A. General

The Plan is a defined contribution plan covering all full-time employees of the Company. The Plan covers those who have three months of service and are age twenty one or older. Employees may enter the Plan on a quarterly basis on the first day of the quarter following the date the employee meets the eligibility requirements. Employees are automatically entered into the Plan the quarter after they have meet eligibility with a deferral rate of three percent of compensation, unless they have elected otherwise. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan, up to the maximum allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company makes an annual matching contribution in the amount of 15% of each participant's salary deferral up to the first 6% of the participant's compensation. Participants are eligible to receive matching contributions after completing 500 hours of service for the Company. To be eligible to receive an allocation of the matching contribution, the participant must be employed on the last day of the Plan year. The matching contribution amounted to $76,989 after the application of forfeitures for the year ended December 31, 2017.

The Company's profit sharing contributions are discretionary. Participants are eligible to receive profit sharing contributions after completing 500 hours of service for the Company. The Company's profit sharing contribution is granted to selected participants at the Company's discretion. The profit sharing contribution amounted to $126,301 for the year ended December 31, 2017.

1. DESCRIPTION OF THE PLAN (CONTINUED)

C. Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change their investment options daily, using the Internet or a touch-tone telephone.

D. Notes receivable from participants

Participants may borrow from their fund accounts up to $50,000 or 50% of their account balance, whichever is less. The notes are secured by the balance in the participants' accounts and bear interest ranging from 5.25% to 6.25% per annum, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through semi-monthly payroll deductions. At December 31, 2017, the outstanding participant notes amounted to $271,260.

E. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. An employee is eligible to receive an allocation of any Company profit sharing contribution after completing 500 hours of service. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings thereon is based on the years of continuous service, which are measured over a 12-consecutive month period of the Plan year.

A participant's interest attributable to the annual Company contribution plus earnings thereon vests as follows:

Less than Two Vesting Years	0 %
2 Years	20 %
3 Years	40 %
4 Years	60 %
5 Years	80 %
6 Years	100 %

F. Payment of benefits

Distribution of the value of the vested interest in a participant's account may be requested upon death, termination of service, disability, or after attaining age 59½ while still employed by the Company.

1. DESCRIPTION OF THE PLAN (CONTINUED)

G. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

H. Forfeited accounts

During the year ended December 31, 2017, additional forfeitures of $839 were accumulated bringing the total unused forfeiture balance to $1,077 at December 31, 2017. Of this amount, $1,009 was applied to the 2017 employer match, which was paid in 2018. Forfeiture accounts will first be used, at the employer's discretion, for the payment of the Plan's administrative expenses or applied to the restoration of any participant's forfeited account balance upon reemployment. Any remaining forfeitures will be allocated to supplement the employer contribution.

I. Plan expenses

Participant accounts are charged a fee upon disbursements due to benefit payments and participant notes. All reasonable expenses of administration may be paid from the Plan assets. Alternatively, the Company may, at its discretion, pay any or all such expenses.

2. SUMMARY OF ACCOUNTING POLICIES

A. Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

C. Investment valuation and income recognition

Participants in the Plan may direct employee and employer contributions into, and transfer funds among, any of the investment options offered by the Plan. The Plan currently offers mutual funds and a collective investment trust (CIT) as investment options for participants.

The shares of mutual funds are valued at quoted active market prices which represent the net asset value of shares held by the Plan at year end. Investment contracts held by a defined contribution plan are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fully benefit-responsive investment contracts at contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

The Plan presents the net investment gain (loss) in the value of its investments in the statement of changes in net assets available for benefits, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are reflected as of the trade dates.

D. Benefit payments

Benefits are recorded when paid.

E. Concentration of credit risk

The Plan has exposure to credit risk to the extent that its investments are subject to market fluctuations that may materially affect the value of the investment balances.

3. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's administrator believes it is no longer subject to income tax examination for years prior to December 31, 2014.

4. UNAUDITED INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2017 and 2016 and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2017, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Financial Group (the custodian of the Plan). The contract value of the guaranteed investment contract was certified by the custodian.

5. RELATED PARTY TRANSACTIONS

The Plan trustees are also participants in the Plan, and as such they may make contributions to the Plan and have the ability to borrow from their fund accounts. As of December 31, 2017, one of the trustees has a balance of $3,401 borrowed from the trustee's fund account.

6. PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are managed by Principal Financial Group. Principal Financial Group is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions.

7. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally for or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,146,335	$ -	$ -	$ 14,146,335

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,646,480	$ -	$ -	$ 11,646,480

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan offers the Principal Stable Value Signature Fund, a fully benefit-responsive investment contract issued by Principal Global Investors Trust Company, as an investment option to Plan participants. As of December 31, 2017 and 2016, the Plan's participants had $1,016,715 and $913,573 invested in this insurance company contract, respectively.

Contributions to Principal Financial Group under this contract are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal Financial Group.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

There are no reserves against contract value for credit risk. The average yield was approximately 2.34% and 1.99% for 2017 and 2016, respectively. The crediting interest rate was approximately 1.99% and 1.77% for 2017 and 2016, respectively. The crediting interest rate is determined annually by an actuarial formula. Earnings from this fund were $8,487 for 2017.

9. NON-EXEMPT TRANSACTIONS

During the year ending December 31, 2017, the Company failed to remit a participant's salary deferral of $3,816 to the Plan trustee in a timely manner, as defined by ERISA. This contribution is considered a non-exempt party-in-interest transaction. The Company has paid all fines imposed resulting from this late remittance during 2018. See attached supplemental schedule of delinquent participant contributions. The Company used guidelines issued by the Internal Revenue Service to compensate the participant for the lost income resulting from the delay in remitting the contribution. The lost income was deposited with the Plan trustee in 2018. The Company believes that this non-exempt transaction does not affect the tax status determination of the Plan.

10. NON-DISCRIMINATION TESTING

The plan passed the ACP/ADP test for the year ended December 31, 2017.

11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 12, 2018, which is the date the financial statements were available to be issued. No events have been identified that would require adjustment to or disclosure in the accompanying financial statements.
