Notes to the Financial Statements

For the Year Ended December 31, 2017

1. Description of the Plan

The following description of the ComAv, LLC 401(k) Profit Sharing Plan, formerly known as Southern California Aviation, LLC 401(k) Profit Sharing Plan, (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2008, for the benefit of the employees of Southern California Aviation, LLC (the Company). Beginning October 1, 2013, eligible employees from Pacific Aviation Group LLC and ComAv LLC began participation to the Plan; and the Plan was amended to change its name to ComAv, LLC 401(k) Profit Sharing Plan. The Plan, and related trust, are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 1, 2016, the Plan was restated to comply with the Pension Protection Act of 2006. In connection with this restatement, the Plan adopted all legislation passed and any amendments required, since the prior restatement.

The Plan is a defined contribution plan covering all employees of the abovementioned three Companies who have reached age twenty-one and have one year of credited service, as defined by the Plan. The Plan provides for quarterly dates of entry.

Contributions

Participant contributions:

Each year, participants may contribute up to 100% of their annual compensation as defined by the Plan. Participants may not make annual contributions in excess of the government-imposed limit, which was \$18,000 during the year ended December 31, 2017. The government-imposed limit is increased to \$24,000 for participants who reach age 50 by year-end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollover).

Employer safe harbor matching contributions:

The Company provides a safe harbor matching contribution for Plan participants each year equal to 100% of the first 3% of compensation plus 50% of the next 2% of compensation. During the year ended December 31, 2017, the employer safe harbor matching contributions to the Plan was \$189,000.

Employer discretionary profit-sharing contributions:

Each plan year, the Company may make an additional discretionary profit sharing contribution on behalf of all participants who have completed 1,000 credited hours of service, and who are employed by the Company on the last day of the plan year. During the year ended December 31, 2017, there was no employer profit-sharing contributions made to the Plan.

1. Description of the Plan (continued)

Investment options

Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully illustrated in the Plan's literature.

Participant accounts

Each participant account is credited with the participant's contribution and Company's matching contributions, as well as allocation of the Company's profit sharing contribution and Plan earnings. Participants accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate of interest plus 2%. The interest rate for all loans is 5.25% - 6.25% for years ended December 31, 2017 and 2016, respectively. Principal and interest are paid ratably through bi-weekly and semi-monthly payroll deductions.

Vesting

Participants are immediately vested (100%) in their voluntary contributions and Company matching and profit sharing contributions plus actual earnings thereon.

Payment of benefits

Upon termination of service due to death, disability, termination, or retirement, a participant or the participant's beneficiary will receive a value of the vested account balance in the form of a lump-sum amount. There is an automatic cash-out provision for participants with balances not exceeding \$1,000.

Forfeited accounts

Since participants are immediately vested (100%) in their voluntary, and Company matching and profit-sharing contributions, plus actual earnings thereon, there were no forfeited balances included in Plan net assets available for benefits at December 31, 2017 and 2016.

2. Summary of accounting policies

A summary of the significant accounting policies followed by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America.

Investment valuation and income recognition

Investments are reported at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded.

If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. There were no participant loans considered in default and recorded as benefit payments for the year ended December 31, 2017.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

2. Summary of accounting policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Risks and uncertainties

The Plan invests in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 5, 2018, the date which the financial statements were available to be issued. There were no subsequent events noted that would require adjustment to or disclosure in these financial statements.

3. Certified investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest, dividends and administrative expenses for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (USA).

4. Fair value measurements

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

4. Fair value measurements (continued)

- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common stocks, corporate bonds, unit investment trusts, money market funds and U.S. government securities*: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under provisions of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. Related party transactions

Certain plan investments are managed by John Hancock Life Insurance Company (USA) (John Hancock). John Hancock is the recordkeeper for the Plan, and therefore, these transactions qualify as party in interest transactions.

John Hancock provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and the respective recordkeeper. The recordkeeper received revenue from mutual funds service providers for services that the recordkeeper provides to the funds. This revenue is used to offset certain amounts owed to the recordkeeper for its administrative services to the Plan.

If the revenue received by the recordkeeper from such mutual fund service providers exceeds the amounts owed under the MSA, the recordkeeper remit the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Plan Sponsor may make a payment to the recordkeepers for administrative expenses not covered by revenue sharing.

7. Tax status

The Plan document received a volume advisory letter dated May 5, 2015, in which the Internal Revenue Service stated that the Plan document was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the advisory letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Other Matter

During 2017, the Company changed its payroll provider. In connection with this change, payroll classified under certain payroll codes was inadvertently excluded from the gross wages utilized in the calculation of employee deferrals and employer matching contributions. Based on our review of supporting payroll data, we determined that the correcting contribution to the Plan would not be material to the financial statements at December 31, 2017. The Company plans to make the correcting contributions as soon as administratively possible.
