Bank of America, N.A., is the Plan's trustee. The Plan Committee is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, the Plan allows participants to contribute up to 100 percent of their eligible compensation, as defined in the Plan document, subject to limits imposed by the Internal Revenue Code ("IRC"). The Plan also permits Roth contributions. Additionally, effective January 1, 2015, the Plan has an automatic enrollment feature in which newly eligible employees are enrolled with a 3 percent pre-tax compensation deferral which increases by 1 percent per year up to a maximum of 10 percent, unless a participant elects otherwise. Effective January 1, 2017, the deferral percentage was increased to 6 percent. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions equal to a discretionary percentage of the participant's elective deferral. During 2017, the Company matched 50 percent of the participant's contribution up to 6 percent of eligible compensation. Additional profit sharing amounts may be contributed at the option of the Company. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions and related earnings is based on years of continuous service.

Participants must work at least 1,000 hours during the year to be credited with a year of service. For matching contributions, participants vest 20 percent per year, and are 100 percent vested after five years of credited service. For profit sharing contributions, if any, participants vest 33 percent

after one year of credited service, 66 percent after two years of credited service, and are 100 percent vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Loan terms have a minimum of one year and may not exceed five years, unless the loan is used for the purchase of a primary residence. No more than two loans may be outstanding at a time for a participant and loans may not be consolidated or refinanced. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant (or beneficiary) may elect to receive his or her account balance as a lump-sum distribution or in installment payments. Participants may not withdraw their contributions until they attain age 59½ or prove a financial hardship under specific circumstances, or terminate employment for any reason including death or disability. In the event of a financial hardship withdrawal, the participant is precluded from making contributions to the Plan for six months following the distribution.

Forfeited Accounts

There were $327,970 and $8,699 of forfeited, non-vested accounts at December 31, 2017 and 2016, respectively. These accounts will be used to offset the Plan's administrative costs and then to reduce Company contributions. Any remaining forfeited, non-vested accounts will be allocated to participants. During the year ended December 31, 2017, the Plan's administrative costs and Company contributions were reduced by $159,719 and $80,237, respectively, from forfeited non-vested accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year, net of investment management fees.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Reclassifications

Certain amounts at December 31, 2016 have been reclassified to conform to the presentation at December 31, 2017.

3. Information Certified by Bank of America

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. According, Bank of America, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

December 31,	2017	2016
Mutual funds	$ 51,973,155	$ 40,185,251
Common/collective trusts	$ 2,215,730	$ 1,911,461
Notes receivable from participants	$ 1,367,705	$ 1,240,979

Year Ended December 31,	2017
Net appreciation in fair value of investments	$ 5,025,425
Interest and dividend income	$ 2,438,905
Interest income on notes receivable from participants	$ 58,674

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedules.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used at December 31, 2017 and 2016. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. There were no unfunded commitments to purchase investments at December 31, 2017 and 2016. Participant-directed redemptions have no restrictions and are recorded at the end of every business day. There is no redemption notice required for the Morley Stable Value Fund. These investments are direct filing entities.

The preceding valuation methods described may produce fair value calculations that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at fair value as of December 31, 2017	Level 1	Total
Mutual funds	$ 51,973,155	$51,973,155
Total investments measured at NAV as a practical expedient *	*	2,215,730
Total investments at fair value	$ 51,973,155	$54,188,885

Assets at fair value as of December 31, 2016	Level 1	Total
Mutual funds	$ 40,185,251	$40,185,251
Total investments measured at NAV as a practical expedient *	*	1,911,461
Total investments at fair value	$ 40,185,251	$42,096,712

** Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.*

5. Related Party and Parties-in-Interest Transactions

Certain Plan investments are managed by Bank of America, N.A. These investments and transactions in these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA. Notes receivable from participants also qualify as exempt part-in-interest transactions.

Bank of America provides certain administrative services to the Plan pursuant to an agreement between the Company and Bank of America. Bank of America receives revenue from mutual fund service providers for services. Bank of America provides to the funds. This revenue is used to offset certain amounts owed to Bank of America for its administrative services to the Plan.

If the revenue received by Bank of America from such mutual fund service providers exceeds the amount owed under the agreement, Bank of America remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. In 2017, the Plan allocated approximately $53,500 to the participants as part of the revenue sharing agreement and paid approximately $290,000 to Merrill Lynch for administrative expenses.

6. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

7. Tax Status

The Plan has adopted the Merrill Lynch Non-Standardized 401(k) Profit Sharing Plan and Trust. The Internal Revenue Service ("IRS") has informed Bank of America by an opinion letter dated March 31, 2014 that the prototype plan adopted by the Plan, as then designed, is in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Delinquent Participant Contributions

The Company determined that certain employee deferrals had not been remitted within the required time period according to the Department of Labor regulations. The amount reported as delinquent participant contributions for the year ended December 31, 2017 was $56,359. The Company will calculate lost earnings and deposit such funds into the Plan in 2019.

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statements of Net Assets Available for Benefits through October 4, 2018, the date the financial statements were available to be issued. No material recognizable subsequent events were noted.
