the "Company" and the "Plan Sponsor") who are represented by the collective bargaining agreement between the Company and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, UAW, and Local No. 803. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was frozen on November 5, 1990 to new participants. Effective December 31, 2014, all accrued benefits were frozen.

Pension Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants. Normal retirement benefits commence at age 65. Participants who have completed 10 years of service may elect to retire early following the attainment age of 60. Participants who have completed 30 years of service may elect to retire early following the attainment of age 55. In such event, the participant's monthly benefit shall be reduced by a certain percetage for each month that the participant's early retirement date precedes his or her normal retirement date. A participant is entitled to receive a disability retirement benefit if he or she becomes permanently disabled after completing 10 years of service. A participant's spouse will receive a monthly benefit provided that the participant was vested and married (for at least one year) at the time of the participant's death.

The normal retirement benefit is based on the participant's years of credited service. The number of years of credited service is multiplied by the benefit unit in effect on the participant's last day of employment.

Distributions are payable upon retirement, death, disability, or termination of employment in the form of various installment annuities. In lieu of receiving a monthly benefit as provided above, a participant may alternatively elect a reduced monthly benefit payment during the lifetime of the retired participant and continuing during the lifetime of the participant's designated beneficiary or spouse.

Certain investments held in the Master Trust are managed by Northern Trust, Prudential, or their affiliates. Northern Trust and Prudential are custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses (see Note 4). The Master Trust's investments are stated at fair value and consist of common collective trusts, pooled separate accounts, interest in limited liability corporations and partnerships, mutual funds, various types of debt securities, and interest-bearing cash.

The common collective trust funds and pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The investments in the limited liability corporations and partnership interests are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. Net asset value is based on audited financial statements of these investments, with adjustments for market activity and other applicable valuation adjustments.

The government securities and other debt securities are valued using quoted market prices and other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Mutual fund investments are valued based on quoted market prices.

The interest-bearing cash is valued at fair value based on its outstanding balance. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan Sponsor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Management does not expect the adoption of the ASU to have a significant impact on the Plan's financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, including Master Trust investment information presented in Note 4 are based solely on information certified by the Custodians.

Note 4 - Interest in Master Trust

The Plan's investments are in the GKN North America Pension Plan Master Trust, which was established for the investment of assets of the Plan and other retirement plans sponsored by related parties. Each participating retirement plan has an undivided interest in the Master Trust. The assets and liabilities of the Master Trust are held by Northern Trust and Prudential.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 10 and 11 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the fair value of assets invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 is as follows:

	2017	2016
Mutual funds	$ 31,125,335	$ 31,359,450
Common collective trust funds	148,624,171	154,840,594
Pooled separate accounts	6,357,481	4,353,357
Interests in limited liability corporation and partnerships	38,347,407	17,855,170
Interest-bearing cash	1,874,731	904,382
Government securities	27,518,223	26,022,639
Corporate debt securities	31,281,864	29,274,397

Net liability from pending sales and purchases	(211,447)	(229,613)
Total Master Trust net assets	$ 284,917,765	$ 264,380,376

Note 4 - Interest in Master Trust (Continued)

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Interest and dividend income	$ 5,417,453	$ 5,958,276
Net realized and unrealized appreciation on investments	35,487,880	14,961,009
Investment expenses	(544,705)	(1,208,048)
Total investment income	$ 40,360,628	$ 19,711,237

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Master Trust's assets and liabilities measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets and liabilities that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

(1) This class represents investment in a limited liability corporation that invests primarily in common stock of emerging market issuers. There are no restrictions or notice periods on the investment. The fund can be redeemed daily and has a notice period of 30 days.

Note 5 - Fair Value Measurements (Continued)

(2) This class represents investment in a limited liability corporation that invests in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and asset-backed securities. The fund has a quarterly redemption period and a notice period of 60 days.

(3) This class represents investment in a private equity fund related primarily to venture capital. This fund has a monthly redemption period and a notice period of 30 days.

There were no unfunded commitments or redemption restrictions on investments other than those described above.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017 or 2016.

Note 6 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits, which is actuarially determined by Willis Towers Watson, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2016 were (a) an assumed rate of interest per annum of 6.50 percent, compounded annually, net of investment expenses; (b) the RP-2014 employee and annuitant mortality table projected from 2006 with the MP-2017 improvement scale; (c) retirement age assumptions (the assumed average retirement age was 65); and (d) actuarial costs were determined using the unit cost credit method.

The changes in actuarial assumptions in 2016 related to a change in the mortality improvement scale used from the MP-2016 improvement scale to the MP-2017 improvement scale. Additionally, the discount rate changed from 7 percent for the year ended December 31, 2015 to 6.50 percent for the year ended December 31, 2016. The change in actuarial assumptions resulted in an increase of approximately $787,000 to the accumulated benefit obligation.

Note 7 - Funding Policy

The Plan is funded by the Plan Sponsor. The Plan Sponsor intends to contribute such amounts to the Plan as are necessary to provide assets sufficient to fund pension plan costs accrued, including amortization of past service costs, as determined on an actuarial basis. The Plan has met the ERISA minimum funding requirements for the plan years ended December 31, 2017 and 2016.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least

2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))

3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan

4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.
