Benefits Committee
MW Manufacturers, Inc. Retirement Plan
Cary, North Carolina

We were engaged to audit the accompanying financial statements of the MW Manufacturers, Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B, the custodian and trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, as listed in the accompanying table of contents, as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

The supplemental Schedule H, Line 4i - Schedule of Assets Held as of End of Year that accompanies the Plan's financial statements does not disclose historical cost information relating to investments held as of the end of the year. Disclosure of this information is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 1: DESCRIPTION OF PLAN

The following description of the MW Manufacturers, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan which covers all hourly and salaried employees of MW Manufacturers, Inc. (the “Company”) who have reached the age of 21, and have completed one year of service with 1,000 hours. The Plan also covers individuals who formerly participated in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. or the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees. The primary purpose of the Plan is to provide retirement benefits, based on compensation and length of credited service, to employees who attain normal retirement age. In addition, the Plan provides early, late, and disability retirement benefits to eligible participants and beneficiaries of deceased participants.

The Plan participates in the Ply Gem Industries, Inc. Master Trust (the “Master Trust”). The Master Trust was formed to facilitate more cost-effective management of the investments of pension plans administered by Ply Gem Industries, Inc. Prudential Retirement Insurance and Annuity Company (the “Custodian”) and Prudential Bank & Trust, F.S.B. (the “Trustee”) serve as the Plan’s custodian and trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 31, 2004, the Plan benefits for salaried participants were frozen. No future benefits accrue after this date. Participants who are not fully vested at this date will continue to earn credit for vesting purposes as long as they are employed by the Company. Effective November 1, 2005, no new hourly members are allowed into the Plan. Effective November 15, 2013, no future benefits will accrue for hourly participants after December 31, 2013.

The Plan is administered by the Company’s Benefits Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

Vesting

Participants are fully vested after five years of service.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 1: DESCRIPTION OF PLAN (concluded)

Pension Benefits

Monthly pension benefits for participants retiring at age 65 are based on the participant's average compensation and/or years of service. The Plan provides for early retirement at age 60 for participants with ten or more years of service.

Upon retirement, participants can elect to receive benefits in the form of monthly payments or in certain instances, a lump-sum cash payment. The Plan allows for early distribution of benefits in the event a participant's accrued benefit is less than \$1,000.

Death and Disability Benefits

If an active participant dies after completing a minimum of ten years of vesting service, the participant's surviving spouse is entitled to a spouse's annuity benefit beginning the later of the first day of the month following the participant's death or the first day of the month following the earliest date the participant would have been able to receive the benefit had the participant lived.

Participants employed by the Company and former participants in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. who become permanently disabled are entitled to receive disability retirement benefits with the accrued benefit earned at the disability date, payable immediately. Former participants of the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees who become permanently disabled are entitled to receive the accrued benefit earned at the disability date, payable immediately after both attaining age 55 and completing 15 or more years of vesting service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit payments to participants are recorded when paid.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of January 1, 2017, and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Within the Master Trust, purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. The Plan's interest in the Master Trust's income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided in the plan document. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements. Trustee and Custodian fees paid by the Plan are included in administrative expenses in these financial statements. Certain investment related expenses are included in plan interest in the Master Trust's investment income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by Prudential Financial, Inc., an independent consulting actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used as of January 1, 2017, are summarized as follows:

Discount rate on obligations - 7% as of January 1, 2017

Rate of return - 7% as of January 1, 2017

Mortality table - The Internal Revenue Service (the "IRS") 2017 Static Mortality Table with RP-2014 with MP-2016 scale

Retirement age - For ages 55 - 64, probability of annual retirement rates range from 1.6% - 10.0%; age 65 is 100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

As of January 1, 2017, the accumulated Plan benefits were as follows:

Actuarial present value of accumulated Plan benefits:

Vested benefits:

Participants and/or beneficiaries currently receiving benefits	\$ 8,972,798
Active participants	2,513,106
Participants with deferred benefits	7,159,340
Nonvested benefits	<u>17,127</u>

Total actuarial present value of accumulated Plan benefits	<u><u>\$ 18,662,371</u></u>
--	-----------------------------

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Changes in accumulated Plan benefits for the year ending January 1, 2017, are summarized as follows:

Actuarial present value of accumulated Plan benefits as of beginning of year	<u>\$ 18,825,325</u>
Changes during the year attributable to:	
Actual benefits paid	(1,188,126)
Interest	1,276,892
Benefits accumulated and actuarial gain	(4,707)
Assumption changes	<u>(247,013)</u>
Net decrease	<u>(162,954)</u>
Actuarial present value of accumulated Plan benefits as of end of year	<u>\$ 18,662,371</u>

The decrease resulting from assumption changes of \$247,013 is due to a change in the mortality tables and the expense assumption was increased to account for Pension Benefit Guaranty Corporation ("PBGC") premium increases.

The other changes in accumulated Plan benefits represent normal operation of the Plan. Changes consist primarily of those items of Plan experience that are not associated with asset performance.

NOTE 3: FUNDING POLICY

The Company's policy is to fund at least the actuarially computed minimum funding requirements of ERISA each year. The Plan met the ERISA minimum funding requirements for 2017 and 2016.

NOTE 4: PLAN TERMINATION

Although the Company has not expressed intent to terminate the Plan, it reserves that right as provided in the plan document. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 4: PLAN TERMINATION (concluded)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC (a United States government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit projections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2017, that ceiling is \$5,369 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 5: INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held by the Master Trust as of December 31, 2017 and 2016, and investment income for 2017 and 2016 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee and Custodian.

	<u>2017</u>	<u>2016</u>
Plan interest in the Master Trust	<u>\$ 18,854,055</u>	<u>\$ 17,470,721</u>
Total investment income	<u>\$ 2,449,141</u>	<u>\$ 908,455</u>

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Ply Gem Industries, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee and Custodian. As of December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 55%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans in proportion to the value of each plan's participation as of the last day of each quarter.

The following table presents the net assets of the Master Trust as of December 31:

	<u>2017</u>	<u>2016</u>

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 6: FAIR VALUE MEASUREMENTS (continued)

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The Plan Sponsor has determined the following funds are more representative of a level 2 fund: Prudential Total Return Bond A Fund, PIMCO Commodity Real Return Strategy A, and Vanguard Inflation Protection Bond Fund.

Pooled separate accounts - Valued at NAV based on the market value of the underlying investments, such as equities, preferred stock, bonds, real estate, and mutual funds. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are quoted prices, unit values of a pooled separate account are determined by dividing the value of each fund's net assets by the total number of units outstanding on the valuation date. The valuation of fund units is published daily and is the basis for current transactions. The Plan Sponsor has determined the following funds are more representative as a level 1 fund: Frontier Capital Fund Mid Cap Growth and Prudential Short-Term Fund.

Total investments at fair value	\$ 14,227,798	\$ 17,249,898	\$ -	\$ 31,477,696

NOTE 7: RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in certain funds managed by the Custodian and Trustee. Therefore, transactions related to these funds qualify as party in interest transactions that are allowable under ERISA. Fees incurred by the Plan for investment management services are included in Plan interest in the Master Trust's investment income, as they are paid through revenue sharing, rather than direct payment. During 2017 and 2016, the Plan made direct payments to the Trustee and Custodian totaling \$386,242 and \$325,705 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

NOTE 8: INCOME TAX STATUS

The Plan obtained its latest determination letter dated November 18, 2009, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities.

NOTE 9: SUBSEQUENT EVENTS

During April 2018, Ply Gem Industries, Inc., the administrator of the Master Trust, was acquired by Clayton, Dubilier & Rice (“CD&R”).

The plan administrator has evaluated subsequent events through October 10, 2018, the date these financial statements were available for issuance.

CHANGES SINCE LAST YEAR'S VALUATION

Changes in Pension Plan Provisions

No changes in the pension plan provisions were recognized with this actuarial valuation.

Legislated Changes

There were no legislative changes recognized with this actuarial valuation.

Changes in Actuarial Assumptions

The expense assumption was changed from \$298,000 to \$326,000 to account for PBGC premium increases.

The mortality table under ASC 960 was changed from RP-2014 Total Dataset with Scale MP-2015 to RP-2014 Adjusted to 2006 Total Dataset with Scale MP-2016.

Changes in Actuarial Methods

No changes in actuarial methods were recognized with this actuarial valuation.

5. Current Year Amortization Installment	\$209,938

Net Shortfall Amortization Installment

6. Current Year Amortization Installment	\$209,938
7. Sum of Prior Year Amortization Installments	123,534
8. Net Shortfall Amortization Installment [6 + 7, not less than \$0]	\$333,472

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor Elections

Discount Rate: Segment rates, with a 4-month lookback

Mortality Table: Prescribed IRS Static Mortality Table – Separate

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Service

MW Salaried and Brown Molding Participants: The number of years in which a participant earns 1,000 hours of service with the company while a participant (completed after May 25, 1990 for Bilt-Best employees and May 3, 1993 for Tupelo employees). MW Salaried participants ceased accruing benefits as of December 12, 1997. Partial service can be earned for less than 1,000 hours.

MW Hourly Participants: The number of years in which a participant earns 1,700 hours of service with the company while a participant, completed after January 1, 1987 (completed after May 25, 1990 for Bilt-Best employees and May 3, 1993 for Tupelo employees). Partial service can be earned for less than 1,000 hours.

Valley: Years and completed months from the date of hire. Credited service excludes service before January 1, 1989 for hourly production or maintenance employees. Valley participants ceased accruing benefits as of June 30, 2002.

Final Average Earnings

Average compensation over the highest 60 consecutive months during the last 120 months of employment.

Hoover: Not Applicable.

Form of Annuity

Single Member: Life Annuity
Married Member: Actuarially Equivalent 50% Spouse Joint & Survivor Annuity.

Normal Retirement Date

Normal Retirement Date is the first day of the month coincident with or next following the attainment of age 65.

Eligibility

All full-time employees of the Employer other than employees covered by a collective bargaining agreement or leased employees are eligible to participate in the plan following the attainment of 21 years of age and the completion of one year of service. No employees will enter the plan after November 1, 2005.

Primary Social Security Benefit

Participant's primary Social Security old age benefit computed on the basis of the Social Security Act in effect to date of termination calculated at age 65 with level projected wages to age 65.

Covered Compensation

An amount equal to the un-indexed average of the Social Security taxable wage bases in effect for each plan year during the thirty-five year period ending with the last day of the plan year in which the participant attains Social Security retirement age.

SECTION VII

PLAN PROVISIONS

Benefit Formula

The amount of annual benefit to be paid monthly for life at the Normal Retirement Date and based on service to the Normal Retirement Date is:

MW Salaried and Brown Moulding Participants: Greater of (A) or (B):

(A) Ongoing Benefit, Greater of 1, 2, or 3:

1 - An annual benefit of 0.75% of the employee's final average earnings plus 0.65% of his final average earnings greater than covered compensation, both times credited service up to 30 years.

2 - An annual benefit of \$600 pro rata reduced for termination before normal retirement.

3 - An annual benefit of \$2,000 for non-highly compensated employees that terminate employment after 2001.

(B) Frozen Benefit: December 31, 1992 accrued benefit valued under prior social security offset formula.

MW Hourly Participants: Monthly benefit rate of \$5.00, effective 1/1/1987, times years of credited service. A participant's benefit will not be less than \$50 per month at normal retirement, which is to be prorated based on actual over expected service at normal retirement for those participants who are not eligible for normal or early retirement.

Valley Participants: Annual benefit is equal to the sum of (1) and (2) minus (3):

(1) 1.25% of the pensionable pay for the calendar year ending December 31, 1979 times credited service prior to January 1, 1980.

(2) 1.25% of pensionable earnings for each year of credited service after 1/1/1980.

(3) 1.25% of primary Social Security benefit times total credited service.

However, not less than \$63 times total credited service.

Credited Service for parts (1) plus (2) and for part (3) is limited to 40 years.

Note: Benefit accruals for MW Salaried, Valley, and Brown Moulding participants are frozen.

SECTION VII

PLAN PROVISIONS

Income Payable

Amount described in sections (a) or (b) below, whichever applies:

- a. If Participant has a Spouse as of his retirement date and does not elect otherwise, retirement income shall be paid on the basis of Joint and Survivor form, as stipulated by ERISA, and will be the amount determined under the benefit formula multiplied by
- b. If Participant either has no Spouse as of his retirement date or elects to receive his income under the Normal Form, retirement income will be the amount determined under the benefit formula.

Accrued Benefit

The amount of monthly benefit to be paid for life commencing at the Normal Retirement Date calculated as the Normal Retirement Benefit using service and salaries as of the date of determination.

Early Eligibility

MW and Brown Moulding Participants: Age 60 and 10 years of vesting service.

Valley Participants: Age 55 and 10 years of vesting service.

Early Benefit Amount

Accrued benefit reduced by the early retirement reduction factors for each year early retirement Normal Retirement Date.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit based on service and compensation as of actual Retirement Date.

Vesting Schedule

5 years of service equals 100% vesting.

Vested Benefit

Benefit accrued to date of termination adjusted by the appropriate vesting percentage.

SECTION VII

PLAN PROVISIONS

Pre-Retirement Spouse Benefit

- A. *Eligibility:* Eligible for early retirement.
- Benefit Formula:* 50% of the pension benefit accrued to date of death reduced by appropriate early retirement and joint-and-survivor factors.
- B. *Eligibility:* Eligible for vesting but not eligible for early retirement.
- Benefit Formula:* 50% of the vested pension benefit accrued to date of death, payment deferred to no earlier than the early retirement date of the deceased Participant and reduced by the appropriate early retirement and joint-and-survivor factors.

Disability Retirement Benefit

- A. *Eligibility:* **MW and Brown Moulding:** Total and Permanent Disability.
- Valley Participants:** First day of month following the determination of total and permanent disability after both attaining age 55 and competing 15 years of vesting service.
- B. *Amount:* **MW and Brown Moulding:** The accrued benefit earned at the disability retirement date payable immediately.
- Valley Participants:** The accrued benefit earned at the disability retirement date payable immediately.

SECTION I

CHANGES SINCE LAST YEAR'S VALUATION

Changes in Pension Plan Provisions

No changes in the pension plan provisions were recognized with this actuarial valuation.

Legislated Changes

There were no legislative changes recognized with this actuarial valuation.

Changes in Actuarial Assumptions

The expense assumption was changed from \$298,000 to \$326,000 to account for PBGC premium increases.

The mortality table under ASC 960 was changed from RP-2014 Total Dataset with Scale MP-2015 to RP-2014 Adjusted to 2006 Total Dataset with Scale MP-2016.

Changes in Actuarial Methods

No changes in actuarial methods were recognized with this actuarial valuation.

SECTION IV

2. Funding Shortfall to be Amortized	\$1,673,871
3. Present Value of Prior Year Amortization Installments	395,415
4. Current Year Amortization Base [2 – 3]	1,278,456
5. Current Year Amortization Installment	\$209,938

Net Shortfall Amortization Installment

6. Current Year Amortization Installment	\$209,938
7. Sum of Prior Year Amortization Installments	123,534
8. Net Shortfall Amortization Installment [6 + 7, not less than \$0]	\$333,472

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor Elections

Discount Rate: Segment rates, with a 4-month lookback

Mortality Table: Prescribed IRS Static Mortality Table – Separate

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

PLAN PROVISIONS

Service

MW Salaried and Brown Molding Participants: The number of years in which a participant earns 1,000 hours of service with the company while a participant (completed after May 25, 1990 for Bilt-Best employees and May 3, 1993 for Tupelo employees). MW Salaried participants ceased accruing benefits as of December 12, 1997. Partial service can be earned for less than 1,000 hours.

MW Hourly Participants: The number of years in which a participant earns 1,700 hours of service with the company while a participant, completed after January 1, 1987 (completed after May 25, 1990 for Bilt-Best employees and May 3, 1993 for Tupelo employees). Partial service can be earned for less than 1,000 hours.

Valley: Years and completed months from the date of hire. Credited service excludes service before January 1, 1989 for hourly production or maintenance employees. Valley participants ceased accruing benefits as of June 30, 2002.

Final Average Earnings

Average compensation over the highest 60 consecutive months during the last 120 months of employment.

Hoover: Not Applicable.

Form of Annuity

Single Member: Life Annuity
Married Member: Actuarially Equivalent 50% Spouse Joint & Survivor Annuity.

Normal Retirement Date

Normal Retirement Date is the first day of the month coincident with or next following the attainment of age 65.

Eligibility

All full-time employees of the Employer other than employees covered by a collective bargaining agreement or leased employees are eligible to participate in the plan following the attainment of 21 years of age and the completion of one year of service. No employees will enter the plan after November 1, 2005.

Primary Social Security Benefit

Participant's primary Social Security old age benefit computed on the basis of the Social Security Act in effect to date of termination calculated at age 65 with level projected wages to age 65.

Covered Compensation

An amount equal to the un-indexed average of the Social Security taxable wage bases in effect for each plan year during the thirty-five year period ending with the last day of the plan year in which the participant attains Social Security retirement age.

SECTION VII

PLAN PROVISIONS

Benefit Formula

The amount of annual benefit to be paid monthly for life at the Normal Retirement Date and based on service to the Normal Retirement Date is:

MW Salaried and Brown Moulding Participants: Greater of (A) or (B):

(A) Ongoing Benefit, Greater of 1, 2, or 3:

1 - An annual benefit of 0.75% of the employee's final average earnings plus 0.65% of his final average earnings greater than covered compensation, both times credited service up to 30 years.

2 - An annual benefit of \$600 pro rata reduced for termination before normal retirement.

3 - An annual benefit of \$2,000 for non-highly compensated employees that terminate employment after 2001.

(B) Frozen Benefit: December 31, 1992 accrued benefit valued under prior social security offset formula.

MW Hourly Participants: Monthly benefit rate of \$5.00, effective 1/1/1987, times years of credited service. A participant's benefit will not be less than \$50 per month at normal retirement, which is to be prorated based on actual over expected service at normal retirement for those participants who are not eligible for normal or early retirement.

Valley Participants: Annual benefit is equal to the sum of (1) and (2) minus (3):

(1) 1.25% of the pensionable pay for the calendar year ending December 31, 1979 times credited service prior to January 1, 1980.

(2) 1.25% of pensionable earnings for each year of credited service after 1/1/1980.

(3) 1.25% of primary Social Security benefit times total credited service.

However, not less than \$63 times total credited service.

Credited Service for parts (1) plus (2) and for part (3) is limited to 40 years.

Note: Benefit accruals for MW Salaried, Valley, and Brown Moulding participants are frozen.

SECTION VII

PLAN PROVISIONS

Income Payable

Amount described in sections (a) or (b) below, whichever applies:

- a. If Participant has a Spouse as of his retirement date and does not elect otherwise, retirement income shall be paid on the basis of Joint and Survivor form, as stipulated by ERISA, and will be the amount determined under the benefit formula multiplied by
- b. If Participant either has no Spouse as of his retirement date or elects to receive his income under the Normal Form, retirement income will be the amount determined under the benefit formula.

Accrued Benefit

The amount of monthly benefit to be paid for life commencing at the Normal Retirement Date calculated as the Normal Retirement Benefit using service and salaries as of the date of determination.

Early Eligibility

MW and Brown Moulding Participants: Age 60 and 10 years of vesting service.

Valley Participants: Age 55 and 10 years of vesting service.

Early Benefit Amount

Accrued benefit reduced by the early retirement reduction factors for each year early retirement Normal Retirement Date.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit based on service and compensation as of actual Retirement Date.

Vesting Schedule

5 years of service equals 100% vesting.

Vested Benefit

Benefit accrued to date of termination adjusted by the appropriate vesting percentage.

SECTION VII

PLAN PROVISIONS

Pre-Retirement Spouse Benefit

- A. *Eligibility:* Eligible for early retirement.
- Benefit Formula:* 50% of the pension benefit accrued to date of death reduced by appropriate early retirement and joint-and-survivor factors.
- B. *Eligibility:* Eligible for vesting but not eligible for early retirement.
- Benefit Formula:* 50% of the vested pension benefit accrued to date of death, payment deferred to no earlier than the early retirement date of the deceased Participant and reduced by the appropriate early retirement and joint-and-survivor factors.

Disability Retirement Benefit

- A. *Eligibility:* **MW and Brown Moulding:** Total and Permanent Disability.
- Valley Participants:** First day of month following the determination of total and permanent disability after both attaining age 55 and competing 15 years of vesting service.
- B. *Amount:* **MW and Brown Moulding:** The accrued benefit earned at the disability retirement date payable immediately.
- Valley Participants:** The accrued benefit earned at the disability retirement date payable immediately.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor Elections

Discount Rate: Segment rates, with a 4-month lookback

Mortality Table: Prescribed IRS Static Mortality Table – Separate

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

2 - An annual benefit of \$600 pro rata reduced for termination before normal retirement.

3 - An annual benefit of \$2,000 for non-highly compensated employees that terminate employment after 2001.

(B) Frozen Benefit: December 31, 1992 accrued benefit valued under prior social security offset formula.

MW Hourly Participants: Monthly benefit rate of \$5.00, effective 1/1/1987, times years of credited service. A participant's benefit will not be less than \$50 per month at normal retirement, which is to be prorated based on actual over expected service at normal retirement for those participants who are not eligible for normal or early retirement.

Valley Participants: Annual benefit is equal to the sum of (1) and (2) minus (3):

(1) 1.25% of the pensionable pay for the calendar year ending December 31, 1979 times credited service prior to January 1, 1980.

(2) 1.25% of pensionable earnings for each year of credited service after 1/1/1980.

(3) 1.25% of primary Social Security benefit times total credited service.

However, not less than \$63 times total credited service.

Credited Service for parts (1) plus (2) and for part (3) is limited to 40 years.

Note: Benefit accruals for MW Salaried, Valley, and Brown Moulding participants are frozen.

SECTION VII

PLAN PROVISIONS

Income Payable

Amount described in sections (a) or (b) below, whichever applies:

- a. If Participant has a Spouse as of his retirement date and does not elect otherwise, retirement income shall be paid on the basis of Joint and Survivor form, as stipulated by ERISA, and will be the amount determined under the benefit formula multiplied by
- b. If Participant either has no Spouse as of his retirement date or elects to receive his income under the Normal Form, retirement income will be the amount determined under the benefit formula.

Accrued Benefit

The amount of monthly benefit to be paid for life commencing at the Normal Retirement Date calculated as the Normal Retirement Benefit using service and salaries as of the date of determination.

Early Eligibility

MW and Brown Moulding Participants: Age 60 and 10 years of vesting service.

Valley Participants: Age 55 and 10 years of vesting service.

Early Benefit Amount

Accrued benefit reduced by the early retirement reduction factors for each year early retirement Normal Retirement Date.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit based on service and compensation as of actual Retirement Date.

Vesting Schedule

5 years of service equals 100% vesting.

Vested Benefit

Benefit accrued to date of termination adjusted by the appropriate vesting percentage.

Benefits Committee
MW Manufacturers, Inc. Retirement Plan
Cary, North Carolina

We were engaged to audit the accompanying financial statements of the MW Manufacturers, Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B, the custodian and trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, as listed in the accompanying table of contents, as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

The supplemental Schedule H, Line 4i - Schedule of Assets Held as of End of Year that accompanies the Plan's financial statements does not disclose historical cost information relating to investments held as of the end of the year. Disclosure of this information is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 1: DESCRIPTION OF PLAN

The following description of the MW Manufacturers, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan which covers all hourly and salaried employees of MW Manufacturers, Inc. (the “Company”) who have reached the age of 21, and have completed one year of service with 1,000 hours. The Plan also covers individuals who formerly participated in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. or the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees. The primary purpose of the Plan is to provide retirement benefits, based on compensation and length of credited service, to employees who attain normal retirement age. In addition, the Plan provides early, late, and disability retirement benefits to eligible participants and beneficiaries of deceased participants.

The Plan participates in the Ply Gem Industries, Inc. Master Trust (the “Master Trust”). The Master Trust was formed to facilitate more cost-effective management of the investments of pension plans administered by Ply Gem Industries, Inc. Prudential Retirement Insurance and Annuity Company (the “Custodian”) and Prudential Bank & Trust, F.S.B. (the “Trustee”) serve as the Plan’s custodian and trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 31, 2004, the Plan benefits for salaried participants were frozen. No future benefits accrue after this date. Participants who are not fully vested at this date will continue to earn credit for vesting purposes as long as they are employed by the Company. Effective November 1, 2005, no new hourly members are allowed into the Plan. Effective November 15, 2013, no future benefits will accrue for hourly participants after December 31, 2013.

The Plan is administered by the Company’s Benefits Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

Vesting

Participants are fully vested after five years of service.

NOTE 1: DESCRIPTION OF PLAN (concluded)

Pension Benefits

Monthly pension benefits for participants retiring at age 65 are based on the participant's average compensation and/or years of service. The Plan provides for early retirement at age 60 for participants with ten or more years of service.

Upon retirement, participants can elect to receive benefits in the form of monthly payments or in certain instances, a lump-sum cash payment. The Plan allows for early distribution of benefits in the event a participant's accrued benefit is less than \$1,000.

Death and Disability Benefits

If an active participant dies after completing a minimum of ten years of vesting service, the participant's surviving spouse is entitled to a spouse's annuity benefit beginning the later of the first day of the month following the participant's death or the first day of the month following the earliest date the participant would have been able to receive the benefit had the participant lived.

Participants employed by the Company and former participants in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. who become permanently disabled are entitled to receive disability retirement benefits with the accrued benefit earned at the disability date, payable immediately. Former participants of the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees who become permanently disabled are entitled to receive the accrued benefit earned at the disability date, payable immediately after both attaining age 55 and completing 15 or more years of vesting service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit payments to participants are recorded when paid.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of January 1, 2017, and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Within the Master Trust, purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. The Plan's interest in the Master Trust's income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided in the plan document. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements. Trustee and Custodian fees paid by the Plan are included in administrative expenses in these financial statements. Certain investment related expenses are included in plan interest in the Master Trust's investment income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by Prudential Financial, Inc., an independent consulting actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used as of January 1, 2017, are summarized as follows:

Discount rate on obligations - 7% as of January 1, 2017

Rate of return - 7% as of January 1, 2017

Mortality table - The Internal Revenue Service (the "IRS") 2017 Static Mortality Table with RP-2014 with MP-2016 scale

Retirement age - For ages 55 - 64, probability of annual retirement rates range from 1.6% - 10.0%; age 65 is 100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

As of January 1, 2017, the accumulated Plan benefits were as follows:

Actuarial present value of accumulated Plan benefits:

Vested benefits:

Participants and/or beneficiaries currently receiving benefits	\$ 8,972,798
Active participants	2,513,106
Participants with deferred benefits	7,159,340
Nonvested benefits	<u>17,127</u>

Total actuarial present value of accumulated Plan benefits	<u><u>\$ 18,662,371</u></u>
--	-----------------------------

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Changes in accumulated Plan benefits for the year ending January 1, 2017, are summarized as follows:

Actuarial present value of accumulated Plan benefits as of beginning of year	<u>\$ 18,825,325</u>
Changes during the year attributable to:	
Actual benefits paid	(1,188,126)
Interest	1,276,892
Benefits accumulated and actuarial gain	(4,707)
Assumption changes	<u>(247,013)</u>
Net decrease	<u>(162,954)</u>
Actuarial present value of accumulated Plan benefits as of end of year	<u>\$ 18,662,371</u>

The decrease resulting from assumption changes of \$247,013 is due to a change in the mortality tables and the expense assumption was increased to account for Pension Benefit Guaranty Corporation ("PBGC") premium increases.

The other changes in accumulated Plan benefits represent normal operation of the Plan. Changes consist primarily of those items of Plan experience that are not associated with asset performance.

NOTE 3: FUNDING POLICY

The Company's policy is to fund at least the actuarially computed minimum funding requirements of ERISA each year. The Plan met the ERISA minimum funding requirements for 2017 and 2016.

NOTE 4: PLAN TERMINATION

Although the Company has not expressed intent to terminate the Plan, it reserves that right as provided in the plan document. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 4: PLAN TERMINATION (concluded)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC (a United States government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit projections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2017, that ceiling is \$5,369 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 5: INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held by the Master Trust as of December 31, 2017 and 2016, and investment income for 2017 and 2016 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee and Custodian.

	<u>2017</u>	<u>2016</u>
Plan interest in the Master Trust	\$ 18,854,055	\$ 17,470,721
Total investment income	\$ 2,449,141	\$ 908,455

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Ply Gem Industries, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee and Custodian. As of December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 55%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans in proportion to the value of each plan's participation as of the last day of each quarter.

The following table presents the net assets of the Master Trust as of December 31:

	<u>2017</u>	<u>2016</u>
Mutual funds	\$ 30,404,594	\$ 27,454,926

Net assets:		
Beginning of year	32,238,386	31,972,219
End of year	<u>\$ 34,727,303</u>	<u>\$ 32,238,386</u>

Refer to Note 6 for a description of the valuation methodologies used.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 6: FAIR VALUE MEASUREMENTS (continued)

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The Plan Sponsor has determined the following funds are more representative of a level 2 fund: Prudential Total Return Bond A Fund, PIMCO Commodity Real Return Strategy A, and Vanguard Inflation Protection Bond Fund.

Pooled separate accounts - Valued at NAV based on the market value of the underlying investments, such as equities, preferred stock, bonds, real estate, and mutual funds. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are quoted prices, unit values of a pooled separate account are determined by dividing the value of each fund's net assets by the total number of units outstanding on the valuation date. The valuation of fund units is published daily and is the basis for current transactions. The Plan Sponsor has determined the following funds are more representative as a level 1 fund: Frontier Capital Fund Mid Cap Growth and Prudential Short-Term Fund.

Total investments at fair value	\$ 14,227,798	\$ 17,249,898	\$ -	\$ 31,477,696

NOTE 7: RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in certain funds managed by the Custodian and Trustee. Therefore, transactions related to these funds qualify as party in interest transactions that are allowable under ERISA. Fees incurred by the Plan for investment management services are included in Plan interest in the Master Trust's investment income, as they are paid through revenue sharing, rather than direct payment. During 2017 and 2016, the Plan made direct payments to the Trustee and Custodian totaling \$386,242 and \$325,705 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 8: INCOME TAX STATUS

The Plan obtained its latest determination letter dated November 18, 2009, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities.

NOTE 9: SUBSEQUENT EVENTS

During April 2018, Ply Gem Industries, Inc., the administrator of the Master Trust, was acquired by Clayton, Dubilier & Rice (“CD&R”).

The plan administrator has evaluated subsequent events through October 10, 2018, the date these financial statements were available for issuance.

MW Manufacturers, Inc. Retirement Plan
Cary, North Carolina

We were engaged to audit the accompanying financial statements of the MW Manufacturers, Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B, the custodian and trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, as listed in the accompanying table of contents, as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

The supplemental Schedule H, Line 4i - Schedule of Assets Held as of End of Year that accompanies the Plan's financial statements does not disclose historical cost information relating to investments held as of the end of the year. Disclosure of this information is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 1: DESCRIPTION OF PLAN

The following description of the MW Manufacturers, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan which covers all hourly and salaried employees of MW Manufacturers, Inc. (the “Company”) who have reached the age of 21, and have completed one year of service with 1,000 hours. The Plan also covers individuals who formerly participated in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. or the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees. The primary purpose of the Plan is to provide retirement benefits, based on compensation and length of credited service, to employees who attain normal retirement age. In addition, the Plan provides early, late, and disability retirement benefits to eligible participants and beneficiaries of deceased participants.

The Plan participates in the Ply Gem Industries, Inc. Master Trust (the “Master Trust”). The Master Trust was formed to facilitate more cost-effective management of the investments of pension plans administered by Ply Gem Industries, Inc. Prudential Retirement Insurance and Annuity Company (the “Custodian”) and Prudential Bank & Trust, F.S.B. (the “Trustee”) serve as the Plan’s custodian and trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 31, 2004, the Plan benefits for salaried participants were frozen. No future benefits accrue after this date. Participants who are not fully vested at this date will continue to earn credit for vesting purposes as long as they are employed by the Company. Effective November 1, 2005, no new hourly members are allowed into the Plan. Effective November 15, 2013, no future benefits will accrue for hourly participants after December 31, 2013.

The Plan is administered by the Company’s Benefits Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

Vesting

Participants are fully vested after five years of service.

NOTE 1: DESCRIPTION OF PLAN (concluded)

Pension Benefits

Monthly pension benefits for participants retiring at age 65 are based on the participant's average compensation and/or years of service. The Plan provides for early retirement at age 60 for participants with ten or more years of service.

Upon retirement, participants can elect to receive benefits in the form of monthly payments or in certain instances, a lump-sum cash payment. The Plan allows for early distribution of benefits in the event a participant's accrued benefit is less than \$1,000.

Death and Disability Benefits

If an active participant dies after completing a minimum of ten years of vesting service, the participant's surviving spouse is entitled to a spouse's annuity benefit beginning the later of the first day of the month following the participant's death or the first day of the month following the earliest date the participant would have been able to receive the benefit had the participant lived.

Participants employed by the Company and former participants in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. who become permanently disabled are entitled to receive disability retirement benefits with the accrued benefit earned at the disability date, payable immediately. Former participants of the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees who become permanently disabled are entitled to receive the accrued benefit earned at the disability date, payable immediately after both attaining age 55 and completing 15 or more years of vesting service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit payments to participants are recorded when paid.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of January 1, 2017, and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Within the Master Trust, purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. The Plan's interest in the Master Trust's income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided in the plan document. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements. Trustee and Custodian fees paid by the Plan are included in administrative expenses in these financial statements. Certain investment related expenses are included in plan interest in the Master Trust's investment income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by Prudential Financial, Inc., an independent consulting actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used as of January 1, 2017, are summarized as follows:

Discount rate on obligations - 7% as of January 1, 2017

Rate of return - 7% as of January 1, 2017

Mortality table - The Internal Revenue Service (the "IRS") 2017 Static Mortality Table with RP-2014 with MP-2016 scale

Retirement age - For ages 55 - 64, probability of annual retirement rates range from 1.6% - 10.0%; age 65 is 100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

As of January 1, 2017, the accumulated Plan benefits were as follows:

Actuarial present value of accumulated Plan benefits:

Vested benefits:

Participants and/or beneficiaries currently receiving benefits	\$ 8,972,798
Active participants	2,513,106
Participants with deferred benefits	7,159,340
Nonvested benefits	<u>17,127</u>

Total actuarial present value of accumulated Plan benefits	<u><u>\$ 18,662,371</u></u>
--	-----------------------------

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Changes in accumulated Plan benefits for the year ending January 1, 2017, are summarized as follows:

Actuarial present value of accumulated Plan benefits as of beginning of year	<u>\$ 18,825,325</u>
Changes during the year attributable to:	
Actual benefits paid	(1,188,126)
Interest	1,276,892
Benefits accumulated and actuarial gain	(4,707)
Assumption changes	<u>(247,013)</u>
Net decrease	<u>(162,954)</u>
Actuarial present value of accumulated Plan benefits as of end of year	<u>\$ 18,662,371</u>

The decrease resulting from assumption changes of \$247,013 is due to a change in the mortality tables and the expense assumption was increased to account for Pension Benefit Guaranty Corporation ("PBGC") premium increases.

The other changes in accumulated Plan benefits represent normal operation of the Plan. Changes consist primarily of those items of Plan experience that are not associated with asset performance.

NOTE 3: FUNDING POLICY

The Company's policy is to fund at least the actuarially computed minimum funding requirements of ERISA each year. The Plan met the ERISA minimum funding requirements for 2017 and 2016.

NOTE 4: PLAN TERMINATION

Although the Company has not expressed intent to terminate the Plan, it reserves that right as provided in the plan document. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 4: PLAN TERMINATION (concluded)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC (a United States government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit projections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2017, that ceiling is \$5,369 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 5: INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held by the Master Trust as of December 31, 2017 and 2016, and investment income for 2017 and 2016 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee and Custodian.

	<u>2017</u>	<u>2016</u>
Plan interest in the Master Trust	\$ 18,854,055	\$ 17,470,721
Total investment income	\$ 2,449,141	\$ 908,455

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Ply Gem Industries, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee and Custodian. As of December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 55%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans in proportion to the value of each plan's participation as of the last day of each quarter.

The following table presents the net assets of the Master Trust as of December 31:

	<u>2017</u>	<u>2016</u>
Mutual funds	\$ 30,404,594	\$ 27,454,926

End of year	<hr/> <u>\$ 34,727,303</u>	<hr/> <u>\$ 32,238,386</u>

Refer to Note 6 for a description of the valuation methodologies used.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 6: FAIR VALUE MEASUREMENTS (continued)

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The Plan Sponsor has determined the following funds are more representative of a level 2 fund: Prudential Total Return Bond A Fund, PIMCO Commodity Real Return Strategy A, and Vanguard Inflation Protection Bond Fund.

Pooled separate accounts - Valued at NAV based on the market value of the underlying investments, such as equities, preferred stock, bonds, real estate, and mutual funds. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are quoted prices, unit values of a pooled separate account are determined by dividing the value of each fund's net assets by the total number of units outstanding on the valuation date. The valuation of fund units is published daily and is the basis for current transactions. The Plan Sponsor has determined the following funds are more representative as a level 1 fund: Frontier Capital Fund Mid Cap Growth and Prudential Short-Term Fund.

MW MANUFACTURERS, INC. RETIREMENT PLAN

NOTE 6: FAIR VALUE MEASUREMENTS (concluded)

The following tables sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31:

2017				
Investments at Fair Value				
	Level 1	Level 2	Level 3	Total

Total investments at fair value	\$ 14,227,798	\$ 17,249,898	\$ -	\$ 31,477,696

NOTE 7: RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in certain funds managed by the Custodian and Trustee. Therefore, transactions related to these funds qualify as party in interest transactions that are allowable under ERISA. Fees incurred by the Plan for investment management services are included in Plan interest in the Master Trust's investment income, as they are paid through revenue sharing, rather than direct payment. During 2017 and 2016, the Plan made direct payments to the Trustee and Custodian totaling \$386,242 and \$325,705 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 8: INCOME TAX STATUS

The Plan obtained its latest determination letter dated November 18, 2009, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities.

NOTE 9: SUBSEQUENT EVENTS

During April 2018, Ply Gem Industries, Inc., the administrator of the Master Trust, was acquired by Clayton, Dubilier & Rice (“CD&R”).

The plan administrator has evaluated subsequent events through October 10, 2018, the date these financial statements were available for issuance.

MW Manufacturers, Inc. Retirement Plan
Cary, North Carolina

We were engaged to audit the accompanying financial statements of the MW Manufacturers, Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B, the custodian and trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodian and trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian and trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, as listed in the accompanying table of contents, as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

The supplemental Schedule H, Line 4i - Schedule of Assets Held as of End of Year that accompanies the Plan's financial statements does not disclose historical cost information relating to investments held as of the end of the year. Disclosure of this information is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 1: DESCRIPTION OF PLAN

The following description of the MW Manufacturers, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan which covers all hourly and salaried employees of MW Manufacturers, Inc. (the “Company”) who have reached the age of 21, and have completed one year of service with 1,000 hours. The Plan also covers individuals who formerly participated in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. or the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees. The primary purpose of the Plan is to provide retirement benefits, based on compensation and length of credited service, to employees who attain normal retirement age. In addition, the Plan provides early, late, and disability retirement benefits to eligible participants and beneficiaries of deceased participants.

The Plan participates in the Ply Gem Industries, Inc. Master Trust (the “Master Trust”). The Master Trust was formed to facilitate more cost-effective management of the investments of pension plans administered by Ply Gem Industries, Inc. Prudential Retirement Insurance and Annuity Company (the “Custodian”) and Prudential Bank & Trust, F.S.B. (the “Trustee”) serve as the Plan’s custodian and trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 31, 2004, the Plan benefits for salaried participants were frozen. No future benefits accrue after this date. Participants who are not fully vested at this date will continue to earn credit for vesting purposes as long as they are employed by the Company. Effective November 1, 2005, no new hourly members are allowed into the Plan. Effective November 15, 2013, no future benefits will accrue for hourly participants after December 31, 2013.

The Plan is administered by the Company’s Benefits Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

Vesting

Participants are fully vested after five years of service.

NOTE 1: DESCRIPTION OF PLAN (concluded)

Pension Benefits

Monthly pension benefits for participants retiring at age 65 are based on the participant's average compensation and/or years of service. The Plan provides for early retirement at age 60 for participants with ten or more years of service.

Upon retirement, participants can elect to receive benefits in the form of monthly payments or in certain instances, a lump-sum cash payment. The Plan allows for early distribution of benefits in the event a participant's accrued benefit is less than \$1,000.

Death and Disability Benefits

If an active participant dies after completing a minimum of ten years of vesting service, the participant's surviving spouse is entitled to a spouse's annuity benefit beginning the later of the first day of the month following the participant's death or the first day of the month following the earliest date the participant would have been able to receive the benefit had the participant lived.

Participants employed by the Company and former participants in the Pension Plan for Eligible Employees of Brown Moulding Co., Inc. who become permanently disabled are entitled to receive disability retirement benefits with the accrued benefit earned at the disability date, payable immediately. Former participants of the Valley Recreation Products, Inc. Retirement Income Plan for Salaried and Sales Employees who become permanently disabled are entitled to receive the accrued benefit earned at the disability date, payable immediately after both attaining age 55 and completing 15 or more years of vesting service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit payments to participants are recorded when paid.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of January 1, 2017, and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Within the Master Trust, purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. The Plan's interest in the Master Trust's income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided in the plan document. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements. Trustee and Custodian fees paid by the Plan are included in administrative expenses in these financial statements. Certain investment related expenses are included in plan interest in the Master Trust's investment income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by Prudential Financial, Inc., an independent consulting actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used as of January 1, 2017, are summarized as follows:

Discount rate on obligations - 7% as of January 1, 2017

Rate of return - 7% as of January 1, 2017

Mortality table - The Internal Revenue Service (the "IRS") 2017 Static Mortality Table with RP-2014 with MP-2016 scale

Retirement age - For ages 55 - 64, probability of annual retirement rates range from 1.6% - 10.0%; age 65 is 100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

As of January 1, 2017, the accumulated Plan benefits were as follows:

Actuarial present value of accumulated Plan benefits:

Vested benefits:

Participants and/or beneficiaries currently receiving benefits	\$ 8,972,798
Active participants	2,513,106
Participants with deferred benefits	7,159,340
Nonvested benefits	<u>17,127</u>

Total actuarial present value of accumulated Plan benefits	<u><u>\$ 18,662,371</u></u>
--	-----------------------------

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Changes in accumulated Plan benefits for the year ending January 1, 2017, are summarized as follows:

Actuarial present value of accumulated Plan benefits as of beginning of year	<u>\$ 18,825,325</u>
Changes during the year attributable to:	
Actual benefits paid	(1,188,126)
Interest	1,276,892
Benefits accumulated and actuarial gain	(4,707)
Assumption changes	<u>(247,013)</u>
Net decrease	<u>(162,954)</u>
Actuarial present value of accumulated Plan benefits as of end of year	<u>\$ 18,662,371</u>

The decrease resulting from assumption changes of \$247,013 is due to a change in the mortality tables and the expense assumption was increased to account for Pension Benefit Guaranty Corporation ("PBGC") premium increases.

The other changes in accumulated Plan benefits represent normal operation of the Plan. Changes consist primarily of those items of Plan experience that are not associated with asset performance.

NOTE 3: FUNDING POLICY

The Company's policy is to fund at least the actuarially computed minimum funding requirements of ERISA each year. The Plan met the ERISA minimum funding requirements for 2017 and 2016.

NOTE 4: PLAN TERMINATION

Although the Company has not expressed intent to terminate the Plan, it reserves that right as provided in the plan document. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 4: PLAN TERMINATION (concluded)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC (a United States government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit projections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2017, that ceiling is \$5,369 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 5: INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held by the Master Trust as of December 31, 2017 and 2016, and investment income for 2017 and 2016 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee and Custodian.

	<u>2017</u>	<u>2016</u>
Plan interest in the Master Trust	<u>\$ 18,854,055</u>	<u>\$ 17,470,721</u>
Total investment income	<u>\$ 2,449,141</u>	<u>\$ 908,455</u>

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Ply Gem Industries, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee and Custodian. As of December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 55%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans in proportion to the value of each plan's participation as of the last day of each quarter.

The following table presents the net assets of the Master Trust as of December 31:

	<u>2017</u>	<u>2016</u>

End of year	<hr/> <hr/> \$ 34,727,303	<hr/> <hr/> \$ 32,238,386

Refer to Note 6 for a description of the valuation methodologies used.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 6: FAIR VALUE MEASUREMENTS (continued)

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The Plan Sponsor has determined the following funds are more representative of a level 2 fund: Prudential Total Return Bond A Fund, PIMCO Commodity Real Return Strategy A, and Vanguard Inflation Protection Bond Fund.

Pooled separate accounts - Valued at NAV based on the market value of the underlying investments, such as equities, preferred stock, bonds, real estate, and mutual funds. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are quoted prices, unit values of a pooled separate account are determined by dividing the value of each fund's net assets by the total number of units outstanding on the valuation date. The valuation of fund units is published daily and is the basis for current transactions. The Plan Sponsor has determined the following funds are more representative as a level 1 fund: Frontier Capital Fund Mid Cap Growth and Prudential Short-Term Fund.

Total investments at fair value	\$ 14,227,798	\$ 17,249,898	\$ -	\$ 31,477,696

NOTE 7: RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in certain funds managed by the Custodian and Trustee. Therefore, transactions related to these funds qualify as party in interest transactions that are allowable under ERISA. Fees incurred by the Plan for investment management services are included in Plan interest in the Master Trust's investment income, as they are paid through revenue sharing, rather than direct payment. During 2017 and 2016, the Plan made direct payments to the Trustee and Custodian totaling \$386,242 and \$325,705 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

MW MANUFACTURERS, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

NOTE 8: INCOME TAX STATUS

The Plan obtained its latest determination letter dated November 18, 2009, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities.

NOTE 9: SUBSEQUENT EVENTS

During April 2018, Ply Gem Industries, Inc., the administrator of the Master Trust, was acquired by Clayton, Dubilier & Rice (“CD&R”).

The plan administrator has evaluated subsequent events through October 10, 2018, the date these financial statements were available for issuance.
